I	Introduction to Cybercrime and Security Introduction, Cyber Security, Cybercrime, Classifications of Cyber Crimes: E-Mail Spoofing, Spamming, Cyber defamation, Internet Time Theft, Newsgroup Spam/Crimes from Usenet Newsgroup, Industrial Spying/Industrial Espionage, Hacking, Online Frauds, Pornographic Offenses, Software Piracy, Password Sniffing, Credit Card Frauds. Cyber offenses: How Criminals Plan that attack, Categories of Cybercrime, How Criminals Plan the Attacks: Passive Attack, Active Attacks, Scanning/Scrutinizing gathered Information, Attack (Gaining and Maintaining the System Access), Social Engineering, Cyberstalking.	08
II	Common attack and tools for Cyber Security Common attacks: Introduction, Phishing: Methods of Phishing, Phishing Techniques, Spear Phishing, Types of Phishing Scams, Phishing Toolkits and Spy Phishing, Phishing Countermeasures, Identity Theft (ID Theft): Personally, Identifiable Information (PII), Types of Identity Theft, Techniques of ID Theft, Identity Theft-Countermeasures, How to Protect your Online Identity, Proxy Servers and Anonymizers, Tools: Phishing implementation, Password Cracking, Keyloggers and Spywares, Steganography, DoS and DDoS Attacks, SQL Injection.	12
III	Cybercrimes and Cybersecurity: The Legal Perspectives Introduction, Why Do We Need Cyber Laws: The Indian Context, The Indian IT Act, Challenges to Indian Law and Cyber Crime Scenario in India, Consequences of Not Addressing the Weakness in Information Technology Act, Amendments to the Indian IT Act, Cybercrime and Punishment, Cyberlaw, Technology and Students: Indian Scenario.	08

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	0% (C.E.C.)
B	Internal Assessment	50% (I.A.)
C	End-Semester Examination	50% (External assessment)

SUGGESTED READINGS:

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T-01	NINA GODBOLE, SUNIT BELAPURE, KAMLESH BAJAJ	Cyber Security	WILEY	1 st Edition, 2012

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
R-01	James Graham, Richar Howard,Ryan Olson	Cyber Security Essentials	CRC Press, Taylor and Francis Group	1 st Edition, 2010
R-02	Alfred Basta, Nadine Basta, Mary Brown, Ravinder Kumar	Cyber Security and Cyber Laws Paperback	CENGAGE INDIA	1 st Edition, 2018

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Financial Management
COURSE CODE	04MB0201
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 Sessions of 60 minutes each)

COURSE OUTCOMES:

- ❖ Ability to understand fundamental concepts of finance, time value of money and Valuations of Bonds and Stock.
- ❖ Able to apply concept of cost of capital and capital budgeting in business decision making
- ❖ Analyze Financial decision and application of Leverage
- ❖ Analyze the significance of dividend decision on value of firm
- ❖ Application of various concept of working capital management and determination of working capital

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Overview of Financial Management Nature, Scope, Goals, Organization of Financial Functions. Conflict between shareholders interest and Managers and lenders, Agency costs and theory. Time value of Money - Concepts, Compounding, Discounting, Annuities. Valuation of Bonds, Preference shares and Equity	8
II	Cost of Capital & Capital Budgeting Decision Significance, Concept of the Cost of Capital, Component Costs of Capital - Cost of Debt, Preference Capital and Equity Capital, Weighted Average Cost of Capital (WACC). Capital Budgeting Decisions - Meaning, Discounting Capital Budgeting Techniques, NPV, IRR, PI, Discounted Payback, non-discounting Capital Budgeting Techniques, Payback & ARR	10
III	Financing Decision & Leverage Concept, Factors determining Capital Structure Decision, Sources of Long-Term Finance, Capital Structure Theories, NI Approach, NOI Approach, Traditional View, MM Theory with and without taxes. Leverage - Types of Leverage - Operating, Financial and Combined Leverage., Point of indifference	10
IV	Dividend Decision Dividend and dividend policy, Factors determining dividend decision, Dividend Theories, Relevance Theory, Gordon Model, Walter Model, Irrelevance Theory, MM Model	6
V	Working Capital Management Concepts of Working Capital, Sources of Short-term Finance, Operating Cycle, Determinants of Working Capital, Estimating Working Capital Needs Cash & Liquidity Management	8

	Cash Management Introduction, Motives of holding cash, Objectives of cash management, Cash budget, Cash Management Model, Baumol Model, Miller & Orr Model	
--	--	--

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (CEC)
B	Internal Assessment	30% (IA)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T-01	I M Pandey	Financial Management	Vikash Publishing House	9 th Edition, 2005
T-02	Prasanna Chandara	Financial Management: Theory and Practices	Tata Mc Graw Hill	8 th Edition, 2011
T-03	M. Y. Khan and P. K. Jain	Financial Management	Tata Mc Graw Hill	5 th Edition, 2007

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
R-01	Rajiv Srivastava & Anil Misra	Financial Management	Oxford	2 nd Edition, 2011
R-02	P C Tulsian & Bharat Tulsian	Tulsian's Financial Management – A Self-Study	S. Chand	5 th Edition, 2017
R-03	R. P. Rastogi	Financial Management	Texmann	6 th Edition, 2018

Program	Master of Business Administration
SEMESTER	2
COURSE TITLE	Human Resources Management
COURSE CODE	04MB0202
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 Sessions of 60 minutes each)

COURSE OUTCOMES:

- ❖ To elaborate the role and importance of HRM
- ❖ To evaluate the job analysis process and its role in HR planning and further assess various recruitment and selection methods.
- ❖ To analyze the training and performance appraisal programs in the organizations.
- ❖ To understand the concept and methods of compensation management.
- ❖ To develop an understanding of the new industrial relations code.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Human Resource Management Introduction to HRM – Meaning, Evolution, Uniqueness of HR – Objectives - Functions - HR Manager’s Duties - New Approaches to Organizing HR, Case Study	9
II	Recruitment and Selection The basics of Job Analysis – Data Collection Techniques in Job Analysis – Job Description – Job Specification, HR Planning: Concept and Process, Recruitment & Selection Concepts and Methods, Induction and Placement, An introduction to HRIS, Case study	8
III	Training & Performance Management Significance of Training – Assessing Training Needs – Designing Formal Training Programs – Implementing Training Programs – Evaluation of Training Programs, Methods of training and their benefits Introduction to Performance Appraisal – Techniques –Organizational Demands and Performance Management- Linkage of Performance appraisal with Motivation at Work, Case study	9
IV	Compensation Objectives of Compensation Administration - Wage and Salary determination Job Evaluation and Methods- Innovations in Compensation Management – Incentive Plans, Bonus – Benefits & Services, Gratuity, PF, Pension. Case Study	8
V	Industrial Relations & Labor Legislation Introduction to Industrial Codes: An overview of the Codes on Social Security, Industrial Relations, Occupational Safety, Health and Working Conditions. Case Study	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20%(C.E.C.)
B	Internal Assessment	30%(I.A.)
C	End-Semester Examination	50% (External Assessment)

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T-01	Gary Dessler and Biju Varkkery	Human Resource Management	Pearson	Latest

R-04	K. Aswathappa	Human Resource Management: Text and Cases	Tata Mc Graw Hill, 2013	Latest

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Marketing Management
COURSE CODE	04MB0203
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- ❖ Understand fundamental marketing concepts, theories, and principles in areas of marketing.
- ❖ Analyze the market based on segmentation, targeting and positioning.
- ❖ Knowledge of consumer behavior and their decision-making process
- ❖ Apply the knowledge, concepts, tools necessary to overcome challenges, and issues of marketing in a changing technological landscape.
- ❖ Integrate product and service decisions with those on pricing, distribution and promotion.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
1	Introduction: Marketing- Definition, Scope, concepts; Company Orientation towards market place; Four P's and updated Four P's, Task of marketing Management; Marketing Environment, Marketing Value delivery process; Segmentation, Targeting and Positioning, case study	8
2	Buying behavior: Consumer Behavior -factors and process, Organizational Buying Behaviors; Participants in business buying; stages in buying process; Global market decision - entry strategies; marketing program for global markets. Case discussion on Consumer Behavior	8
3	Product and Branding: Classification of products, Differentiation, Product Life Cycle, and New Product Development process, Product line and mix, Product & brand relationship, Packaging; Service marketing introduction- categories of service mix; characteristics of services, managing service quality (SERVQUAL); Branding- scope and role of brand. Case discussion on Product strategies and branding, case study	9
4	Pricing and distribution: Pricing – process and strategies. Marketing channel- role of marketing channels; channel management decision; E commerce and M commerce concept; Online marketing. case study	9
5	Promotion: Integrated marketing communication-communication mix; process of communication; Retailing and wholesaling. Sales force management. Case discussion on promotion.	8

EVALUATION:

Faculty of Management Studies: Master of Business Administration

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignment/ Quiz/ Class participation/ presentation/ etc.,	20% (C.E.C)
B	Internal assessment	30% (I.A)
C	End- Semester Examination	50% (External assessment)

SUGGESTED READINGS:

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T-01	Philip Kotler, Kevin, Keller	Marketing Management	Pearson	15 th edition 2016
T-02	Philip Kotler	Marketing Management: A South Asian Perspective	Pearson Education India	15 th edition 2016
T-03	VS Ramasamy & S. Namakumari	Marketing Management: Planning, Implementation and Control: Global Perspective Indian Context	Macmilan India	4 th edition 2009

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
1.	Ramaswamy and Namakumari /	Marketing Management	Tata McGraw Hill	5 th edition 2017
2.	Rajan Saxena /	Marketing Management	Tata McGraw Hill	4 th edition 2009
3.	Arun Kumar and N Meenakshi /	Marketing Management	Vikas Publishing	3 rd edition 2016
4.	William D. Perreault, Edmund Jerome McCarthy	Basic Marketing-A Global Managerial Approach	Tata McGraw Hill	12 th edition 2000
5.	Situn Krushna Sahu, Sunil Kumar Pradhan	Marketing Management: An Indian Perspective	Educreation publishing	3 rd edition 2013

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Production and Operations Management
COURSE CODE	04MB0204
COURSE CREDITS	3
COURSE DURATION	42 hours (42 Sessions of 60 Minutes each)

COURSE OUTCOMES:

- ❖ Identify a broad survey of the concepts and tools used in operations Management
- ❖ Understand the role of the operations management (OM) function in the performance of an organization
- ❖ Apply the latest concepts and techniques of materials, stores, and purchase management.
- ❖ Classify and analyze various inventory control methods and their applications in the industry.
- ❖ Construct appropriate strategies for sustainable development of organization by applying green practices and Waste management techniques.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction: Nature and Scope of Production and Operations Management. Importance of the OM. Differentiating between Goods and Services. Operations Strategy. Classifying the Process (Process Design). Facility Location and Facility Layout	08
II	Materials Management: Types of Inventory Systems, Costs of Inventory, Economic Order Quantity (EOQ) Models – Periodic Inventory Systems, Quantity Discount Model, Inventory Classification Systems. ABC, VED, FNS Analysis. Introduction to aggregate planning, capacity planning, MRP, ERP, BPR. Supply chain Management: Concept, significance in OM, Bullwhip effect (concept in brief)	10
III	Production Planning and Control: functions of PPC, Operations scheduling, project management: PERT Model, Determination of Critical Path, Distribution of Project Completion time, CPM Model, Time/Cost Relation, Crashing of a Project.	10
IV	Quality Control: Total Quality Management, Quality circle and quality control methods: Basics of Quality Control, Statistical Quality Control, ISO-9000. Introduction to JIT, Lean Manufacturing, Six Sigma, Kaizen	06
V	Impact of Global Competition, Technological Change, Ethical and Environmental Issues on Operations. Greening the Environment, Waste Management, SOFTWARE related to OM (Excel QM/QM for Windows)	06

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED BOOKS
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T-01	Chase Richard B, et al	Production and Operations Management: Manufacturing and Services	Tata McGraw-Hill Pub. Co., New Delhi	12 th Edition
T-02	Buffa Elwood S & Sarin Rakesh K	Modern Production / Operations Management	John Wiley & Sons, Singapore	8 th Edition
T-03	Kanishka Bedi	Production and operations Management	Oxford Press	3 rd Edition

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
R-01	Russel & Taylor	Operations Management	John Wiley & Sons	6 th edition
R-02	Chary S N	Production & Operations Management	Tata MacGraw-Hill, New Delhi	4 th edition
R-03	Kachru Upendra	Production and Operations Management	Excel Books	1 st edition
R-04	K. Aswathappa and K. Shridhara Bhat	Production and Operations Management	Himalaya Publications	2nd edition
R-05	S. A. Chunawala, Dr. Patel	Production and Operation Management	Himalaya Publications	7 th edition

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Business Research Methods
COURSE CODE	04MB0205
COURSE CREDITS	3
COURSE DURATION	42 hours (42 Sessions of 60 Minutes each)

COURSE OUTCOMES:

- ❖ Appraise various sources of ethical dimensions of conducting research.
- ❖ Designing the basic framework of research process, research designs its techniques.
- ❖ Integrate and Apply knowledge on measurement & scaling techniques as well as sampling designs.
- ❖ Formulate different hypothesis and practice its testing methods in business decision making process.
- ❖ Appraise various sources of information for literature review.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Business Research Introduction , Difference Between Basic and Applied Research, Defining Business Research, Roadmap to Learn Business Research Methods, Business Research Methods: Structuring Research Proposal (Problem Statement, Research Objectives, Literature Review), A Decision Making Tool in the Hands of Management, Problem or Opportunity Identification, Diagnosing the Problem or Opportunity, Executing Business Research to Explore the Solution, Implement Presented Solution, Evaluate the Effectiveness of Decision Making.	08
II	Business Research Process Design Defining the Management Problem, Introducing the Dimensions to the Problem, Types of Research: Exploratory Research (Focus Group Interviews, Projective Techniques), Descriptive Research (Cross-Sectional Study, Longitudinal Study) , Causal Research. Measurement and Scaling Scales of Measurement, Criteria for Good Measurement (Validity, Reliability, Sensitivity), Measurement Scales (Single-Item Scales, Multi-Item Scales, Continuous Rating Scales)	11
III	Questionnaire Design Questionnaire Design Process (Phase I: Pre-Construction Phase, Phase II: Construction Phase, Phase III: Post-Construction Phase) Sampling and Sampling Distributions Random Sampling Methods [Simple Random Sampling, Stratified Random Sampling, Cluster (or Area) Sampling, Systematic (or Quasi-Random) Sampling, Multi-Stage Sampling], Non-random Sampling [Quota Sampling, Convenience Sampling, Judgement Sampling, Snowball Sampling] , Sampling and Non-Sampling Errors.	11
IV	Fieldwork and Data Preparation Fieldwork Process, Data Preparation Process, Data Analysis	8

	Non-Parametric Statistics Runs Test, Mann–Whitney U Test, Wilcoxon Matched-Pairs Signed Rank Test, Kruskal –Wallis Test.	
V	Preparing Reports Technical and Academic Report Writing, Significance of Report writing, Review of Literature, Layout of Research Report, Precaution for writing Research Report, Citations & Bibliography and Conclusion.	4

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

R-01	Cooper And Schindler	Business Research Methods	Mcgraw-Hill Publication	12/E, 2014
R-02	C.R.Kothari And Gaurav Garg	Research Methodology: Methods and Techniques	New Age International	3/E, 2014
R-03	D.K. Bhattacharya	Research Methodology	Excel Books	2/E, 2006
R-04	Zikmund, W.G., Babin, B. J., Carr, J.C., Adhikari, A., & Griffin, M.	Business Research Methods: A South –Asian perspective.	Cengage Learning	4/E, 2016
R-05	Saunders, M., Lewis, P. & Thornhill, A.	Research Methods for Business Students.	Pearson Education Ltd.	5/E, 2011
R-06	Sekaran, U. & Bougie, R.	Research Methods for Business: A Skill-Building Approach.	John Wiley and Sons Inc.	4/E, 2016

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Quantitative Techniques for Decision Making
COURSE CODE	04MB0206
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOME

- ❖ Develop the skill and ability to express a given real-life situation into a linear programming format and solve them.
- ❖ Formulate and Apply relationship between linear programming and its dual problem and distinguish between linear and integer programming problems.
- ❖ Understand special cases of Linear Programming Problem and Apply transportation methods in appropriate situations to numerous business problems.
- ❖ Apply assignment methods in appropriate situations to resource allocation problems.
- ❖ Analyze the problems of decision making under probabilistic situations and Evaluate decision trees to solve business problems.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	<p>Linear Programming Problem (LPP) 1 – Formulation: Introduction to Linear Programming, Requirements, Assumptions and Limitations and Application of LPP, LPP Model Formulation – Maximization Problems and Minimization Problems (Max 4-Variables and 4-Constraints), General Structure of Linear Programming Problems</p> <p>Linear Programming Problem (LPP) 2 – Graphical Method: Concept of Feasible Region, Solution of LP Problems using Graphical Method, Maximization and Minimization Problems (Max 4-Constraints),</p> <p>Special Cases in LPP – Multiple or Alternate Optimum Solutions, Redundant Constraint, Unbounded Solution, and Infeasible Solution</p> <p>Note: Constraints of all types (Less than type, Greater than type and combination of both the types) should be covered</p>	10
II	<p>Dual LP Problem and Sensitivity Analysis of LP Solution: Introduction to concept of Dual LPP, Relation between Primal Problem and Dual LPP, Economic Interpretation of Dual LPP, Conversion of Primal Problem to Dual LPP, Solution of LPP and Dual LPP using QM for Windows software, Introduction to Post-Optimal Sensitivity Analysis, Sensitivity Analysis on objective coefficients (c_j) and resources coefficients (b_i) using QM for Windows software</p> <p>Integer Linear Programming Problem: Introduction, Types of Integer programming problems (Pure-Integer, Mixed-Integer and Binary-Integer problems) and their applications, Model Formulation, Graphical solution of ALL-integer LPP, Solution of Integer LPP using MS Excel and QM for Windows software</p>	10

	Note: DUAL LPP with Max 3-Variables and 4-constraints, Mixed-constraints and Unrestricted Variables	
III	<p>Transportation Problem (TP) Introduction, Structure of TP, Solution of TP – Initial Feasible Solution (IFS) using Lowest Cost Method, Vogel’s Approximation Method (VAM) and Maximum Demand (MD) Method, Finding Optimal Solution using MODI Method, Types of Transportation Problem – Balanced and Unbalanced Problems, Minimization and Maximization Objectives, Case of Degeneracy and Prohibited or Restricted Route, Unique Optimum Solution and Multiple Optimum Solutions</p> <p>Note: Max 5X5 Transportation Matrix, MODI Method - Maximum One Iterations after IFS, Degeneracy to be covered at Conceptual Level, not to be Included in Numerical Problem Solution. Use of QM for Windows software to solve problems.</p>	8
IV	<p>Assignment Problem (AP) Introduction, Structure of AP, Solution of AP using Hungarian Method, Types of Assignment Problems - Balanced and Unbalanced Problems, Minimization and Maximization Objectives, Restricted Assignment, Unique Optimum Solution and Multiple Optimum Solutions, Travelling Salesman Problem (TSP)</p> <p>Note: Max 5X5 Assignment Matrix, Maximum Three Iterations after Row and Column Minimization. Use of QM for Windows software to solve problems.</p>	6
V	<p>Decision Theory: Introduction, Structure of Decision-Making Problem – The Decision-maker, Acts and Events, Payoff and Payoff Matrix, Regret or Opportunity Loss Table, Decision-Making under Risk – Expected Monetary Value (EMV), Expected Value of Perfect Information (EVPI), Expected Opportunity Loss (EOL), Decision-Making under uncertainty – Maximax and Maximin Payoff Criterion, Minimax Regret Criterion, Criterion of Equal Likelihood, Hurwitz α-Criterion</p> <ul style="list-style-type: none"> • Decision Tree Analysis: Single Stage Decision Problems. <p>Note: Use of QM for Windows software to solve problems.</p>	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (10% Assignments / Quizzes / Class Participation)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T-01	J K Sharma	Operations Research	TRINITY Press	Latest Edition
T-02	Barry Render, Ralph M. Stair, Jr.	Quantitative Analysis for Management	Pearson	Latest Edition

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
R-01	N D Vohra	Quantitative Techniques in Management	Tata McGrawHill	Latest Edition
R-02	Hamdy Taha	Operations Research	Pearson	Latest Edition
R-03	Anderson, Sweeny, Williams	An Introduction to Management Science	Cengage Learning	Latest Edition
R-04	V K Kapoor	Operations Research	Sultan Chand and Sons	Latest Edition
R-05	Hiller and Liebermann	Introduction to Operations Research	Tata McGraw Hill	Latest Edition

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Costing for Managers
COURSE CODE	04MB0207
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- ❖ Learn the utilization of techniques of costing while imparting managerial functions.
- ❖ To enhance the managerial decision making by utilizing various techniques of costing.
- ❖ Ability to decide whether to continue or discontinue of particular product or product line.
- ❖ Apply Standard costing techniques in managerial decision making.
- ❖ Access the variance between actual and budgeted and make suitable adjustments in the future to have a control on operations of the firm.

COURSE CONTENTS:

Unit No	Unit / Subunit	Sessions
I	Introduction: Basic concepts; methods of costing, Techniques of costing, Cost ascertainment and cost estimation, Classifications of cost, Special costs for decision making, Cost centers, Cost Unit, Classification of cost	5
II	Marginal Costing: Cost Volume Profit Analysis; Break Even Analysis; Contribution Margin; P/V Ratio; Margin of Safety; BEP Graph – Limiting of Key Factor –A case study on BEP	8
III	Differential Cost Analysis: Determination of the most profitable levels of Production and price, introduction of new products or not; Changing product mix; Discontinuing a product to avoid the losses and increase profits-decision to drop product line; Acceptance Special orders or not, Make or Buy, Shutdown or Continue	10
IV	Standard Costing: Variance Analysis: Sales variance; Material variance; Labour variance and Overhead variances- Applications	9
V	Budgeting and budgetary control: Concept of budget, Concept of budgetary control, Objectives of budgetary control, Classification of budgets, Functional budgets, Cash budget, Master budget, Fixed and flexible budgets, budget reports, Zero base budgeting (ZBB), Performance budgeting.	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

R-05	Paresh Shah	Cost Accounting	Oxford	Latest

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Basics of STATA
COURSE CODE	04MB0208
COURSE CREDITS	2
COURSE DURATION	28 hours (28 Sessions of 60 Minutes each)

COURSE OUTCOMES:

- ❖ Apply STATA for data management and analysis
- ❖ Analyze business data using visual representations
- ❖ Apply STATA for univariate and bivariate statistical analyses

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to STATA and Data Management Commands , Creating a New Dataset by Typing in Data , Creating a New Dataset by Copy and Paste , Specifying Subsets of the Data: in and if Qualifiers, Generating and Replacing Variables, Missing Value Codes , Using Functions, Converting Between Numeric and String Formats, Creating New Categorical and Ordinal Variables, Using Explicit Subscripts with Variables, Importing Data from Other Programs, Combining Two or More Stata Files, Collapsing Data, Reshaping Data, Using Weights, Creating Random Data and Random Samples	8
II	Graphs Commands, Histograms, Box Plots, Scatterplots and Overlays, Line Plots and Connected-Line Plots, Other Two-way Plot Types, Bar Charts and Pie Charts, Symmetry and Quantile Plots, Adding Text to Graphs, Graphing with Do-Files, Retrieving and Combining Graphs, Graph Editor, Creative Graphing.	10
III	Summary Statistics and Tables Commands, Summary Statistics for Measurement Variables, Exploratory Data Analysis, Normality Tests and Transformations, Frequency Tables and Two-Way Cross-Tabulations, Multiple Tables and Multi-Way Cross-Tabulations, Tables of Means, Medians and Other Summary Statistics, Using Frequency Weights	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	0% (C.E.C.)
B	Internal Assessment	50% (I.A.)
C	End-Semester Examination	50% (Practical/Viva) (External Assessment)

SUGGESTED READINGS:**Text Books:**

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Digital & Social Media Marketing
COURSE CODE	04MB0209
COURSE CREDITS	02
COURSE DURATION	28 Hours (28 Sessions of 60 Minutes each)

COURSE OUTCOMES:

- ❖ Understand the Digital Marketing Environment for business
- ❖ Compare and analyze various social media platforms used for marketing
- ❖ Comprehend the idea SEO & Digital Display Ads and their analytics

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Digital Marketing: Evolution of Digital Marketing - Role of Internet in Modern Day Business – Traditional V/s Digital Marketing - Drivers of the new marketing environment – POEM Framework – Role of Websites for Business - Digital Marketing Plan	06
II	Social Media Marketing: Use of Social Media Platforms for Marketing – Facebook – Instagram – Linked In – Twitter – Mobile Marketing	12
III	Digital Advertising and Analytics: Introduction to SEO – Introduction to Search Engine Marketing (SEM) – Digital Display Marketing – Web Analytics	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	0% (C.E.C.)
B	Internal Assessment	50% (I.A.)
C	End-Semester Examination (Practical/Viva)	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Programming And Coding
COURSE CODE	04MB0210
COURSE CREDITS	02
COURSE DURATION	28 Hrs (28 Sessions of 60 Minutes each)

COURSE OUTCOMES:

- ❖ Ability to devise a solution to a problem in various dimensions.
- ❖ Ability to express a solution in algorithmic and graphical forms.
- ❖ Ability to analyze and implement solutions using programming in C and Python language.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction of Programming & Logic development <ul style="list-style-type: none"> ● Concept of programming language and its futures ● Introduction of Algorithms with its looping features. ● Concept of flowchart with its standard symbols ● Overview about Programming C language with its features and applications ● Introduction of C program structures / sections. ● Concept of Tokens, Keywords, Identifiers, variable & Concepts, Data types ● Overview of various operators & I/O statements of Programming C. ● Control structure statements of C: If condition and looping structure 	10
II	Python Numpy library <ul style="list-style-type: none"> ● Introduction of Python Programming language and its features, ● Installation steps & overview of IDE of Python. ● Array attributes, array creation routines, array from existing data, Array from ranges, ● Concept of indexing, slicing, binary operators, ● Overview of histogram with matplotlib. 	09
III	Python Pandas library. <ul style="list-style-type: none"> ● Library Installation procedure ● Introduction to Series, data frame and pane, ● Concept of Reindexing and sorting ● Working with text data, ● Introduction of Statistical functions, aggregations, ● Categorical data and visualization. 	09

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	0% (C.E.C.)
B	Internal Assessment	50% (I.A.)
C	End-Semester Examination (Practical/Viva)	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	2
COURSE TITLE	Database Management Systems
COURSE CODE	04MB0213
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the major DBMS concepts
- * Learn effective ways of building a model of the real world and optimizing it through normalization algorithms
- * Study of database concepts with emphasis on network, CODASYL, and relational models and their application to business systems.
- * Realize what database system is and list its characteristics
- * Write basic SQL statements for data creation

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Databases and Transaction: What is Database system, Purpose of Database System, view of data, Relational Databases, Database Architecture, Transaction Management Data Models: The importance of Data Models, Basic Building Blocks, Business Rules, The evolution of Data Models, Degrees of Data Abstraction. Object Oriented Data Model	08
II	Database Design, ER-Diagram and Unified Modelling Language: Database Design and ER Model: Overview, ER-Model, Constraints, ER-Diagrams, ERD Issues, Weak Entity Sets, Codd's rules, Relational Schemas, Introduction to UML	08
III	Relational Algebra and Calculus: Relational Algebra: Introduction, Selection and Projection, Set Operations, Renaming, Joins, Division, Syntax, Semantic. Operators, grouping and ungrouping, Relational Comparison. Calculus: Tuple Relational Calculus, Domain Relational Calculus, Calculus vs Algebra, Computational Capabilities.	10
IV	Constraints, Views and SQL: What is Constraints, types of Constrains, Integrity Constraints Views: Introduction to views, Data independence, security, updates on views, comparison between tables and views SQL: Data definition, Aggregate function, Null Values, Nested sub Queries, Joined relations, and Triggers	10
V	Relational database model: Logical view of data, keys, and Integrity rules: Relational Database design: Features of good Relational Database Design, Atomic Domain and Normalization (1NF, 2NF, 3NF, BCNF)	06

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Assignment & Presentation	20%
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Strategic Management
COURSE CODE	04MB0301
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 Sessions of 60 Minutes Each)

COURSE OUTCOME

- ❖ To understand the strategic decisions that organizations make and have an ability to engage in strategic planning.
- ❖ To explain the basic concepts, principles and practices associated with strategy formulation and implementation.
- ❖ To evaluate challenges faced by managers in implementing and evaluating strategies based on the nature of business, industry, and cultural differences.
- ❖ To integrate and apply knowledge gained in basic courses to the formulation and implementation of strategy from holistic and multi-functional perspectives.
- ❖ To analyze the competitive situation and strategic dilemma in dealing with dynamic global business environments in terms of rapidly changing market trends and technological advancement.
- ❖ To analyze and evaluate critically real-life company situations and develop creative solutions, using a strategic management perspective.

COURSE CONTENTS:

Unit No	Unit / Subunit	Sessions
I	Strategic Management: Definition, Concept, Objective and Significance Understanding Strategy, Vision & Mission, Strategic Management Process, Growing Relevance of Strategic Management in India. Globalization addressing a VUCA environment with a bottom – up approach	7
II	Internal and External Environmental Analysis: Internal Environment: SWOT, TWOS, VRIO Framework, Resources, Core Competencies, Resource Base Model, I/O Model, Value Chain Analysis, Outsourcing in Value Chain. External Environment: Environmental Threat and Opportunity Profile (ETOP), Porter's Five Forces Model, Strategic Group Mapping, GAP Analysis, Portfolio Analysis, McKinsey's 7s Framework, GE 9 Cell Model, BCG Matrix. Balance Score Card, Case Studies.	12
III	Strategic Formulation: Strategic Formulation at Business, Strategic Formulation at Corporate & Strategic Formulation at Functional Levels, Strategic Formulation at Global Level, Strategic Alliance and Joint Ventures, Mergers & Acquisitions, Retrenchment Strategy, Turnaround Strategy, Divestment Strategy, Liquidation Strategy, Case Studies.	8
IV	Strategy Implementation: Total Quality Management, Various Structural Level (Entrepreneurial, Functional, Divisional, SBU, Matrix, Network Structure), Matching Organizational Structure with Different Strategies, Six Sigma, Strategic Leadership. Case Studies.	8
V	Strategic Control, Evaluation & Sustainability: Strategic Control, Corporate Governance and Business Ethics, Corporate Social Responsibilities, BoP Innovation, Value Innovation: Blue Ocean Strategy, Threat to Sustainability (Triple Bottom	07

Faculty of Management Studies: Master of Business Administration

Approach): People, Planet, Profit Concept, Strategic issues for SMEs & Non-Profit organisation, Case Studies.

PROGRAM	Master of Business Administration (MBA)
SEMESTER	3
COURSE TITLE	Legal Aspects of Business
COURSE CODE	04MB0302
COURSE CREDIT	3
COURSE DURATION	42 hours (42 Sessions of 60 Minutes each)

COURSE

- ❖ Students would be able to analyze the importance of law and legal institutions in business
- ❖ Students would be able to exercise the laws relating to Indian Contract and Special Contract.
- ❖ Students would be able to design strategic norms of Consumer protection and Company Acts.
- ❖ Students would be able to analyze the Sales of Goods Act, 1930 and The Negotiable Instruments Act, 1881
- ❖ Students would be able to execute Knowledge of LLP and IPR.

OUTCOME
COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Indian Contract Act, 1872 Essential Element of valid contract: Offer and Acceptance, Consideration, Capacity to Contract, Free Consent, Legality of object, Void agreements and contracts, Performance of contract, Discharge of contract, Remedies for breach of contract Special Contract: Contract of Indemnity and Guarantee.	10
II	Sales of Goods Act, 1930: Basics, Conditions and warranties, Transfer of property, Performance of contract, right of an unpaid seller Negotiable Instrument Act, 1881: Negotiable instruments, Notes, Bills and Cheque, Parties, Negotiation, Presentment, Dishonour and Discharge of Negotiable instrument	06
III	Consumer Protection Act, 1986 Definitions, Consumer protection Council, Dispute redressal agencies, process to file complain, Appeal, Remedies Information Technology Act, 2000 Introduction, Objects and scope, Definitions of important terms, Digital signature, electronic governance, Cybercrime and remedies, power of central government to make rules	06
IV	Company Act, 2013 Nature of company, Kinds of company, formation of company, Memorandum of Association, Article of Association, Prospectus, Membership in a company, Share Capital, Meeting and proceeding, Company Management	08
V	Limited Liability Partnership, 2008 Salient Features of LLP, Differences between LLP and Partnership, LLP and Company, LLP Agreement, Partners and Designated Partners, Incorporation Document, Incorporation by Registration Intellectual Property Rights	12

	Introduction, their major types like Patents, Trademarks, Copyrights, Industrial designs, etc. Important provisions.

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Financial Statement Analysis
COURSE CODE	04MB0305
COURSE CREDITS	3
COURSE DURATION	42 Hrs. (42 Sessions of 60 minutes each)

COURSE OUTCOMES:

- ❖ To apply several basic financial statement analysis techniques
- ❖ To explain cash flow statement and return on invested capital and variations in its computation
- ❖ To analyze earnings persistence, its determinants, and its relevance for earnings forecasting
- ❖ To describe the process for equity valuation through using financial statement and provide an understanding of Risk and Sensitivity Analysis
- ❖ To prepare forecasted Balance Sheet, Income Statement, Cash flow Statement

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction & Overview: Business Analysis: Introduction, Types, Components, and Financial Statements-Basis of Analysis, And Understanding of Financial Statements: Balance Sheet, Income Statement, And Cash flow Statement & Auditors Report. A glance on methods of FSA: Comparative analysis, common size statement & trend analysis.	06
II	Cash flow & Profitability Analysis: Specialized Cash Flow Ratios: Cash Flow Adequacy Ratio & Cash Reinvestment Ratio, Interpreting Cash Flows. Components of Return on Invested Capital: Defining Invested Capital, Adjustments to Invested Capital and Income & Computing Return on Invested Capital Du Pont disaggregating 5 components model. Analysing Return on Common Equity: Disaggregating the Return on Common Equity, Computing Return on Invested Capital & Assessing growth on common equity.	10
III	Equity Analysis: Earnings Persistence: Recasting and Adjusting Earnings, Determinants of Earnings Persistence, Persistent and Transitory Items in Earnings, Earnings-Based Equity Valuation: Fundamental Valuation Multiples, Earning Power and Forecasting for Valuation: Earning Power Earnings Forecasting	06
IV	Valuation: Method of Comparable, Multiple Screening, Asset-based Valuation, Dividend Discounting, Discounted Cash Flow Analysis, Residual Earnings Analysis, Economic Value Added (EVA), Earnings Growth Analysis, Risk and Sensitivity Analysis	12
V	Prospective Analysis: The Projection Process: Projecting Financial Statements, Application of Prospective Analysis in the Residual Income Valuation Model, Trends in Value Drivers.	08

EVALUATION:

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Financial Markets and Institutions
COURSE CODE	04MB0306
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 Sessions of 60 minutes each)

COURSE OUTCOMES:

- ❖ Appreciate the need for and importance of Financial Markets and Institutions in India.
- ❖ Understand procedures of raising capital from the primary market and various legal aspects of Public Issue Management.
- ❖ Know Trading Mechanism and Settlement system of Secondary market.
- ❖ Apprehend various Financial and Non – Financial Institutions and regulatory aspects of such Institutions in Indian Financial System.
- ❖ Understanding the importance of various Non-Banking Financial institutions.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Financial Markets and Institutions: Indian Financial System, Components of IFS, Introduction to Financial Markets, Classification of Financial Markets, LPG and its Impact on Financial Markets, Challenges in Financial Markets. Introduction to Financial Institutions: Role of RBI as a regulator of Banking and Non-banking Financial Institutions, Structure of Financial Institutions in India.	8
II	Money Market: Meaning, Functions of Money Market, Participants and Instruments, Mechanism of Money Market, Role of RBI in Money Market, A Glance on Debt and Foreign Exchange Market.	8
III	Capital Market: Primary Market: Meaning, Functions, Different Participants, Public Issue, IPO, FPO, Rights Issue, Private Placement, Offer for sale, IPO Mechanism, Pricing of IPO - Fixed pricing, Book Building and Auctions. Secondary Market: Stock Exchange, Functions, Listing Norms, Stock Indices and its Computational Mechanism (Sensex, NIFTY), Trading settlement systems, key Role of SEBI.	10
IV	Banking Institutions: Evolution of Banking in India, Functions, Classifications of Banks (PSBs, Private Sector Banks, Foreign Banks, New Generation Banks, Small Banks, Payment Banks, Urban and State Cooperative Banks) Recent Developments, Problems and Challenges of Banking Industry.	8
V	Non – Banking Financial Institutions: History, Objectives, Administrative and Regulatory Framework of NBFIs, Role of NBFIs in Economic Development, Objectives, functions, Different Schemes, and Recent Developments in (1) SIDBI, (2) NHB, (3) EXIM Bank, and (4) NABARD. NBFCs and their Scope, Functions and Classifications, PDs and their Scope, Functions and Classifications.	8

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Corporate Taxation
COURSE CODE	04MB0307
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 Sessions of 60 minutes each)

COURSE OUTCOMES:

- ❖ Understand the basics of corporate taxation and tax planning
- ❖ Get acquainted with corporate tax in India
- ❖ Learn Corporate Tax Planning associated with managerial decisions
- ❖ Familiar with taxation provisions related to non-resident corporates
- ❖ Understand DTAA and tax implications on Foreign Collaborations

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	CORPORATE TAXATION – INTRODUCTION Meaning of Corporate taxation — Regulatory mechanism – Provisions of Income Tax Act, 1961 in brief - Corporate tax planning: Tax planning and Tax evasion - Relationship between corporate planning and corporate tax planning	08
II	CORPORATE TAX IN INDIA Definitions - Residential status - Tax incidence & Rates of Tax for companies - Minimum Alternate Tax [MAT] concept - Tax planning with respect to new business/undertaking: Planning with respect to specific locations, areas and industries - Tax benefit with respect to Exports	10
III	CORPORATE TAX PLANNING Tax planning with respect to Financial Management decisions - Tax planning with respect to Managerial decisions - Tax planning with respect to Liquidation, Amalgamation and Demerger	08
IV	NON-RESIDENT CORPORATES Tax planning - Double taxation relief - Transfer pricing and Advance ruling Concepts	08
V	INTERNATIONAL TAXATION Tax implications for foreign collaborations - Tax implications for Double Taxation Avoidance Agreements [DTAA]	08

COURSE DURATION	42 Hours

COURSE OUTCOMES:

- ❖ Demonstrate an understanding of the risk management approaches and techniques using derivatives
- ❖ Analyze the effectiveness of different hedging strategies using Forward and Futures contracts
- ❖ Formulate and solve problems requiring pricing derivative instruments and hedge market risk based on numerical data and current market trends
- ❖ Evaluate the effectiveness of different trading strategies using Call and Put Options
- ❖ Design & execute a swap using different underlying instruments such as interest rate and currency

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Overview of Risk and Derivative: Financial Risk Management: Concept of Risk, Types of Risk, Approaches to risk. Derivative: Definition, Objectives, types, Participants in derivative market: Hedgers, Speculators and Arbitrageur, Uses of Derivatives, Basic Derivatives terminology, Types of Orders, Derivatives in India, Exchange Traded and Over the Counter Markets.	08
II	Forward and Futures Contract: Forward: Meaning and types of forward contract, Structure and features of forward contract, FRA, Computation of Forward rates: Equity forwards, interest rate forward contracts, currency forward contracts. Pricing of forwards. Future: Introduction to Future market, future contract and future trading, clearing house, daily settlement, Margin and Marking to Market, Types of future contract, pricing of future, hedging strategies using futures, Single stock and Stock index futures.	09
III	Options and Strategies: Option Market: Introduction, Types of Options, Uses of Options, Payoffs from Options, Trading Strategies: Uncovered, Covered, Spread, Combination.	08
IV	Options Pricing & Greeks in options: Put Call Parity: Risk Free security and Put-call Implication. Options Valuation and Pricing. Factors Determining Option Price. Binomial Option Pricing model (Single period and two period), Black Scholes Models: Assumption, Pricing of call and put options. Options Greeks: delta, gamma, Vega, theta, rho. (Theory)	09
V	Swap Markets: Introduction, Types of swaps: Equity swaps, Interest rate swaps, Currency Swaps, commodity, and other Types of swaps, Swaptions, Valuation of Swaps. Risk in Swap.	08

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Faculty of Management Studies: Master of Business Administration

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	HR Analytics
COURSE CODE	04MB0320
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 Sessions of 60 Minutes Each)

COURSE OUTCOMES:

- ❖ To interpret the concepts, tools and techniques of HR Analytics.
- ❖ To analyze the concepts of HCM:21 model of HR Analytics.
- ❖ To apply appropriate measures for data collection and data visualization in HR.
- ❖ To choose a predictive modelling tool for HR data analysis.
- ❖ To elaborate analytics for HR decision making.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	HR Decision-making and HR Analytics: Introduction, HR Decision-making, Importance, Significance and Benefits of HR Analytics, Steps to Implement HR Analytics, Critical HR Decision-making and HR Analytics, HR Analytics and Changing Role of HR Managers, Aligning Human Resources to Business Through HR Analytics, Steps for Alignment of HR Analytics with Business Goals and Strategies, Applications of HR and Descriptive, Predictive and Prescriptive Analytics. Case study.	9
II	The HCM:21 Model: Scanning the market & managing the risk, the new face of workforce planning, process analysis and process optimization, turning data into business intelligence. HR Metrics, Recruitment Metrics, Metrics for Training and Development Function, HR Scorecard, HR Dashboards.	8
III	Communicating with data and visuals: Data requirements, identifying data needs and gathering data, HR data and data quality, HR data collection, validity and consistency, using historical data, data exploration, data visualization, association between variables.	6
IV	Predictive modelling in HR: Equality, diversity and inclusion, engagement and workforce perceptions, predictive analytics for human capital management, employee retention and turnover; predicting employee performance. Case study: Diversity Analytics, Engagement and Workforce Analytics, Predicting Employee Turnover, Predicting Employee Performance.	10
V	Analytics for Decision Making: Regional and country level differences in turnover data, measuring turnover at individual and team level, recruitment and selection analytics, identifying flight-risk candidates, employee gamification as a recruitment and employee engagement technique, process of report generation, insights from reports, root cause analysis of HR issues. Case study: Recruitment and Selection Analytics.	9

EVALUATION:

The students will be evaluated on a continuous basis and broadly the scheme given below will be followed:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ Practical Record/ Practical Examination etc.)	20%
B	Internal Assessment	30%
C	End-Semester Examination (Practical /Viva)	50%

SUGGESTED READINGS:

Time Estimation Tools like CPM/PERT, Gantt charts and other methods, COCOMO for time estimation etc. (Use of MS-PROJECT is recommended).	06
II	Software Project Maintenance: Types, steps, Resource planning and estimation, Re-engineering the software products, Documentation standards, Version Control and Software Configuration Management.	08
III	Software Testing: Techniques, test plans, Introduction to manual testing and Automated testing tools. User Acceptance Testing: Implementation Planning, Steps, methods, Documentation etc.,	08
IV	Software Risk Management: Strategies of Risk Management, Software Risks, risks Identification, Risk Projection, Risk Refinement, Risk Mitigation, Monitoring & Management.	10
V	Software Quality Management: Quality Concepts, SQA, V & V Planning, tools and techniques (reviews, FTR inspections, walkthroughs etc.), Software Quality parameters with their definitions, Introduction to ISO 9000 Quality Standards and CMM.	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (IA)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T1	K.K. Aggarwal and Yogesh Singh	<i>Software Engineering</i>	New Age International	2002
T2	Martin L Shooman	<i>Software Engineering</i>	Tata McGraw Hill	1983

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
R-01	Carlo Ghezzi, Mehdi Jazayeri	<i>Software Engineering</i>	PHI	1996
R-02	Roger S. Pressman	<i>Software Engineering: A Practitioner's Approach</i>	Tata McGraw Hill 4 th edition 1999.	4 th edition 1999
R-03	Sommerville Ian	<i>Software Engineering,</i>	Pearson Ed	2004

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Network and Communication Management
COURSE CODE	04MB0338
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the major Network concepts
- * Interpreting the effective ways of Network Components and Architecture
- * Determining the Network Standards and Network Operations.
- * Explaining the Network Protocols
- * Reviewing the elements of network connectivity.

COURSE CONTENTS:

Module No	Unit / Sub Unit	Sessions
I	Introduction to Networking: Introduction to Network, Network Configuration, Network Topology. Basic Network Media: Network Cabling, The Network Interface Card, Wireless Networking	06
II	Understanding Network Architecture: Access Method, How Networks Send Data, Ethernet, Token Ring	08
III	Introducing Network Standards and Network Operating: Open System Interconnection (OSI) Reference Model, Introduction to Network Operating Systems.	10
IV	Defining Network Protocols: Introduction to Protocols, TCP/IP. Elements of Network Connectivity: Connectivity Devices, Connection Services	10
V	Network Security & Management - Principles of cryptography – Elliptic-AES- Authentication – integrity – key distribution and certification – Access control and: fire walls – DoS-attacks and countermeasures – security in many layers.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (IA)

C	End-Semester Examination	50% (External Assessment)
---	--------------------------	---------------------------

SUGGESTED READINGS:

Text Books:

Sr. No	Name of the Book	Author /s	Publisher	Edition & Year
T-01	Network+	KELLY W. KUTZ	John Wiley & Sons, Inc	2 nd edition,2019
T-02	Network Security	Dr. Eric Cole, Dr. Ronald Krutz, and James W. Conley.	Bible.	1 st edition,2012

Reference Books:

Sr. No	Name of the Book	Author/s	Publisher	Edition & Year
R-01	Upgrading and Repairing PCs	Scot Muller	Cengage Learning	5 th edition,2012
R-02	Networking Essentials Plus.	MCSE Training Kit	MCSE Training Kit	Third Edition or latest 2014

Faculty of Management Studies: Master of Business Administration

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Database Management Systems
COURSE CODE	04MB0339
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the major DBMS concepts
- * Learn effective ways of building a model of the real world and optimizing it through normalization algorithms
- * Study of database concepts with emphasis on network, CODASYL, and relational models and their application to business systems.
- * Realize what database system is and list its characteristics
- * Write basic SQL statements for data creation

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Databases and Transaction: What is Database system, Purpose of Database System, view of data, Relational Databases, Database Architecture, Transaction Management Data Models: The importance of Data Models, Basic Building Blocks, Business Rules, The evolution of Data Models, Degrees of Data Abstraction. Object Oriented Data Model	08
II	Database Design, ER-Diagram and Unified Modelling Language: Database Design and ER Model: Overview, ER-Model, Constraints, ER-Diagrams, ERD Issues, Weak Entity Sets, Codd's rules, Relational Schemas, Introduction to UML	08
III	Relational Algebra and Calculus: Relational Algebra: Introduction, Selection and Projection, Set Operations, Renaming, Joins, Division, Syntax, Semantic. Operators, grouping and ungrouping, Relational Comparison. Calculus: Tuple Relational Calculus, Domain Relational Calculus, Calculus vs Algebra, Computational Capabilities.	10
IV	Constraints, Views and SQL: What is Constraints, types of Constrains, Integrity Constraints Views: Introduction to views, Data independence, security, updates on views, comparison between tables and views SQL: Data definition, Aggregate function, Null Values, Nested sub Queries, Joined relations, and Triggers	10
V	Relational database model: Logical view of data, keys, and Integrity rules: Relational Database design: Features of good Relational Database Design, Atomic Domain and Normalization (1NF, 2NF, 3NF, BCNF)	06

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Assignment & Presentation	20%
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T1	A Silberschatz, H Korth, and S Sudarshan	"Database System and Concepts	McGraw-Hill	fifth Edition
T2	Rob, Coronel	Database Systems"	Cengage Learning	Seventh Edition

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
R-01	Rini Chakrabarti, Shilbhadra Dasgupta	Advanced Database Management System	Wiley	First Edition
R-02	Arun K. Majumdar, Pritimoy Bhattacharyya	Database Management Systems	McGraw Hill Education	2017
R-03	C.J. Date	An Introduction to Database Systems	Pearson	8 th Edition

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Big Data in IT and Systems
COURSE CODE	04MB0340
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the concept and challenge of Big Data and why existing technology is inadequate to Analyze the Big Data;
- * Integrate and Apply knowledge on Collect, Manage, Store, Query, and Analyze various form of Big Data;
- * Gain hands-on experience on large-scale Analytics tools to solve some open Big Data problems
- * Ability to integrate machine learning libraries and mathematical and statistical tools with modern technologies like hadoop and mapreduce.
- * Understand the impact of Big Data for Business Decisions and Strategy.

COURSE CONTENTS:

Module No	Unit / Sub Unit	Sessions
I	Introduction to Big Data Analytics and Lifecycle Big Data Overview, Data Structures, Perspective on Data Repositories, Practices in Analytics, BI versus Data Science, Analytical Architecture, Drivers of Big Data, Big Data Ecosystem Data Analytics Lifecycle: Phase 1: Discovery, Phase 2: Data Preparation, Phase 3 Model Planning, Phase 4: Model Building, Phase 5: Results, Phase 6: Operationalize	8
II	Advanced Analytical Theory and Methods -I: Clustering Overview of Clustering, K-means Use Cases; Overview of the Method; Determining the Number of Clusters; Diagnostics; Reasons to Choose and Cautions. Association Rules Overview of Association Rules, Apriori Algorithm, Evaluation of Candidate Rules, Applications of Association Rules, Validation and Testing, Diagnostics.	8
III	Advanced Analytical Theory and Methods -II: Classification Decision Trees: Overview of Decision Tree, The General Algorithm, Decision Tree Algorithms, Evaluating a Decision Tree. Naïve Bayes: Bayes Theorem, Naïve Bayes Classifier, Smoothing, Diagnostics. Diagnostics of Classifiers.	8

Faculty of Management Studies: Master of Business Administration

	Text Analysis Text Analysis Steps, Collecting Raw Text, Representing Text, Term Frequency-Inverse Document Frequency (TFIDF), Categorizing Documents by Topics, Determining Sentiments, Gaining Insights.	
IV	Advanced Analytics: Technology and Tools - MapReduce and Hadoop Analytics for Unstructured Data: Use Cases, MapReduce, Apache Hadoop The Hadoop Ecosystem: Pig, Hive, HBase, Mahout, NoSQL Technology and Tools – In-Database Analytics SQL Essential: Joins, Set Operations, Grouping Extensions Advanced SQL: Window Functions, User-Defined Functions and Aggregates, Ordered Aggregates, MADlib	10
V	Application of Data Mining, predictive and prescriptive analytics using big data: Data Mining, predictive and prescriptive analytics using big data & Decision-Making Predictive Analysis, Forecasting, Optimization, Simulation Gamification, Business Metrics in Action Data science in Startups Basics of Problem-Solving Design Patterns in Statistical Computing Excel for Data Science.	8

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Assignment & Presentation	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr. No	Name of the Book	Author /s	Publisher	Edition & Year
T-01	Big Data & Analytics	Chellappan and Acharya	Wiley	2 nd edition, 2019
T-03	Big Data Big Analytics: Emerging Business Intelligence and Analytic Trends for Today's Businesses	Michael Minelli, Michele Chambers, Ambiga Dhiraj	John Wiley & Sons, Inc.	1 st edition, 2012

Reference Books:

Sr. No	Name of the Book	Author/s	Publisher	Edition & Year
R-01	Business Analytics: Data Analysis and Decision Making	S. Christian Albright	Cengage Learning	5 th edition, 2012
R-02	Analytics in a Big Data World	Bart Baesens	John Wiley & Sons	3 rd edition, 2014
R-03	Big Data Analytics with R & Hadoop	Vignesh Prajapati	PACKT Publishing	1 st edition, 2019

Faculty of Management Studies: Master of Business Administration

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Data Science Using R
COURSE CODE	04MB0341
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Apply R code to use the API (Application Programming Interface) to manage databases.
- * Select the right functions and control structure of R Programming language.
- * Combine various tools and packages of R programming language for business analytics.
- * Analyze data graphically by creating various plots using visualization tools in R.
- * Analyze business data using simple linear regression and multiple linear regression for prediction and decision making.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	R Nuts and Bolts, Getting Data In and Out of R & Using Textual and Binary Formats for Storing Data R Nuts and Bolts: Entering Input, Evaluation, R Objects, Numbers, Attributes, Creating Vectors, Mixing Objects, Explicit Coercion, Matrices, Lists, Factors, Missing Values, Data Frames, Names Getting Data In and Out of R: Reading and Writing Data. Reading Data Files with, read.table(), Reading in Larger Datasets with read.table, Calculating Memory Requirements for R Objects	06
II	Sub setting R Objects, Managing Data Frames with the dplyr package & Control Structures Sub setting R Objects: Sub setting a Vector, Sub setting a Matrix, Sub setting Lists, Sub setting Nested Elements of a List, Extracting Multiple Elements of a List, Partial Matching, Removing NA Values Managing Data Frames with the dplyr package: Data Frames, The dplyr Package, dplyr Grammar, Installing the dplyr package, select(), filter(), arrange(), rename(), mutate(), group_by(), %>%	08
III	Control Structures: if-else for Loops, Nested for loops, while Loops, repeat Loops, next, break Functions, Scoping Rules of R & Loop Functions: Functions: Functions in R, Your First Function, Argument Matching, Lazy Evaluation, The ... Argument, Arguments Coming After the ... Argument Loop Functions : Looping on the Command Line, lapply(), sapply(), split(), Splitting a Data Frame, tapply, apply(), Col/Row Sums and Means, Other Ways to Apply, mapply(), Vectorizing a Function	08

IV	<p>Descriptive Statistics: Basic Arithmetic Operations, Standard Functions like abs(), sqrt(), round(), sum(), product(), log(), log10(), Statistical Functions like min(), max(), range(), mean(), quantile (), summary(), var(), sd(), scale(), boxplot(), cov(), cor()</p> <p>Frequency Measures and Graphical Presentation frequency distribution and cumulative frequency distribution tables, Bar Chart, Pie Chart, Histogram, Box-Whisker Plot, Scatterplots, Matrix of Plots</p> <p>Simulation: Generating Random Numbers, Setting the random number seed, Simulating Random Sampling, R function for solution of Binomial, Poisson, Normal and Exponential distribution problems</p> <p>Hypothesis Testing: Testing Means (Single mean and Two Means)</p>	08
V	<p>Predictive Analytics: Types of Analytics, Analytics in Decision Making, Introduction to Predictive Analytics.</p> <p>Simple Linear Regression (SLR): Simple Linear Regression: Overview, Model Development, Assumptions, Model Validation, Model fitness and R^2, Example of SLR.</p> <p>Multiple Linear Regression and Logistic Regression: MLR: Introduction, Estimation of Regression Parameters, Explanatory vs. Predictive Modeling, Assumptions and Model Diagnostics, MLR with categorical predictors (dummy variable), Derived & Interaction Variables, Multi-collinearity, Adjusted R^2, Model Deployment, Example of MLR.</p>	12

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Quizzes /Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment (Lab based Practical Examination using R-software)	30% (I.A.)
C	End-Semester Practical Examination	50% (Practical/VIVA)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T-01	Roger D. Peng	R Programming for Data Science	Lean Publishing	1 st edition, 2015
T-02	Nicholas J Horton	Using R and RStudio for Data Management, Statistical Analysis and Graphs	CRC Press – T&F Group	2015
T-03	Christian Heumann, Michael Schomaker, Shalabh Sinha	Introduction to Statistics and Data Analytics: With Exercise, Solutions and Applications in R	Springer	2016

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
R-01	Roger D. Peng	Exploratory Data Analysis with R	Lean Publishing	1 st Edition, 2015
R-02	Alain F Zuur, Elena Leno	A Beginner's Guide to R	Springer (Use R!)	1 st Edition 2009
R-03	A. Ohri	R for Business Analytics	Springer	1 st Edition, 2012
R-04	Seema Acharya	Data Analytics Using R	McGraw Hill	1st edition, 2018

Faculty of Management Studies: Master of Business Administration

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Information Security, Ethics and Issues
COURSE CODE	04MB0342
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand, appreciate, employ, design and implement appropriate security technologies and policies to protect computers and digital information.
- * Identify & Evaluate Information Security threats and Cryptography methods
- * Identify common Response and Human factors on Information Security
- * Demonstrate the use of standards and cyber laws to enhance information security in the development process and infrastructure protection.
- * Identify the common concepts involved in Information security and correlate the same with Industry practices.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Foundations of Cyber Security Concepts: Essential Terminologies: CIA, Risks, Breaches, Threats, Attacks, Exploits. Information Gathering (Social Engineering, Foot Printing & Scanning). Open Source/ Free/ Trial Tools: nmap, zenmap, Port Scanners, Network scanners.	6
II	Cryptography and Cryptanalysis: Introduction to Cryptography, Symmetric key Cryptography, Asymmetric key Cryptography, Message Authentication, Digital Signatures, User Management, VPN Security, Security at Transport Layer- SSL and TLS, Security at Network Layer-IPSec.	08
III	Intrusion Detection and Response – Anomaly (network and host) – Specification based (network and host) – Human Factors: – Captcha’s – Social engineering, e.g., phishing – Economics of Security – Incentives and motivations for attack.	10
IV	Ethical Issues pertaining to IS: · Ethical responsibilities of business professionals · Computer crime – hacking & cracking, cyber theft, unauthorized use at work, software piracy, theft of intellectual property, viruses & worms, adware and spyware.	12
V	Information Security: · First line of defence – People / employees’ · Second line of defence – Technology for authorization, prevention, detection and response. Contemporary/ emerging technologies: · Cloud and mobile computing · E-commerce, m-commerce · Internet of Things	06

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Assignment & Presentation	20%
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T1	Michael T. Goodrich and Roberto Tamassia	Introduction to Computer Security	Addison Wesley	2011
T2	William Stallings	Cryptography and Network Security	Pearson Education	4 th Edition 2010

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
R-01	Alfred J. Menezes, Paul C. van Oorschot and Scott A. Vanstone	Handbook of Applied Cryptography	CRC Press	2001
R-02	Nina Godbole	"Information System Security"	Wiley	2016
R-03	Bothra Harsh	"Hacking"	Khanna Publishing House, Delhi	2010

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Fundamentals of Logistics and Supply Chain Management
COURSE CODE	04MB0343
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the importance of Logistics and Supply chain management relative to an Organization
- * Apply the techniques of supply chain management in the Industry
- * Examining the concept of Bull Whip Effect in managing Inventories
- * Integrating the concept of Outsourcing and its role in Supply Chain Management
- * Reviewing the concept of forecasting supply chain management in the industry

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Logistics management: Introduction, Logistics system design, Demand planning, Multiple channel distribution, multi-echelon system, Model development, Concept of warehousing, Methods of storage, Primary and secondary transportation, Logistics information system, Logistics costing	6
II	Concept and various issues involved, EOQ models, Buffer Stock, leave time reduction, reorder point, ABC analysis, SDE/VED analysis	8
III	Supply chain management: Overview, Supply chain basics, Decision phases in a supply chain, Planning and operations, Importance of supply chain process, Functional and organizational scope of SCM, Management of Demand and supply in SCM, Capacity, Inventory, market segments, Supply chain forecasting, Supply chain forecasting management performance (SCFMP). Collaborative planning, forecasting and replenishment (CPFR).	12
IV	Drivers of outsourcing: Procurement approaches to SCM, Operational, strategic and global outsourcing, Production supply chain model, Intrafirm production, build to order production, Lean, JIT, Dispersed production Relevance and role of supply chain coordination	10
V	Bullwhip effect: Modeling the impact of information on inventories, Role of Marketing, sales and R&D in SCM, Information systems and technology in supply chain, E-Business models: B to B, B to C. Managing service	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
T-01	Sunil Chopra and Peter Menidl	Supply chain management- Strategy planning and operations	Prentice Hall	2001
T-02	Manish Govil and Jean Marie Prop	Supply chain design and management: Statistical and Tactical perspectives	Academic press	Latest

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
R-01	Sridhar Tayur, Ram Ganeshan and Micheal Magazine	Quantitative models for supply chain management	Kluwer Academic publishers	Latest
R-02	Lambert, D.M., Stock J.R.	Fundamentals of Logistics management	Irwing McGraw Hill	1998
R-03	Blanchard, B.S.,	Logistics Engineering & management	Prentice Hall, New Jersey	1997

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Operations Research Applications
COURSE CODE	04MB0344
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Select optimal problems solving techniques for a given problem using LPP with simplex method.
- * Demonstrate and solve Simulation.
- * Demonstrate and solve models of Game theory.
- * Evaluate optimum solutions using dynamic programming for different applications.
- * Choose / devise appropriate queuing model for practical application

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	<i>Linear Programming: Simplex Method:</i> Introduction, Linear Programming Problem, Requirements of LPP, Mathematical Formulation of LPP, Standard Form of LPP, Fundamental theorem of LPP, Solution of LPP	06
II	<i>Simulation:</i> Introduction, Methodology of Simulation, Basic Concepts, Simulation Procedure, Application of Simulation, <i>Simulation</i>	08
III	<i>Game Theory:</i> Introduction, Competitive Situations, Characteristics of Competitive Games, Maximin – Minimax Principle, Dominance, Advanced Queuing, sequencing, Simplex Method, The Simplex Algorithm, Penalty Cost Method or Big M-method, Two Phase Method, Solved Problems on Minimization, Goal Programming, Dynamic programming,	12
IV	Replacement theory: Introduction, Replacement of capital equipment which depreciated with time, replacement by alternative equipment, Group and individual replacement policy.	08
V	<i>Monte-Carlo Method:</i> Introduction, Monte-Carlo Simulation, Applications of Simulation, Advantages of Simulation, Limitations of Simulation	08

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)

C	End-Semester Examination	50% (External Assessment)

R-03	D. S. Hira and Prem Kumar Gupta	Operations Research	s. chand	latest

PROGRAM	Master of Business Administration
SEMESTER	03
COURSE TITLE	Material Management and Inventory Control
COURSE CODE	04MB0345
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Have the depth knowledge of material requirement planning-methods
- * Implement methods like EOQ, POQ in Industries and Manufacturing Sector.
- * Analyze the demands-supply gap and forecasting practices implementation.
- * Understand the importance of warehousing & inventory control.
- * Evaluate the store's operation and its importance in Industries.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to materials management –production planning system, master scheduling, material requirement planning-process, bills of material, using material requirements plan	06
II	Capacity management, purchasing, selecting suppliers, ordered quantity-EOQ, quantity discounts, period order quantity (POQ)	08
III	Physical distribution, Total quality management, production activity control, data requirements, order preparation	08
IV	Stock and inventories, models for known demand, just in time, models for uncertain demand- models for discrete demand, service level, periodic review methods, Planning and stocks- levels of planning, master and operational schedules, forecasting-methods,	12
V	Stores Management: Layout of stores and warehouse, material handling in stores, physical control of stocks : obsolete, surplus and scrap Management, accounting and record keeping of stores, classification, coding and codification systems,	08

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Faculty of Management Studies: Master of Business Administration

SUGGESTED READINGS:

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year

R-03	Geoff Relph and Catherine Milner	Inventory management	Koganpage	Latest edition

PROGRAM	Master of Business Administration
SEMESTER	03
COURSE TITLE	Total Quality Management
COURSE CODE	04MB0346
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Overview of quality and TQM and explain the salient contributions of Quality. General barriers in implementing TQM.
- * Interpret the meaning of TQM concepts like customer Focus, Employee Focus and their involvement, continuous process improvement and Supplier Management.
- * Explain the analytical skills required for investigating and analyzing quality management issues.
- * Illustrate the in-depth knowledge on various tools and techniques of quality management.
- * Review the ISO 14000 Principles and implementation of the same in Industries.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction - Need for quality - Evolution of quality - Definitions of quality - Dimensions of product and service quality - Basic concepts of TQM	06
II	TQM Framework - Contributions of Deming,- Barriers to TQM - Quality statements - Customer focus - Customer orientation, Customer satisfaction, Customer complaints, and Customer retention - Costs of quality.	08
III	Continuous process improvement - PDCA cycle, 5S, Kaizen - Supplier partnership - Partnering, Supplier selection, Supplier Rating, TQM TOOLS & TECHNIQUES the seven traditional tools of quality- New management tools - Control Charts - Process Capability	12
IV	TPM - Concepts, improvement needs- Performance measures. QUALITY SYSTEMS: Need for ISO 9000 - ISO 9001-2008 Quality System - Elements, Documentation, Quality Auditing - QS 9000 - ISO 14000 - Concepts, Requirements and Benefits	10
V	TQM Principles- Leadership - Strategic quality planning, Quality Councils - Employee involvement - Motivation, Empowerment, Team and Teamwork, Quality circles Recognition and Reward, Performance appraisal	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Faculty of Management Studies: Master of Business Administration

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Management of Manufacturing Systems
COURSE CODE	04MB0347
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand facility, capacity, and layout planning.
- * Apply the concepts of production planning and control.
- * Analyze the production planning and control.
- * Evaluate the inventory planning and control.
- * Critically examine demand forecasting and project management

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Facility planning - factors affecting selection of plant location, plant design, plant layout, criteria for good layout. Capacity planning- analysis of designed capacity, installed capacity, commissioned capacity, utilized capacity, factors affecting productivity. Facility layout planning – Assignment model, load distance analysis, closeness ratings.	10
II	Steps in PPC process mapping, preparation of process mapping and feedback control for effective monitoring. Aggregate production planning, production planning strategies, Disaggregating the aggregate plan, Materials Requirement Planning (MRP), MRP-II, Supply chain management, Operation scheduling, prioritization.	8
III	EOQ models- with and without shortages, price breaks, effect of quantity discount – selective inventory control techniques – ABC, FSN, VED etc. Types of inventory control – Perpetual, two-bin and periodic inventory system – JIT.	8
IV	Demand forecasting – Quantitative and qualitative techniques, measurement of forecasting errors, numerical problems.	8
V	Project management – its role in functional areas of management, network diagrams, CPM and PERT techniques, crashing, resource levelling and resource smoothing.	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Sourcing Management
COURSE CODE	04MB0348
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the process of how Sourcing works and its relationship with Production & Operations.
- * Interpret the meaning of Sourcing.
- * Integrate the in-depth knowledge of Sourcing Process, Vendor Selection.
- * Assess the Global Trends in Sourcing.
- * Devise the practices used in sourcing.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Understanding Sourcing as a Strategic Organizational Function -Evolution of purchasing, Purchasing, sourcing and vendor management as a key organizational function, purchasing objectives, Impact of strategic purchasing on profitability, Make or Buy Decisions, Types and methods of sourcing in retail; centralized vs decentralized, single sourcing vs multiple sourcing, day-to-day vs long range sourcing	8
II	The Sourcing Process -Market analysis and supplier research, Prime sources of supplier information, Request for Proposal, Fundamental steps of the buying process, terms and condition of purchase, Buying Documentation, Negotiation, Use of IT in sourcing, Global Tenders and E-Procurement, Reverse Auctions, Expanded role of global purchasing	8
III	Vendor Selection and Management -Vendor selection process, Evaluation of existing vendors, developing vendor performance measures, new vendor development process, working with suppliers to manage quality, JIT and TQM in sourcing, Key supplier account management, Vendor relationship development, Negotiation skills, Vendor monitoring, Promoting SME suppliers.	10
IV	Cross functional Approach to Sourcing - Overview of material management function and supply chain alignment, Role of purchasing in supporting inventory objectives, Goals of Inventory Control, hedging vs. Forward Buying, Risk management, managing price fluctuation and volatility in international finance, matching supply with customer demand, managing inward logistics, Transportation modes and warehousing.	10
V	Global Trends and Issues in Sourcing -Global Trade Barriers, Dealing with international suppliers, UNO and GATT conventions, Legal, socio-cultural issues in international buying, Environmental issues-Green Purchasing- Industry Best Practices, Measurement of sourcing performance, Benchmarking in Retail Purchasing.	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
T-01	Leenders, Johnson, Flynn and Fearon	Purchasing And Supply Management—,	Tata McGraw Hill	Latest
T-02	Burt, Dobler, Starling,	World Class Supply Management	Tata McGraw Hill	Latest

Reference Books:

R-03	Professor Olivier Bruel	Strategic Sourcing Management: Structural and Operational Decision-making	Kogan Page	1 st , 2016

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Physical Distribution and Transportation Management
COURSE CODE	04MB0349
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Evaluate how Distribution contributes to managing Supply Chain network
- * Understand the role Transportation in Logistics.
- * Analyze the Importance of Information Technology in relation to Transportation Management.
- * Apply various concepts of International Transportation in Industry
- * Remember the Process of Planning of Distribution & Transportation.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Distribution Role of Distribution in Supply chain, Distribution channels – Functions, resources, Operations in Distribution, Designing Distribution network models - its features - advantages and disadvantages	06
II	Planning & Transportation Distribution network planning, Distribution network decisions, Distribution requirement planning (DRP)	08
III	International Transportation International transportation, Carrier, Freight and Fleet management, Transportation management systems-Administration, Rate negotiation, Trends in Transportation.	08
IV	Information Technology (IT) Usage of IT applications -E commerce – ITMS, Communication systems-Automatic vehicle location systems, Geographic information Systems.	10
V	Role of Transportation in Logistics and Business, Principle and Participants-Scope and relationship with other business functions, Modes of Transportation - Mode and Carrier selection, Routing and scheduling	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year

R-03	Alan Rushton, John Oxley	Handbook of Logistics & Distribution Management	Kogan Page Publishers	2006

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	EXIM Trade Documentation and Procedures
COURSE CODE	04MB0350
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Examine how Government Policies works and how it is related to EXIM
- * Identify how Export & Import works and how it can be applied in real world
- * Gather in-depth knowledge of Documentation.
- * Link of Incoterms & Practical Examples.
- * Understand the Quality Control & Inspection related to the Import Export Process.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Regulatory Framework Governing Exports and Imports:- Laws governing India's export-import (general provisions), Foreign trade (Development and Regulation) Act, 1992, Foreign trade (Development and Regulation) Amendment Bill, 2010., DGFT, The Customs Act, GST Act · Export Inspection Council · Overview of Foreign Trade Policy (2015-2020) Legal basis and duration of FTP, Handbook of Procedures, E-IEC, General Provisions, EDI, Bonded Warehouses, Free exports, Objective of MEIS & SEIS, Towns of Export Excellence, Specific Input-Output Norms (SION)	8
II	International Trade Documents: - Aligned Documentation System (ADS), Proforma Invoice, Commercial Invoice, Packing List 9 18, Shipping Bill Certificate of Origin, Consular Invoice, Certificate of Origin vs. Consular Invoice Commercial Invoice vs. Consular Invoice ,	8
III	Export Procedure:- · Registration Procedure · Pre-shipment Procedure · Shipment Procedure · Post-shipment Procedure (Realization of Export Proceeds) · Excise Clearance for Exportable Goods / GST provisions Quality Control and Pre-shipment Inspection · Objectives of Quality Control and Pre-shipment Inspection	10
IV	Import Procedure: · Categories of Importers · Import License · Import of Samples · Import Contract · Pre-import Procedure · Legal Dimensions of Import Procedure · Retirement of Import Documents · Customs Clearance for Imported Goods · Warehousing of Imported Goods · Exchange Control Provisions for Imports · Import Risks · Import Duties · Valuation for Customs Duty · Import Incentives under Special Schemes · Import of Personal Baggage · Import of Gifts.	10
V	· Methods of Quality Control and Pre-shipment Inspection · Procedure for Pre-shipment Inspection · Procedure for Shipping and Customs Clearance · Registration-cum-Membership Certificate (RCMC) · Role of Customs House Agents (CHAs), Mate's Receipt , Bill of Lading	6

	,Mate's Receipt vs. Bill of Lading ,Guaranteed Remittance (GR) Form ,Bill of Exchange , Airway Bill , Import Documents	
--	--	--

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

R-03	Jignesh Vidani	Export and Import Procedures	Educreation Publishing	2019

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Project Management
COURSE CODE	04MB0351
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand Project Management.
- * Understand Monitoring and Controlling the Project
- * Evaluating and Terminating the Project.
- * Relate the importance of Project Management.
- * Illustrate Strategic implications of Project Planning.
- * Acquaintance with basics of Project management and execution.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Project management: Introduction to Project Management, Need for Project Management, Organization: Structure and Culture, Strategic Management Process	6
II	Project Identification and Selection: Generation of Project Ideas, Defining the Project Scope, WBS, Phases of a project, Feasibility study, project selection.	8
III	Project Planning and Implementation: Project Appraisal Method -Marketing, Technical, Environmental, Social, Estimation of project time and cost, Project Implementation-Managing Project Team & Effective Project Leadership.	12
IV	Project Controlling & Risk Management: Project Control Process, Tools -Project Network Construction (AOA and AON approach), Gantt Chart, CPM and PERT Techniques, (PERT & CPM: Theory and Examples), Crashing of the Project (Concept and Sums), Construction of Gantt Chart, Project Risk Management Process.	10
V	Project Closures: Project Audit, Project Termination, Project Closeout Reports	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Creativity and Innovation
COURSE CODE	04MB0352
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Recognize innate creative potential and its role in to enhance quality of individual / Business.
- * Appreciate the role of courage in coming up with and implementing new ideas and approaches in entrepreneurial problem solving.
- * Describe the creative and innovative processes and understanding the ways in which individuals/ firms interact with the society.
- * Discuss practice of entrepreneurial thinking in a larger social context.
- * Invent or experiment with a project that shows the students understanding of creativity and innovation to become more visionary.
- * Apply frameworks and tools that will improve individual, team, and organizational creativity.
- * Understand creativity and innovation in global context with a focus on the changing economy and entrepreneurial thinking.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction Creativity - Recognize the own creativity, its potential ; Self- education and expansion - The importance and need for innovation. - Understanding and managing a human centered innovation methodology.	8
II	Investigation - Recognizing the importance of observation and empathy tools to understand real user needs. - Developing own observation guidelines and tools to gather information. Innovation – Types -Incremental and Radical Innovation - Factors that Favor Incremental Innovation, - Service Innovations - Innovations in Processes	8
III	Ideation - Creativity Tools and Techniques - Entrepreneurial Creativity - Characteristics of Creative Groups, Three Components of Individual Creativity	8

	<ul style="list-style-type: none"> - Time Pressure and Creativity - Steps for Increasing Creativity - Developing the ability to create in a collaborative and diverse team. - Designing multiples alternatives of solutions for the same problem. 	
IV	<p>Prototyping</p> <ul style="list-style-type: none"> - Developing concepts and ideas through modeling and “Rapid Prototype”. - Communicating ideas trough visual maps and three-dimensional representations. - Feedback from the users by testing the prototypes. <p>Moving Innovation to Market</p> <ul style="list-style-type: none"> - The Idea Funnel - Stage-Gate Systems - Extending Innovation through Platforms 	9
V	<p>Implementation</p> <ul style="list-style-type: none"> - Controlling and combining multiple variables of a problem. - Detecting the key proposals and synthesizing them in a final solution - Identifying the appropriate specialists to develop the design. - Creating a system around the solution and developing a value proposition. - Designing an effective presentation of the offer. - Technology Management - Asset Protection through IPR 	9

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignment/ Quiz/ Class participation/ presentation/ etc.,	20%(C.E.C)
B	Internal assessment	30%(I.A)
C	End- Semester Examination	50% (External assessment)

SUGGESTED READINGS:

Faculty of Management Studies: Master of Business Administration

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Econometrics
COURSE CODE	04MB0353
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand some useful tools for empirical economic models
- * Develop a way of thinking in quantitative terms for economic analysis
- * Estimate the economic models with econometric modeling software Developing critical thinking and the application of both logical and quantitative skills.
- * Learn basic econometric techniques and their applications to business, economics, and finance
- * Understand how to postulate and test hypotheses related to economic issues or problems.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I Introduction to Econometrics	Introduction to Econometrics and its application in business and economics, Methodology of Econometrics. Structure of Economic Data – Cross-sectional, Time series and Panel data. Introduction to Time series Econometrics - Stationary and non-stationary data, tests of stationarity, Data handling using EViews – Raw data and log values and data differencing	08
II Modeling through Non-Stationary Time-series processes	transformation of non-stationary data to stationary data, Deterministic and stochastic trends, Integrated process and random walk, random walk with drift, Unit root and tests for unit root- Dickey-Fuller and Augmented Dickey Fuller tests, Phillips-Perron Test and KPSS test, Unit Roots and Structural Breaks, Unit roots in regression residuals and spurious regression, Cointegration and its testing using Engel-Granger method, Lead-lag and Long Run relationships, Characteristic Root, Rank and Cointegration, Testing for and estimating cointegrating systems using the Johansen method based on VARs, Vector Error Correction Models.	10
III Modeling through volatility clustering	Volatility-Meaning and measurement, Volatility clustering, Econometric models of volatility, Conditional heteroscedasticity in ARMA models, Estimation and Testing for ARCH and GARCH models for volatility clustering in economic time-series, multivariate regression models and conditional heteroscedasticity, Asymmetric GARCH models-GJR model and EGARCH.	08
IV Regression model using SPSS and STATA	Two variable regression model – assumptions – method of least squares – properties – BLUE – R-square – maximum likelihood method – testing of hypotheses using point and interval estimates – forecasting – solving problems using SPSS and STATA. General linear model (matrix approach) – specification	08

	– OLS estimators – testing significance of individual and overall regression coefficients – restricted least squares – structural regression models – dummy variables – problems and application using STATA.	
Unit V Relaxing the Assumptions of the Classical Model	Violation of classical assumptions – Nature and estimation of multicollinearity; Heteroscedasticity – problems – causes – consequences, the method of Generalised least Squares (GLS) – remedial measures Autocorrelation – OLS Estimation in the presence of autocorrelation, OLS versus FGLS and HAC.	08

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (IA)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Personal Financial Management
COURSE CODE	04MB0354
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Acquainting themselves about essentials of finance and financial planning.
- * Be aware of protecting the resources by varieties of Insurance.
- * Evaluate the risk and return associated with different types of investments alternatives and construct an efficient portfolio.
- * Meet the client's wealth creation needs through financial planning.
- * Competent in retirement planning and estate planning.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction of Financial Planning Personal Finance Basics and Time Value of Money, Financial aspects of Career Planning, Money management strategy, Financial Statements and Budgeting, Planning your Tax Strategy.	10
II	Insurance of your resources Property Insurance, Motor vehicle insurance, health disability and long-term care insurance, Life insurance.	8
III	Investment Planning, I Managing your Money, managing your Credit, Investment Objectives, investing fundamentals, investing in stocks, Investing in bonds.	8
IV	Investment Planning II Understanding of Mutual Funds, Investing in Mutual fund, Investing in real estate and other investment alternatives	8
V	Retirement Planning and Estate Planning Retirement needs analysis, Development of retirement plans, Various retirement schemes. Objectives of will and creating a valid will; Power of Attorney, Setting personal financial goals. Life cycle approach to financial planning.	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignment/ Presentations/ Quizzes/ Class Participations/ etc.)	20% (CEC)
B	Internal Assessment	30% (IA)
C	End Semester Examination	50% (External Assessment)

Faculty of Management Studies: Master of Business Administration

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Customer Relationship Management
COURSE CODE	04MB0355
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Avail the understanding of the concept of CRM and its importance in marketing functions.
- * Gaining the conceptual & practical know-how of the system and tools used in contemporary CRM practices.
- * Understand the CRM planning process and the scope of the same.
- * Have a comprehensive idea about the various automation systems used in CRM.
- * Aligning the CRM to the business strategy and plan as well as implement the CRM strategies.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	CRM concepts – Acquiring customers, – Customer loyalty and optimizing customer relationships – CRM defined – success factors, the three levels of Service/ Sales Profiling – Service Level Agreements (SLAs), creating and managing effective SLAs. case study	8
II	CRM in Marketing – One-to-one Relationship Marketing – Cross-Selling & Up-Selling – Customer Retention, Behavior Prediction – Customer Profitability & Value Modeling, – Channel Optimization – Event-based marketing. – CRM and Customer Service – The Call Centre, Call Scripting – Customer Satisfaction Measurement. case study	8
III	Salesforce Automation – Sales Process, Activity, Contact- Lead, and Knowledge Management – Field Force Automation. – CRM links in e-Business – E-Commerce and Customer Relationships on the Internet – Enterprise Resource Planning (ERP), – Supply Chain Management (SCM), – Supplier Relationship Management (SRM), – Partner Relationship Management (PRM). case study	8
IV	Analytical CRM – Managing and sharing customer data – Customer information databases – Ethics and legalities of data use – Data Warehousing and Data Mining concepts – Data analysis – Market Basket Analysis (MBA), Clickstream Analysis, Personalization, and Collaborative Filtering. case study	8
V	CRM Implementation – Defining success factors – Preparing business plan requirements, justification, and processes. – Choosing CRM tools – Defining functionalities – Homegrown versus out-sourced approaches – Managing customer relationships – conflict, complacency, Resetting the CRM strategy. Selling CRM internally – CRM development Team – Scoping and prioritizing -Development and delivery – Measurement. case study	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignment/ Presentations/ Quizzes/ Class Participations/ etc.)	20% (CEC)
B	Internal Assessment	30% (IA)
C	End Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Value chain Management
COURSE CODE	04MB0356
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the different customers value and measuring inputs and outputs to assess value
- * Analyze and maximize value in accounting, operations, and marketing.
- * Generate value for customers and greater surplus for organizations.
- * Synthesize information to make decisions for organizational initiatives.
- * Apply analytical techniques for tactical operations and process improvement decisions.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Session
I	Module 1: Managerial accounting: Managerial accounting and its importance, financial perspective of accounting for costs, Problems associated with financial accounting information and internal decision making, Organize cost information, Apply activity-based costing (ABC) and recognize the influence of setting and decision characteristics on the relevance of ABC systems, cost-volume-profit (CVP) analysis, Apply CVP analysis in a variety of scenarios.	6
II	Module 2: Managerial Accounting- The role of managerial accounting information in common business decisions, Differentiating relevant and irrelevant information, Avoid common pitfalls in business decisions, master budget and its key components, the iterative and interrelated nature of budgeting, Capital investments via a variety of measures, how upper management uses variance analysis, Calculate, interpret, and investigate variances, decentralization and its advantages and disadvantages, Compute and interpret financial performance measures, the role of non-financial measures and strategic performance measurement systems, issues associated with performance measurement and incentives, the nature and role of subjective performance evaluation	10
III	Module 3: Operation Management- Analysis and Improvement Methods in operation Management, The role of operations management, principles to operations management frameworks and techniques, information to make strategic operations decisions, Evaluating processes on different dimensions, analytical techniques for tactical operations decision	8
IV	Module 4: Operations Management- Strategy and Quality Management for the Digital Age, the roles of process improvement, principles to frameworks and techniques used for process improvement, Information to make decisions for organizational initiatives and process improvement, Apply analytical techniques for tactical decisions in a process improvement project.	10

V	Module 5: Marketing Management - Define marketing, how marketing creates value, Elements of the marketing mix, Role of each element in creating value, Different analytical frameworks to examine to solve business problems, Brand extensions and how it can be evaluated, Developing a marketing Plan & proposal, Different pricing models, Use of different channels of distribution by existing businesses, Critique advertising execution, Create a persuasive advertising piece	8
----------	--	----------

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignment/ Quiz/ Class participation/ presentation/ etc.,	20%(C.E.C)
B	Internal assessment	30%(I.A)
C	End- Semester Examination	50% (External assessment)

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Emotional Intelligence
COURSE CODE	04MB0357
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the concept and significance of emotions
- * Explain the ability to recognize and regulate the emotions
- * Know how to use emotions to facilitate thought and behaviour that support high performance
- * Analyse the competencies of Emotional Intelligence for personal and workplace effectiveness
- * Gain Knowledge to measure and assess Emotional Intelligence

COURSE CONTENT:

Unit No.	Unit / Sub Unit	Sessions
Unit: 1	INTRODUCTION: Emotions–Concept, Components of Emotion, Emotion Wheel, Emotions and Childhood, Emotional Developments, Emotional Maturity, Emotions and Enneagram, Rational Emotive Therapy, Role of Emotions, Emotions and Attitude	10
Unit: 2	CONCEPT OF EMOTIONAL INTELLIGENCE: Emotional Intelligence- Concept, History of Emotional Intelligence, Science of Emotional Intelligence, Emotional Quotient and Intelligence Quotient, Models of Emotional Intelligence, Strategies to improve Emotional Intelligence, Emotional Intelligence and Resilience	8
Unit: 3	COMPONENTS OF EMOTIONAL INTELLIGENCE: Self-awareness, Self-regulation, Self-motivation, Empathy, Social skills, Developing Emotional Intelligence, Interpersonal Management, Intrapersonal Management, Problem Solving, Conflict Management	8
Unit: 4	EMOTIONAL INTELLIGENCE AT WORKPLACE: Role of Emotional Intelligence at Workplace, Stress Tolerance, Anxiety Management, Social Competencies, Emotionally Intelligent-Leadership, Emotionally Intelligence-Job Performance, Emotional Intelligence-Teamwork, Emotional Labour	8
Unit: 5	MEASURING EI AND IMPACT OF EI: Bar-On Emotional Quotient Inventory, Mayer-Salovey-Caruso Emotional Intelligence Test, The Work Group Emotional Intelligence Profile, Emotional Intelligence-Personality, Impact of Emotional Intelligence on Behaviour, Behavioural Emotional Quotient, Emotional Intelligence-Relationships	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/Experiment etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

COURSE CODE	04MB0358
COURSE CREDITS	3
COURSE DURATION	42 Hours (42 Sessions of 60 Minutes Each)

COURSE OUTCOMES: This course aims to,

- * Develop understanding about the basics of measurement theory.
- * Apply theoretical background for supplementing the understanding of psychological assessment.
- * Develop capacity for critical judgment of the adequacy of measures purported to assess behavior in the role of theory development.
- * Interpret test profiles and explore patterns in interpretation from several tests.
- * Develop a perspective about the intricacies and ethics of use of psychological tests.
- * Create scales or use established scales for measuring constructs.

COURSE CONTENTS:

Unit No	Unit / Subunit	Sessions
I	<p>Basics of Measurement Theory- Measurement in Science, Definition and Meaning of Measurement, Theories of Measurement: Campbell's Theory, Steven's Contribution, Types of Measurement Scale: Nominal, Ordinal, Interval, Ratio, Attributes of Measuring Instruments, Application of Measurement Theory to Educational and Psychological Research,</p> <p>Problems in Psychological Measurement Errors in Measurement- What are Errors of Measurement, Sources/Types of Error</p> <p>Speed Test versus Power Test – Speed Test, Power Test, Types and Errors and Speed and Power Tests, Effect of Unattempted Items on Errors of Measurement</p> <p>Criterion for Parallel Tests – Equality of Means, Variances and Covariances, Calculation of Lmvc, Interpretation of Lmvc, Equality of Variances and Covariances, Calculation of Lvc, Interpretation of Lvc, Equality of Means, Interpretation of Lm, Use of Parallel Tests to Calculate Test Reliability</p>	9
II	<p>Introduction to Psychological Testing – Psychological Tests: What are They? Nature and Characteristics of Psychological Tests, History of Psychological Testing, Types of Psychological Tests</p> <p>Test Construction – Test Construction and Standardization, Steps Involved in Test Construction</p> <p>Item Analysis – Introduction: Item Analysis, Item Discrimination, Item Difficulty, Item Validity: Biserial Correlation Method and Point-Biserial Correlation, Role of Item Characteristics Curve in Predicting the Test Scores</p>	8

	Scoring of Tests and Problems of Scoring – Scoring of Tests, Problems of Scoring: Time Scoring Problems, Response Prejudice/Bias, Scoring of Rank-Ordered Items, Importance of scoring in psychological testing	
III	<p>Reliability – What is Reliability? Methods of Calculating Reliability: (i) Test-Retest (ii) Parallel Form (iii) Split-Half (iv) Method of Rational Equivalence (v) Cronbach Alpha, Factors Affecting Reliability, Types of Reliability Used in Some Psychological Tests, Importance of Reliability in Psychological Testing</p> <p>Validity – What is Validity? Methods for Calculating Validity, Factors Affecting Validity, Using Validity Information to Make Prediction, Relationship between Reliability and Validity</p> <p>Norms – The Concept of Norms: Definition and Nature, Types and Methods of Calculating Norms, Difference between Norms and Standards, Types of Norms Used by Some Psychological Tests</p>	6
IV	<p>Applications of Psychological Testing in Educational Setting - Psychological Testing in the Field of Education, Two Practical Demonstrations with Scores, and Interpretation: Career Interest Inventory and Standard Progressive Matrices (SPM), Directory of Major Tests Used in the Educational Field: Foreign Test and Indian Tests</p> <p>Applications of Psychological Testing in Counselling and Guidance - Psychological Testing for Better Health, Adjustment and Counselling. Two Practical Demonstrations of Tests with Scores and Interpretation: Dimensions of Temperament Scale (DTS) and Family Environment Scale (FES)</p> <p>Applications of Psychological Testing in Organisational Setting - Two Practical Demonstrations with Scores and Interpretations: Myres-Briggs Type Indicator (MBTI) and Emotional Quotient (EQ) Test</p>	9
V	<p>Ethical Issues in Psychological Testing – Ethical Considerations in Psychological Testing, Specific Principles for Psychological Testing: America Psychological Association (APA) Guidelines, Moral and Legal Standards, Inter-Professional Relation, Responsibility Towards Organisations, Promotional Activities</p> <p>Basics of Factor Analysis - Factor Analysis: Introduction, Relationship between Correlation Coefficient and Factor Loadings, Communality, Specificity, Uniqueness, R-Type and Q-Type Factor Analyses, Merits of Factor Analysis, Major Limitations of Factor Analysis, When to Factor Analyse?</p> <p>Extraction of Factors by Centroid Method - The Purpose of Factor Extraction, The Centroid Method of factor extraction, Finding the number of Factors to be extracted: Fruckter Formula, Eigen Value Index and Residual Correlation Matrix, Rotation of the Reference Axis: Oblique Rotation and Scree Test, Interpretation of Factors.</p> <p>Applications of Factor Analysis - Applications of Factor Analysis to Various Fields, Theory Development, Test Development, Vocational Psychology, Personnel Selection and Job Performance, Clinical Psychology, Experimental Psychology, A Factor Analytic Study of the Dimensions of Temperament, A Factor Analytic Study of Socio-Economic Status, Frustration and Anxiety</p>	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly the scheme given below will be followed:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation etc.)	30% (C.E.C)
B	Internal Assessment	20% (I. A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Textbooks:

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	GOODS AND SERVICE TAX
COURSE CODE	04MB0361
COURSE CREDITS	02
COURSE DURATION	28 Hrs (28 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand basics of GST and the concept of Supply in GST
- * Analyse provisions of Input Tax Credit in GST
- * Evaluate provisions concerning various GST returns to be filed by GST Dealer and Modes of Payment of GST

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO GST AND SUPPLY Basics of Indirect Taxation – Difference between Direct Taxes and Indirect Taxes- GST charge and applicability – Advantages and limitations of GST – Concept of Supply and various types of supply under GST	12
II	INPUT TAX CREDIT Meaning of Input Tax Credit -Eligibility for taking Input Tax Credit – Conditions attached with availing and utilizing Input Tax Credit – Overview of blocked credit	8
III	REGISTRATION AND RETURN FILINGS UNDER GST -Persons required to take Registration under GST – Explanation of GST Portal – Process and Time Limit of taking Registration - Various returns under GST- Frequency of Returns – Overview of Payment of GST	8

NOTE:- Provisions of the GST Act as amended from time to time shall be the part of syllabus

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	0% (C.S.C.)
B	Internal Assessment	50% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Sourcing Management
COURSE CODE	04MB0372
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the process of how Sourcing works and its relationship with Production & Operations.
- * Interpret the meaning of Sourcing.
- * Integrate the in-depth knowledge of Sourcing Process, Vendor Selection.
- * Assess the Global Trends in Sourcing.
- * Devise the practices used in sourcing.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Understanding Sourcing as a Strategic Organizational Function -Evolution of purchasing, Purchasing, sourcing and vendor management as a key organizational function, purchasing objectives, Impact of strategic purchasing on profitability, Make or Buy Decisions, Types and methods of sourcing in retail; centralized vs decentralized, single sourcing vs multiple sourcing, day-to-day vs long range sourcing	8
II	The Sourcing Process -Market analysis and supplier research, Prime sources of supplier information, Request for Proposal, Fundamental steps of the buying process, terms and condition of purchase, Buying Documentation, Negotiation, Use of IT in sourcing, Global Tenders and E-Procurement, Reverse Auctions, Expanded role of global purchasing	8
III	Vendor Selection and Management -Vendor selection process, Evaluation of existing vendors, developing vendor performance measures, new vendor development process, working with suppliers to manage quality, JIT and TQM in sourcing, Key supplier account management, Vendor relationship development, Negotiation skills, Vendor monitoring, Promoting SME suppliers.	10
IV	Cross functional Approach to Sourcing - Overview of material management function and supply chain alignment, Role of purchasing in supporting inventory objectives, Goals of Inventory Control, hedging vs. Forward Buying, Risk management, managing price fluctuation and volatility in international finance, matching supply with customer demand, managing inward logistics, Transportation modes and warehousing.	10
V	Global Trends and Issues in Sourcing -Global Trade Barriers, Dealing with international suppliers, UNO and GATT conventions, Legal, socio-cultural issues in international buying, Environmental issues-Green Purchasing- Industry Best Practices, Measurement of sourcing performance, Benchmarking in Retail Purchasing.	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	03
COURSE TITLE	Total Quality Management
COURSE CODE	04MB0373
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Overview of quality and TQM and explain the salient contributions of Quality. General barriers in implementing TQM.
- * Interpret the meaning of TQM concepts like customer Focus, Employee Focus and their involvement, continuous process improvement and Supplier Management.
- * Explain the analytical skills required for investigating and analyzing quality management issues.
- * Illustrate the in-depth knowledge on various tools and techniques of quality management.
- * Review the ISO 14000 Principles and implementation of the same in Industries.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction - Need for quality - Evolution of quality - Definitions of quality - Dimensions of product and service quality - Basic concepts of TQM	06
II	TQM Framework - Contributions of Deming,- Barriers to TQM - Quality statements - Customer focus - Customer orientation, Customer satisfaction, Customer complaints, and Customer retention - Costs of quality.	08
III	Continuous process improvement - PDCA cycle, 5S, Kaizen - Supplier partnership - Partnering, Supplier selection, Supplier Rating, TQM TOOLS & TECHNIQUES the seven traditional tools of quality- New management tools - Control Charts - Process Capability	12
IV	TPM - Concepts, improvement needs- Performance measures. QUALITY SYSTEMS: Need for ISO 9000 - ISO 9001-2008 Quality System - Elements, Documentation, Quality Auditing - QS 9000 - ISO 14000 - Concepts, Requirements and Benefits	10
V	TQM Principles- Leadership - Strategic quality planning, Quality Councils - Employee involvement - Motivation, Empowerment, Team and Teamwork, Quality circles Recognition and Reward, Performance appraisal	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	03
COURSE TITLE	Material Management and Inventory Control
COURSE CODE	04MB0374
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Have the depth knowledge of material requirement planning-methods
- * Implement methods like EOQ, POQ in Industries and Manufacturing Sector.
- * Analyze the demands-supply gap and forecasting practices implementation.
- * Understand the importance of warehousing & inventory control.
- * Evaluate the store's operation and its importance in Industries.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to materials management –production planning system, master scheduling, material requirement planning-process, bills of material, using material requirements plan	06
II	Capacity management, purchasing, selecting suppliers, ordered quantity-EOQ, quantity discounts, period order quantity (POQ)	08
III	Physical distribution, Total quality management, production activity control, data requirements, order preparation	08
IV	Stock and inventories, models for known demand, just in time, models for uncertain demand- models for discrete demand, service level, periodic review methods, Planning and stocks- levels of planning, master and operational schedules, forecasting-methods,	12
V	Stores Management: Layout of stores and warehouse, material handling in stores, physical control of stocks : obsolete, surplus and scrap Management, accounting and record keeping of stores, classification, coding and codification systems,	08

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Fundamentals of Logistics and Supply Chain Management
COURSE CODE	04MB0375
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the importance of Logistics and Supply chain management relative to an Organization
- * Apply the techniques of supply chain management in the Industry
- * Examining the concept of Bull Whip Effect in managing Inventories
- * Integrating the concept of Outsourcing and its role in Supply Chain Management
- * Reviewing the concept of forecasting supply chain management in the industry

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Logistics management: Introduction, Logistics system design, Demand planning, Multiple channel distribution, Multi-echelon system, Model development, Concept of warehousing, Methods of storage, Primary and secondary transportation, Logistics information system, Logistics costing	6
II	Concept and various issues involved, EOQ models, Buffer Stock, leave time reduction, reorder point, ABC analysis, SDE/VED analysis	8
III	Supply chain management: Overview, Supply chain basics, Decision phases in a supply chain, Planning and operations, Importance of supply chain process, Functional and organizational scope of SCM, Management of Demand and supply in SCM, Capacity, Inventory, market segments, Supply chain forecasting, Supply chain forecasting management performance (SCFMP). Collaborative planning, forecasting and replenishment (CPFR).	12
IV	Drivers of outsourcing: Procurement approaches to SCM, Operational, strategic and global outsourcing, Production supply chain model, Intrafirm production, Build to order production, Lean, JIT, Dispersed production Relevance and role of supply chain coordination	10
V	Bullwhip effect: Modeling the impact of information on inventories, Role of Marketing, sales and R&D in SCM, Information systems and technology in supply chain, E-Business models: B to B, B to C. Managing service	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	4
COURSE TITLE	Business Ethics & Corporate Governance
COURSE CODE	03BM0401
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

Learning Outcomes: This course aims,

- * To demonstrate an enhanced appreciation for the relevance and practical application of ethics in the role of management.
- * Critically evaluate the different ways in which people may respond to ethical issues at work and what may influence such responses.
- * To develop accountability towards business and community through understanding of principles and importance of corporate governance.
- * Critically evaluate the theory of corporate governance and apply these theories in analyzing corporate structures, board composition and how boards of directors conduct their affairs.
- * To appreciate how the ethical and business values of different countries and societies differ.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Business Ethics: Meaning, Nature and Sources, Features of Unfair Business Practices, Ethical Theories, Values: Meaning, Types, Teaching from Scriptures like Gita, Quran, Bible w.r.t. Indian Value Systems in Business.	10
II	Institutionalization of Business Ethics: Ethical dilemma, Ethical Leadership, Ethical Decision-making, Ethical Dilemmas in Organization, Ethics of Whistle Blowing, Creative Accounting, Insider Trading, Social Responsibility of Business, Ethics in Functional Area - Marketing, Finance, Human Resource, and Information Technology	9
III	Introduction to Corporate Governance (Framework in India): Meaning, Principles, Significance, Dimensions of CG, benefits of CG, issues in CG, Reasons for corporate Governance Failure, Certain new initiatives in Governance, Corporate Governance Reports of Narayana Murthy Committee, Clause 49 and role of SEBI, Naresh Chandra, Ganguly Committee by RBI	7
IV	Internal Control System: Board Structure, Various Board Committees (remuneration committee, nomination committee, CSR committee, Stake Holder committee, Audit committee), Role, and responsibilities of Independent director, Corporate governance rating. Training of Board Member	7
V	Corporate Governance in Globalized Economy (International Perspective): Introduction- Corporate Governance in Globalized Economy, Corporate Governance in Family-owned Business, International Corporate Governance Committee and Acts, Cadbury Committee, OECD Principles, Sarbanes Oxley Act of 2002,	9

EVALUATION:

The students will be evaluated on a continuous basis and broadly the scheme given below will be followed:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation etc.)	30% (C.E.C)
B	Internal Assessment	20% (I. A.)
C	End-Semester Examination	50% (External Assessment)

SEMESTER	4
COURSE TITLE	Management Information System
COURSE CODE	04MB0402
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the role of Management Information Systems in achieving competitive business advantage through informed decision-making.
- * Analyse how information technology impacts a firm in terms of value creation and bring about strategic advantage for a firm.
- * Gain consciousness about the ethical responsibilities while dealing with information.
- * Develop the ability to make meaningful decisions aimed at acquisition, development, deployment and management of information systems.
- * To explain the contemporary issues related to emerging technologies and

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Organization and Information Systems: The Organization: Structure, Managers and activities. The level of people and types of decisions and their information needs. Changing the Environment and its impact on Business - IT/IS and its influence. Information Systems: Data, information and its attributes. Information Systems – meaning, functions and dimensions and needs. Categorization of Organizational Information Systems – hierarchical and functional perspective. Strategic business use of IS: Interdependence between organization and IS · IS strategies for competitive advantage using Porter’s Five Forces Model and Value Chain Mode	10
II	Types of Information systems - I: Meaning, functions and applications of: - Transaction Processing Systems - Management Information Systems - Decision Support Systems - Executive Support / Information Systems o Digital Dashboards o Artificial Intelligence and Machine Learning - Expert Systems	10
III	Types of Information systems - II: Meaning, functions and applications: - Functional system: o Financial o Human Resource o Marketing o Production and Operations.	10
IV	Ethical Issues pertaining to IS: · Ethical responsibilities of business professionals · Computer crime – hacking & cracking, cyber theft, unauthorized use at work, software piracy, theft of intellectual property, viruses & worms, adware and spyware.	12
V	Information Security: · First line of defence – People / employees · Second line of defence – Technology for authorization, prevention, detection and response. Contemporary/ emerging technologies: · Cloud and mobile computing · E-commerce, m-commerce · Internet of Things Enterprise Systems: Business Process integration: ERP o Supply chain management systems o CRM o Business Intelligence	

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Master of Business Administration
SEMESTER	4
COURSE TITLE	Corporate Restructuring and Valuation
COURSE CODE	04MB0403
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Understand the various forms of corporate restructuring.
- * Evaluate the value of firms undergoing corporate restructuring.
- * Estimate value of synergies for valuing firms at the time of corporate restructuring.
- * Equip with accounting and tax aspects of M & A.
- * Analyze and develop a leader's approach in implementing and integrating the strategies of Merger and acquisition.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Basics of corporate restructuring Corporate restructuring: Meaning, Reasons for corporate restructuring, Barriers to Restructuring, Forms of corporate restructuring Mergers and acquisitions: Meaning, Various concepts, Theories of M&A, reverse mergers Strategic alliances: Meaning, reasons Take Over: Meaning, techniques for takeover, defense tactics of takeover	8
II	Forms of corporate restructuring Demergers: Meaning, Split off, Spin off, Slum sale, Equity carve-out Employee stock option plan: Meaning, Conditions/features, SEBI guidelines for ESOP Going private and Leverage buyout : Concept, Types of Leverage Buyouts Share buyback: Meaning, SEBI guidelines Cross border mergers and acquisitions: Concept, Benefits of Cross Border Acquisitions, Difficulties in Cross Border Acquisition Due Diligence: Concept, Types of Due Diligence Sources of fund for M & A	8
III	Accounting and taxation of Mergers and Acquisitions (Theory and examples) Accounting standard 14, Methods of accounting, balance sheet restructuring after M & A Provisions of Income Tax Act	8
IV	Valuation of business: (Theory and examples) Asset Based Valuation Net Asset Method: Book Value basis, Market value basis, liquidation value basis Income Based Valuation: Equity Valuation and Firm Valuation covering Stable growth and two stage growth (FCFE and FCF models), Dividend Yield Method, Capitalization Method	10

V	Recent trends in Mergers and Acquisitions, Contemporary issues in M& A Practical learning through real Indian cases: Acquisition of Corus by TATA, Demergers of L&T and Ultratech, Demerger of RTL and RITL, Acquisition of Kotak by ING Vysya bank, Consolidation Dena bank/ Vijya Bank and Bank of Baroda, Acquisitions of Jaguar and Land rover by TATA	8

PROGRAM	Master of Business Administration
SEMESTER	3
COURSE TITLE	Financial Modeling and Analytics
COURSE CODE	04MB0404
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each

COURSE OUTCOMES:

- * To understand Financial Modeling and use of MS Excel in Financial Modeling
- * To analyze performance of a firm in terms of Profit and loss, Balance sheet and Cash flow Analysis
- * To Develop an integrated knowledge of Forecasting Model of Financial statement
- * To develop and design the model for analysis of securities
- * To Develop knowledge of Investment Analysis

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Financial Modeling : What is Financial Model, Excel as Modeling tool, Independent and Dependent Variable, Steps in Creating Model – Define and Structure Problem, Define Variable, User of the Model, Design, Spreadsheet, Test the model, Protect and Documentation of Model, Update Model, Overview of Financial Modeling Using Excel -overview on Basic and Advanced Functions(Relative Cell reference, Creating Name for Cell and Range, Data Table, Scenario Manager, Goal Seek, Logical Functions, Data Validation, Conditional Formatting, Solver, Pivot table), Financial Functions – Annuity, PV, FV, PMT, NPER, RATE, IPMT, PPMT, TVM Functions,	06
II	Analyzing Performance and Cash flow Analysis - Profit and loss, Balance sheet, Key ratios – Du Pont ratios (core ratios), Profitability, Operating efficiency, Leverage, liquidity and capital structure, Coverage on interest, Trend analysis, Sustainability Cash flow - Deriving cash flow – NOCF, free cash flow, Cover ratios	08
III	Forecasting Model and Forecast Financials - Linear regression and Multiple Regression, Trend lines, Trend lines for analysis, Data smoothing – Simple Moving Average and Exponential Moving Average, Forecast financials Key drivers - Deriving financial statements Analysis	10
IV	Portfolio Analysis and Bonds Pricing -Review Of Theory And Concept, Model 1: Calculating Total Returns, Model 2: Comparing Returns On Several Assets, Model 3: Comparing Nominal And Real Growth Of Investment, Model 4: Comparing Rolling Period Returns, Simulating Stock Prices : Model 1: Estimating A Stock's Volatility, Model 2: Simulating Stock Prices, Model 3: Lognormal Distribution Of Stock Prices, Bonds Pricing- Yield measures - Yield to maturity, Duration, Sensitivity Chart and modified duration	08
V	Investment analysis Investment model revisited, Payback and discounted payback, Accounting Return, Net present value, Fisher Formula, Internal rate of return, Benefit Cost Ratios, Management tests – cash flow etc., Scenarios, Sensitivity analysis and graphs, Capital rationing – Solver and Solver Chart	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment (Lab based Practical Examination using software)	30% (I.A.)
C	End-Semester Practical Examination	50% (Practical/VIVA)

PROGRAM	Master of Business Administration
SEMESTER	4
COURSE TITLE	Project Appraisal & Finance
COURSE CODE	04MB0405
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- * Gain knowledge on various aspects of projects planning, project selection and implementation
- * Apply the Project Appraisal methods for financing and risk evaluation of various distinct projects.
- * Evaluate Projects with the help of projecting cash flows and making capital allocation decisions by developing profitability projections.
- * Acquaint with the application of mathematical and statistical tools for analyzing project appraisal decisions and managerial problems.
- * Develop the strategies employed in managing project risk.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION AND OVERVIEW OF PROJECTS Understanding Project and Project Management, Project identification and idea generation monitoring and evaluating the environment corporate appraisal for identifying investment opportunities scouting for project ideas and contracting project rating index strategy (corporate & business level) and proper resource allocation process.	8
II	PROJECT APPRAISAL Market and Demand Analysis: Identification of the Target Market, Choice of the Market Strategy, Projection of Demand using Primary Data and Secondary Data, Projection of Demand using Qualitative models. Technical Analysis: Selection of appropriate technology, acquisition of technology, choice of good location of the project, design of the layout of facilities at project site	8
III	PROJECT FINANCEING AND RISK ANALYSIS Project Financing: Pattern of financing, Sources of finance, Menu of financing, capital structure, debt capital, debentures, bonds, Term Loans, Working capital, Advances, equity and preference capital, project financing structures. Various debt instruments and innovative Structures, New source of financing avenues for promoting projects-venture, seed finance. Project risk analysis: sources, measures and perspectives on risk, types of risk, sensitivity analysis, scenario analysis, stimulation analysis, BEP analysis, Hillier Model, Decision making tree analysis, managing risk and project selection under risk.	8
IV	SOCIAL COST BENEFIT ANALYSIS Rationale for SCBA, UNIDO Approach, Net benefit for economic efficiency, measurement of impact on distribution, shadow prices and adjustment of goods, saving and income	8

	distribution impact, Little-Mirrlees Approach, SCBA for financial institution and investment decision making in India.	
V	FINANCING INFRASTRUCTURE PROJECT AND SPECIAL DECISIONS SITUATION Financing Infrastructure Project: key project parties, financing power project Infrastructure Project Financing and managing risk associated with it, Different considerations for projects under private, public, and joint sectors. PPP models Special Decisions Situation: Choice between mutually exclusive projects and unequal life, determination of economic life of the project and capital budgeting for the projects.	8

Note: Case study falling in the below mentioned area should be considered

Hydro-electric project, Thermal Power Project, Irrigation Ports, Urban, Waste Management, Telecom sector, National Highways, Promoting world class school, Franchise mode of Business, Essence of Detailed Project Report

EVALUATION:

Weight age A (C.S.C.) B (I.A.) C

	Component	Weightage
A	Continuous Evaluation Component (Project report preparation or analysis, comparative analysis of report of similar projects, preparation of project appraisal report or presentation/ assignment/ Quizzes / Class Participation etc)	20%
B	Internal Assessment	30%
C	End-Semester Examination (External Assessment)	50%

PROGRAM	Master of Business Administration
SEMESTER	4
COURSE TITLE	Supply Chain Management
COURSE CODE	04MB0407
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

Course Outcomes

- ❖ Understand how the supply process with end-to-end solutions
- ❖ Gain in depth knowledge about how the drivers affect the supply chain business strategies.
- ❖ Will be able to develop a critical skill set thinking which helps to take decisions related to supply problems.
- ❖ Learn supply chains with the appropriate levels of risk involved in managing supply networks.
- ❖ Apply information systems to develop and support visibility in the supply chain.

Course Contents:

Unit No	Unit/Sub-unit	Sessions
Unit I	INTRODUCTION TO SUPPLY CHAIN MANAGEMENT: Evolution, Importance, Supply Chain Performance Enablers, Performance Measures: Customer Service & Cost Trade-off, Supply Chain Benchmarking, Supply Chain and Business Performance, Enhancing Supply Chain Performance Outsourcing: Make-Vs-Buy - Core Process, Market versus Hierarchy, Portfolio Approach, Impact of Internet on Sourcing Strategy, case study	09
Unit II	MANAGING MATERIAL FLOW: Inventory Management: Types - Cycle Stock, Safety Stock, Seasonal Stock, Inventory Costs Transportation: Drivers, Mode of Transportation - Choice & Performance, Transportation for E-Retailers Facility Location: Factors affecting location decision, Role of location in network. case study	08
Unit III	MANAGING INFORMATION FLOW Demand Forecasting: Role of Forecasting, Qualitative Forecasting, Quantitative Forecasting, Behavioral Issues in Forecasting Information Technology in Supply Chain Management: Transaction Execution, Collaboration and Coordination, Decision Support, Measurement and Reporting, case study	08

Unit IV	SUPPLY CHAIN INNOVATIONS: Supply Chain Integration - Internal Integration, External Integration, Building Partnership and Trust in a Supply Chain. Vendor Managed Inventory, Efficient Customer Response System Supply Chain Restriction - Mapping, Process Restructuring, Point of Differentiation, Shape of Value-addition Curve, Advancing customer ordering point, case study	10
Unit V	MANAGING SUPPLY CHAIN DISRUPTIONS: Agile Supply Chains - High Demand Uncertainty Environment, Responsive Supply Chain Approach, Supply Chain Disruptions and its impact on Business, Methods of Handling Disruptions Supply Chain Cases.	07

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Master of Business Administration
SEMESTER	4
COURSE TITLE	International Supply Chain Management
COURSE CODE	04MB0417
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES

- * Get a comprehensive knowledgebase of international supply chain management.
- * Examines foundational international supply chain concepts, strategic implementations, and operational techniques which will develop critical thinking.
- * Formulate and implement various techniques which can be used for warehouse management.
- * To deal with issues related to forecasting, inventory management, distribution, dealing with uncertainty, and reverse logistics.
- * Cover dynamics, evolving issues pertaining to the international supply chain which affects the stakeholders across global level.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Foundation of International supply chain Drivers of supply chain, Stock Valuation & verification. Disposal of obsolete and scrap items. Vendor rating. Right time of buying, method of materials handling, case study	09
Unit-II	Transportation Infrastructure Ports, Canals & waterways, Airport, rails & Structures. Road & warehousing Different communication infrastructures Utilities infrastructure. Service, Legal & regulatory infrastructure, case study	09
Unit III	Enter International Markets Different ways to international Methods of entry Indirect ways, active exporting production abroad, parallel imports, Counterfeit goods. Case study	09
Unit IV	Types of Contracts International Contracts, Incoterms, & terms of payments International Insurance and documentation & paper works Air water, land & Multimodal transportations, packaging & Custom clearance case study	09
Unit V	Pricing strategy in international supply chain management, Dumping, price distortion, case study Practical module Which will be done by individual students as such which will have a presentation on paper works required for the customs clearance either students have to go to the offices or have to visit the dock for the business purpose	06

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

II	NEED OF SETTING UP OF REGIONAL RURAL BANKS : Salient provision of Regional Rural Banks Act, 1976, Management and functioning of RRBs, Organizational structure of RRBs, Performance of RRBs, Merger of RRBs, Present status. Role of Government, RBI and NABARD in monitoring Rural Credit, refinance and other supports, New initiatives in rural banking: financial inclusion, BC/ BF model, mobile banking etc., Financing for non-farm activities and other matters- Credit to small and micro enterprises in rural areas, indirect advances to agriculture, artisans credit cards, financing under Govt. sponsored schemes – PMEGP, NRLM, Linking SHGs with bank credit, Financing Joint Liability Groups, Various types of Loan Securities, Loan documentation, financial inclusion, financial literacy and credit counselling, role of farmers' club.	9
III	FINANCIAL AND OPERATIONAL EVALUATION AND MODELS : Conventional Models, Direct Method; Indirect Method; – Business Facilitator/Business Correspondent Model,- Engagement of Business Facilitators/Correspondents: Concerns and Safeguards; Policy for identification and Acceptance – Bank-MFI Bulk Lending Model – Partnership Model, Promoting Bank-MFI Partnership Model. Analyzing and Managing Financial Statements of MFIs/RRBs	9

IV	Development of Microfinance in India: Types of Products – Savings, Objectives – Micro insurance, Regulation of micro insurance; Insurer-MFI Partnership Model – Securitization, Need for Securitization in India – ICICI Bank Lending Products. Sustainable Development Issues: Why Self-Help Groups? – Objectives – Promotion, SHG Issues, What are the Important Steps for Sustainable Development of SHGs? What are the Skills needed for Managing Successful SHGs? – Promotion of Micro Enterprises, Micro Enterprises-Opportunities and Challenges; Characteristics of Micro Enterprises; Micro Enterprise Promotion-Critical Gaps; Cluster Approach for Micro Enterprise Promotion; Types of Clusters; Challenges for Cluster Micro Enterprises – Capacity Building – Assessment of MFIs, Rating of Microfinance Institutions; Non-financial Parameters; Financial Parameters; Approach for MFI Evaluation – CRISIL Model, CRISIL’s Criteria for MFI Evaluation.	10
V	Issues, Trends and Frontiers of Microfinance: Emerging Issues in Microfinance, Gender Issues in Microfinance, Role of Technology in Microfinance ,Micro Credit as Priority Sector Advance, Impact of Microfinance on Empowerment of Women Regulatory Framework- Recommendations of Expert Groups,; Interest Rates; Savings; Regulations on Investment; Response to Primary Concerns: Bridging the Gap with Safeguards; Rate of Interest; Vepa Kamesam Group Recommendations – Microfinance Risk Scenario – Political Risk; Economic Risk; Currency Risk; Geographical Risk; Saturation and Unhealthy Competition; Institutional Risk.	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignment/ Presentations/ Quizzes/ Class Participations/ etc.)	20% (CEC)
B	Internal Assessment	30% (IA)
C	End Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Master of Business Administration
SEMESTER	4
COURSE TITLE	Insurance and Risk Management
COURSE CODE	04MB0427
COURSE CREDITS	3
COURSE DURATION	42 Sessions

COURSE OUTCOMES:

- Analyze the concept of Risk and role of insurance in Risk management.
- Appraise the role of Health insurance and fire insurance in providing financial protection under catastrophic risk.
- Evaluate the role of Marine insurance in enhancing international trade and risk management.
- Determine the risk associated with vehicle ownership and role of Automobile insurance.
- Identify the role of Reinsurance in risk transfer.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Risk Management Concept of Risk and Uncertainty, Peril, Hazard, Classification of risk – Pure and speculative risk, Diversifiable risk and non-diversifiable risk, Enterprise risk, Systemic risk, Technique of risk management. Insurance and Risk – Definition and characteristics of insurance, Insurance and Gambling, Insurance and Hedging, Type of insurance, Benefit, and cost of insurance. Introduction to Risk Management – Meaning and Objective of risk management, steps in the risk management, personal risk management, benefit of risk management. Enterprise risk management – Meaning, Insurance market dynamism, introduction to loss forecasting, Risk management tools	10
II	Non-Life Insurance - I Health Insurance - Meaning, Current scenario, Health insurance plans schemes, Micro health insurance. Fire insurance – Fire insurance contract, proposal and coverage, special coverage, Progress of fire insurance.	8
III	Non-Life Insurance – II Marine Insurance – Definition, history of marine insurance, Marine insurance contract, marine insurance policies, policy condition, special marine cover, marine cargo loss and fraud. Automobile Insurance – losses associated with automobile ownership and usage, need of automobile insurance, type of policies, factors considered in premium rating.	8
IV	Underwriting and Claim Management Underwriting – Philosophy of underwriting, objective, and principles of underwriting, underwriting of life and non-life insurance. Claims Management – Introduction, claim settlement in general insurance, claim management in life insurance, repudiation of claims.	8
V	Reinsurance and Financial Aspect of Insurance Companies Reinsurance – Introduction, role of reinsurance, techniques of reinsurance, nature of reinsurance, reinsurance in India, Global reinsurance market, reinsurance trading. Financial Aspect of Insurance companies – Financial objective of an Insurance companies, role of financial manager,	8

	performance measurement of Insurance companies, Asset Liability management, ratio analysis in insurance companies	
--	---	--

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

PROGRAM	Master of Business Administration
SEMESTER	04
COURSE TITLE	Enterprise Resource Planning and Business Process Management
COURSE CODE	04MB0428
COURSE CREDITS	03
COURSE DURATION	42 hours

COURSE OUTCOMES:

After completing the syllabus students should be able to-

- Understand how ERP works and its relationship with SCM.
- Categorizing the steps in SCM process and how it can be applied in real world.
- Explaining the in-depth knowledge of MRP, ERP and SCM
- Reviewing of Various model of SCM and ERP
- Adapting the Application of ERP in SCM.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction: Evolution of ERP and SCM, MRP (material requirement planning, manufacturing resource planning, ERP-enterprise resource planning)	6
II	Case: SAP ERP, implementing business process with SAP ERP, ERP system implementation, Manufacturing systems	8
III	SCM- supply chain management, modeling intercompany business processes, SCOR model	10
IV	SCM data structures and advance planning, advanced SCM planning approaches, APS-Advanced planning and scheduling, planning inventory and orders.	10
V	SAP scm- SAP advanced planner and optimizer, CIF –core interface, SAP SCM modules	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation etc.)	30% (C.E.C)
B	Internal Assessment	20% (I. A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Data Visualization and Analytics using Power BI
COURSE CODE	04MB0429
COURSE CREDITS	3
COURSE DURATION	42

COURSE OUTCOMES:

- Understand BI process and application of MS-Power BI in business analytics
- Apply the software knowledge to cleanse and transform data and build relational databases
- Analyze data through a variety of basic and advanced visualization tools available in Power BI
- Apply advanced data analysis tools such as DAX expressions
- Build Business Intelligence reports with cutting-edge visuals and analyses

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	<p>Introduction to Business Intelligence and Power BI Understanding the business intelligence (BI) process, BI and Power BI, Power BI parts and pieces, The Power BI architecture – Power BI Desktop, Power BI Service, Power BI Report Server, Power BI Mobile App, installation and overview of the interface</p> <p>Interacting with Power BI Desktop Opening a Power BI report/ preparing an Environment, working with single and multiple report items, altering a report (slicer, filter), navigating through Power BI reports</p>	8
II	<p>Building Data Models: Gathering data – Get data, Power BI connection types, Transforming data, The Power BI Query Editor, Shaping and Cleansing Data, Loading Transformed Data, Combining Datasets, creating intermediate tables, building relationships, creating a tabular model, formatting-hierarchies, groups and bins</p> <p>Creating Power BI Visuals-I: Basic visuals, Column chart, slicer, Tables and Matrix visualization, Cards and Multi-row cards, Pie, Donut, Treemap</p> <p>Basic formatting of visuals</p>	10
III	<p>Creating Power BI Visuals-II: Gauge chart (highlighting performance wrt set target) Exploring Interactivity with different types of slicer (horizontal-list, dropdown, range), Scatter plot (play-axis: chart in motion), Drill through feature, Geographic visualizations-bing map, filled map, shape map, Other visual elements (text boxes, images and shapes)</p> <p>Visual Formatting: page-specific and chart specific, advanced formatting (conditional formatting, data bars), visualization analytics tab, advanced interactivity and custom visualization-changing interactivity from highlights to filters in report settings, Synchronizing slicers, Bookmarks, Buttons</p>	10

IV	<p>Measures and Calculated Columns: Calculated Columns, Measures- default summarization, explicit measures, measures and context, time analytics, row-by-row calculations, the FILTER() function, DAX variables</p> <p>DAX Language Reference: Dax Operators-comparison operators, arithmetic operators, text operators, logical operators, Dax functions- Modifying Context, Time-valued functions, aggregate functions, DAX functions and time analytics, Parent/Child relationships, Additional DAX functions</p>	8
V	<p>Additional Power BI Desktop Features:</p> <p>Model features- Synonyms, linguistic schemas, display folder, What-if parameters</p> <p>Performance Analyzer- Capturing performance information, viewing the DAX Query</p> <p>Import and Export- Excel Workbook content, Power BI Templates</p>	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment (MCQ)	30% (I.A.)
C	End-Semester Practical Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
T-01	Brian Larson	Data Analysis with Microsoft Power BI	McGraw-Hill Publications	1 st Edition, 2020
T-02	Devin Knight, Brian Knight, Mitchell Pearson, Manuel Quintana and Brett Powell	Microsoft Power BI Complete Reference	Packt Publishing	1 st Edition, 2018

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
R-01	Greg Deckler	Learn Power BI: A beginner's guide to developing interactive business intelligence solutions using Microsoft Power BI	Packt Publishing	1 st Edition, 2019.
R-02	Mitchell Pearson	Microsoft Power BI Quick Start Guide: Build dashboards and visualizations to make your data come to life	Packt Publishing	1 st nd Edition, 2018.

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Business Analytics using Python Programing
COURSE CODE	04MB0430
COURSE CREDITS	3
COURSE DURATION	42

COURSE OUTCOMES:

- Apply knowledge of coding and write programs in Python
- Use python coding for string extraction, manipulation and data handling
- Apply different in-built modules such as math, random and Regular Expressions for computation and analysis purpose
- Apply different data analysis modules such as NumPy, Pandas for exploring and analyzing data
- Analyze data using various visual representations and descriptive measures

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Python Programming: History, Features, Installation of Anaconda platform, The Python Shell , Use of a text editor , Jupyter Notebook, Spyder, Executing Python scripts, Basic Syntax, Variables, Data Types, Operators Conditional Statements, Looping, Control Statements: Conditional Statements: if, elif, else Nested if-else, catching exceptions "try and except" Looping: For, While, Nested loops Control Statements: Break, Continue, Pass	8
II	File Handling: Opening files, Reading files, Searching through a file, Writing files String Manipulation: Accessing Strings, Basic Operations, String Slices, looping and counting, String Methods, Parsing strings Lists: Introduction, Accessing Lists, Operations, Working with Lists, Functions and Methods Dictionaries: Introduction, Accessing values in Dictionaries, Working with Dictionaries, Properties, Functions Tuples: Introduction, Accessing tuples, Operations, Working with Tuples, Functions and Methods	10
III	Functions: Built-in functions, Defining a function, Calling a function, Function Arguments Modules: Importing a Module, Math Module, Random Module, Regular Expression Module	6
IV	Programming with NumPy and Pandas Modules NumPy Ndarray-Creating Numpy arrays , types of data, the dtype option, intrinsic creation of an array, Operations on NumPy Arrays , arithmetic operators, the matrix product, increment	10

	and decrement operators, universal functions (ufunc), aggregate functions, indexing an array, Slicing arrays, iterating an array, shape manipulation, Array manipulation- splitting and joining arrays, Reading and writing array on data files. Pandas Introduction to Pandas data structures, Creating series, Creating DataFrames, Adding data , Saving DataFrames , Indexing methods , Slicing a DataFrame , Arithmetic methods with DataFrames, Reading and Writing Data, I/O API tools, CSV and Textual files, Reading Data in CSV or Text Files, Writing Data in CSV, Reading and Writing Data on MS-Excel Files	
V	Descriptive Analytics using Python Loading a dataset into Pandas DataFrame, Displaying records of the DataFrame, Value Counts and Cross Tabulations, Sorting values by columns, Creating New Columns, Filtering Records Based on Conditions, Summary measures Exploration of data using visualization (Using Matplotlib library), Bar chart, Histogram, Distribution or Density Plot, Box Plot, scatter plot, pair plot, correlation and heat map	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment (MCQ)	30% (I.A.)
C	End-Semester Practical Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year

R-03	Martin C. Brown	The Complete Reference Python	McGraw Hill	1st Edition, 2018.

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Application of Cloud Management
COURSE CODE	04MB0431
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the management of cloud services
- Develop and implement cloud IT model
- Examining the Cloud Computing Fundamentals.
- Analyse how Cloud Platform using in Computer Network
- Reviewing the consciousness about cloud Services.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Cloud Technologies: Introduction to the Cloud Computing, History of cloud computing, Cloud service options, Cloud Deployment models, Business concerns in the cloud.	06
II	Virtualization and Cloud Platforms: Exploring virtualization, Load balancing, Hypervisors, Machine imaging, Cloud marketplace overview, Comparison of Cloud providers.	08
III	Management of Cloud Service: Reliability, availability and security of services deployed from the cloud. Performance and scalability of services, tools and technologies used to manage cloud services deployment; Cloud Economics:	10
IV	Cloud IT Model: Analysis of Case Studies when deciding to adopt cloud computing architecture. How to decide if the cloud is right for your requirements. Cloud based service, applications and development platform deployment so as to improve the total cost of ownership (TCO)..	12
V	Cloud Computing infrastructures available for implementing cloud-based services. Economics of choosing a Cloud platform for an organization, based on application requirements, economic constraints and business needs (e.g Amazon, Microsoft and Google, Salesforce.com, Ubuntu and Redhat)	06

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation etc.)	30% (C.E.C)
B	Internal Assessment	20% (I. A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year
T1	Toby Velte, Anthony Velte, Robert Elsenpeter	“Cloud Computing, A Practical Approach”	McGraw-Hill Osborne Media	1 edition 2009.
T2	Thomas Erl	Cloud Computing Design Patterns	Prentice Hall	2012

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
R-01	Rajkumar Buyya	Cloud Computing: Principles and Paradigms	John Wiley & Sons	2016
R-02	Dimitris N. Chorafas	Cloud Computing Strategies	CRC Press	1 edition 2010.
R-03	Gautam Shroff	Enterprise Cloud Computing Technology Architecture Applications”	Cambridge University Press	1 edition, 2010

PROGRAM	Master of Business Administration (Business Analytics)
SEMESTER	IV
COURSE TITLE	Supply Chain Analytics
COURSE CODE	04MB0432
COURSE CREDITS	03
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the use of Analytics in the applications of Supply Chain, Logistics and Material Management for Business Competitive Advantages.
- Master and apply the Core Methodologies used in Supply Chain Analysis and Modeling, including Statistics, Regression, Optimization and Probability.
- Use analytical tools like R, and MS Excel efficiently in order to take Managerial Decisions more Effectively
- Ability to Analyze and understand real problems in order to develop realistic models and understand the strengths and weaknesses of various modelling approaches.
- Be able to perform practical Quantitative Analysis related to Operations and Supply Chain Management.

COURSE CONTENTS:

Module No.	Unit/ Sub Unit	Sessions
I	SC Analytics and Warehousing Decisions: Defining Supply Chain Analytics, Importance of SCA, Basics of Metrics and KPIs, Warehousing Decisions: Layout Planning, Mathematical Programming Models, P-Median Methods, Guided LP Approach, Balmer – Wolfe Method, Greedy Drop Heuristics, Dynamic Location Models, Space Determination and Layout Methods Big Box Retail example of Supply Chain Analytics Purchasing model using Supply Chain Analytics	8
II	Inventory Management and Materials Planning: Inventory aggregation Models, Dynamic Lot sizing Methods [EOQ/EPQ], Multi-Echelon Inventory models, Aggregate Inventory system and LIMIT, Materials Management, MRP Systems and Extensions [MRP I and MRP II] Operational Accounting example with SCA Sales and Operational planning model of SCA	10
III	Transportation Network Models: Notion of Graphs, Minimal Spanning Tree, Shortest Path Algorithms, Maximal Flow Problems, Multistage Transshipment and Transportation Problems, Set covering and Set Partitioning Problems, E-Commerce example in Supply Chain Analytics Project Management example of SCA	12

IV	Risk Analysis in Supply Chain and Applications: Risk in Supply Chain, Measuring Transit Risks, Supply Risks, Delivering Risks, Risk Pooling Strategies. AHP in Supply Chain, Data Envelopment Analysis, Example in Logistic models	12
V	Use of Third Party Logistics; Principle of Postponement, Beyond Supply Chain Optimization to Enterprise Optimization, Organizational Adaptation to Modelling Systems, Traveling Salesman Algorithms, Advanced Vehicle Routing Problem Heuristics, Scheduling Algorithms-Deficit Function Approach and Linking Algorithms Reverse Supply Chain Analytics	CEC

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight-age
A	Continuous Evaluation Component (Assignments / Quizzes /Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
TEXT BOOKS:

SNo	Author/s	Name of the book	Publisher	Edition and Year
T-01	Gerard Blokdik	Supply Chain Analytics: Beginner's Guide	Createspace Independent Pub	2 nd .edition,2017
T-02	Sunil Chopra and Peter Meindle	Supply chain management	Pearson Education Limited	6 th edition,2015

REFERENCE BOOKS:

SNo	Author/s	Name of the book	Publisher	Edition and Year

R-02	G. Raghuram (I.I.M.A.)	Logics and Supply Chain Management	Macmillan	2000
R-03	Jeremy F. Shapiro	Modeling the Supply Chain	Thomson Brooks/Cole	2 nd , edition, 2007

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Management of Services
COURSE CODE	04MB0433
COURSE CREDITS	3
COURSE DURATION	42

COURSE OUTCOMES:

Students should be able to understand:

- Understand The role of services in an economy.
- Designing the service enterprise to support the competitive strategy.
- Illustrating the day-to-day operations in Management of Service.
- Assessing the Quantitative models for service management.
- Examining how management of forecasting demand for service can be done.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	The Role of Services in an Economy, The Nature of Services, Service Strategy, New Service Development	10
II	Technology in Services, Service Quality, Supporting Facility and Process Flows, Process Improvement	8
III	The Service Encounter, Service Facility Location, Managing Capacity and Demand, Managing Waiting Lines	8
IV	Service Supply Relationships, Globalization of Services, Managing Service Projects	8
V	Capacity Planning and Queuing Models, Forecasting Demand for Services, Managing Service Inventory.	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year

R-03	C. Haksever, Render B., Russel S. R. and Murdick R. G.	Service Management and Operations	Prentice Hall	2 nd Ed., 2007.
R-04	Palmer, Adrian	Principles of services marketing	McGraw-Hill	2008

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Operations Strategy
COURSE CODE	04MB0434
COURSE CREDITS	3
COURSE DURATION	42

COURSE OUTCOMES:

Students must be able to understand:

- To Understand the requirements of the customers in correlation with strategies.
- To compare different types of strategy and express capacity strategy.
- To Apply different purchasing strategies in accordance with process technology strategy.
- To explain improvement strategy, product service development and organization.
- To Assess the process of operation strategy in accordance with practical implementation.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Operations strategy – developing resources and processes for strategic impact, Operations performance	10
II	Substitutes for strategy, Capacity strategy	8
III	Purchasing and supply strategy, Process technology strategy	8
IV	Improvement strategy, Product and service development and organization,	8
V	The process of operations strategy – formulation and implementation, The process of operations strategy – monitoring and control	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Lean Management
COURSE CODE	04MB0435
COURSE CREDITS	3
COURSE DURATION	42 hours

COURSE OUTCOMES:

- Understand the need for a Lean management System.
- Apply appropriate approaches to projects using Lean tools and techniques.
- Analyse the working concept of lean principles and implementation.
- Outline a typical Lean Model for product/service and ILLUSTRATE the linkages with Customer Issues, Logistic and Business Issues in a real- world context.
- Design and Develop a plan of Lean Management.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO LEAN MANAGEMENT AND LEAN ELEMENTS: Introduction to seven waste and their narration; Evolution of lean; Global competition, Lean Manufacturing, Value flow and Muda, Muri and Mura, Need for LM, Meeting the stakeholders requirement, Elements of LM.	6
II	LEAN TOOLS AND TECHNIQUES: Various tools of LM, Fundamental blocks of Lean, Impact of Seiri Seiton Seiso Seiketsu and Shitsuke, Need for TPM, Pillars of TPM, Implementation of TPM, Overall Equipment Effectiveness (OEE) and its computation.	8
III	LEAN SYSTEM: Lean systems: Features manufacturing and services, Workflow, Small lot sizes, Pull Method, Kanban, A3 problem solving, Just In Time.	8
IV	PROJECT SELECTION FOR LEAN: Resource and project selection, Selecting projects, Process mapping, Current and future value stream mapping, project suitable for lean initiatives.	10
V	LEAN MANAGEMENT AND IMPLEMENTATION: Standardized work, Continuous improvement. Lean projects: Training, selecting the members, preparing project plan, implementation, review. Productivity Improvement: Process, machinery Operator and equipment.	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

R-03	Pascal Dennis	Lean Production Simplified	Productivity Press	2007

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Shipping and Maritime Logistics Management
COURSE CODE	04MB0436
COURSE CREDITS	3
COURSE DURATION	42 Hours

COURSE OUTCOMES:

- Understand the International Trade works and how it is related to Shipping
- Categorizing the process of Ship Registration and how it can be applied in real world
- Examining the in depth knowledge of types of containers and documentation
- Explaining the knowledge of Marine Insurance and E-Commerce Shipping.
- Reviewing the concept of E-Commerce in Shipping & Maritime.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Unit-1-International Trade – Role of Shipping – Major Trade lanes, features & patterns of trade – Commodities traded – Major origins and destinations – Seasons & Effect of Weather on shipping — Major Maritime Nations – International Shipping organizations – Basic Shipping Terminology	8
II	UNIT-2 Ship registration Tonnage & Load lines –Description of various tonnage and types of Ships, cargo gears, Crude oil and Product tankers. The Dry Cargo Chartering market: Introduction –Chartering –various charter parties and description of charter parties.	8
III	UNIT-3Liners: Introduction –The Development of Tankers & the Tanker Market –Types of tankers –Tanker Charter Parties -Negotiating Charter, Brief History of Containerisation –Conferences & Freight Tariffs –Liner Documentation: Bill of Lading Terms & Conditions.	10
IV	Unit-4-Marine Insurance-General principles of Marine insurance – Marine insurance market structure – Affecting marine insurance cover – Types of marine insurance covers – Institute clauses – war & strike clauses – Marine insurance claim: process – Marine Insurance claim: during general average situations	10
V	Unit 5- E- Commerce & Shipping-Ship Agents and E-commerce – Information flow through Ship Agents – Electronic Data Interchange – Use of Internet, Access to Principals Systems for conducting Day to Day Work.	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation etc.)	30% (C.E.C)
B	Internal Assessment	20% (I. A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
T-01	Professor Dong-Wook Song, Photis Panayides	Maritime Logistics: A Guide to Contemporary Shipping and Port Management	Kogan Page	2 nd , 2015
T-02	Ira Breskin	Business of Shipping	Schiffer Publishing Ltd	9 th Edition, 2018

Reference Books:

R-03	Rose George	Ninety Percent of Everything: Inside Shipping, the Invisible Industry	Picador	2014

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Packing & Packaging Management
COURSE CODE	04MB0437
COURSE CREDITS	3
COURSE DURATION	42

COURSE OUTCOMES:

- Suggest the packaging material use and its conversion as per the product geometry.
- Gathering the knowledge of material required for the products.
- Understand the Knowledge about the Packaging Regulations.
- Analyze the difference between Packing and Packaging.
- Explaining the technologies used in Packaging.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Packaging, Classification of Packaging, Essential Requirements, Functions of Packaging, Importance / Significance of Pharma Packaging, Properties of Ideal Package, , Classification of Packaging materials, Approach to package design.	8
II	Introduction to Ancillary Materials used in Packaging, Adhesives , Paper , Paperboard, Wood, fibreboard , Packaging inserts , leaflets, Types of Cartons-Machine used in cartooning, Corrugated Box-Board construction-Machine used in manufacturing.	8
III	Packaging Materials Technology, Manufacture, Conversion, Properties, applications, advantages, disadvantages and current trends of following materials: Paper, paperboards, film laminates, plastics and polymers, aluminum, tin, drums, glass, textile materials (sacks), wood.	10
IV	Packaging Regulations · Food safety and standards Act, 2006 · The Legal Metrology Act, 2009 (Packaged commodity rules, 2011) · UN Certificate code for packaging of dangerous goods · Packaging laws and regulations – legal requirements	10
V	Composite & Ancillary Materials: Labels, Tags, Caps, Closures, Reinforcements, Strapping, Tapes, Holograms, Cushioning theory and Materials, Package forms & Shapes.	6

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation etc.)	30% (C.E.C)
B	Internal Assessment	20% (I. A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year
T-01	Gary J Field	Printing Production Management	Printing Industries	4 th Edi., 2007
T-02	Shrikant P. Athavale	Hand Book of Printing, Packaging and Lamination: Packaging Technology	Notion Press	1 st Edition, 2018

R-01	W. Soroka	Fundamentals of Packaging Technology	Wiley	3 rd Edition, 2009
R-02	F. A. Paine	The Packaging User's Handbook	Springer	1990
R-03	Davis, C.G.,	Introduction to Packaging Machinery,	S.Chand	2009

PROGRAM	Master of Business Administration
SEMESTER	4
COURSE TITLE	International Logistics and Management
COURSE CODE	04MB0438
COURSE CREDITS	3
COURSE DURATION	42 Hrs

COURSE OUTCOMES:

After studying this course, student should be able to

- Remember the various issues of international transportation.
- Evaluate different transportation modes for fulfilling Organization's need.
- Apply the concepts of Inventory Management in International Logistics
- Analyse the Importance of Chartering and Containerization in International Trade.
- Understand the concepts of Inventory Management in International Logistics.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	International Trade: Need and Importance – Recent Trends in World Trade – Leading players – India's Foreign Trade – Commodity Composition and Destination - Overview of International Logistics Components, Importance, Objectives; Logistic Subsystem;- Integrated Logistics; - Barrier to Internal Integration – Logistics Documents for International Trade.	6
II	Marketing and Logistics Customer Focused Marketing; International Marketing: International Marketing Channel: Role of Clearing Agent, Various Modes of Transport, Choice and Issues for Each Mode, Transport Cost Characteristics	8
III	Basics of Transportation Transportation Functionality and Principles; Multimodal Transport: Modal Characteristics; Modal Comparisons; Legal Classifications; International Air Transport; Air Cargo Tariff Structure; Freight: Definition, Rate; Freight Structure and Practice	8
IV	Containerization and Chartering Containerization: Genesis, Concept, Classification, Benefits and Constraints; Inland Container Depot (ICD): Roles and Functions, CFS, Export Clearance at ICD; CONCOR; ICDs under CONCOR; Chartering: Kinds of Charter, Charter Party, and Arbitration	10
V	Inventory Management and Packaging Inventory Management: Introduction, Characteristics, Functionality, Components, Planning; Packaging and Packing: Labels, Functions of Packaging, Designs, Kinds of Packaging; Packing for Transportation and Marking: Types of Boxes, Container, Procedure, Cost, Types of Marking, Features of Marking -Dynamic Component for Continuous Internal Assessment only: Contemporary Developments Related to the Course during the Semester concerned	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
	End-Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Preparedness and Response in Disaster
COURSE CODE	04MB0439
COURSE CREDITS	3
COURSE DURATION	42 sessions

COURSE OUTCOMES:

- Understand the different types of disaster.
- Create a strategy for vulnerability reduction.
- Understand, analyze, and create plan, prediction, early warnings and safety measures of disaster.
- Understand the disaster response.
- Analyze the role of government and NGO

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Session
I	Module 1: Introduction on Disaster Different Types of Disaster: Natural Disaster: such as Flood, Cyclone, Earthquakes, and Landslides etc. Man-made Disaster: such as Fire, Industrial Pollution, Nuclear Disaster, Biological Disasters, Accidents (Air, Sea, Rail & Road), Structural failures(Building and Bridge), War & Terrorism etc., Causes, effects and practical examples for all disasters.	10
II	Module 2: Risk and Vulnerability Analysis Risk : Its concept and analysis, Risk Reduction, Vulnerability : Its concept and analysis , Strategic Development for Vulnerability Reduction	8
III	Module 3: Disaster Preparedness Disaster Preparedness: Concept and Nature Disaster Preparedness: Plan, Prediction, Early Warnings and Safety Measures of Disaster.	6
IV	Module 4: Disaster Response Disaster Response : Introduction, Disaster Response Plan, Communication, Participation, and Activation of Emergency Preparedness Plan, Search, Rescue, Evacuation and Logistic Management	8
V	Module 5: Role of Government and NGO Role of Government, International and NGO Bodies, Role of IT in Disaster Preparedness, Role of Engineers on Disaster Management. Role of Information, Education, Communication, and Training, Relief and Recovery, Medical Health Response to Different Disasters.	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignment/ Quiz/ Class participation/ presentation/ etc.,	20%(C.E.C)
B	Internal assessment	30%(I.A)

Faculty of Management Studies: Master of Business Administration

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Design Thinking
COURSE CODE	04MB0440
COURSE CREDITS	3
COURSE DURATION	42 sessions

COURSE OUTCOMES:

- Understand the concepts of design thinking approaches
- Create design thinking teams and conduct design thinking sessions
- Apply both critical thinking and design thinking in parallel to solve problems
- Apply some design thinking concepts to their daily work
- Provide a thinking space for innovation of new ventures, value propositions, new products or services.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Session
I	Module 1: Design Thinking Background Definition of Design Thinking, Business uses of Design Thinking, Variety within the Design Thinking Discipline, Design Thinking Mind-set	6
II	Module 2: General approaches to Design Thinking The Basis for Design Thinking, Design Thinking Frameworks, The Design Thinking Team, Design Thinking Workshops and Meetings	8
III	Module 3: A Design Thinking Approach in Stages Apply the Design Thinking Frameworks, Empathize with the Customers and/or Users, Define the Problem, Ideate, Prototype Alternate Solutions, Test the Solutions.	10
IV	Module 4: Design Thinking Techniques Listening and Empathizing Techniques: Engagement, Observation, Showing Empathy, Define and Ideation Techniques: Unpacking, Personas, Pattern Recognition and Connecting the Dots, Prototype and Test Techniques: Types of Prototypes, Forms of Testing in Design Thinking.	10
V	Module 5: General Design Thinking Practices : Visualization Techniques and Diagrams: Use of Diagrams and Maps in Design Thinking Storytelling Techniques: Storytelling Throughout the Design Thinking Process, Improvisation, Scenarios, K-Scripts.	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Intellectual Property Rights (IPR)
COURSE CODE	04MB0441
COURSE CREDITS	3
COURSE DURATION	42 Hrs (42 sessions of 60 minutes each)

Learning Outcomes: This course aims,

- To demonstrate knowledge and understanding of the core doctrines of intellectual property law
- To identify and analyze the intellectual property issues
- To apply intellectual property law principles (including copyright, patents, designs and trademarks) to real problems and analyze the social impact of intellectual property law and policy
- The course is designed to provide comprehensive knowledge to the students regarding Indian position of the Patent Law.
- To understand historical development, Procedure for granting a patent, Infringement.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Intellectual Property: Introduction, overview and history, Characteristics and Nature of Intellectual Property right, Kinds of Intellectual Property, Justification and Rationale for Protecting Intellectual Property, IPR and Economic Development	8
II	Copyright: Meaning, History & Characteristics, Works in which Copyright subsists, Procedure for registration, Author or Ownership, Rights of Author or Owner, Term of Copyright, Assignment & License, Infringement & Remedies	8
III	Patents: Introduction & overview, Historical development, Issues of patentable subject matter, Criteria of patentability, Rights & Obligations of Patentee, Basic concept of Compulsory license and Government use of patent, Patent Infringement and Remedies	8
IV	Trade Marks: Meaning of mark, trademark, Categories of Trademark: Certification Mark, Collective Mark and Well known Mark and Non-conventional Marks, Concept of distinctiveness, Doctrine of honest concurrent user Designs, GI and other forms of IP: Meaning design protection, Concept of original design, Meaning of GI, Difference between GI and TradeMarks, Concept of Authorized user	9
V	International Treaties related to IPR: The nature and scope of international law, International Intellectual Property Instruments, Leading International Instruments- WIPO, WTO, TRIPS; International Treaties on Patent -The Paris Convention, PCT (Patent Cooperation Treaty), Budapest Treaty; TRIPS: Doha Declaration	9

EVALUATION:

The students will be evaluated on a continuous basis and broadly the scheme given below will be followed:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Leadership - Theory and Practice
COURSE CODE	04MB0442
COURSE CREDITS	3
COURSE DURATION	42 Hours (42 Sessions of 60 Minutes each)

Learning Outcomes: This course aims,

- To develop an ability to assess potential leadership philosophy, traits, skills, and behavior.
- To understand leadership at the Personal, Interpersonal, Team, and Organizational levels
- To evaluate fundamentals, leadership theories and practices which are relevant to contemporary organizations.
- To assess the state of current leadership capacity within organizations
- To assess personal values, beliefs, and ethical standards to enhance self-awareness regarding personal leadership behaviors and reactions to leadership behaviors of others

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Understanding Leadership: Introduction to Leadership, Leadership Traits, Leadership Approaches: <i>Trait approach:</i> Definition, Big five Personality Model, <i>Skills Approach:</i> Leadership skill, Skill Model of Leadership, <i>Style Approach:</i> Management Skills required at Various levels of organization, The Ohio State, The University of Michigan, Blake and Mouton's Managerial Leadership Grid and <i>Situational Approach:</i> Four Leadership Style Model. Case Studies	10
II	Leadership Theories: Motivational Theories, Contingency Theories, Charismatic Leadership, Transformational Leadership, Transactional Leadership, Authentic Leadership Theory, Servant Leadership, Crisis Leadership, Case studies	8
III	Leadership and Communication: Introduction to Communication, the Model of Communication, Coaching and Mentoring, Leader-Member Exchange, Followership and Delegation, Team and Self-Managed Teams: Group vs Team, Types of Teams, Characteristics of an effective team, The nature of self-managed teams, Strength and Limitations of Self-managed teams, Changing role of Leadership in Self-Managed Teams.	8
IV	Leadership and Power: Introduction to Power, Sources of Power, Types of Power, Power Tactics, Leadership, and Politics: Introduction to Politics, Factors influencing Political Behavior, Guidelines for developing political skills. Leadership and Conflict: Introduction to Conflict, Types of Conflict, The conflict Process, Leadership, and Negotiation: Introduction to Negotiation, The Negotiation Process, Third Party Negotiation.	8
V	Emerging Leadership: Strategic Leadership, Gender Diversity, and leadership, Ethics in Leadership, Leadership and Spirituality at the workplace, Entrepreneurial Leadership, Good to Great Approach of Leadership.	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly the scheme given below will be followed:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20%(CSE)

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Energy Business Management
COURSE CODE	04MB0443
COURSE CREDITS	3
COURSE DURATION	42 Hrs

COURSE OUTCOMES:

- Awareness and assessment of the importance of energy and its conservation, various energy sources and their significance.
- Understanding the energy storage and distribution and the conversion processes.
- Gaining knowledge on the impact of energy on society, need for sustainable energy, global and Indian energy policies.
- Identification and analysis of various techniques of energy management and conservation.
- Obtaining basic skills of energy accounting and conducting an energy audit.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Energy General Principles Energy resources - Energy uses patterns and scope of conversion Energy conversion processes and devices – Energy conversion plants –Conventional - Thermal, Hydro, Nuclear fission , and Non-conventional – Solar, Wind Biomass, Fuel cells, Magneto Hydrodynamics and Nuclear fusion. Energy from waste, Energy plantation.	8
II	Energy Storage Energy storage and Distribution – Electrical energy route – Load curves – Energy conversion plants for Base load , Intermediate load, Peak load and Energy displacement – Energy storage plants. Energy Scenario – Global and Indian –Impact of Energy on economy, development and environment, Energy policies, Energy strategy for future.	9
III	Energy Management and Auditing Energy Management – Definitions and significance – objectives –Characterizing of energy usage – Energy Management program – Energy strategies and energy planning Energy Audit – Types and Procedure – Optimum performance of existing facilities – Energy management control systems – Computer applications in Energy management.	8
IV	Energy conservation – Principles – Energy economics – Energy conservation technologies – cogeneration – Waste heat recovery – Combined cycle power generation – Heat Recuperators – Heat regenerators – Heat pipes – Heat pumps – Pinch Technology, Social and Economic Benefits- Energy accounting and analysis- Pollution control impact- Energy management in deregulated environment	9
V	Energy Conservation in Electric Utility and Industry Energy Conservation Opportunities – Electrical ECOs – Thermodynamic ECOs in chemical process industry – ECOs in residential and commercial buildings – Energy Conservation Measures.	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignment/ Quiz/ Class participation/ presentation/ etc.,	20%(C.E.C)
B	Internal assessment	30%(I.A)
C	End- Semester Examination	50% (External assessment)

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Event Management
COURSE CODE	04MB0444
COURSE CREDITS	3
COURSE DURATION	42 Hrs

COURSE OUTCOMES:

- Understand the efforts needed to conduct an event of any nature and various activities related to human resources.
- Identify the responsibilities of an event manager or planner.
- Develop a timeline for event planning and a schedule of events.
- Able to undergo structuring and organizing work, scheduling of activities, leadership, creativity and innovation and event coordination.
- Analyze the opportunities of Event Tourism

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Event: Event, Scope of the Event, Events Types, Characteristics of conferences and conventions – Requirement of Event Manager, Analyzing the events, Decision-makers, Technical Staff, Developing Record-Keeping Systems, – Growth and development of the industry – Impact on local and national communities- Laws & Statutory requirements. Role of Event Management firms	9
II	Event Marketing: Clients - Sponsorship - Brands – Professionals – Advertising & Publicity. Practices in Event Management – Development of Event Marketing plans – Event promotion for future.	8
III	Event Financing: Budgeting an event – Preparation – Estimating fixed and variable costs – Cash Flow – Sponsorships & Subsidies – Contract negotiations	8
IV	Event Management: Planning - Scheduling - Venue – Logistics – Customer care management – Celebrity endorsements - Coordination - Risk and Crises Management – Visit to State/National level events	8
V	Market & Future trends: Event Management Associations –Travel Industry fairs – Benefits of fairs – ITB, WTM, PATA Travel Mart etc., - Social and Government associations – Organizational and financial structures – International association market History, role and functioning of ICCA & ICPB.	9

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
--	-----------	-----------

A	Continuous Evaluation Component (Assignment/ Quiz/ Class participation/ presentation/ etc.,	20%(C.E.C)

PROGRAM	Master of Business Administration
SEMESTER	4
COURSE TITLE	Public Policy
COURSE CODE	04MB0445
COURSE CREDITS	3
COURSE DURATION	42 Sessions

Course Outcomes:

- Have an understanding about the public policy evolution and its importance.
- Have knowledge of various approaches to public policy.
- Develop an understanding about the theories and processes of public policy.
- Explain the formulation, implementation and evaluation of public policy.
- Critically evaluate various trends across the globe with regard to public policy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction : Meaning, Nature, Scope and importance of Public Policy, Evolution of Public Policy, types of public policies: Substantive, Regulatory, Distributive, Redistributive and capitalization	8
II	Approaches to Public Policy Approaches to Public Policy: The process approach, Logical Approach, phenomenological approach, participatory and normative approach	8
III	Theories and Process of Public Policy Theories and Models of Public Policy making, Perspectives of Policy making process, Institutions of policy making: Legislature, Executive, Judiciary, Planning machinery at Central and State levels	8
IV	Policy Formulation, Implementation and Evaluation Policy formulation, policy implementation, techniques of policy implementation, concept of policy evaluation, constraints of policy evaluation	8
V	Globalization and Public Policy Public Policy trends across the globe, Impact of globalization on public policy making, Comparison of Indian Public policies with other countries.	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Public Finance and Policy
COURSE CODE	04MB0446
COURSE CREDITS	3
COURSE DURATION	42

COURSE OUTCOMES:

- ❖ To know the role of government in the economy, applying tools of basic microeconomics
- ❖ To find out the important policy questions such as government response to global public finance policy challenges.
- ❖ To discuss various economic activities of the public sector; with taxation and expenditures of governments and their effects on the economy. In addition, governments create regulations that significantly affect the economy without involving either taxes or expenditure.
- ❖ To explore the Public Finance policy and take away that governments were pure, selfless institutions that would function perfectly to implement socially optimal policies.
- ❖ To know the functioning of Social Security versus private retirement savings accounts, government versus private health insurance, setting income tax rates for individuals and corporations.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I Public goods in theory and practice	Public provision of private goods, Meaning, Nature & Scope, Importance, Role of Government in Changing Perspective; Government as an agent of economic growth and development; Fiscal Functions of the Government; Classification of Goods: Private, Public, Social, Merit and Mixed Goods, Regional public goods in practice.	08
II The Size of Government and Public Revenue	Level of Government and Functions: Union, State and Local- functions of each level for public finance policy, Closed economy, open economy, mixed economy Public Revenue: Sources of Revenue, Taxation – characteristics of a good taxation system, Canons of taxation, direct vs. indirect taxes, principles of taxation, effects of taxation, taxable capacity, impact and incidence of taxation; Tax structure in India and Recent Reforms - GST.	10

III Public Debt and Public Budget	Sources of Public Debt, Burden of public debt – theories, effects of public debt, methods of debt redemption, Public Debt Management in India. Public Budget - Concept of public budget, types of public budget, theories of public budgeting.	08
IV Federal Finance and Fiscal policy	Principles and problems of Federal finance – centre-state financial relations, 15th Finance Commission; Fiscal Policy: meaning and objective, fiscal multipliers, compensatory fiscal policy, functional finance approach, fiscal policy for inflation, full employment and economic growth.	08
V Public Expenditure	Public Expenditure- Meaning and Classification, Theories of Public Expenditure – Wagner's Law; Maximum Social Advantage, Normative and Positive Theories, Growth in Public Expenditure, Canons of Public Expenditure, Effects of Public Expenditure on Production, Distribution and economic growth, Criteria for public investment – social cost-benefit analysis – project evaluation.	08

EVALUATION:

PROGRAM	Master of Business Administration (Regular)
SEMESTER	4
COURSE TITLE	Stress Management
COURSE CODE	04MB0447
COURSE CREDITS	3
COURSE DURATION	42 Sessions

Learning Outcomes: At the end, participants will be able to,

- Understand the basics of stress management.
- Analyze stress triggers and to manage them.
- Evaluate the responses to stressful situations.
- Apply the techniques of stress management in day-to-day life.
- Develop personal strengths for preventing stress and achieving meaningful goals.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Stress Defining stress: The Meaning of Stress, The Body's Reactions to Stress, Context and overview, types of stress: distress, eustress, indicators of stress: physiological, psychological and cognitive indicators	8
II	Sources of Stress across Lifespan Internal Stressors, External Stressors, Developmental stressors, life situations/chronic stressors, Unusual Stressors, Nutrition, Occupation, Response to Stress (4 Fs: Flight, Fight, Fear, Fornication, Depression and its impact on the mental and physical state)	8
III	Stress Management Techniques I Spiritual approach to stress management, Food habits as a cure to stress, Modification to routine life style and thought process renewal activities	8
IV	Stress Management Techniques II Psychological Relaxation methods, Physical activities to reduce stress, Deep breathing, Yoga, Meditation, Keeping a thought journal, Music therapy, Affirmations, Methods to improve overall well being	9
V	Final Reflection: Individual Stress Management Plan, Making Changes last, Case studies learning	9

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Quizzes / Class Participation etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (E.A)

Text Books:

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Six Sigma
COURSE CODE	04MB0449
COURSE CREDITS	2
COURSE DURATION	28 hours

COURSE OUTCOMES:

- Describe the concepts of Six Sigma
- Explain the concepts of process
- Apply the five-step DMAIC model as a framework to organize process improvement activity.
- Analyze the wide range of process improvement techniques, including design of experiments, within the DMAIC model.
- Determine the organizational factors that are necessary groundwork for a successful Six Sigma effort.
- Design your Six Sigma skills to lead a successful process improvement project and deliver meaningful results to the organization

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Six Sigma: Six Sigma and Lean Enterprise, Defects Per Million Opportunities Metric (DPMO), Success Stories, Six Sigma History, DMAIC Process, Thought Process Mapping, Process Thinking, Process Mapping, Flow Charts, Value-Added Flow Charts, Deployment Flow Charts, Spaghetti Diagrams, Value Stream Mapping, Balanced Scorecard, Pareto Chart, Project Selection, Project Charter, Project Tracking – Gantt Chart, Stakeholder Analysis, Voice of the customer, Customer Satisfaction & Kano Model, Sample Surveys, Survey Construction, Margin of Error, Affinity Diagrams, CTQC, Tree Diagrams, Critical to Quality, Characteristics (CTQCs), Setting Specifications, Quality Function Deployment, Operational Definition, Variable and Attribute Data, Sampling Plan, Measurement System Analysis, Data Collection – Check Sheet, Benchmarking, Baseline DPMO & Sigma Conversion, Rolled Throughput Yield	10
II	Measure & Analyze: Trend Chart, Histograms, Measuring Process Variability, Statistical Process Control, Rational Subgrouping and Moving Range Control Charts, Attribute Control Charts, X-bar and R Control Charts • Process Capability, Analyze I – Potential Root Cause, Cause and Effect Diagrams (Fishbone Charts), Five-Why, One-How, FMEA, Scatter Plots, Regression and Correlation Analysis, Multiple Regression, Logistic Regression, Introduction to Hypothesis Testing, Confidence Intervals and Hypothesis Testing, Comparison of Two Treatments: Z-test, F-Test, t-test, Comparison of Multiple Treatments – ANOVA, Chi-Square for Multiple Proportions, Comparison of Variances – Chi-Square Test, Non-parametric Testing, Hy-Court TV TM Learning Lab, Analyze III – Design of Experiments • Introduction to Design of Experiments • Single Factor Experiments • Full Factorial Experiments, Fractional Factorial Experiments, General Factorial Experiments, Experiment Simulations Advanced Topics.	9
III	Improve: Design for Manufacturability/ Serviceability/Repairability (DFSS), Brainstorming Continuous Flow (Little’s Law), Quick Changeovers, Implementing Work Cells, Theory of Constraints, Pull Scheduling, Narrowing the List of Ideas, FMEA, Error-proofing,	9

	Corrective Action Matrix, Piloting a Solution, System Dynamics, Control Plan, SPC Revisited, FMEA Revisited, Visual Control – 5-S, CHECK Process, Total Productive Maintenance	
--	--	--

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	0% (C.E.C.)
B	Internal Assessment	50% (I.A.)

PROGRAM	Master of Business Administration (MBA)
SEMESTER	IV
COURSE TITLE	Management of Field Sales Force
COURSE CODE	04MB0450
COURSE CREDITS	2
COURSE DURATION	28 Hours (28 sessions of 60 minutes each)

COURSE OUTCOMES:

- At the end of the course, students will understand in and out of Sales Management.
- This course will enable students to analyze the various working styles, challenges in day-to-day Sales organizations.
- At the end of the course, students will be able to apply the tools of personal selling.
- At the end of the course, students will be able to make strategies required to manage field sales force.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Sales management; Importance and Objectives of Sales Department; Role of a Sales Manager & Sales Executive; Functions of Sales Manager & Sales Executive; Qualities of Salesperson; Personal Selling Skills; Theories in Sales - AIDAS & ACMEE model; Case Study	10
II	Personal Selling; Theories of personal selling; Executing Effective Meetings; Communication in Sales; Opening and Closing a Sale; Negotiation and Sales Management; Negotiation Strategies; Effective Sales Body Language, Eye Contact; Case Study	9
III	Sales Analysis & Forecasting; Sales Budgeting; Sales Territory; Sales Quota; Recruitment & Selection in Sales; Sales Training; Sales Compensation; Sales Performance Evaluation; Sales Audit; Sales Reports; Case Study	9

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	0% (C.S.E.)

PROGRAM	Master of Business Administration
SEMESTER	IV
COURSE TITLE	Blockchain Technology
COURSE CODE	04MB0451
COURSE CREDITS	2
COURSE DURATION	28 lectures

COURSE OUTCOMES:

- Students will have knowledge of concepts of Blockchain and its types.
- Students will understand the concept of decentralization and smart contracts and its usage in Blockchain. Also they will have knowledge of usage of cryptography concepts in Blockchain.
- Students will have knowledge of two Blockchain development frameworks namely Ethereum and Hyperledger
- Students will get the idea about Blockchain applications domains and Challenges in Blockchain implementation

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction Blockchain 101, Distributed systems, History of Blockchain, Introduction to Blockchain, Types of Blockchain, Benefits and limitations of Blockchain	8
II	Decentralization, Smart contracts and cryptography foundation Decentralization, Decentralization using Blockchain, Methods of decentralization, Smart contracts, Symmetric and Asymmetric key cryptography, Public and private keys, Hash functions	10
III	Ethereum and Hyperledger Ethereum blockchain, Elements of Ethereum blockchain, Hyperledger, Projects Hyperledger as a protocol	5
IV	Blockchain Application domains and Challenges IoT, Government, Health, Finance, Media Challenges : Scalability, Security and Privacy	5

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	0% (C.E.C.)
B	Internal Assessment	50% (I.A.)

PROGRAM	Master of Business Administration
SEMESTER	04
COURSE TITLE	Enterprise Resource Planning and Business Process Management
COURSE CODE	04MB0459
COURSE CREDITS	03
COURSE DURATION	42 hours

COURSE OUTCOMES:

After completing the syllabus students should be able to-

- Understand how ERP works and its relationship with SCM.
- Categorizing the steps in SCM process and how it can be applied in real world.
- Explaining the in-depth knowledge of MRP, ERP and SCM
- Reviewing of Various model of SCM and ERP
- Adapting the Application of ERP in SCM.

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Introduction: Evolution of ERP and SCM, MRP (material requirement planning, manufacturing resource planning, ERP-enterprise resource planning)	6
II	Case: SAP ERP, implementing business process with SAP ERP, ERP system implementation, Manufacturing systems	8
III	SCM- supply chain management, modeling intercompany business processes, SCOR model	10
IV	SCM data structures and advance planning, advanced SCM planning approaches, APS-Advanced planning and scheduling, planning inventory and orders.	10
V	SAP scm- SAP advanced planner and optimizer, CIF –core interface, SAP SCM modules	8

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation etc.)	30% (C.E.C)
B	Internal Assessment	20% (I. A.)

Faculty of Law
B.A,LL.B. (Hons)
Semester I

Subject Name	Law of Contract – I (General Principles)	Credit	Teaching Scheme		
			Theory	Practical	Tutorial
Subject Code	10BC0106	4	3	0	2

Course Objectives

The course is designed to achieve Following Objectives:

1. To provide the conceptual understanding of the basic principles of Law of Contract
2. To develop analytical skills with respect to various issues related to law of Contract
3. To understand the judicial interpretation of the statute as the case analysis method of teaching will be mostly adopted.

Prerequisites:

None

Course Outcomes

On completion of this course, the students will be able to

1. Develop a conceptual understanding of the basics of law of contract.
2. Understand the legal aspects of a valid contract and at the same time judge a void and voidable contract.
3. Learn the remedies available in cases of breach of contract.

A handwritten signature in blue ink, appearing to read 'Daneb'.

4. Have conceptual understanding of E-contracts, and government Contracts.
5. Develop strong analytical skills.

Catalog Description

Law of Contract is one of the foundational subjects in legal studies. It constitutes the basis on which the whole gamete of commercial laws has been established. Accordingly, present syllabus has been drafted with the object to give students conceptual, jurisprudential and foundational understanding about the general principles governing contractual obligations. Present syllabus deals with the various issues regarding contract from formation of the contract, performance of the contract to its enforcement and remedies on breach including remedies under Specific Relief Act, 1963.

The subject shall be taught in two parts. The first semester shall deal with Law of Contract I in which an overview of Sections 1 to 75 of the Contract Act, covering the general nature of contract and some portions of specific relief Act 1963 shall be dealt. Contract II shall be covered in second semester, in which various specific contracts shall be covered.

Course Content

Module: 1. Introduction	<ul style="list-style-type: none"> • The historical development of contract law: • English origin (debt, detinue, account, covenant, action on case, assumpsit, indebitus assumpsit) • Indian origin • Purpose of Contract 		3 hours

B.A.LL.B. (Hons)
Semester I

Subject Name	Introduction to Language Skills	Credit	Teaching Scheme		
			Theory	Practical	Tutorial
Subject Code	10SL0101	4	3	0	2

Course Objectives:

The course is designed to achieve Following Objectives:

1. To familiarize students with language skills to understand their domain
2. To help students enhance their competency in English language with a focus on LSRW
3. To introduce students to English in legal context to help them achieve their program requirements

Prerequisites:

None

Marwadi
University

FACULTY OF
LAW

Learning Outcomes:

The students will get the necessary training in language skills and they will be able to:

1. Develop and enhance their listening skills for various purposes

A handwritten signature in blue ink, appearing to read 'Daneb'.

Dean
Faculty of Law
Marwadi University
Rajkot

2. Understand and use written and spoken language in context
3. Comprehend, compare and differentiate between various written texts/documents
4. Evolve appropriate writing competence

Unit 1: Listening in Context

(12 hours)

- Listening with a purpose
 - Listening for detail
 - What do you mean by detail?
 - Having an eye for detail/ identifying detail in context
 - Tasks
 - Listening for the main idea
 - Defining the main idea
 - Techniques to identify the main idea
 - Tasks
 - Listening for specific vocabulary
 - Understanding vocabulary (various forms/types)
 - Vocabulary in context (formal & informal etc)
 - Tasks
 - Listening for attitudes and opinions
 - Defining, identifying and differentiating attitudes and opinions
 - Attitudes and opinions in context
 - Tasks

Unit 2: Speaking in Context

(12 hours)

- Speaking in context
 - Effective Pronunciation & Body Language
 - Basics of pronunciation
 - Understanding body language
 - Tasks
 - Conversation in formal and informal contexts
 - Language in informal context
 - Language in formal context
 - Tasks
 - Persuasive speaking
 - Law and the art of persuasion
 - Techniques
 - Tasks

- Tasks

Unit 3: Reading Skills

(12 hours)

- Skimming, Scanning, Intensive and Extensive Reading
 - Tasks
- Reading Comprehension and Interpretation
 - Understanding comprehension and interpretation
 - Techniques of comprehension and interpretation
 - Tasks
- Comparing, and Classifying information
 - Techniques of comparison and classification
 - Tasks
- Evaluating and Synthesizing Information
 - Techniques of evaluation and synthesizing
 - Tasks

Unit 4: Writing Skills

(12 hours)

- Grammar in context
 - Understanding grammar in context
 - Practice
- Vocabulary in Context
 - Synonyms and antonyms
 - Acronyms and abbreviations
 - Idioms and Phrases
- Sentence Structure and Paragraph Development
 - Types of sentences and sentence structure
 - Paragraph development strategies
 - Practice
- Note Taking and Note Making
 - Note taking vs. Note making
 - Methods of preparing Notes
 - Tasks

Subject Name	Critical Thinking and Argumentative Skills	Credit	Teaching Scheme		
			Theory	Practical	Tutorial

Dean
Faculty of Law
Marwadi University
Rajkot

Subject Code	10CR0101	2	1	0	2
---------------------	----------	---	---	---	---

Course Objectives

The course is designed to achieve Following Objectives:

- To underscore the realization and importance of Critical thinking in academics;
- To conduct various Practical exercises to inculcate skills and faculties so that they think logically and analytically.
- To develop the Skills in students so that they can examine research and analyze evidence in order to organize, deliver and critique effective arguments and rebuttals.

Prerequisites:

None

Course Outcomes

On completion of this course, the students will be able to

- Identify the differences between fact and opinion.
- Identify, compose and refute propositions of fact, value and policy.
- Understand the methods of analyzing evidences in order to organize, deliver and critique effective arguments and rebuttals.
- Analyze and utilize formal and informal logic to construct arguments which advocate or defend position(s).
- Utilize ethical communication when developing arguments while simultaneously taking into consideration diverse audiences.
- Design and present impromptu, extemporaneous and prepared arguments.

Catalog Description

Marwadi
University

**FACULTY OF
LAW**

The purpose of this course is to develop thinking skills. We live in a society that mass-produces information. Not all of it is true or well grounded in fact. The key challenge in an information age is to know how to judge the quality of the information, opinions, and arguments that we are exposed to on a daily basis. This includes the ideas, arguments and assertions that we see, hear or read in the news, in coursework, on the job and in all human relations. Critical thinking is a fundamental leadership competency. Leaders are often presented with information from a variety of sources and about areas where they have no expertise. They must know how to make good judgments about people, information, and arguments. Leaders also have to know how to present persuasive arguments. Some people become leaders because of their personality, desire, or “people skills.” Others become leaders because of their ideas and ability to create a vision, plan for the future, and anticipate and solve problems. Critical thinking is the foundational skill for of the Jepson School curriculum. It is not an end in itself, but a first step towards

A handwritten signature in blue ink, appearing to read 'Daneb'.

Dean
Faculty of Law
Marwadi University
Rajkot

creative thinking and problem solving. The ability to think critically and solve problems is not only important for leadership, but for a life-long learning.

Course Content

Module 1:- Introduction	<ol style="list-style-type: none">i. What is Critical Thinking?ii. Intellectual Standards to Critical thinking.iii. Benefits of Critical thinking.iv. Barrier to Critical thinking.v. Characteristic of Critical thinkers.	5 hours

	Subject Name	Moot Court Training	Credit	Teaching Scheme	
Theory				Practical	Tutorial
Subject Code	10FL0203	2	0	2	0

Course Objectives

Marwadi
University

FACULTY OF
LAW

This course relates to litigation advocacy and as such this shall be simulation course that shall have two parts. First part shall focus on preparation for trial and trial strategies. It shall also disseminate techniques of examination-in-chief cross examination and re-examination of witnesses, argumentation in courts, bail application, injunction application, etc. The

A handwritten signature in blue ink, appearing to read 'D. Patel'.

Dean
Faculty of Law
Marwadi University
Rajkot

second part shall focus on writing briefs in civil suits and criminal cases, appellate briefs in civil and criminal cases, and writ matters, memorial writings and arguing before the appropriate forums. The students shall be given a case to argue, that shall help to articulate their argumentative zeal as well as capacity. It also provides a unique bonding experience for you and your team and gives you a mini-support system during law school.

Prerequisites:

Legal Terms

Course Outcomes

- On completion of this course, students will be able to:
1. Identify the legal issues arising from a hypothetical set of facts
 2. Research the law relevant to these legal issues;
 3. Formulate legal argument based on this research;
 4. Apply the law accurately and persuasively;
 5. Distinguish any case law which runs contrary to the argument being made;
 6. Present this argument articulately and clearly in an oral format;
 7. Advocate an interpretation of the law which is favourable to a particular side of the argument;
 8. Respond to questioning by judges based on the student's presentation observing the etiquette of the courtroom

 Marwadi University	<p>Faculty of Law B.A.LL.B. (Hons.) Semester IV</p>				
Subject Name	Constitutional Law II	Credit	Teaching Scheme		
			Theory	Practical	Tutorial
Subject Code	10FL0404	5	4	0	2

Course Objectives

Constitutional Law carries a very important role in today's curriculum of every law school. Its study has following objectives:

1. To understand the organs of government and importance of these organs in the governance of the country;
2. To understand the inter relationship and check and balance mechanism among the organs of government;

A handwritten signature in blue ink, appearing to read 'Dareh'.

3. To analyse the role of judiciary in the governance of the country in the light of judicial review power;
4. To evaluate the mechanism and Power of Legislature to amend the constitution in terms of Peoples' welfare and also the restrictions on amending power of Legislature.
5. To understand the circumstances and situations which aid in the conversion of parliamentary forms of government to the presidential form of government;

Course Outcomes

After completion of the course, student will be able:

1. To be able to define the role of the Indian Legislature both the Union and the State
2. To compare and contrast the different organs of the Government.
3. To identify the role, power and function of President, Council of ministers and its responsibility
4. To analyse the role of legislature and also the distribution of legislative powers between Union and State; Indian Judicial System, various types of emergency and effects
5. To evaluate the legislative, administrative functions of the Government.
6. Develop the higher thinking order in relation to the basic structure theory as restriction on amending power of the parliament.

To be familiar with the provisions of various labour laws relating to industrial relations, wages and social security and how there has been judicial precedents in this regard.

Prerequisites:

Good understanding of Industrial working environment related information
Basic understanding of Industrial relations
Best practices of HRM to be adopted in any industrial establishment.

Course Outcome:

On completion of this course, the students will be able to:

- (i) Understand the labour legislations and various other provisions thereby.
- (ii) Apply the knowledge of various labour laws and become aware of the social security and labour welfare.
- (iii) Analyze the scope and objectives of labour laws and enable students to understand the reforms required in the law to cope up the recent developments taking place.
- (iv) Assess and develop a higher thinking order relating to the labour administration and justice.

Catalog Description:

Marwadi
University

FACULTY OF
LAW

Protection of Labour is a Constitutional mandate. A Constitutional inspire by the vision of social justice is committed to the cause of upliftment of labour. Well balanced industrial development leads to increased productivity which in turn is factor of national progress. Labour Laws makes significant contribution in this respect. The study of labour law is not to be confined to mastering of the rules and regulations is relating to the employment of the work force. It has aim on social impulses on, and state reactions to the complex social – economic, human and political problems arising out of the constant conflicts between different classes.

A handwritten signature in blue ink, appearing to read 'Dareb'.

Dean
Faculty of Law
Marwadi University
Rajkot

The students should get an insight into the mechanism of socio – legal control of labour relations and should be aware of the history, the present norms, the emerging areas and possible future techniques of labour jurisprudents.

Semester VII

Subject Name	Taxation Law-I (Direct Tax Law & Practices)	Credit	Teaching Scheme		
			Theory	Practical	Tutorial
Subject Code	10FL0703	4	3	0	2

Course Objectives

This course aims to impart jurisprudential, constitutional, theoretical, practical and Commercial underpinnings of the subject. It is expected that at the end of the course, students will be able to appreciate normative foundations of taxation as a wealth distributive Measure as well as its functional utility as a significant source of public financing. Students will be developing critical insights into the policy issues involved and emerge with strong Foundational understanding of the concepts, practical and theoretical aspects of Taxation. The subject of Direct Tax Law & Practice is inherently complicated and is subjected to constant refinement through new primary legislations, rules and regulations made there under and court decisions on specific legal issues. It therefore becomes necessary for every student to constantly update himself with the various changes made as well as judicial pronouncements rendered from time to time by referring various updates.

Course Outcomes

On completion of this course, the learners will be able

8. To define the basic concepts & procedure of Taxation Laws I i.e. Direct Tax Law & Practices.
9. To compare computation of income under the head of salary/ house property/ profits and gains from business and profession.

A handwritten signature in blue ink, appearing to read 'Daneb'.

10. To identify computation of income under the head of capital gains/ from other sources/ total income and tax liability.
11. To analyse clubbing provisions, set-off and / or carry forward of losses, rebate and relief & TDS/TCS, returns, refund & recovery.
12. To elaborate procedure, power, functions, penalties and to formulate the jurisdiction & application of income tax law & authorities.

4 th week			

RULES

1. All Internships mentioned in the above-mentioned table shall be completed by a student in order to be eligible for the award of the degree of B.A.LL.B.(Hons.)/B.Com.LL.B. (Hons.).

2. An internship can be arranged by a student or the same can be arranged by Faculty of Law, Marwadi University, Rajkot.

2.1 Procedure to be followed when student is self-arranging internship

a. Student shall submit the details of the internship office to the internship committee before beginning the internship as per the internship calendar notified by the Internship Committee.

b. Student shall obtain a recommendation letter from Dean, Faculty of Law before starting the internship.

c. Student shall submit the Internship Confirmation Letter before starting the internship.

d. If a student is self-arranging the Internship, the parameters set up by Faculty of Law, Marwadi University, Rajkot shall be fulfilled by the Organisation / Lawyer / Company.

e. Student shall not change the internship office without obtaining approval from the Internship Committee at Faculty of Law, Marwadi University, Rajkot.

f. If a student changes the internship office without obtaining the approval from the Internship Committee, such internship shall not be considered for any purpose by Faculty of Law, Marwadi University, Rajkot.

Marwadi
University

FACULTY OF
LAW

g. Student shall be informing the internship office regarding issuing of Confidential Internship Certificate and Internship Completion Certificate. If the internship office refuses to issue any of the

Marwadi University
Rajkot

documents mentioned above, the internship committee shall not make any communication to the internship office, it shall be the sole responsibility of the student to get documents mentioned above.

2.2 Procedure to be followed when Faculty of Law, Marwadi University, Rajkot will arrange the Internship

a. Student shall submit the request in writing of arranging internship to the Internship Committee at Faculty of Law, Marwadi University, Rajkot three months prior from the starting the internship, failing which Faculty of Law shall not be responsible to arrange the internship, Student shall be responsible for self-arranging the internship and he/she shall be following all the steps mentioned in

b. The internship office arranged by Faculty of Law, Marwadi University Rajkot, shall be final. The student shall be joining the internship office on time. No request for change of internship office shall be entertained.

c. No preferences from a student with regard to place of internship or internship office shall be entertained by Internship Committee, Faculty of Law, Marwadi University, Rajkot.

d. Student shall bear the cost of stay, travel and any other expenses during the time of internship. Student will have to arrange his/her accommodation. e. If a student does not join the Internship office as provided to him by Internship Committee, Faculty of Law, Marwadi University, Rajkot, in future no assistance what so ever shall be provided by Internship Committee to that student except providing him a recommendation letter.

PROCESS DURING AND AFTER COMPLETION OF INTERNSHIP

11. Student shall maintain daily record of work as per the format provided below and submit weekly progress report to their Faculty Coordinator allocated by the Internship Committee.

12. Format of Weekly Report: Name of the Student:

Course: B.A.LL.B.(Hons.)/B.Com.LL.B.(Hons.) Semester:

Name of the Internship: NGO/LC-1/LC-2/HC-1/HC-2/SC-1/SC-2/Placement

Name of the Internship Office:

Name of the Reporting Head at Internship Office:

Week: 1/2/3/4 Dates: DD/MM/YYYY to DD/MM/YYYY

Sr. No. Date Nature of Work done Learning Outcome 1 2 3 4

2. There shall be a separate weekly report for each week of internship. The weekly report in soft copy shall be submitted to Faculty Coordinator as per the schedule notified by the Internship Committee.

3. At the end of the internship a Final Report both in hard copy as well as in soft copy prepared by the student shall be submitted to the Faculty Coordinator.

4. Late submission of weekly reports and Final Reports shall attract deduction of the marks by the Faculty Coordinator.

5. If weekly report submission is delayed by more than seven days from the due date, it shall be considered as no weekly report submission on the part of the student.

6. The mode (google form, email etc.) of Weekly and Final Internship report submission shall be notified by the Faculty Coordinator. Submission in any other mode shall be considered as no submission on the part of student.

Marwadi
University

FACULTY OF
LAW

7. The Final Report of the Internship shall be submitted in hard copy to the Faculty coordinator, while submitting the Final report in hard copy the Student shall sign the sheet of final report submission available with Faculty coordinator.

A handwritten signature in black ink, appearing to read 'Daneb'.

Dean
Faculty of Law
Marwadi University
Rajkot

8. The student must make sure that the weekly and final report submitted by him/her shall not be a plagiarised, copied or similar to the work submitted by any other student of Faculty of Law, Marwadi University, Rajkot.
9. In case weekly or final report have been found to be plagiarised, copied or similar to the work submitted by any other student of Faculty of Law, Marwadi University, Rajkot then such case shall be considered to be a case of use of unfair means in examination. A committee shall be constituted by the Dean, Faculty of Law to inquire into the cases of use of unfair means. The decision shall be taken by Dean, Faculty of Law, Marwadi University based on the recommendations made by the inquiry committee.
10. The student shall submit a copy of the Internship Certificate counter signed by the her/him to the Faculty Coordinator allocated by the Internship Committee.
11. Non-submission of the certificate shall lead to cancellation the Internship and the student shall be repeating the same internship again in future.
12. A student shall make sure the internship office is submits the Confidential Internship Certificate to the Faculty Coordinator via mail or post in a sealed envelope.
13. Internship Confidential Certificate must be signed and seal of the Internship office/Advocate must be there on it, without signature and seal Internship Confidential Certificate shall not be considered for any purpose.
14. After the submission of final internship report, a viva-voce examination shall be conducted in which the student shall be examined by external/internal examiner. Students shall be evaluated based on the work they have done during the internship, presentation and practical knowledge gained.
15. If a student fails to complete internship, such student shall be declared fail. He/she shall have to complete the same internship in future in order to become eligible for the award of Degree of B.A.LL.B./B.Com.LL.B.
16. In case any misconduct or unprofessional behaviour of a student during internship is being reported by the internship office to the Internship Committee, Faculty of Law, Marwadi University, Rajkot, the same shall be inquired by a committee constituted by the Dean, Faculty of Law, Marwadi University, Rajkot and the decision shall be taken by the Dean, Faculty of Law, Mawardi University, Rajkot based on the recommendations made by the inquiry committee.
17. The format of the Final Internship Report is as follows

STUDENT PERFORMANCE

Specific remarks about the overall performance of the student toward tasks: (Enthusiastic; eager to learn; receptive; diligent; highly engaged; conscientious; indifferent; disinterested)

Skill of the student in executing tasks: (Well developed critical thinking & analytical skills; shows initiative; learns quickly; productive; meets deadlines; needs to ask more questions; often fails to understand or follow directions; requires close supervision)

How far the student is Dependable: (Conscientious; exercises good judgment; follows through consistently on tasks; persistent with difficult tasks; hesitant to make decisions; careless in meeting obligations)

General Conduct & Character: (Positive attitude; suitable dress & grooming; prompt; accepts praise and criticism appropriately; accountable; makes excuses; overly casual in approach)

Maintaining relationships with others: (Respectful; cooperative; receives suggestions well; open; mature; tactful; friendly; shy; impolitic; argumentative)

Merit Based Overall Evaluation of the Interns Performance:

- Outstanding (performed beyond expectations)
- Very good (high quality performance)
- Good (performed all tasks as expected)
- Average (marginal performance)
- Unsatisfactory (performance mostly inadequate)

Elective

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Mathematics For Business
COURSE CODE	04BB0106
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Calculate simple and compound interest on investments
- Understand repayments of loan using EMIs
- Structure and solve problems using matrices
- Understand and establish relationship between variables using functions to determine equilibrium
- Determine minimum and maximum (optimum) value of cost and profit

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	MATHEMATICS OF FINANCE Introduction, Simple Interest and Compound Interest – Concept and problem solution Future Value (FV) - Annuity: Amount of ordinary annuity, Amount of annuity due Present Value (PV) -ordinary annuity and annuity due Loan Amortization and Equated Monthly Installments (EMIs) - Reducing balance and flat rate of interest Use of MS Excel	10
II	FUNCTIONS Introduction, Constants, Variables, Types of functions– Linear function and Polynomial functions Functions in Business: Cost function, Revenue function and Profit function, construction of cost functions, Profit function and Break Even Point (BEP)	10
III	DIFFERENTIATION AND APPLICATIONS OF DERIVATIVES Limit of a function, important results, differentiation of algebraic functions – formulae (no derivation) Derivative of function of one variable, derivative of sum, difference, product and quotient of two functions (no derivation), chain rule, differentiation of implicit function, price elasticity of demand, second order derivative	12

	Application of derivatives – Marginal cost, Marginal revenue, Marginal Profit, Maxima and Minima	
IV	DETERMINANTS Determinant of second order and of third order, Minor of an element Expansion of determinant, Properties of determinant, Use of determinants in solving simultaneous linear equations – Cramer's Rule for two and three linear equations Use of MS Excel to calculate determinant	06
V	MATRICES AND APPLICATIONS Introduction, Definition, Types of matrices, Algebra of matrices (Addition and Subtraction), Additive Inverse of a matrix, Structure problems in matrix form, Multiplication of matrices (Max 3X3) Minor, cofactor, adjoint and Inverse of Matrix, Solution of system of linear equations using inverse of coefficient matrix (Max 3) Use of MS Excel to calculate inverse of matrix	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Career Readiness Program
COURSE CODE	04CR0101

COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Objectives:

- The “*Linguistics for Interpersonal Interaction*” course is designed to make the Learners feel comfortable understanding, thinking and speaking in English.
- Having undergone the training, the Learners will feel confident about his or her own English-speaking skills.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Phonology: Varieties of Language and Standard English, Phonetics and Phonology - Speech Mechanism and Articulatory Phonetics, English Phonemes. Characterization and Classification of Vowels - Diphthongs and Monophthongs.	6
Unit-II	Syntax and Morphology: Nouns, Pronouns and Determiners - Misconceptions related to usages of noun forms, Using Possessives, Types of Pronouns, General Determiners and Specific Determiners. Verbs and related forms - Types of verbs and their forms, Stative and Dynamic, Lexical and Delexical Adjectives and Adverbs - Word formation, Order of Adjectives, Types of Adverbs Preposition and Phrasal verbs - Preposition of time, Preposition of Movements, Preposition of Place, Phrasal Verbs Conjunctions - Coordinating and Subordinating, Using Conjunctions in formal settings. Present Continuous – Form, Usages, Misconception Present Simple & Simple Past – Form, Usages, Misconception	8
Unit - III	Reading Comprehension: Processing Strategy - Comprehension Strategy, Meta-cognitive Strategy, Prediction and Pre-prediction.	4
Unit - IV	Spoken Discourse: Coherence and Cohesion - Situational Sociolinguual interaction, Conversation Practice. Feature of Spoken Discourse - Semantic and Pragmatic Meanings, Conversation Practice (Role Play)	6

Learning Outcomes:

After studying this course, student should be able to:

- Articulate phonetics and phonology, Noun, Pronoun, Verb
- Reading and processing comprehension.

Evaluation:

The students will be evaluated on following evaluation scheme:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment (Term Work)	30% (I.A.)
C	End-Semester Examination (Viva)	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Principles Of Management
COURSE CODE	04LS1102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Demonstrate their knowledge of business and management principles.
- Get acquainted with management process and functions.
- Comprehend the modern management techniques and its relevance in business

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Meaning, Nature and Characteristics of Management – Scope of Management - Functional areas - Management as a Science and an Art - Management & Administration – Levels of management & Managerial Skills - Evolution of Management Thoughts - Principles of management - Ethics in Management.	10

II	Planning in Management Need and importance of planning - basic purpose of planning - Planning process, Types of plans - Objectives - Management By Objectives Decision-making Decision making – Nature and importance- types of decisions – process	10
III	Organizing Need for organization - purpose of organization, fundamental principles of organization - Types of organization - Departmentalization, Committees - Centralization Vs decentralization of authority and responsibility Staffing Staffing – Introduction - Need for Staffing - Importance of staffing -Process of staffing	10
IV	Directing Directing – Meaning, nature and importance – Theories of Motivation – Maslow's, Herzberg's & McGregor's Leadership – Introduction - Formal and Informal Leadership – Characteristics – Styles of Leadership - Importance of Communication as a leader Coordinating Coordination – Introduction - Importance of coordination - Principles of coordination	10
V	Controlling Meaning and steps in controlling – Pre-requisites of a strong control system -Methods of establishing control Modern Management Techniques Introduction to various latest management techniques: Business process re-engineering, business outsourcing, benchmarking, kaizen, six sigma, knowledge management, just in time management, total quality management.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Microeconomics
COURSE CODE	04LS1103
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Apply economic reasoning to the analysis of selected contemporary economic problems.
- Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of goods and services produced and consumed.
- Use economic problem solving skills to discuss the opportunities and challenges of the increasing globalization of the world economy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO MICROECONOMICS	10

	Meaning and definition of Microeconomics, Nature and scope of Microeconomics, Difference between microeconomics and macroeconomics. Central economic problems of society.	
II	CONSUMER BEHAVIOUR Utility analysis: Meaning of Cardinal and Ordinal utility. Cardinal Utility: Law of diminishing Marginal utility, Law of Equi-marginal Utility, Ordinal Utility: Indifference curve analysis, properties of indifference curve analysis, Marginal rate of substitution, Budget line and consumer's Equilibrium.	10
III	DEMAND AND SUPPLY ANALYSIS Determinants of demand , law of demand, exceptions to law of demand. Elasticity of demand and its applications: Price elasticity, Income elasticity and cross elasticity. Concept and Law of Supply , Factors Affecting Supply	10
IV	PRODUCTION AND COST ANALYSIS Production Function: Short run and long run production functions, laws of returns, and law of returns to scale. Cost Function : classification of costs, short run and long run cost curves and their interrelationship, Planning curve and envelope curve, internal and external economics of scale, revenue curves, optimum size of the firm, factors affecting the optimum size	10
V	EQUILIBRIUM OF FIRM AND INDUSTRY Perfect competition, monopoly, monopolistic competition, discriminating monopoly, aspects of non-price competition; group equilibrium, excess capacity, selling costs, oligopolistic behavior.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

Elective

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Computer Essentials
COURSE CODE	04LS1107
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Draft Document / Worksheet and Presentation
- Understand the Computer Hardware and Software Fundamentals
- Detail some of the problems that are encountered when developing documents and worksheets
- Describe briefly some of the technologies that are used to support online applications

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	COMPUTER BASICS Data- Instruction and Information-Characteristics of Computers- Various fields of application of Computers- Input-output Devices (Hardware-Software- Human ware and Firmware)-Advantages and Limitations of Computer- Block Diagram of Computer- Function of Different Units of Computer- Classification of Computers. Data Representation-Different Number System (Decimal- Binary- Octal and hexadecimal) and their Inter Conversion.	10
II	COMPUTER SOFTWARE Types of Software- Application software and system software- Compiler and Interpreter-Generations of languages-Low and High Level Languages-Computer Memory: Primary Memory & Secondary memory. Cache memory-optical memory- Storage Media. Introduction to Operating System-All Directory Manipulation-Creating Directory- Sub Directory-Renaming-Coping and Deleting the Directory File Manipulation-Creating a File-Deleting- Coping- renaming a File Using accessories such as calculator- paint brush- CD player etc.	10
III	INTRODUCTION TO MS- OFFICE (WORD) Introduction to Word Processing- Features - Formatting Documents- Paragraph Formatting- Indents- Page Formatting- Header and Footer- Bullets and Numbering- Tabs- Tables- Formatting the Tables- Finding and	10

	Replacing Text- Mail Merging etc..	
t IV	INTRODUCTION TO MS- OFFICE (EXCEL) Introduction to Electronic Spreadsheets- Feature of MS-Excel- Entering Data- Entering Series- Editing Data- Cell Referencing- ranges- Formulae- Functions- Auto Sum- Copying Formula- Formatting Data- Creating Charts- Creating Database- Sorting Data- Filtering etc.	10
V	INTRODUCTION TO MS- OFFICE (POWERPOINT) PowerPoint- Features of MS PowerPoint Clipping- Slide Animation- Slide Transitions- Slide Shows- formatting etc.- Creating formal presentations- inserting different objects- arts- charts- pictures etc. to slide.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Course: B.B.A.

SEMESTER	I
TITLE OF THE SUBJECT	READING AND WRITING FOR BUSINESS
COURSE CODE	04SL0102
DURATION	24 Hours

Objectives:

The course will enable the students:

- To read and interpret formal business writings such as reports, articles and reviews;
- To know structures of formal business letters and reports;
- To write formal business letters and reports;
- To inculcate a taste for reading and writing habits pertaining to the world of business.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Introduction to Business world 1. Reading a business case-study – “Tripping Along” by Deep Kalra from <i>Stay Hungry Stay Foolish</i> 2. Reading 3 business articles (general in nature) from the newspapers/magazines i. “Paytm: the wonder wallet” from Forbes India. ii. “Millennials: How They Live and Work” from Gallup. iii. “The Right Culture: Not About Employees Happiness” from Gallup.	12
Unit-II	Reading and writing for business 1. Reading business letters (of sales, inquiry, order, complaint, and adjustment) 2. Writing business letters (Any two types) 3. Reading a few short business reports 4. Writing a short business report	12

Learning Outcomes:

After studying this course, student should be able to:

- Inculcate formal reading and writing skills required to communicate with colleagues in the workplace.
- Writing effective business letters, reports.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	25% (External Assessment)
D	Viva	25%

Course: B.B.A.

SEMESTER	I
TITLE OF THE SUBJECT	SPEAKING AND PRESENTATION SKILLS
COURSE CODE	04SL0103
DURATION	24 Hours

Objectives:

The course will enable students

1. To share information on familiar matters/issues in English.
2. To make effective presentations in English.
3. To gain confidence in speaking in English.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Speaking/Interacting in an Academic Context Greetings, Introducing self and peers, Asking and sharing information, Expressing points of view, Discussions, Facing viva voce, Group discussions, Facing an interview (interview skills).	12
Unit-II	Effective Presentation Skills Introduction to effective presentation skills, Preparing the presentation (Collection of Data/Information, exploring the topic etc.), Using ICT for the presentation, Getting ready for the presentation, Effective body language, Effective pronunciation, Interacting with the audience (Q & A), Practice (with video recording), Feedback and Suggestions.	12

Learning Outcomes:

After studying this course, student should be able to:

- Inculcate speaking skills required to communicate with colleagues in the workplace.
- Effective presentation skills in business, Pronunciation, Interacting with audience.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0152 - Subject Credits: 02

Subject Name: English for Workplace

PROGRAM	Bachelors Of Business Administration
SEMESTER	II
COURSE TITLE	Statistics in Business
COURSE CODE	04LS0205
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Learn the important statistical concepts
- Understand Application and implementation of statistical methods in field.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Basic Concepts Basics of Statistics: Introduction, Definition, Application of Statistics in Business, Economics and Industry. Presentation of Data: Data collection methods (Primary Vs. Secondary, Population Vs. Sample), Classification and Tabulation of quantitative data, Frequency distribution and Cumulative frequency distribution, Graphical Presentation of data (Histogram, Polygon and Ogive), Use of MS-Excel to create Frequency Distribution and Graphs Univariate Analysis: Descriptive Measures (Central Tendencies and Variation): Meaning of Central Tendency, Averages – Arithmetic mean, Mode, Median and Percentiles, Variation – Range and Variance and Standard Deviation of ungrouped and grouped data. Coefficient of Variation, Choice of good measures. (Use of MS Excel Statistical function to find descriptive measures)</p>	14
II	<p>Probability Theory Counting ($m \times n$) rule, Permutation and Combination (Use of MS Excel to compute permutation and combination)</p> <p>Theory of Probability: Definition, Basic terminology of Probability, three approaches of assigning probability (Classical, Relative Frequency and Subjective</p>	08

	approach), Rules of probability, Addition rule, Multiplication rule for independent and dependent events.	
III	Probability Distribution: Random variable, probability distribution and mathematical expectation Discrete Probability Distribution: Binomial, Poisson Continuous probability Distribution: Normal Distribution – Properties and Applications (Use of MS Excel Statistical function to compute Binomial, Poisson and Normal probability)	08
IV	Bivariate Analysis Correlation and Regression Analysis: Meaning of correlation, types of correlation, method of correlation – Karl Pearson’s coefficient of correlation, Meaning of Regression, regression coefficients and two lines of regression, use of regression in prediction. (Use of MS Excel Statistical Function to compute correlation and regression)	10
V	Time based Analysis Time Series and Index Numbers: Basic Concepts, Components of Time series (Trend, Seasonal Variation, Cyclic and Random / Irregular variation), methods to determine trend and Seasonal Indices – simple averages, Use of Time Series in Business and Economics. Overview of Index Numbers as an important statistical tool in economics.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

COURSE TITLE	Applications Of Spreadsheet

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0152 - Subject Credits: 02

Subject Name: English for Workplace

COURSE CODE	04LS0212
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- Able to perform routine organizational tasks using Spreadsheets.
- Can be able to understand about pivot tables and how to use it for routine purpose.
- Able to manage spreadsheet and be able to compare data in to different spreadsheet.
- Create a dynamic spreadsheet.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Manage Worksheet Data, Reorder and Summarize Data Understanding software for spreadsheet, learning basic menu items, Basic operations like create, open and save a file, worksheets and workbooks, Renaming Inserting Data in proper tabular format, Basic formatting like changing fonts, size, merging and splitting cells, Coloring cells, conditional formatting	06
II	Functions & Formulas Basic Arithmetic Functions, Conditional Functions, Lookup Functions, Sorting and Filtering Data, Paste Special, Data Validation, Converting Text to Table, Working with multiple sheets	09
III	Data Analysis and Printing Analyze data dynamically by using PivotTables, Filter, show, and hide PivotTable data, Edit PivotTables, Format PivotTables, Create PivotTables from external data, create dynamic charts by using Pivot Charts, Page Setup and Printing	09

Course Description

The course offers select English movies as a medium for teaching English language skills. Given that 'context' is a vital aspect for language learning, film as an audio-visual

'text' re-creates reality whilst presenting its viewers with demonstrations of varied

linguistic contexts. This course thus aims to create a sense of ease in learning English in a contextual manner. Moreover, the objectives of learning language are fluency and accuracy. These aims can be achieved

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

best by various language contexts (situations) demonstrated in movies. Also, movies present language in a more accessible fashion for the students to easily acquire language skills.

Course Objectives

The course will enable the learners to

1. further enhance their basic language skills;
2. identify and use different language functions in an audio-visual context;
3. learn to use film and its elements as tools for language learning.

Unit 1: Language Functions, Contexts & Movies

In this unit, students will learn, understand, and explore English through clips from various selected movies. They will primarily study a number of language situations, as shown in the clips, in order to understand how English can be used in varying contexts. This unit aims to improve the students' basic language skills LSRW by dealing with

varying language activities by focusing on strengthening their vocabulary,

interpretation skills, reading non-verbal cues, pronunciations, and also their writing skills. Students would explore the following language activities in this unit:

1. Introducing the course
 - a. Instructors will introduce each film included in the syllabus along with a very brief background of the recommended movies, and

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

- b. Students will be asked to list the kinds of movies they prefer and also provide a reason for their preferences
2. Focusing on dialogues and understanding parts of speech
3. Creative Writing: Making a pamphlet (for Continuous Semester Evaluation)
4. Reading nonverbal cues in context
5. Vocabulary building exercises – word meanings, making sentences & finding images and synonyms and antonyms
6. Interpreting dialogues & pronunciation
7. Daily Conversations

Unit 2: Detailed Analyses of the Movies

Students would be asked to watch the selected movies and individual scenes in order to transcribe dialogues, respond to and discuss various issues dealt within the movies, answer questionnaires, and write movie reviews. They will also be asked to interpret the trailers of these movies and discuss them in groups. The following activities will be covered in this unit:

- a. Dialogue and monologue transcription
- b. Interpreting the trailers [Group discussion]
- c. Interpreting the scene(s) [Group discussion in context]
- d. Movie comprehension (a short film and a long scene will be played in class)
- e. Reading and Writing Movie reviews
- f. Describing/Discussing the posters of the movies,
- g. Describing characters & themes (Questionnaire)
- h. Giving feedback/expressing opinions.

PROGRAM	Bachelors Of Business Administration
SEMESTER	III
COURSE TITLE	Fundamentals of Digital Marketing
COURSE CODE	04BB0307
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- Detail what is meant by the term 'digital marketing'
- Understand the role of digital marketing in any product / service / concept
- Detail the steps of marketing online
- Show how some of the technologies detailed in the course are used in concert to realise a typical marketing situation

Course Contents:

Unit	Unit / Sub Unit	Sessions
-------------	------------------------	-----------------

No		
I	OVERVIEW OF DIGITAL MARKETING Introduction to Digital Marketing : history – importance - good practice in Digital Marketing –Critical issues & challenges – applications of Digital Marketing in development of brands, driving sales, encouraging product and service development and innovation – digital marketing as an aid for recruitment and training	08
II	WEB MARKETING Bookmarking and News Aggregators, Really Simple Syndication (RSS), Blogging, Live Chat, User Generated Content (Wikipedia etc), Multi-media - Video (Video Streaming, YouTube etc), Multi-media - Audio & Podcasting (iTunes etc), Multi-media - Photos/Images (Flickr etc), Google Alerts and Giga Alert (Brand, product and service monitoring online) Crowd sourcing, Virtual Worlds (Second Life, There, Habboetc)	08
III	SEARCH ENGINE OPTIMISATION (SEO) Basics & working of Search Engines - Popular Search Engines. Crawlers / Spiders, Visibility on Search Engines Meta Tag Optimization, Image optimization, Creating/uploading Robots file, Creating/uploading HTML & XML Sitemap, Bold & Italic Tag - Page Rank - 404 Error Redirects, 301 / 302 redirection, Competitor analysis, Pre/post-website analysis, Alexa report, Some Common SEO tools & plug-ins, Anchor Text, Heading tag,	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Production & Operations Management
COURSE CODE	04BB0401
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the relevance of production and operations management in industry.
- Apply the techniques of inventory management and quality management.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction: Meaning, Nature and Scope of Production and Operation Management, Types of production processes	08
II	Plant location and Lay out: Factors considered in location, Types of Layout , PPC (Only concept)	10
III	Materials Management: Importance of Materials Management, Concept of purchasing, principles of purchasing and process of purchasing. Types of purchasing: Inventory management, its prime importance, Inventory Control Techniques - ABC, FSN, GOLF, VED, SOS (only concepts).	12
IV	Methods Study & Maintenance Management: Methods Study, Work Study and Time Study: (only Concept), Maintenance Management: Need of maintenance management, Types of maintenance management	10
V	Quality Management: lean manufacturing, JIT, Kaizen, ISO series, TQM	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Management Information System
COURSE CODE	04BB0402
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend types of MIS applications in organizations
- Deliberate the expansion of management information systems in organizations.
- Critically evaluate security challenges associated with the use of Information system.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Information Systems: Meaning of information system, difference between information and data, Role	10

	and Importance MIS in modern business. Types of decisions and the use of information system.	
II	Types of Information system Transaction processing system, Office Automation system, Management Information system, Decision support system, Executive support system, Group decision support system, Geographic Information system	10
III	Enterprise Resource Planning and Enterprise Applications Meaning of ERP- Its role in modern organization, merits and demerits. Enterprise Applications- Customer relationship management systems, supply chain management systems, Knowledge Management system and its role in modern business.	10
IV	Networks and its types Types of Network, LAN, WAN, MAN, CAN, PAN. Its advantages and disadvantages, Topologies, communication medium, wired and wireless networks, Meaning of internet and intranet and the difference between the two.	10
V	Security challenges in India Types of computer crimes, sources of information technology vulnerabilities. Remedies for preventing unauthorised use of information technology Challenges faced by working population- working conditions, individual's health and social issues.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Income Tax Law And Practice
COURSE CODE	04BB0403
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the residential status and tax incidence based on it
- Calculate income under all the five heads of Income
- Gain knowledge regarding the exempt income
- Gain knowledge regarding the deductions from total income
- Calculate tax payable on taxable income
- Understand the concept of tax deduction and tax collected at source

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION, RESIDENTIAL STATUS AND EXEMPT INCOME Levy of income tax - Rates of tax & slab - Important Definitions - Relevance and significance of residential status - Types of residential status and its Determination - Incidence of tax based on residential status - Income which do not form part of total income - Conditions to be satisfied for availing exemptions	05
II	INCOME UNDER THE HEAD SALARY & INCOME FROM HOUSE PROPERTY Definition of Salary – Chargeability - Treatment of various	15

	<p>Allowances - Perquisites and their valuation - Deductions from gross Salary - Retirement benefits - Provisions regarding Provident Fund - Computation of taxable salary (Practical Problems)</p> <p>Chargeability of income from house property - Composite rent - Annual value and its determination - Deductions from annual value - Deemed ownership - Computation of taxable income under this head (Practical Problems)</p>	
III	<p>INCOME UNDER PROFITS AND GAINS OF BUSINESS AND PROFESSION & INCOME FROM CAPITAL GAIN Meaning of Business and Profession – Chargeability of income from profits and gains of business and profession - Allowable expenses – Expressly disallowed expenses - Deemed profits and incomes - Computation of taxable income under this head (Practical Problems)</p> <p>Chargeability of income from capital gain - Capital asset – Transfer - Short term and Long term capital assets - Short term and Long term capital gain - Exemptions from long term capital gain - Computation of capital gains (Practical Problems)</p>	16
IV	<p>INCOME FROM OTHER SOURCES AND DEDUCTIONS FROM GROSS TOTAL INCOME Income taxable under other sources - Deductions allowed - Inadmissible deductions - Computation of taxable income from other sources (Practical Problems)</p> <p>Chapter VI-A deductions from the gross total income [Section 80C to 80U] -</p>	08
V	<p>TAX PAYABLE, TAX DEDUCTION AT SOURCE & ADVANCE TAX Calculation of taxable income and tax payable</p> <p>Deduction of tax at source under various sections [only those applicable to individual] – Concept of tax collected at source – Liability for payment of advance tax and due dates</p>	04

Note: Any change in the provisions of Income Tax Act, 1961 as per budget or otherwise, shall be respectively made applicable to the syllabus. The syllabus of an academic year shall be the provisions of the relevant Assessment Year.

Evaluation:

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Indian Financial System
COURSE CODE	04BB0404
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- To understand the fundamentals of financial markets.

- To examine impact factors of Money Market, Capital Market & Foreign Exchange Market
- To appreciate the Need and Working of Financial Intermediaries.
- To recognize the importance and various functions of Market Regulation

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Indian Financial System Structure of Financial System, Instruments of Financial System, organised and unorganised Financial System; Components: Financial Assets, Financial Intermediaries, Financial Markets (money and capital markets in India) Relevance of various interest/return rates, Regulatory framework,	10
II	Role of Financial Institutions in Indian Financial System Financial Institutions and its meaning, Functions and Role of Financial Institutions; Money market institutions: Meaning, Role of the Central Bank(RBI) in money markets; Commercial banks: Meaning and Functions; Indigenous Financial Agencies: Bankers, Money lenders, Discount houses, Accepting houses(only meaning and features); Capital Market institutions: (Meaning and functions) Merchant Banks, Investment companies, Management Investment companies, Development banks, Mutual Funds ; Special Financial Institutions: Factors for their growth (need) ; Objectives and functions of: (1) IDBI (2) IFCI (3) SFCs (4) ICICI (5) EXIM Bank of India; Non-Banking Finance Companies: Meaning, Role, Types of NBFC services; Functions SEBI.	10
III	Financial Instruments Financial Instruments Meaning, importance and classification of Financial instruments; Short-term, Medium-term and Long Term Instruments; Primary and Secondary Securities; Innovative Instruments	10
IV	Functions of Financial Markets in India Financial Market in India: Capital Market, Money Market: meaning, function, types.	08
V	Meaning and Importance of Financial services in India Meaning, importance and types of Financial Services; 1. Factoring: Meaning, Types, costs and benefits of factoring 2. Leasing: Meaning, Definition, advantages to lessor and lessee, types of leases (operating, finance, leveraged, sales and lease-back, leveraged and cross-border.) 3. Underwriting: Meaning and benefits 4. Credit Rating Agencies: Meaning and role of such agencies. A brief idea about: CRISIL, CARE ICRA. 5. Others: A brief idea about: NSDL, STCI.	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Entrepreneurship
COURSE CODE	04BB0405
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend Fundamental Concepts for starting the business
- Apprehend the concepts of industrial environment and preparing a business plan.
- Understand available sources for raising funds for start-ups.
- Comprehend various challenges and possible solutions for starting a business units.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	ENTREPRENEURSHIP - AN INTRODUCTION Meaning & Definition of Entrepreneurship, Common History & Entrepreneurial Characteristics, Required skills of an Entrepreneurs, Entrepreneurial Process, Role of Entrepreneurship in Economic Development of the Nation, Advantages & Drawbacks of Entrepreneurship, Introduction to Intrapreneurship	10
II	UNDERSTANDING INDUSTRIAL ENVIRONMENT: Industry - Large Scale - Small Scale - Tiny - Ancillary - Cottage, Challenges for Small Scale Industries, Registration process of SME, Definition & Symptoms of industrial sickness and suggested remedies for sick units, Domestic & International Entrepreneurship Options	12
III	PREPARING BUSINESS PLAN: Generation of Project Ideas, Sources of Business Ideas, Methods to generate business ideas , Feasibility Analysis: Economic, Managerial competency. Marketing, Financial & Technical, Environmental Scanning and SWOT analysis. Structure of a business plan, Importance of Business Plan, process of Preparation of Business Plan.	10
IV	SOURCES OF FINANCE FOR BUDDING ENTREPRENEURS: Debt V/S Equity, Internal V/s External Funds, Options for Borrowing Funds, Various Financial Institutions Supporting entrepreneurial activities, Introduction to Venture Capital Funding, Managing Growth	08
V	SUCCESS & FAILURE STORIES OF ENTREPRENEURSHIP: Discussions of various business stories & Cases of Successful Businesses, Lessons to be learnt from various organizational	08

	failures Launching the New Venture: Choosing the legal form of new venture, protection of intellectual property, and marketing the new venture	
--	--	--

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Management Of Services
COURSE CODE	04BB0406

COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand service marketing and utilize them effectively in managing products and people to achieve organizational objectives.
- Apply knowledge of models and theories to promote the effectiveness in workplace

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO SERVICES: Introduction to Services, Nature & Characteristics of Services, Classification of services, Consumer Versus Industrial Services	06
II	SERVICES MARKETING MIX : Introduction to the 7P's of Service Marketing, Product-Service Continuum, Standalone service Products, Service Products bundled with tangible Products	08
III	CUSTOMER SATISFACTION & SERVICE QUALITY Monitoring and measuring customer satisfaction, Order taking and Fulfillment, Service Guarantee – Handling complaints effectively, Defects, failures & Recovery, Service Quality Models – GAPS Model & SERQUAL	10
IV	TECHNOLOGY & SERVICE STRATEGY : Applying Technology to service sittings, e- services, Global and Indian Scenario in service sector, Importance of Service marketing, Every business is a service business, Service as a key differentiator	08
V	TYPES OF SERVICES : Introduction to Various Service Sectors : Hospitality; Transportation; Tourism; Information Technology; Banking & Insurance; Telecom ; Entertainment	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Operations Research
COURSE CODE	04BB0501
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

Understand and Formulate decision problem as mathematical model and solve using appropriate operations research technique.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Basics of Operations Research (OR) Introduction, Concepts, Definition, Characteristics, Potential Applications, Steps in OR Problems, Basic Operations Research Techniques, Role of Computers in OR</p> <p>Linear Programming Problem (LPP) 1 – Formulation: Introduction to Linear Programming, Applications of LPP, Requirements and Assumptions Underlying LPP, Generalized Linear Programming Problems, LPP Model Formulation – Maximization and Minimization Problems (Max 3-Variables and 4-Constraints)</p> <p>Linear Programming Problem (LPP) 2 – Graphical Method: Concept of Feasible Region, Solution of LP Problems using Graphical Method, Maximization and Minimization Problems (Max 4-Constraints), Special Cases in LPP – Multiple or Alternate Optimum Solutions, Unbounded Solution and Infeasible Solution</p> <p>Note: Constraints of all types (Less than type, Greater than type and combination of both the types) should be covered</p>	12
II	<p>Linear Programming Problem (LPP) 3 – Simplex Method: Simplex Method – Only Maximization LPP, Two or three Variables and Two Constraints (Max Three Iterations), All Constraints to be Less Than or Equal To type Concept of Slack Variable, Unique or Alternate Optimal Solution, Shadow Prices of Resources, Utilized and Unutilized Capacity of Resources</p> <p>Concept of Duality: Introduction to Duality, Relation between Primal Problem and Dual</p>	10

	LPP, Conversion of Primal Problem to Dual LPP, <i>Note: Mixed-constraints and Unrestricted Variables, Max 3-Variables and 3-constraints</i>	
III	Transportation Problem (TP) Introduction, Structure of TP, Solution of TP – Initial Feasible Solution (IFS) using North West Corner Method (NWCM), Least Cost Method (LCM) and Vogel's Approximation Method (VAM), Finding Optimal Solution using MODI Method, Types of Transportation Problem – Balanced and Unbalanced, Minimization and Maximization, Case of Degeneracy and Prohibited or Restricted Route, Unique Optimum Solution and Multiple Optimum Solutions <i>Note: Max 4X4 Transportation Matrix, MODI Method - Maximum One Iterations after IFS, Degeneracy to be covered at Conceptual Level, Not to be Included in Numerical</i>	10
IV	Assignment Problem (AP) Introduction, Structure of AP, Solution of AP using Hungarian Method, Types of Assignment Problems - Balanced and Unbalanced, Minimization and Maximization, Restricted Assignment, Unique Optimum Solution and Multiple Optimum Solutions, Travelling Salesman Problem <i>Note: Max 5X5 Assignment Matrix, Maximum Two Iterations after Row and Column Minimization</i>	08
V	Probabilistic Operations Research Models Waiting Line Models: Queuing Models – Concepts, General structure of a queuing system. Single-channel queuing model: Poisson-distributed arrivals and exponentially distributed service times with infinite source population. M/M/1 queuing models. Digital Simulation: Introduction, Areas of Applications, Steps involved in Monte Carlo Simulation, Application of Simulation Method, Advantages and Disadvantages of Simulation, Application in Queuing, Inventory, Profitability and Investment problems	08

Note: Guidelines for the Faculty

Instructor is required to demonstrate solution of OR problems using QM for Windows Software. Not to be included for assessment / examination

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Strategic Management
COURSE CODE	04BB0502
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Differentiate between strategies made at different levels of organization.
- Create & implement strategy formulation at various levels of management

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction:	8

	Strategy – Introduction to Strategy, Levels of Strategy, Difference between Policy, Strategy and Tactics. Vision, Mission & goals (Concept & difference) Strategic Management – Definition, Process of Strategic Management.	
II	Environment Analysis: Concept of Environment – Internal & External. SWOT Analysis, Environmental Sector, Environmental Scanning. Internal Environment – Factors & Methods of analysis – Internal, Comparative & Comprehensive Analysis.	10
III	Strategy Formulation – Business Level Strategy & Functional Level Generic Business Level Strategy – Cost Leadership, Differentiation & Focus – Business Strategy for different industry conditions. Functional Plans & Policies – Financial – Marketing – Operations – Personnel.	10
IV	Strategy Formulation – Corporate Level Strategy Concentration – Integration – Diversification – Internalization Strategies – M&A, Joint Venture, Strategic alliance. Digitalization Strategies - Retrenchment & Restructuring (Only concepts).	10
V	Strategic Implementation evaluation & Control: Strategy Implementation - Nature & Barrier to strategy implementation – Strategic Leadership – Strategic Control – Operational Control – Techniques of Strategic Evaluation & Control	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Project Management
COURSE CODE	04BB0503
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Analyze the project idea for better selection.
- Identify the completion of project in a better control way.
- Understand the topics like planning, selection and implementation.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Project: Introduction, Characteristics of a project, element of a project, target and needs of a project, types of projects, functions of project manager, project management body of knowledge, benefits of project management.	9
II	Idea Generation and Initiation: Generation and Screening of Project Ideas, Market and Demand Analysis, Technical Analysis, Financial Estimates and Projections,	10

	Project Life Cycle.	
III	Project Planning and Selection: Project Scope, Scope of a Project and Scope Verification, SWOT Analysis, Organization Structure, Work Breakdown Structure, Project Selection Methods.	10
IV	Project Implementation: Estimation, Scheduling, Network Techniques for Project Management- CPM & PERT (only network diagram and Critical path identification), Project Risk, Project Communication.	10
V	Project Closeout: Project Evaluation, Project Auditing, Project Closeout Reports, Project Review and Administrative Aspects.	9

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

INTERNSHIP (04BB0506)(BBA/BBA (H)) Content

Components

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I), containing: (1 Page)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (1 Page) (Annexure II)
- ☛ College Certificate (1 Page) (Provided by Guide/Supervisor)
- ☛ Company Certificate (1 Page)
- ☛ Preface (1 Page)
- ☛ Acknowledgement (1 Page)
- ☛ Executive Summary (1 Page)
- ☛ Table of Content (1 Page)
- ☛ Introduction and History of Company (15 to 20 Pages)
- ☛ Vision & Mission of Company (2 Pages)
- ☛ Organization Structure (1 to 2 Pages)
- ☛ Departmental Study (15 to 20 Pages)
 - Marketing Department
 - Finance Department
 - Human Resource Department
 - Production Department
 - Accounting Department
 - R & D Department etc...
- ☛ SWOT Analysis (2 to 4 Pages)
- ☛ Overview of Industry & Major Players (4 to 5 Pages)
- ☛ Porter's Five Force Model Analysis of Industry (2 to 4 Pages)
- ☛ Learning form Internship (1 to 2 Pages)
- ☛ Conclusion (1 Page)
- ☛ Bibliography (1 Page)
- ☛ Annexure (if Any) (1 Page)

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12

10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify
12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01 Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

Suggested Theory distribution:

The suggested theory distribution as per Bloom's taxonomy is as per follows. This distribution serves as guidelines for teachers and students to achieve effective teaching-learning process

Distribution of Theory for course delivery and evaluation					
Remember	Understand	Apply	Analyse	Evaluate	Create
20%	20%	30%	15%	10%	5%

Instructional Method:

a. The course delivery method will depend upon the requirement of content and need of students. The trainer shall train students through interactions, demonstration, brainstorming, group tasks etc.

Students will use supplementary resources

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Business Ethics & Corporate Governance
COURSE CODE	04BB0601
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the dynamics of business ethics.
- Identify ethical dilemmas in business & suggest solutions to overcome the problems.
- Learn the concept of corporate governance and its relevance to ethical business activity.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Ethics Meaning and classification of Ethics, Importance of Business Ethics, Nature of ethics as moral value; types of value; Teaching from Scriptures like Gita, Quran, Bible w.r.t. Indian Value Systems in Business.	10
II	Ethical Dilemma and Essence of Decision Making Meaning and structure of Ethical Dilemma in business, Sources of Ethical Problems, Managing Ethical Dilemmas; Understanding Decision making, Model of Cognitive Moral Development, The Process of Making Good Ethical Decision; Dynamics of Ethical Leadership.	10
III	Ethical Issues in Financial Management Introduction to Ethics in Finance, Ethical issues in Financial Markets, Financial service industry and by Financial people in organizations. Case study on Strategic failure of Satyam Computer Service.	10
IV	Ethical Issues in Marketing & HRM Role of Marketing, Areas in Marketing Ethics, Truth and Advertising; Functional Areas of HRM, Need for Workplace ethics, HR related ethical issues, Rights and duties of Employees.	10
V	Introduction to Corporate Governance Definition and attributes of good corporate governance, Corporate governance theories – Agency, Stewardship, Shareholder, stake holder theory, Role of Board of Governors, Factors influencing quality of	08

	Corporate Governance.	
--	-----------------------	--

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	A. C. Fernando	Business Ethics and Corporate Governance	Pearson	2 nd edition, 2012
T-02	Daniel Albuquerque	Business Ethics: Principles and practice	Oxford Uni. Press	2010

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Management Accounting
COURSE CODE	04BB0602
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the scope of management accounting.
- Understand the importance of marginal costing in decision making.
- Understand the control mechanism on all the element of cost that affect production.
- Understand the changes in operational and financial position of company.
- Understand the role of Budgetary control in framing financial plan.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Accounting Meaning, Definition, Nature, Scope, Functions and Limitations of Management Accounting. Relationship and difference between Management Accounting to Cost Accounting and Financial Accounting. Description of Tools and Techniques in Management Accounting.	7
II	Analysis of Fund Flow and Cash Flow Statement Fund Flow Statement: Meaning and usage of Fund Flow Statement; preparation of fund flow statement (Basic level). Cash Flow Statement (AS-3); Distinction between Fund Flow Statement and Cash Flow Statement, Classification of Cash Flows, Objective and Usage of Cash Flow Statement, Preparation of Cash Flow statement.	12
III	Marginal and Absorption Costing Marginal Costing- Meaning, Characteristics, Advantages and Limitations. Difference between Marginal Costing and Absorption Costing; Income determination under Marginal Costing and Absorption Costing; CVP/BEP Analysis; Safety Margin and Key factors that involves decision making.	11

IV	Budgeting and Budgetary Control Meaning, Objectives, Advantages and Limitations. Essentials of effective budgeting in management process; Installation of Budget System Budgetary Control: Types of budgets preparation, Zero Base Budgeting; Performance Budgeting	08
V	Standard Costing Meaning, Difference between Standard Costing and Budgetary Control, Merits and Demerits of Standard costing, Prerequisite for establishment of standard costing, Efficiency and Activity Ratios, Material, Labor and Overhead Variance.	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	International Business
COURSE CODE	04BB0603
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Study the environmental variables that affect world trade.
- Describe the policies and strategies that can lead to successful global trade.
- Evaluate present and future opportunities and risks for international business activities.
- Develop analytical skills which will help them enhance greater understanding towards world trade.
- Make student understand how the global risks are interconnected.
- Identify and evaluate the complexities of world trade and globalization from home versus host-country, regional, and cultural perspectives.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Overview of Globalization: Drivers, Changing Demographics of the Global Economy, Managing the Global Marketplace, Country Differences Political, Legal, Economic, Social, Technological & Demographics, Micro and Marco business Environment Difference in Cultural Aspects, Values & Norms, Social Structure Language, Education ways to enter Foreign Market, Ethics in	12

	international business Dilemmas, Roots of Unethical Behavior, Ethical decision making.	
II	Global Trade and Investment Environments Trade Theories: -Mercantilism, Absolute & Comparative advantage, Heckscher-Ohlin theory, Porter's Diamond model, Foreign Direct Investments, Benefits of FDI Regional Economic Integrations like European Union, NAFTA, MERCOSUR, CARICOM, Association of Southeast Asian Nation.	10
III	Global Monetary Systems. Foreign Market nature & functions , Exchange Rate Determination, Forecasting & Currency Convertibles, Bretton wood systems, GATT, IMF & WTO, Ways to Enter Market Strategy and Structure, Global Expansion, Profitability & Profit Growth, Organizational Structure & Cultures, Control systems, Incentives & Changes. Basic entry Decisions, & Modes.	12
IV	Business Operations Managing Global Supply Chains, International Logistics Practices, global marketing and R & D, Global Human Resources Management International Labor Relations, Accounting and Financial Issues.	10
V	Global Risk Analysis: - Context base discussion of each issue:- Natural and Man-made disasters, Energy price shocks, Large scale involuntary migrations, Weapons of mass destruction, Terrorists attacks, Failure of national governance, Cyber-attacks.	04

Note: - Unit V should be taught by concern faculty, taking into consideration current happening at global level.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Project (04BB0604)

Credits: 8

Guidelines for the Preparation of Project Report (BBA/BBA(Hons) Semester – VI)

MARWADI UNIVERSITY

Rajkot-Morbi Road, At & Po. Gauridad,

Rajkot-360003, Gujarat, India.

Phone : 0281-2924155 / 56, www.marwadiuniversity.in

Course: BBA/BBA(H)

SEMESTER	VI
TITLE OF THE SUBJECT	Project
COURSE CODE	04BB0604
COURSE CREDIT	8

Project

Project is a composition of practical research work, involving the analysis of a specific problem in the area of the specialization and evaluation of the results of the analysis that serves as a basis for developing specific proposals and implementing the appropriate solution to the problem.

Objective of the Project

The objectives of the Project for BBA/BBA (H) students are:

- a. To demonstrate the student’s knowledge of the literature relating to the problem of study.
- b. To reveal the student’s ability to collect, analyze, interpret and synthesize information/data for analyzing various business situations.
- c. To present the results obtained, in a sequential and logical manner.
- d. To display the student’s ability to discuss coherently the meaning of the results.

Content of Report

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (Annexure II)
- ☛ College Certificate (Provided by Guide/Supervisor)
- ☛ Company Certificate
- ☛ Preface

- ☛ Acknowledgement
- ☛ Executive Summary
- ☛ Table of Content
- ☛ Introduction to Topic
- ☛ Review of Literature (8 to 10 literature review)
- ☛ Research methodology
 - Introduction
 - Statement of problem
 - Research Objectives
 - Scope of the study
 - Research hypothesis (If any)
 - Research design (Research Type)
 - Data Collection sources (Primary and secondary sources)
 - Data Collection Instrument (for e.g. Questionnaire)
 - Sampling Design
 - ☞ Population of the study
 - ☞ Sample Size
 - ☞ Sampling Method
 - Data Analysis Design (a brief outline of tools and techniques to be used for analysis, statistical tools and tests to be used)
 - Limitations of the Project
- ☛ Data Analysis and Interpretation
 - Tabular representation of data
 - Charts
 - Statistical tests
 - Analysis and Interpretation
- ☛ Findings & Suggestions
- ☛ Conclusion
- ☛ Annexure
- ☛ Annexure - Questionnaire
- ☛ Annexure – Any other document
- ☛ Bibliography

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12

10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify
12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

STUDENT DECLARATION

I hereby declare that this Project Report titled _____
_____ submitted by me to the Faculty of Liberal
Studies, Marwadi University is a bonafide work undertaken by me and it is not submitted to any
other University or Institution for the award of any degree diploma / certificate or published any
time before.

Date: DD/MM/YYYY

Place: Rajkot

Signature of the Student

[Name of Student]

[Enrollment No.]

Evaluation Scheme

Internship consists of 4 Credit, 100 marks and shall be evaluated on two components i) Internal Assessment & ii) Viva.

Particular	Weightage (%)	Conducted By
Internal Assessment (IA)	50%	Supervisor/ Guide
Viva Voce	50%	Viva Panel

I. **Internal Assessment** shall consist of 100 marks, which will be carried out by supervisor/guide.

II. **Viva Voce** shall carry 100 marks and will be conducted by a Panel of two examiners.

Specialization: Finance

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Advance Financial Management
COURSE CODE	04BB0605
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Students will be able to understand basic framework of designing capital structure of a firm.
- Students will be able to evaluate the risk aspect for analyzing investment decisions.
- Students will have knowledge about dividend policy and its relevance in value of a firm.
- Ability to determine cash position of a firm.
- Acquire knowledge on receivables management of the firm.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
---------	-----------------	----------

I	Capital Structure Decision Introduction, PBIT-EPS Analysis, ROI-ROE Analysis, Leverage Analysis, Ratio Analysis, Factors determining capital structure. (Theory & ratio problems)	10
II	Risk Analysis in Capital Budgeting Sources and Perspectives on Risk, Sensitivity Analysis, Scenario Analysis, Break-even Analysis, Hillier Model, Simulation Analysis, Decision tree Analysis, Corporate risk Analysis, Managing Risk. (Theory & Problems)	10
III	Dividend Policies Introduction, Factors affecting Dividend Decision, Bonus Share & Stock Splits, Different forms of dividend, Bonus share and its impact on stock price, Legal and Tax aspects relating to dividend (Theory & Problems)	10
IV	Cash & Liquidity Management Introduction, Cash budgeting, Long term cash forecasting, Reports for control, Cash collection and Disbursement, Optimal Cash balance, Investment of Surplus Funds, Cash Management Models. (Theory) & Problems	10
V	Credit Management Introduction, Terms of payment, Credit policy Variables, Credit Evaluation, Credit Granting Decision, Control of Accounts Receivables, Credit Management in India (Theory & Problems)	8

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr.No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	Prasanna Chandra	Financial Management	The McGraw-Hill Publishing Company Ltd.	8 th Edition 2011
T-02	Financial Management	M.Y. Khan & P. K. Jain	The McGraw-Hill Publishing Company Ltd.	5 th Edition 2007

Specialization: Marketing

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Advertising Management
COURSE CODE	04BB0606
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Gain an understanding of effectiveness of advertising as an integral marketing tool.

- Learn the majors of advertising programs of organizations with emphasis on the application of marketing concepts for effective decision making.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to advertising Introduction to Advertising –Meaning, Definition of advertising, objectives, its role and functions. Types of Advertising: Commercial, Non-commercial, Primary demand and Selective Demand, Classified and Display advertising, Comparative advertising, Co-operative advertising.	10
II	Advertising Planning Advertising planning framework – factors involved in advertising planning and decision making, the communication & persuasion process segmentation strategy.	10
III	Creative Strategy Creative Strategy: meaning of creativity, Creative strategy and tactics, various advertising Appeals, the mode of message and theme.	10
IV	Advertising budget Advertising Budget – Objectives, preparation and methods of advertising budget; Top down and Build up approach, methods of advertising – Affordable method, Arbitrary allocation method, percentage of sales method, competitive parity method, Objective and Task method; and DAGMAR Approaches	10
V	Advertising Media Decision Concept, Role of Media, Advertising media- Types of Media Print Media (Newspaper & Magazines, Pamphlets, Posters & Brochures), Electronic Media (Radio, Television, Audio Visual Cassettes), Other Media (Direct Mail, Outdoor Media), New Media –Internet and Mobile phones (Characteristics, merits & Demerits of above media, media scenario in Indian Context.)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Specialization: Human Resource Management

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Change Management
COURSE CODE	04BB0607
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the objective of managing change in the organization
- Recognize reactions to change and address the resistance
- Learn the competencies required for effective change management

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Organizational Culture and Change Business as a domain for change, Environmental Factors leading to Change, Organizational Culture and Change: Sources and types of Culture, Significance of Culture during change, Strengths and weaknesses of Indian Culture.	10
II	Resistance to Change Meaning and Nature of Organizational Change, Types of Change, Organizational Barriers to Change, Individual and Group Resistance, Overcoming Resistance to Change, Techniques to manage resistance	10
III	Organizational Change and Change Agents Meaning and Types of Change Agents, Key Roles in Organizational Change, Characteristics of good Change Agent, Strategic Management of Change, Factors in selecting Change Strategy, Formulation and Implementation of Change Strategy.	10
IV	Organizational Diagnosis & Development Meaning of Diagnosis, Introduction to Organizational Diagnosis, Collection of Data, Introduction to OD, OD Intervention and Classification, OD Interventions Techniques, Prerequisites for effective use of OD.	10
V	Learning Organization and Models of Change Meaning and nature of Learning Organization, TQM and Learning Organization, Basic Models of OD: Individualistic Model, Group Oriented Model, Organization-oriented model, Lewin's three-step Model, Case study on Change Management in any Industry.	8

Elective

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Mathematics For Business
COURSE CODE	04BB0106
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Calculate simple and compound interest on investments
- Understand repayments of loan using EMIs
- Structure and solve problems using matrices
- Understand and establish relationship between variables using functions to determine equilibrium
- Determine minimum and maximum (optimum) value of cost and profit

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	MATHEMATICS OF FINANCE Introduction, Simple Interest and Compound Interest – Concept and problem solution Future Value (FV) - Annuity: Amount of ordinary annuity, Amount of annuity due Present Value (PV) -ordinary annuity and annuity due Loan Amortization and Equated Monthly Installments (EMIs) - Reducing balance and flat rate of interest Use of MS Excel	10
II	FUNCTIONS Introduction, Constants, Variables, Types of functions– Linear function and Polynomial functions Functions in Business: Cost function, Revenue function and Profit function, construction of cost functions, Profit function and Break Even Point (BEP)	10
III	DIFFERENTIATION AND APPLICATIONS OF DERIVATIVES Limit of a function, important results, differentiation of algebraic functions – formulae (no derivation) Derivative of function of one variable, derivative of sum, difference, product and quotient of two functions (no derivation), chain rule, differentiation of implicit function, price elasticity of demand, second order derivative	12

	Application of derivatives – Marginal cost, Marginal revenue, Marginal Profit, Maxima and Minima	
IV	DETERMINANTS Determinant of second order and of third order, Minor of an element Expansion of determinant, Properties of determinant, Use of determinants in solving simultaneous linear equations – Cramer's Rule for two and three linear equations Use of MS Excel to calculate determinant	06
V	MATRICES AND APPLICATIONS Introduction, Definition, Types of matrices, Algebra of matrices (Addition and Subtraction), Additive Inverse of a matrix, Structure problems in matrix form, Multiplication of matrices (Max 3X3) Minor, cofactor, adjoint and Inverse of Matrix, Solution of system of linear equations using inverse of coefficient matrix (Max 3) Use of MS Excel to calculate inverse of matrix	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Career Readiness Program
COURSE CODE	04CR0101

COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Objectives:

- The “*Linguistics for Interpersonal Interaction*” course is designed to make the Learners feel comfortable understanding, thinking and speaking in English.
- Having undergone the training, the Learners will feel confident about his or her own English-speaking skills.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Phonology: Varieties of Language and Standard English, Phonetics and Phonology - Speech Mechanism and Articulatory Phonetics, English Phonemes. Characterization and Classification of Vowels - Diphthongs and Monophthongs.	6
Unit-II	Syntax and Morphology: Nouns, Pronouns and Determiners - Misconceptions related to usages of noun forms, Using Possessives, Types of Pronouns, General Determiners and Specific Determiners. Verbs and related forms - Types of verbs and their forms, Stative and Dynamic, Lexical and Delexical Adjectives and Adverbs - Word formation, Order of Adjectives, Types of Adverbs Preposition and Phrasal verbs - Preposition of time, Preposition of Movements, Preposition of Place, Phrasal Verbs Conjunctions - Coordinating and Subordinating, Using Conjunctions in formal settings. Present Continuous – Form, Usages, Misconception Present Simple & Simple Past – Form, Usages, Misconception	8
Unit - III	Reading Comprehension: Processing Strategy - Comprehension Strategy, Meta-cognitive Strategy, Prediction and Pre-prediction.	4
Unit - IV	Spoken Discourse: Coherence and Cohesion - Situational Sociolinguual interaction, Conversation Practice. Feature of Spoken Discourse - Semantic and Pragmatic Meanings, Conversation Practice (Role Play)	6

Learning Outcomes:

After studying this course, student should be able to:

- Articulate phonetics and phonology, Noun, Pronoun, Verb
- Reading and processing comprehension.

Evaluation:

The students will be evaluated on following evaluation scheme:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment (Term Work)	30% (I.A.)
C	End-Semester Examination (Viva)	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Principles Of Management
COURSE CODE	04LS1102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Demonstrate their knowledge of business and management principles.
- Get acquainted with management process and functions.
- Comprehend the modern management techniques and its relevance in business

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Meaning, Nature and Characteristics of Management – Scope of Management - Functional areas - Management as a Science and an Art - Management & Administration – Levels of management & Managerial Skills - Evolution of Management Thoughts - Principles of management - Ethics in Management.	10

II	Planning in Management Need and importance of planning - basic purpose of planning - Planning process, Types of plans - Objectives - Management By Objectives Decision-making Decision making – Nature and importance- types of decisions – process	10
III	Organizing Need for organization - purpose of organization, fundamental principles of organization - Types of organization - Departmentalization, Committees - Centralization Vs decentralization of authority and responsibility Staffing Staffing – Introduction - Need for Staffing - Importance of staffing -Process of staffing	10
IV	Directing Directing – Meaning, nature and importance – Theories of Motivation – Maslow's, Herzberg's & McGregor's Leadership – Introduction - Formal and Informal Leadership – Characteristics – Styles of Leadership - Importance of Communication as a leader Coordinating Coordination – Introduction - Importance of coordination - Principles of coordination	10
V	Controlling Meaning and steps in controlling – Pre-requisites of a strong control system -Methods of establishing control Modern Management Techniques Introduction to various latest management techniques: Business process re-engineering, business outsourcing, benchmarking, kaizen, six sigma, knowledge management, just in time management, total quality management.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Microeconomics
COURSE CODE	04LS1103
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Apply economic reasoning to the analysis of selected contemporary economic problems.
- Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of goods and services produced and consumed.
- Use economic problem solving skills to discuss the opportunities and challenges of the increasing globalization of the world economy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO MICROECONOMICS	10

	Meaning and definition of Microeconomics, Nature and scope of Microeconomics, Difference between microeconomics and macroeconomics. Central economic problems of society.	
II	CONSUMER BEHAVIOUR Utility analysis: Meaning of Cardinal and Ordinal utility. Cardinal Utility: Law of diminishing Marginal utility, Law of Equi-marginal Utility, Ordinal Utility: Indifference curve analysis, properties of indifference curve analysis, Marginal rate of substitution, Budget line and consumer's Equilibrium.	10
III	DEMAND AND SUPPLY ANALYSIS Determinants of demand , law of demand, exceptions to law of demand. Elasticity of demand and its applications: Price elasticity, Income elasticity and cross elasticity. Concept and Law of Supply , Factors Affecting Supply	10
IV	PRODUCTION AND COST ANALYSIS Production Function: Short run and long run production functions, laws of returns, and law of returns to scale. Cost Function : classification of costs, short run and long run cost curves and their interrelationship, Planning curve and envelope curve, internal and external economics of scale, revenue curves, optimum size of the firm, factors affecting the optimum size	10
V	EQUILIBRIUM OF FIRM AND INDUSTRY Perfect competition, monopoly, monopolistic competition, discriminating monopoly, aspects of non-price competition; group equilibrium, excess capacity, selling costs, oligopolistic behavior.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Fundamentals Of Accounting
COURSE CODE	04LS1105
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Analyze business transactions and will be able to prepare the Financial Statements.
- Understand the need of uniformity in Accounting.
- Analyze the effects of different Financial Accounting methods on the Financial Statements.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Basics of Book – keeping and Accounting Introduction to Book Keeping and Accounting – Branches of Accounting – Systems of Accounting – Basis of Accounting – Characteristics of Accounting Information – Users of Accounting Information – Basic Accounting Terms – Classification of Accounts and its Rules – Accounting Equation Accounting Concepts and Conventions Accounting Principles: Accounting Concepts and Conventions – Fundamental Accounting Assumptions – Introduction to Ind AS – Applicability of Ind AS.	08
II	Process of Accounting Books of Original Entry – Journalizing (including GST) – Difference between Cash Discount and Trade Discount, Ledger – Preparation, Posting and Overview of Electronic Ledgers under GST: Electronic Cash, Credit and Liability Ledger – Practical problems on Journal and Ledger – Preparation of Trial Balance – Redrafting of Trial Balance – Errors and their Rectification	16
III	Final Accounts Types of Expenditure and Income – Meaning of Deferred Revenue Expenditure – Classification of Assets and Liabilities under different head – Contingent Asset and Contingent Liability – Distinguish between Provisions and Reserves – Types of Reserves – Preparation of Financial Statements of sole proprietorship – Impact of GST on Financial Statements – Format of Companies Financial Statements as per Companies Act, 2013.	14
IV	Depreciation Meaning and difference between Depreciation, Depletion and Amortization – Need of Depreciation – Depreciation methods (Straight Line Method and Written Down Value Method) – Method of recording Depreciation (Charging to Asset Account and Creating provision for Depreciation/ Accumulated Depreciation) – Treatment of Disposal of Fixed assets.	06
V	Valuation of Inventory Meaning of Inventory - Inventory Record Systems: Periodic and Perpetual - Methods of Stock Valuation: FIFO, Weighted Average and LIFO	04

Note: Any revision in Indian Accounting Standard will become applicable immediately.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

Elective

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Computer Essentials
COURSE CODE	04LS1107
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Draft Document / Worksheet and Presentation
- Understand the Computer Hardware and Software Fundamentals
- Detail some of the problems that are encountered when developing documents and worksheets
- Describe briefly some of the technologies that are used to support online applications

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	COMPUTER BASICS Data- Instruction and Information-Characteristics of Computers- Various fields of application of Computers- Input-output Devices (Hardware-Software- Human ware and Firmware)-Advantages and Limitations of Computer- Block Diagram of Computer- Function of Different Units of Computer- Classification of Computers. Data Representation-Different Number System (Decimal- Binary- Octal and hexadecimal) and their Inter Conversion.	10
II	COMPUTER SOFTWARE Types of Software- Application software and system software- Compiler and Interpreter-Generations of languages-Low and High Level Languages-Computer Memory: Primary Memory & Secondary memory. Cache memory-optical memory- Storage Media. Introduction to Operating System-All Directory Manipulation-Creating Directory- Sub Directory-Renaming-Coping and Deleting the Directory File Manipulation-Creating a File-Deleting- Coping- renaming a File Using accessories such as calculator- paint brush- CD player etc.	10
III	INTRODUCTION TO MS- OFFICE (WORD) Introduction to Word Processing- Features - Formatting Documents- Paragraph Formatting- Indents- Page Formatting- Header and Footer- Bullets and Numbering- Tabs- Tables- Formatting the Tables- Finding and	10

	Replacing Text- Mail Merging etc..	
t IV	INTRODUCTION TO MS- OFFICE (EXCEL) Introduction to Electronic Spreadsheets- Feature of MS-Excel- Entering Data- Entering Series- Editing Data- Cell Referencing- ranges- Formulae- Functions- Auto Sum- Copying Formula- Formatting Data- Creating Charts- Creating Database- Sorting Data- Filtering etc.	10
V	INTRODUCTION TO MS- OFFICE (POWERPOINT) PowerPoint- Features of MS PowerPoint Clipping- Slide Animation- Slide Transitions- Slide Shows- formatting etc.- Creating formal presentations- inserting different objects- arts- charts- pictures etc. to slide.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

Course: B.B.A.

SEMESTER	I
TITLE OF THE SUBJECT	READING AND WRITING FOR BUSINESS
COURSE CODE	04SL0102
DURATION	24 Hours

Objectives:

The course will enable the students:

- To read and interpret formal business writings such as reports, articles and reviews;
- To know structures of formal business letters and reports;
- To write formal business letters and reports;
- To inculcate a taste for reading and writing habits pertaining to the world of business.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Introduction to Business world 1. Reading a business case-study – “Tripping Along” by Deep Kalra from <i>Stay Hungry Stay Foolish</i> 2. Reading 3 business articles (general in nature) from the newspapers/magazines i. “Paytm: the wonder wallet” from Forbes India. ii. “Millennials: How They Live and Work” from Gallup. iii. “The Right Culture: Not About Employees Happiness” from Gallup.	12
Unit-II	Reading and writing for business 1. Reading business letters (of sales, inquiry, order, complaint, and adjustment) 2. Writing business letters (Any two types) 3. Reading a few short business reports 4. Writing a short business report	12

Learning Outcomes:

After studying this course, student should be able to:

- Inculcate formal reading and writing skills required to communicate with colleagues in the workplace.
- Writing effective business letters, reports.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	25% (External Assessment)
D	Viva	25%

Course: B.B.A.

SEMESTER	I
TITLE OF THE SUBJECT	SPEAKING AND PRESENTATION SKILLS
COURSE CODE	04SL0103
DURATION	24 Hours

Objectives:

The course will enable students

1. To share information on familiar matters/issues in English.
2. To make effective presentations in English.
3. To gain confidence in speaking in English.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Speaking/Interacting in an Academic Context Greetings, Introducing self and peers, Asking and sharing information, Expressing points of view, Discussions, Facing viva voce, Group discussions, Facing an interview (interview skills).	12
Unit-II	Effective Presentation Skills Introduction to effective presentation skills, Preparing the presentation (Collection of Data/Information, exploring the topic etc.), Using ICT for the presentation, Getting ready for the presentation, Effective body language, Effective pronunciation, Interacting with the audience (Q & A), Practice (with video recording), Feedback and Suggestions.	12

Learning Outcomes:

After studying this course, student should be able to:

- Inculcate speaking skills required to communicate with colleagues in the workplace.
- Effective presentation skills in business, Pronunciation, Interacting with audience.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0152 - Subject Credits: 02

Subject Name: English for Workplace

PROGRAM	Bachelors Of Business Administration
SEMESTER	II
COURSE TITLE	Statistics in Business
COURSE CODE	04LS0205
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Learn the important statistical concepts
- Understand Application and implementation of statistical methods in field.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Basic Concepts Basics of Statistics: Introduction, Definition, Application of Statistics in Business, Economics and Industry. Presentation of Data: Data collection methods (Primary Vs. Secondary, Population Vs. Sample), Classification and Tabulation of quantitative data, Frequency distribution and Cumulative frequency distribution, Graphical Presentation of data (Histogram, Polygon and Ogive), Use of MS-Excel to create Frequency Distribution and Graphs Univariate Analysis: Descriptive Measures (Central Tendencies and Variation): Meaning of Central Tendency, Averages – Arithmetic mean, Mode, Median and Percentiles, Variation – Range and Variance and Standard Deviation of ungrouped and grouped data. Coefficient of Variation, Choice of good measures. (Use of MS Excel Statistical function to find descriptive measures)</p>	14
II	<p>Probability Theory Counting ($m \times n$) rule, Permutation and Combination (Use of MS Excel to compute permutation and combination)</p> <p>Theory of Probability: Definition, Basic terminology of Probability, three approaches of assigning probability (Classical, Relative Frequency and Subjective</p>	08

Course Description

The course offers select English movies as a medium for teaching English language skills. Given that 'context' is a vital aspect for language learning, film as an audio-visual

'text' re-creates reality whilst presenting its viewers with demonstrations of varied

linguistic contexts. This course thus aims to create a sense of ease in learning English in a contextual manner. Moreover, the objectives of learning language are fluency and accuracy. These aims can be achieved

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

best by various language contexts (situations) demonstrated in movies. Also, movies present language in a more accessible fashion for the students to easily acquire language skills.

Course Objectives

The course will enable the learners to

1. further enhance their basic language skills;
2. identify and use different language functions in an audio-visual context;
3. learn to use film and its elements as tools for language learning.

Unit 1: Language Functions, Contexts & Movies

In this unit, students will learn, understand, and explore English through clips from various selected movies. They will primarily study a number of language situations, as shown in the clips, in order to understand how English can be used in varying contexts. This unit aims to improve the students' basic language skills LSRW by dealing with

varying language activities by focusing on strengthening their vocabulary,

interpretation skills, reading non-verbal cues, pronunciations, and also their writing skills. Students would explore the following language activities in this unit:

1. Introducing the course
 - a. Instructors will introduce each film included in the syllabus along with a very brief background of the recommended movies, and

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

- b. Students will be asked to list the kinds of movies they prefer and also provide a reason for their preferences
2. Focusing on dialogues and understanding parts of speech
3. Creative Writing: Making a pamphlet (for Continuous Semester Evaluation)
4. Reading nonverbal cues in context
5. Vocabulary building exercises – word meanings, making sentences & finding images and synonyms and antonyms
6. Interpreting dialogues & pronunciation
7. Daily Conversations

3. <https://speechyard.com/us/video/>
4. <https://www.learnenglish.de/improveenglish/films.html>

Unit 2: Detailed Analyses of the Movies

Students would be asked to watch the selected movies and individual scenes in order to transcribe dialogues, respond to and discuss various issues dealt within the movies, answer questionnaires, and write movie reviews. They will also be asked to interpret the trailers of these movies and discuss them in groups. The following activities will be covered in this unit:

- a. Dialogue and monologue transcription
- b. Interpreting the trailers [Group discussion]
- c. Interpreting the scene(s) [Group discussion in context]
- d. Movie comprehension (a short film and a long scene will be played in class)
- e. Reading and Writing Movie reviews
- f. Describing/Discussing the posters of the movies,
- g. Describing characters & themes (Questionnaire)
- h. Giving feedback/expressing opinions.

III	CUSTOMER SATISFACTION & SERVICE QUALITY Monitoring and measuring customer satisfaction, Order taking and Fulfillment, Service Guarantee – Handling complaints effectively, Defects, failures & Recovery, Service Quality Models – GAPS Model & SERQUAL	10
IV	TECHNOLOGY & SERVICE STRATEGY : Applying Technology to service sittings, e- services, Global and Indian Scenario in service sector, Importance of Service marketing, Every business is a service business, Service as a key differentiator	08
V	TYPES OF SERVICES : Introduction to Various Service Sectors : Hospitality; Transportation; Tourism; Information Technology; Banking & Insurance; Telecom ; Entertainment	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr.No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	Zeithaml, Bitner, Gremler & Pandit	Services Marketing	McGraw-Hill	Latest Publication
T-02	R. Srinivasan	Services Marketing	Prentice-Hall of India	Latest Publication

Reference Books:

R-01	Christopher Lovelock	Services Marketing	Pearson	Latest Publication
R-02	Rampal & Gupta	Services Marketing	Galgotia	Latest Publication

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Basics of French Language
COURSE CODE	04BB0407
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the basics of French Language.
- Start basic conversations using French Language

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION Introduction – Greetings – Alphabet- Definite Articles - Indefinite Articles - Gender - Colour - Demonstrative Pronouns - Numbers (0 to	08

	60) - Numbers (61 to 100) - Time Telling – 1 - Time Telling – 2 - Days and Months - Family Members & Possessive Adjectives	
II	GRAMMER - I To have & To be - To go & To call - 1st Group Verbs with 'er' - 2nd Group Verbs with 'ir' - Irregular Verbs- Negative Sentences – 1 - Negative Sentences – 2	08
III	GRAMMER - II Numbers (Singular-Plural) – Prepositions - Future Proche - Future Simple - Passé imparfait - Le conditionnel - Yes/No Questions - WH Questions - Pasa Compose – 1 - Pasa Compose – 2 - Past Simple - Les nationalités et Professions – Les présentations oral - Les présentationsécrit	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr.No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	J. Girardet	A1 ECHO Methode de francaise	CLE International	Latest
T - 02	J. Girardet	Cahier Personnel D'apprentissage	CLE International	Latest

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Operations Research
COURSE CODE	04BB0501
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

Understand and Formulate decision problem as mathematical model and solve using appropriate operations research technique.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Basics of Operations Research (OR) Introduction, Concepts, Definition, Characteristics, Potential Applications, Steps in OR Problems, Basic Operations Research Techniques, Role of Computers in OR</p> <p>Linear Programming Problem (LPP) 1 – Formulation: Introduction to Linear Programming, Applications of LPP, Requirements and Assumptions Underlying LPP, Generalized Linear Programming Problems, LPP Model Formulation – Maximization and Minimization Problems (Max 3-Variables and 4-Constraints)</p> <p>Linear Programming Problem (LPP) 2 – Graphical Method: Concept of Feasible Region, Solution of LP Problems using Graphical Method, Maximization and Minimization Problems (Max 4-Constraints), Special Cases in LPP – Multiple or Alternate Optimum Solutions, Unbounded Solution and Infeasible Solution</p> <p><i>Note: Constraints of all types (Less than type, Greater than type and combination of both the types) should be covered</i></p>	12
II	<p>Linear Programming Problem (LPP) 3 – Simplex Method: Simplex Method – Only Maximization LPP, Two or three Variables and Two Constraints (Max Three Iterations), All Constraints to be Less Than or Equal To type Concept of Slack Variable, Unique or Alternate Optimal Solution, Shadow Prices of Resources, Utilized and Unutilized Capacity of Resources</p> <p>Concept of Duality: Introduction to Duality, Relation between Primal Problem and Dual</p>	10

	LPP, Conversion of Primal Problem to Dual LPP, <i>Note: Mixed-constraints and Unrestricted Variables, Max 3-Variables and 3-constraints</i>	
III	Transportation Problem (TP) Introduction, Structure of TP, Solution of TP – Initial Feasible Solution (IFS) using North West Corner Method (NWCM), Least Cost Method (LCM) and Vogel's Approximation Method (VAM), Finding Optimal Solution using MODI Method, Types of Transportation Problem – Balanced and Unbalanced, Minimization and Maximization, Case of Degeneracy and Prohibited or Restricted Route, Unique Optimum Solution and Multiple Optimum Solutions <i>Note: Max 4X4 Transportation Matrix, MODI Method - Maximum One Iterations after IFS, Degeneracy to be covered at Conceptual Level, Not to be Included in Numerical</i>	10
IV	Assignment Problem (AP) Introduction, Structure of AP, Solution of AP using Hungarian Method, Types of Assignment Problems - Balanced and Unbalanced, Minimization and Maximization, Restricted Assignment, Unique Optimum Solution and Multiple Optimum Solutions, Travelling Salesman Problem <i>Note: Max 5X5 Assignment Matrix, Maximum Two Iterations after Row and Column Minimization</i>	08
V	Probabilistic Operations Research Models Waiting Line Models: Queuing Models – Concepts, General structure of a queuing system. Single-channel queuing model: Poisson-distributed arrivals and exponentially distributed service times with infinite source population. M/M/1 queuing models. Digital Simulation: Introduction, Areas of Applications, Steps involved in Monte Carlo Simulation, Application of Simulation Method, Advantages and Disadvantages of Simulation, Application in Queuing, Inventory, Profitability and Investment problems	08

Note: Guidelines for the Faculty

Instructor is required to demonstrate solution of OR problems using QM for Windows Software. Not to be included for assessment / examination

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Strategic Management
COURSE CODE	04BB0502
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Differentiate between strategies made at different levels of organization.
- Create & implement strategy formulation at various levels of management

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction:	8

	Strategy – Introduction to Strategy, Levels of Strategy, Difference between Policy, Strategy and Tactics. Vision, Mission & goals (Concept & difference) Strategic Management – Definition, Process of Strategic Management.	
II	Environment Analysis: Concept of Environment – Internal & External. SWOT Analysis, Environmental Sector, Environmental Scanning. Internal Environment – Factors & Methods of analysis – Internal, Comparative & Comprehensive Analysis.	10
III	Strategy Formulation – Business Level Strategy & Functional Level Generic Business Level Strategy – Cost Leadership, Differentiation & Focus – Business Strategy for different industry conditions. Functional Plans & Policies – Financial – Marketing – Operations – Personnel.	10
IV	Strategy Formulation – Corporate Level Strategy Concentration – Integration – Diversification – Internalization Strategies – M&A, Joint Venture, Strategic alliance. Digitalization Strategies - Retrenchment & Restructuring (Only concepts).	10
V	Strategic Implementation evaluation & Control: Strategy Implementation - Nature & Barrier to strategy implementation – Strategic Leadership – Strategic Control – Operational Control – Techniques of Strategic Evaluation & Control	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Project Management
COURSE CODE	04BB0503
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Analyze the project idea for better selection.
- Identify the completion of project in a better control way.
- Understand the topics like planning, selection and implementation.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Project: Introduction, Characteristics of a project, element of a project, target and needs of a project, types of projects, functions of project manager, project management body of knowledge, benefits of project management.	9
II	Idea Generation and Initiation: Generation and Screening of Project Ideas, Market and Demand Analysis, Technical Analysis, Financial Estimates and Projections,	10

	Project Life Cycle.	
III	Project Planning and Selection: Project Scope, Scope of a Project and Scope Verification, SWOT Analysis, Organization Structure, Work Breakdown Structure, Project Selection Methods.	10
IV	Project Implementation: Estimation, Scheduling, Network Techniques for Project Management- CPM & PERT (only network diagram and Critical path identification), Project Risk, Project Communication.	10
V	Project Closeout: Project Evaluation, Project Auditing, Project Closeout Reports, Project Review and Administrative Aspects.	9

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Brand India : From Local to Global
COURSE CODE	04BB0504
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- To understand key elements in building and maintaining brands and brand equity.
- To understand the role they have to play in the development of India

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Branding Concept of Brand, Types of Brand, what can be branded, Characteristics, brand evolution, brand level, Understanding branding challenges and opportunities, Local Brands & Global Brands	06
II	Brand India The Concept of Brand India: India as a Product, Transformation of the product into Brand India. The Evolution of Brand India: the History of Brand India, the Development of Brand India. The Justifications for Brand India: True Development cannot be Sector-specific or Need-based, Holistic Approach, All-Round Development. The Benefits of Brand India: Highest Standard of Education, Increased Employability, Social Equality, Law and Order, Corruption Control, Sense of Patriotism, Economic Development, India as the World's Only Hyper Brand.	10
III	Brand India at a Global Level	

	The Implementation of Brand India: Quality Education, Robust Education System, Civic Sense, Ethics, Governance, Removal of Red Tapism, Strong Judiciary, Social Justice, Make in India, Digital India, Start-Up India , Stand-Up India, Skill India, the Role of India Brand Equity Foundation.	08

INTERNSHIP (04BB0506)(BBA/BBA (H)) Content

Components

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I), containing: (1 Page)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (1 Page) (Annexure II)
- ☛ College Certificate (1 Page) (Provided by Guide/Supervisor)
- ☛ Company Certificate (1 Page)
- ☛ Preface (1 Page)
- ☛ Acknowledgement (1 Page)
- ☛ Executive Summary (1 Page)
- ☛ Table of Content (1 Page)
- ☛ Introduction and History of Company (15 to 20 Pages)
- ☛ Vision & Mission of Company (2 Pages)
- ☛ Organization Structure (1 to 2 Pages)
- ☛ Departmental Study (15 to 20 Pages)
 - Marketing Department
 - Finance Department
 - Human Resource Department
 - Production Department
 - Accounting Department
 - R & D Department etc...
- ☛ SWOT Analysis (2 to 4 Pages)
- ☛ Overview of Industry & Major Players (4 to 5 Pages)
- ☛ Porter's Five Force Model Analysis of Industry (2 to 4 Pages)
- ☛ Learning form Internship (1 to 2 Pages)
- ☛ Conclusion (1 Page)
- ☛ Bibliography (1 Page)
- ☛ Annexure (if Any) (1 Page)

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12

10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify
12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01 Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

STUDENT DECLARATION

I hereby declare that this project Report titled _____
_____ submitted by me to the Faculty of
Liberal Studies, Marwadi University is a bonafide work undertaken by me and it is not
submitted to any other University or Institution for the award of any degree diploma /
certificate or published any time before.

Date: DD/MM/YYYY

Place: Rajkot

Signature of the Student

[Name of Student]

[Enrollment No.]

Evaluation Scheme

Internship consists of 4 Credit, 100 marks and shall be evaluated on two components i) Internal Assessment & ii) Viva.

Particular	Weightage (%)	Conducted By
Internal Assessment (IA)	50%	Supervisor/ Guide
Viva Voce	50%	Viva Panel

I. **Internal Assessment** shall consist of 50 marks, which will be carried out by supervisor/guide.

II. **Viva Voce** shall carry 50 marks and will be conducted by a Panel of two examiners.

Duration & Time Period

☛ Duration of Internship: Minimum 15 Days and Maximum 30 Days.

☛ Internship must be in between 10th May 2018 to 20th June 2018.

Reporting Schedule

Sr. No.	Review	Particular	Marks
1	First Review (After 10 Days of Commencement of Internship)	<ul style="list-style-type: none"> ☛ Introduction and History of Company (15 to 20 Pages) ☛ Vision & Mission of Company (2 Pages) ☛ Organization Structure (1 to 2 Pages) ☛ Departmental Study (15 to 20 Pages) <ul style="list-style-type: none"> • Marketing Department • Finance Department • Human Resource Department • Production Department • Accounting Department • R & D Department etc... 	15
2	Second Review (within two days after completion of Internship)	<ul style="list-style-type: none"> ☛ SWOT Analysis (2 to 4 Pages) ☛ Overview of Industry & Major Players (4 to 5 Pages) ☛ Porter's Five Force Model Analysis of Industry (2 to 4 Pages) ☛ Learning form Internship (1 to 2 Pages) ☛ Conclusion (1 Page) 	15
3	Third Review (Within 10 Days after Completion of Internship)	Final submission of Internship Report to Supervisor (Soft Copy)	20

Specialization: Finance

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Management of Financial Markets
COURSE CODE	04BB0507
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the fundamentals of financial markets
- Understand ways in which financial markets will be managed
- Understand the role of regulators in management of financial markets
- Understand about instruments to be traded in the financial markets

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Financial Markets: Meaning, Definition, Functions, Classification, Key players in financial market (Stock Exchange, Brokers, Dealers, Traders, Depositories, Clearing corporation), Security Exchange Board of India	8
II	Capital Market: Overview, Function of capital market, Primary market reforms, Issues in capital market, secondary market reforms, Capital market scams Primary Market: Mechanism in India, Initial Public Offer (IPO), Methods of IPO (type of IPO), eligibility norms, Book Building Process, Limitations Reverse book building, Green shoe option Secondary Market: Meaning, Function of Secondary, Post reforms stock market scenario, organizational structure of stock exchanges, listing of securities, trading and settlement, Internet trading, Stock Market Indices(Nifty & Sensex)	15
III	Money Market: Meaning, Development Money market in India , Money market instruments, Money market intermediaries	7
IV	Debt Market: Meaning, history and characteristics of debt market, participants in the debt market, private corporate debt market, measures to boost liquidity in the secondary market Government securities market: Introduction, Trading in Government Securities, Evolution, Role, Significance of Government securities markets, Functions, Salient feature of government securities, Forms of Government Securities, Operation in government security market	8
V	Repo-Market: Definition, REPO and Reverse Repo, Repo	10

	Instrument, Bank Rate and Repo rate, Usage of Repo, Functions, Structure of the Foreign Exchange Market, Asian Clearing Union Foreign exchange Market: Function, Foreign Exchange Dealers Association of India, Instruments of Credit Traded, Asian Clearing Union, FSLRC, Finance Code	
--	---	--

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Specialization: Finance

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Banking
COURSE CODE	04BB0508
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand role of banks in Indian financial system.
- Understand role of central bank as controller of state's currency and interest rates.
- Understand the wider range of functions done by Scheduled commercial banks in India.
- Understand relationship of bank and customer.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction To Indian Banking System: Introduction, Origin, Definition, Characteristics of Banks, Types of Banks, Recent Reforms In Indian Banking, International Security Issues In Banking Systems.	8
II	Role of Central Bank in Indian Banking System: Introduction, Origin, Definition, Objectives, Principle, Functions: Monopoly of Note Issue, Banker's Bank, Bankers to Government, Lender of the Last Resort, Bank of Clearance, Custodian of Foreign Reserves, Maintenance of Reserves, Maintaining Exchange Rate. Monetary Policy: Meaning, Objectives, Instruments of Credit Control, Effects Of Monetary Policy on Price Stability and Development, Limitations of Monetary Policy.	12
III	Function of Commercial Bank in Economic Development- Acceptance of Deposits, Agency Service, Payment and Collection of Cheques, Bill of Exchange and Promissory Notes, Execution of Standing Order, Trustee Business, Safe Custody, Remittance of Funds, Issue of LC, Performance of Government Transactions. Need for Sound Banking System, Role Of Banks in Economic Development: Mobilization Of Saving, Capital Formation, Monetization, Innovation, Priority Sector Bank Lending, Agriculture Lending, Industrial Finance, Export Finance.	10

IV	Loans and Advances Loans: Meaning, Classification, Purpose, Appraisal and Disbursal, Evaluation of Loan Proposal, Mode of Securing Loans Credit and Advances: Cash Credit, Overdraft, Discounting of Bill, Mode of Securing Loans/Advances, Domestic Lending, Global Lending. Asset Classification: Standard Asset, Sub-Standard Asset, Doubtful Asset, Loss Asset, Non-Performing Asset.	10
V	Rights and Duties of Banker and Customer: The Banker – General Responsibility, Specific Duties, Positive Traits of a Banker. Various Rights of Banks. The Customer – Duties of a Customer. Banker-Customer Relationship: Nature, Normal Incidents of the Relationship, Appropriation of Payment.	8

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Consumer Behavior
COURSE CODE	04BB0509
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Identify the dynamics of human behaviour and the basic factors that influence the consumers decision process
- Demonstrate how concepts may be applied to marketing strategy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction To Consumer Behavior: Introduction, Consumer Behaviour - Definition - Nature and Scope of Consumer Behaviour – STP (Segmenting, Targeting, Positioning) – Customer Based Brand Equity (CBBE) Model.	10
II	Psychographic Factors Affecting Consumer Behavior: Lifestyle, Opinions, Perception, Learning, Attitude. VALS model. Generation Analysis Indian perspective: Gen X , Gen Y & Gen Z	10
III	Consumer Choice Analysis: Consumer Comparisons - Categories of Consumer Choice processes; Affective based choice, Attribute based choice, Attitude based choice Socio-Cultural Influences On Consumer Behavior Family and Social Class, Family life cycle, Influence of Culture on Consumer Behaviour, Cross-cultural Consumer Behaviour, Diffusion of innovation	10

IV	Consumer Decision Making: Consumer buying process - Impact of technology on consumer behavior Online buyer behavior : Characteristics, Difficulties and Challenges - Post purchase Processes, Customer Satisfaction, and Customer Commitment - The impact of branding on consumer decision making	10
V	Consumer Protection (Rights of Consumers): Consumer Protection Bill – 2018 ,Consumerism Consumer Forums, FSSAI, Hallmark, UNCTAD (Concepts)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Specialization: Marketing

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Retail Marketing
COURSE CODE	04BB0510
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand Retail Marketing Concepts.
- Appreciate the operations management for retailing.
- Understand the latest advancement in Retail Management

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Retailing – An Introduction Definition – functions - types of retailing – forms of retailing based on ownership. Retail life cycle - Retailing in India – Influencing factors – current retail scenario in India.	8
II	Operations Of A Retail Business Store location – Choice –Impacting Factors - Market area analysis – Trade area analysis – Rating Plan method - Site evaluation - Store Layout and visual merchandising – Designing of the Store – Space planning - Inventory management – Merchandising – Category Management – Franchising in Retail	12

III	Consumer Behaviour With Retailing Retail buying decision making process– influence of group and individual factors - Customer shopping trends - Customer Service satisfaction.	10
IV	Retail Marketing Mix Introduction - Product: Decisions related to Merchandise (Products) – delivery of service. Pricing: Factors affecting pricing decisions – approaches to pricing – price sensitivity - Value pricing – Markdown pricing. Place: Channel members – Supply Chain Management in Retail – Retail logistics. Promotion: Setting goals – designing communication – checking effects of communication - promotional mix.	10
V	Role Of Information Technology In Retailing Introduction to Non-store retailing (E tailing) - The impact of IT in retailing - Integrated systems and networking – Retailing from the International perspective - Introduction to technological aids in retail operations (EDI, RFID, Data Warehousing & Data Mining, AI)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Subject Code: 04CR0501

Subject Name: Career Readiness Program

BBA-BBA(Hon) Year – III (Semester V)

Objective: This course shall enrich students' preparedness for the upcoming competitive exams, MBA entrance test, and/or placements. It will enhance the verbal and numerical skills of the students through the group interactions, practice sessions, and videos.

Credits Earned: 2 Credits

Course Outcomes: After successful completion of this course, student will be able to

- Understand importance of verbal and numerical skills in the competitive exams

- Inculcate smart approach in verbal and numerical problem solving
- Apply the concepts in both competitive exams and placement drives

Pre-requisite of course: NA.

Course: BBA/BBA(H)

SEMESTER	VI
TITLE OF THE SUBJECT	Project
COURSE CODE	04BB0604
COURSE CREDIT	8

Project

Project is a composition of practical research work, involving the analysis of a specific problem in the area of the specialization and evaluation of the results of the analysis that serves as a basis for developing specific proposals and implementing the appropriate solution to the problem.

Objective of the Project

The objectives of the Project for BBA/BBA (H) students are:

- a. To demonstrate the student's knowledge of the literature relating to the problem of study.
- b. To reveal the student's ability to collect, analyze, interpret and synthesize information/data for analyzing various business situations.
- c. To present the results obtained, in a sequential and logical manner.
- d. To display the student's ability to discuss coherently the meaning of the results.

Content of Report

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (Annexure II)
- ☛ College Certificate (Provided by Guide/Supervisor)
- ☛ Company Certificate
- ☛ Preface

- ☛ Acknowledgement
- ☛ Executive Summary
- ☛ Table of Content
- ☛ Introduction to Topic
- ☛ Review of Literature (8 to 10 literature review)
- ☛ Research methodology
 - Introduction
 - Statement of problem
 - Research Objectives
 - Scope of the study
 - Research hypothesis (If any)
 - Research design (Research Type)
 - Data Collection sources (Primary and secondary sources)
 - Data Collection Instrument (for e.g. Questionnaire)
 - Sampling Design
 - ☞ Population of the study
 - ☞ Sample Size
 - ☞ Sampling Method
 - Data Analysis Design (a brief outline of tools and techniques to be used for analysis, statistical tools and tests to be used)
 - Limitations of the Project
- ☛ Data Analysis and Interpretation
 - Tabular representation of data
 - Charts
 - Statistical tests
 - Analysis and Interpretation
- ☛ Findings & Suggestions
- ☛ Conclusion
- ☛ Annexure
- ☛ Annexure - Questionnaire
- ☛ Annexure – Any other document
- ☛ Bibliography

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12

10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify
12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

ANNEXURE - II

STUDENT DECLARATION

I hereby declare that this Project Report titled _____
_____ submitted by me to the Faculty of Liberal
Studies, Marwadi University is a bonafide work undertaken by me and it is not submitted to any
other University or Institution for the award of any degree diploma / certificate or published any
time before.

Date: DD/MM/YYYY

Place: Rajkot

Signature of the Student

[Name of Student]

[Enrollment No.]

Evaluation Scheme

Internship consists of 4 Credit, 100 marks and shall be evaluated on two components i) Internal Assessment & ii) Viva.

Particular	Weightage (%)	Conducted By
Internal Assessment (IA)	50%	Supervisor/ Guide
Viva Voce	50%	Viva Panel

- I. **Internal Assessment** shall consist of 100 marks, which will be carried out by supervisor/guide.
- II. **Viva Voce** shall carry 100 marks and will be conducted by a Panel of two examiners.

Specialization: Finance

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Advance Financial Management
COURSE CODE	04BB0605
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Students will be able to understand basic framework of designing capital structure of a firm.
- Students will be able to evaluate the risk aspect for analyzing investment decisions.
- Students will have knowledge about dividend policy and its relevance in value of a firm.
- Ability to determine cash position of a firm.
- Acquire knowledge on receivables management of the firm.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
---------	-----------------	----------

I	Capital Structure Decision Introduction, PBIT-EPS Analysis, ROI-ROE Analysis, Leverage Analysis, Ratio Analysis, Factors determining capital structure. (Theory & ratio problems)	10
II	Risk Analysis in Capital Budgeting Sources and Perspectives on Risk, Sensitivity Analysis, Scenario Analysis, Break-even Analysis, Hillier Model, Simulation Analysis, Decision tree Analysis, Corporate risk Analysis, Managing Risk. (Theory & Problems)	10
III	Dividend Policies Introduction, Factors affecting Dividend Decision, Bonus Share & Stock Splits, Different forms of dividend, Bonus share and its impact on stock price, Legal and Tax aspects relating to dividend (Theory & Problems)	10
IV	Cash & Liquidity Management Introduction, Cash budgeting, Long term cash forecasting, Reports for control, Cash collection and Disbursement, Optimal Cash balance, Investment of Surplus Funds, Cash Management Models. (Theory) & Problems	10
V	Credit Management Introduction, Terms of payment, Credit policy Variables, Credit Evaluation, Credit Granting Decision, Control of Accounts Receivables, Credit Management in India (Theory & Problems)	8

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr.No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	Prasanna Chandra	Financial Management	The McGraw-Hill Publishing Company Ltd.	8 th Edition 2011
T-02	Financial Management	M.Y. Khan & P. K. Jain	The McGraw-Hill Publishing Company Ltd.	5 th Edition 2007

Reference Books:

Sr.No	Author/s	Name of the Book	Publisher	Edition and Year of Publication
R-01	I M Pandey	Financial Management	Vikas Publishing House Pvt. Ltd.	9 th Edition, 2009
R-02	Vishwanath S. R.	Corporate Finance	Sage Publication	2 nd Edition, 2007
R-03	J.B.Gupta	Strategic Financial Management	Taxmann Publication Pvt. Ltd.	4 th Edition.
T-04	Ravi M. Kishore	Strategic Financial Management	Taxmann Publications Pvt. Ltd.	2 nd Edition

Specialization: Marketing

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Advertising Management
COURSE CODE	04BB0606
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Gain an understanding of effectiveness of advertising as an integral marketing tool.

- Learn the majors of advertising programs of organizations with emphasis on the application of marketing concepts for effective decision making.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to advertising Introduction to Advertising –Meaning, Definition of advertising, objectives, its role and functions. Types of Advertising: Commercial, Non-commercial, Primary demand and Selective Demand, Classified and Display advertising, Comparative advertising, Co-operative advertising.	10
II	Advertising Planning Advertising planning framework – factors involved in advertising planning and decision making, the communication & persuasion process segmentation strategy.	10
III	Creative Strategy Creative Strategy: meaning of creativity, Creative strategy and tactics, various advertising Appeals, the mode of message and theme.	10
IV	Advertising budget Advertising Budget – Objectives, preparation and methods of advertising budget; Top down and Build up approach, methods of advertising – Affordable method, Arbitrary allocation method, percentage of sales method, competitive parity method, Objective and Task method; and DAGMAR Approaches	10
V	Advertising Media Decision Concept, Role of Media, Advertising media- Types of Media Print Media (Newspaper & Magazines, Pamphlets, Posters & Brochures), Electronic Media (Radio, Television, Audio Visual Cassettes), Other Media (Direct Mail, Outdoor Media), New Media –Internet and Mobile phones (Characteristics, merits & Demerits of above media, media scenario in Indian Context.)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Specialization: Human Resource Management

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Change Management
COURSE CODE	04BB0607
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the objective of managing change in the organization
- Recognize reactions to change and address the resistance
- Learn the competencies required for effective change management

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Organizational Culture and Change Business as a domain for change, Environmental Factors leading to Change, Organizational Culture and Change: Sources and types of Culture, Significance of Culture during change, Strengths and weaknesses of Indian Culture.	10
II	Resistance to Change Meaning and Nature of Organizational Change, Types of Change, Organizational Barriers to Change, Individual and Group Resistance, Overcoming Resistance to Change, Techniques to manage resistance	10
III	Organizational Change and Change Agents Meaning and Types of Change Agents, Key Roles in Organizational Change, Characteristics of good Change Agent, Strategic Management of Change, Factors in selecting Change Strategy, Formulation and Implementation of Change Strategy.	10
IV	Organizational Diagnosis & Development Meaning of Diagnosis, Introduction to Organizational Diagnosis, Collection of Data, Introduction to OD, OD Intervention and Classification, OD Interventions Techniques, Prerequisites for effective use of OD.	10
V	Learning Organization and Models of Change Meaning and nature of Learning Organization, TQM and Learning Organization, Basic Models of OD: Individualistic Model, Group Oriented Model, Organization-oriented model, Lewin's three-step Model, Case study on Change Management in any Industry.	8

2019-2020

Elective

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Mathematics For Business
COURSE CODE	04BB0106
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Calculate simple and compound interest on investments
- Understand repayments of loan using EMIs
- Structure and solve problems using matrices
- Understand and establish relationship between variables using functions to determine equilibrium
- Determine minimum and maximum (optimum) value of cost and profit

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	MATHEMATICS OF FINANCE Introduction, Simple Interest and Compound Interest – Concept and problem solution Future Value (FV) - Annuity: Amount of ordinary annuity, Amount of annuity due Present Value (PV) -ordinary annuity and annuity due Loan Amortization and Equated Monthly Installments (EMIs) - Reducing balance and flat rate of interest Use of MS Excel	10
II	FUNCTIONS Introduction, Constants, Variables, Types of functions– Linear function and Polynomial functions Functions in Business: Cost function, Revenue function and Profit function, construction of cost functions, Profit function and Break Even Point (BEP)	10
III	DIFFERENTIATION AND APPLICATIONS OF DERIVATIVES Limit of a function, important results, differentiation of algebraic functions – formulae (no derivation) Derivative of function of one variable, derivative of sum, difference, product and quotient of two functions (no derivation), chain rule, differentiation of implicit function, price elasticity of demand, second order derivative	12

	Application of derivatives – Marginal cost, Marginal revenue, Marginal Profit, Maxima and Minima	
IV	DETERMINANTS Determinant of second order and of third order, Minor of an element Expansion of determinant, Properties of determinant, Use of determinants in solving simultaneous linear equations – Cramer's Rule for two and three linear equations Use of MS Excel to calculate determinant	06
V	MATRICES AND APPLICATIONS Introduction, Definition, Types of matrices, Algebra of matrices (Addition and Subtraction), Additive Inverse of a matrix, Structure problems in matrix form, Multiplication of matrices (Max 3X3) Minor, cofactor, adjoint and Inverse of Matrix, Solution of system of linear equations using inverse of coefficient matrix (Max 3) Use of MS Excel to calculate inverse of matrix	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Career Readiness Program
COURSE CODE	04CR0101

COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Objectives:

- The “*Linguistics for Interpersonal Interaction*” course is designed to make the Learners feel comfortable understanding, thinking and speaking in English.
- Having undergone the training, the Learners will feel confident about his or her own English-speaking skills.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Phonology: Varieties of Language and Standard English, Phonetics and Phonology - Speech Mechanism and Articulatory Phonetics, English Phonemes. Characterization and Classification of Vowels - Diphthongs and Monophthongs.	6
Unit-II	Syntax and Morphology: Nouns, Pronouns and Determiners - Misconceptions related to usages of noun forms, Using Possessives, Types of Pronouns, General Determiners and Specific Determiners. Verbs and related forms - Types of verbs and their forms, Stative and Dynamic, Lexical and Delexical Adjectives and Adverbs - Word formation, Order of Adjectives, Types of Adverbs Preposition and Phrasal verbs - Preposition of time, Preposition of Movements, Preposition of Place, Phrasal Verbs Conjunctions - Coordinating and Subordinating, Using Conjunctions in formal settings. Present Continuous – Form, Usages, Misconception Present Simple & Simple Past – Form, Usages, Misconception	8
Unit - III	Reading Comprehension: Processing Strategy - Comprehension Strategy, Meta-cognitive Strategy, Prediction and Pre-prediction.	4
Unit - IV	Spoken Discourse: Coherence and Cohesion - Situational Sociolinguual interaction, Conversation Practice. Feature of Spoken Discourse - Semantic and Pragmatic Meanings, Conversation Practice (Role Play)	6

Learning Outcomes:

After studying this course, student should be able to:

- Articulate phonetics and phonology, Noun, Pronoun, Verb
- Reading and processing comprehension.

Evaluation:

The students will be evaluated on following evaluation scheme:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment (Term Work)	30% (I.A.)
C	End-Semester Examination (Viva)	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Principles Of Management
COURSE CODE	04LS1102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Demonstrate their knowledge of business and management principles.
- Get acquainted with management process and functions.
- Comprehend the modern management techniques and its relevance in business

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Meaning, Nature and Characteristics of Management – Scope of Management - Functional areas - Management as a Science and an Art - Management & Administration – Levels of management & Managerial Skills - Evolution of Management Thoughts - Principles of management - Ethics in Management.	10

II	Planning in Management Need and importance of planning - basic purpose of planning - Planning process, Types of plans - Objectives - Management By Objectives Decision-making Decision making – Nature and importance- types of decisions – process	10
III	Organizing Need for organization - purpose of organization, fundamental principles of organization - Types of organization - Departmentalization, Committees - Centralization Vs decentralization of authority and responsibility Staffing Staffing – Introduction - Need for Staffing - Importance of staffing -Process of staffing	10
IV	Directing Directing – Meaning, nature and importance – Theories of Motivation – Maslow's, Herzberg's & McGregor's Leadership – Introduction - Formal and Informal Leadership – Characteristics – Styles of Leadership - Importance of Communication as a leader Coordinating Coordination – Introduction - Importance of coordination - Principles of coordination	10
V	Controlling Meaning and steps in controlling – Pre-requisites of a strong control system -Methods of establishing control Modern Management Techniques Introduction to various latest management techniques: Business process re-engineering, business outsourcing, benchmarking, kaizen, six sigma, knowledge management, just in time management, total quality management.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	L. M. Prasad	Principles of Management	Sultan Chand and Sons	Ninth Edition - 2015

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year of Publication
R-01	V.S.P. Rao	Management: Text and Cases	Excel Books India	Second edition
R-02	Koontz & O'Donnell	Principles of Management	McGraw Hill	Forth edition

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Microeconomics
COURSE CODE	04LS1103
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Apply economic reasoning to the analysis of selected contemporary economic problems.
- Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of goods and services produced and consumed.
- Use economic problem solving skills to discuss the opportunities and challenges of the increasing globalization of the world economy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO MICROECONOMICS	10

	Meaning and definition of Microeconomics, Nature and scope of Microeconomics, Difference between microeconomics and macroeconomics. Central economic problems of society.	
II	CONSUMER BEHAVIOUR Utility analysis: Meaning of Cardinal and Ordinal utility. Cardinal Utility: Law of diminishing Marginal utility, Law of Equi-marginal Utility, Ordinal Utility: Indifference curve analysis, properties of indifference curve analysis, Marginal rate of substitution, Budget line and consumer's Equilibrium.	10
III	DEMAND AND SUPPLY ANALYSIS Determinants of demand , law of demand, exceptions to law of demand. Elasticity of demand and its applications: Price elasticity, Income elasticity and cross elasticity. Concept and Law of Supply , Factors Affecting Supply	10
IV	PRODUCTION AND COST ANALYSIS Production Function: Short run and long run production functions, laws of returns, and law of returns to scale. Cost Function : classification of costs, short run and long run cost curves and their interrelationship, Planning curve and envelope curve, internal and external economics of scale, revenue curves, optimum size of the firm, factors affecting the optimum size	10
V	EQUILIBRIUM OF FIRM AND INDUSTRY Perfect competition, monopoly, monopolistic competition, discriminating monopoly, aspects of non-price competition; group equilibrium, excess capacity, selling costs, oligopolistic behavior.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Business Organizations & Structures
COURSE CODE	04LS1104
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Describe the business structure and their organization.
- Discuss the changes that have taken place in there structure and organization pattern over the time

Course Contents:

Unit	Unit / Sub Unit	Sessions
------	-----------------	----------

No		
I	INTRODUCTION Defining Business, Industry and Commerce. Classification of Activities of Business – Different types of Industry – Commerce – Trade – Trade supporting activities – Advantages and Disadvantages of Business. Their interrelationship in today's environment. Business and Society.	8
II	FORMS OF BUSINESS ORGANIZATION-I Sole Proprietorship, Partnership, Co-operative Society, Hindu Undivided Business, Franchise, Outsourcing.	12
III	FORMS OF BUSINESS ORGANIZATION- II Company – Types including Transnational company, Multinational Company, Joint Ventures & Business Alliances etc. and their structures. Limited Liability Partnership and MSMEs.	8
IV	BUSINESS COMBINATION: Concept, Causes and Forms- Associations, Federations, Consolidations, conglomerate etc.	10
V	GOVERNMENT, PUBLIC SECTOR & NOT FOR PROFIT ORGANIZATIONS : Non Government Organization, Trusts, Societies, Public Sector Enterprises , Stock And Commodities Exchange.	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Fundamentals Of Accounting
COURSE CODE	04LS1105
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Analyze business transactions and will be able to prepare the Financial Statements.
- Understand the need of uniformity in Accounting.
- Analyze the effects of different Financial Accounting methods on the Financial Statements.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Basics of Book – keeping and Accounting Introduction to Book Keeping and Accounting – Branches of Accounting – Systems of Accounting – Basis of Accounting – Characteristics of Accounting Information – Users of Accounting Information – Basic Accounting Terms – Classification of Accounts and its Rules – Accounting Equation Accounting Concepts and Conventions Accounting Principles: Accounting Concepts and Conventions – Fundamental Accounting Assumptions – Introduction to Ind AS – Applicability of Ind AS.	08
II	Process of Accounting Books of Original Entry – Journalizing (including GST) – Difference between Cash Discount and Trade Discount, Ledger – Preparation, Posting and Overview of Electronic Ledgers under GST: Electronic Cash, Credit and Liability Ledger – Practical problems on Journal and Ledger – Preparation of Trial Balance – Redrafting of Trial Balance – Errors and their Rectification	16
III	Final Accounts Types of Expenditure and Income – Meaning of Deferred Revenue Expenditure – Classification of Assets and Liabilities under different head – Contingent Asset and Contingent Liability – Distinguish between Provisions and Reserves – Types of Reserves – Preparation of Financial Statements of sole proprietorship – Impact of GST on Financial Statements – Format of Companies Financial Statements as per Companies Act, 2013.	14
IV	Depreciation Meaning and difference between Depreciation, Depletion and Amortization – Need of Depreciation – Depreciation methods (Straight Line Method and Written Down Value Method) – Method of recording Depreciation (Charging to Asset Account and Creating provision for Depreciation/ Accumulated Depreciation) – Treatment of Disposal of Fixed assets.	06
V	Valuation of Inventory Meaning of Inventory - Inventory Record Systems: Periodic and Perpetual - Methods of Stock Valuation: FIFO, Weighted Average and LIFO	04

Note: Any revision in Indian Accounting Standard will become applicable immediately.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Elective

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Computer Essentials
COURSE CODE	04LS1107
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Draft Document / Worksheet and Presentation
- Understand the Computer Hardware and Software Fundamentals
- Detail some of the problems that are encountered when developing documents and worksheets
- Describe briefly some of the technologies that are used to support online applications

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	COMPUTER BASICS Data- Instruction and Information-Characteristics of Computers- Various fields of application of Computers- Input-output Devices (Hardware-Software- Human ware and Firmware)-Advantages and Limitations of Computer- Block Diagram of Computer- Function of Different Units of Computer- Classification of Computers. Data Representation-Different Number System (Decimal- Binary- Octal and hexadecimal) and their Inter Conversion.	10
II	COMPUTER SOFTWARE Types of Software- Application software and system software- Compiler and Interpreter-Generations of languages-Low and High Level Languages-Computer Memory: Primary Memory & Secondary memory. Cache memory-optical memory- Storage Media. Introduction to Operating System-All Directory Manipulation-Creating Directory- Sub Directory-Renaming-Coping and Deleting the Directory File Manipulation-Creating a File-Deleting- Coping- renaming a File Using accessories such as calculator- paint brush- CD player etc.	10
III	INTRODUCTION TO MS- OFFICE (WORD) Introduction to Word Processing- Features - Formatting Documents- Paragraph Formatting- Indents- Page Formatting- Header and Footer- Bullets and Numbering- Tabs- Tables- Formatting the Tables- Finding and	10

	Replacing Text- Mail Merging etc..	
t IV	INTRODUCTION TO MS- OFFICE (EXCEL) Introduction to Electronic Spreadsheets- Feature of MS-Excel- Entering Data- Entering Series- Editing Data- Cell Referencing- ranges- Formulae- Functions- Auto Sum- Copying Formula- Formatting Data- Creating Charts- Creating Database- Sorting Data- Filtering etc.	10
V	INTRODUCTION TO MS- OFFICE (POWERPOINT) PowerPoint- Features of MS PowerPoint Clipping- Slide Animation- Slide Transitions- Slide Shows- formatting etc.- Creating formal presentations- inserting different objects- arts- charts- pictures etc. to slide.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Course: B.B.A.

SEMESTER	I
TITLE OF THE SUBJECT	READING AND WRITING FOR BUSINESS
COURSE CODE	04SL0102
DURATION	24 Hours

Objectives:

The course will enable the students:

- To read and interpret formal business writings such as reports, articles and reviews;
- To know structures of formal business letters and reports;
- To write formal business letters and reports;
- To inculcate a taste for reading and writing habits pertaining to the world of business.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Introduction to Business world 1. Reading a business case-study – “Tripping Along” by Deep Kalra from <i>Stay Hungry Stay Foolish</i> 2. Reading 3 business articles (general in nature) from the newspapers/magazines i. “Paytm: the wonder wallet” from Forbes India. ii. “Millennials: How They Live and Work” from Gallup. iii. “The Right Culture: Not About Employees Happiness” from Gallup.	12
Unit-II	Reading and writing for business 1. Reading business letters (of sales, inquiry, order, complaint, and adjustment) 2. Writing business letters (Any two types) 3. Reading a few short business reports 4. Writing a short business report	12

Learning Outcomes:

After studying this course, student should be able to:

- Inculcate formal reading and writing skills required to communicate with colleagues in the workplace.
- Writing effective business letters, reports.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	25% (External Assessment)

Course: B.B.A.

SEMESTER	I
TITLE OF THE SUBJECT	SPEAKING AND PRESENTATION SKILLS
COURSE CODE	04SL0103
DURATION	24 Hours

Objectives:

The course will enable students

1. To share information on familiar matters/issues in English.
2. To make effective presentations in English.
3. To gain confidence in speaking in English.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Speaking/Interacting in an Academic Context Greetings, Introducing self and peers, Asking and sharing information, Expressing points of view, Discussions, Facing viva voce, Group discussions, Facing an interview (interview skills).	12
Unit-II	Effective Presentation Skills Introduction to effective presentation skills, Preparing the presentation (Collection of Data/Information, exploring the topic etc.), Using ICT for the presentation, Getting ready for the presentation, Effective body language, Effective pronunciation, Interacting with the audience (Q & A), Practice (with video recording), Feedback and Suggestions.	12

Learning Outcomes:

After studying this course, student should be able to:

- Inculcate speaking skills required to communicate with colleagues in the workplace.
- Effective presentation skills in business, Pronunciation, Interacting with audience.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	25% (External Assessment)
D	Viva	25%

Text Books:

Subject Name: English for Workplace

PROGRAM	Bachelors Of Business Administration
SEMESTER	II
COURSE TITLE	Statistics in Business
COURSE CODE	04LS0205
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Learn the important statistical concepts
- Understand Application and implementation of statistical methods in field.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Basic Concepts Basics of Statistics: Introduction, Definition, Application of Statistics in Business, Economics and Industry. Presentation of Data: Data collection methods (Primary Vs. Secondary, Population Vs. Sample), Classification and Tabulation of quantitative data, Frequency distribution and Cumulative frequency distribution, Graphical Presentation of data (Histogram, Polygon and Ogive), Use of MS-Excel to create Frequency Distribution and Graphs Univariate Analysis: Descriptive Measures (Central Tendencies and Variation): Meaning of Central Tendency, Averages – Arithmetic mean, Mode, Median and Percentiles, Variation – Range and Variance and Standard Deviation of ungrouped and grouped data. Coefficient of Variation, Choice of good measures. (Use of MS Excel Statistical function to find descriptive measures)</p>	14
II	<p>Probability Theory Counting ($m \times n$) rule, Permutation and Combination (Use of MS Excel to compute permutation and combination)</p> <p>Theory of Probability: Definition, Basic terminology of Probability, three approaches of assigning probability (Classical, Relative Frequency and Subjective</p>	08

	approach), Rules of probability, Addition rule, Multiplication rule for independent and dependent events.	
III	Probability Distribution: Random variable, probability distribution and mathematical expectation Discrete Probability Distribution: Binomial, Poisson Continuous probability Distribution: Normal Distribution – Properties and Applications (Use of MS Excel Statistical function to compute Binomial, Poisson and Normal probability)	08
IV	Bivariate Analysis Correlation and Regression Analysis: Meaning of correlation, types of correlation, method of correlation – Karl Pearson’s coefficient of correlation, Meaning of Regression, regression coefficients and two lines of regression, use of regression in prediction. (Use of MS Excel Statistical Function to compute correlation and regression)	10
V	Time based Analysis Time Series and Index Numbers: Basic Concepts, Components of Time series (Trend, Seasonal Variation, Cyclic and Random / Irregular variation), methods to determine trend and Seasonal Indices – simple averages, Use of Time Series in Business and Economics. Overview of Index Numbers as an important statistical tool in economics.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Course Description

The course offers select English movies as a medium for teaching English language skills. Given that 'context' is a vital aspect for language learning, film as an audio-visual

'text' re-creates reality whilst presenting its viewers with demonstrations of varied

linguistic contexts. This course thus aims to create a sense of ease in learning English in a contextual manner. Moreover, the objectives of learning language are fluency and accuracy. These aims can be achieved

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

best by various language contexts (situations) demonstrated in movies. Also, movies present language in a more accessible fashion for the students to easily acquire language skills.

Course Objectives

The course will enable the learners to

1. further enhance their basic language skills;
2. identify and use different language functions in an audio-visual context;
3. learn to use film and its elements as tools for language learning.

Unit 1: Language Functions, Contexts & Movies

In this unit, students will learn, understand, and explore English through clips from various selected movies. They will primarily study a number of language situations, as shown in the clips, in order to understand how English can be used in varying contexts. This unit aims to improve the students' basic language skills LSRW by dealing with

varying language activities by focusing on strengthening their vocabulary,

interpretation skills, reading non-verbal cues, pronunciations, and also their writing skills. Students would explore the following language activities in this unit:

1. Introducing the course
 - a. Instructors will introduce each film included in the syllabus along with a very brief background of the recommended movies, and

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

- b. Students will be asked to list the kinds of movies they prefer and also provide a reason for their preferences
2. Focusing on dialogues and understanding parts of speech
3. Creative Writing: Making a pamphlet (for Continuous Semester Evaluation)
4. Reading nonverbal cues in context
5. Vocabulary building exercises – word meanings, making sentences & finding images and synonyms and antonyms
6. Interpreting dialogues & pronunciation
7. Daily Conversations

4. <https://www.learnenglish.de/improveenglish/films.html>

Unit 2: Detailed Analyses of the Movies

Students would be asked to watch the selected movies and individual scenes in order to transcribe dialogues, respond to and discuss various issues dealt within the movies, answer questionnaires, and write movie reviews. They will also be asked to interpret the trailers of these movies and discuss them in groups. The following activities will be covered in this unit:

- a. Dialogue and monologue transcription
- b. Interpreting the trailers [Group discussion]
- c. Interpreting the scene(s) [Group discussion in context]
- d. Movie comprehension (a short film and a long scene will be played in class)
- e. Reading and Writing Movie reviews
- f. Describing/Discussing the posters of the movies,
- g. Describing characters & themes (Questionnaire)
- h. Giving feedback/expressing opinions.

- Understand the residential status and tax incidence based on it
- Calculate income under all the five heads of Income
- Gain knowledge regarding the exempt income
- Gain knowledge regarding the deductions from total income
- Calculate tax payable on taxable income
- Understand the concept of tax deduction and tax collected at source

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION, RESIDENTIAL STATUS AND EXEMPT INCOME Levy of income tax - Rates of tax & slab - Important Definitions - Relevance and significance of residential status - Types of residential status and its Determination - Incidence of tax based on residential status - Income which do not form part of total income - Conditions to be satisfied for availing exemptions	05
II	INCOME UNDER THE HEAD SALARY & INCOME FROM HOUSE PROPERTY Definition of Salary – Chargeability - Treatment of various	15

	<p>Allowances - Perquisites and their valuation - Deductions from gross Salary - Retirement benefits - Provisions regarding Provident Fund - Computation of taxable salary (Practical Problems)</p> <p>Chargeability of income from house property - Composite rent - Annual value and its determination - Deductions from annual value - Deemed ownership - Computation of taxable income under this head (Practical Problems)</p>	
III	<p>INCOME UNDER PROFITS AND GAINS OF BUSINESS AND PROFESSION & INCOME FROM CAPITAL GAIN Meaning of Business and Profession – Chargeability of income from profits and gains of business and profession - Allowable expenses – Expressly disallowed expenses - Deemed profits and incomes - Computation of taxable income under this head (Practical Problems)</p> <p>Chargeability of income from capital gain - Capital asset – Transfer - Short term and Long term capital assets - Short term and Long term capital gain - Exemptions from long term capital gain - Computation of capital gains (Practical Problems)</p>	16
IV	<p>INCOME FROM OTHER SOURCES AND DEDUCTIONS FROM GROSS TOTAL INCOME Income taxable under other sources - Deductions allowed - Inadmissible deductions - Computation of taxable income from other sources (Practical Problems)</p> <p>Chapter VI-A deductions from the gross total income [Section 80C to 80U] -</p>	08
V	<p>TAX PAYABLE, TAX DEDUCTION AT SOURCE & ADVANCE TAX Calculation of taxable income and tax payable</p> <p>Deduction of tax at source under various sections [only those applicable to individual] – Concept of tax collected at source – Liability for payment of advance tax and due dates</p>	04

Note: Any change in the provisions of Income Tax Act, 1961 as per budget or otherwise, shall be respectively made applicable to the syllabus. The syllabus of an academic year shall be the provisions of the relevant Assessment Year.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Indian Financial System
COURSE CODE	04BB0404
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- To understand the fundamentals of financial markets.

- To examine impact factors of Money Market, Capital Market & Foreign Exchange Market
- To appreciate the Need and Working of Financial Intermediaries.
- To recognize the importance and various functions of Market Regulation

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Indian Financial System Structure of Financial System, Instruments of Financial System, organised and unorganised Financial System; Components: Financial Assets, Financial Intermediaries, Financial Markets (money and capital markets in India) Relevance of various interest/return rates, Regulatory framework,	10
II	Role of Financial Institutions in Indian Financial System Financial Institutions and its meaning, Functions and Role of Financial Institutions; Money market institutions: Meaning, Role of the Central Bank(RBI) in money markets; Commercial banks: Meaning and Functions; Indigenous Financial Agencies: Bankers, Money lenders, Discount houses, Accepting houses(only meaning and features); Capital Market institutions: (Meaning and functions) Merchant Banks, Investment companies, Management Investment companies, Development banks, Mutual Funds ; Special Financial Institutions: Factors for their growth (need) ; Objectives and functions of: (1) IDBI (2) IFCI (3) SFCs (4) ICICI (5) EXIM Bank of India; Non-Banking Finance Companies: Meaning, Role, Types of NBFC services; Functions SEBI.	10
III	Financial Instruments Financial Instruments Meaning, importance and classification of Financial instruments; Short-term, Medium-term and Long Term Instruments; Primary and Secondary Securities; Innovative Instruments	10
IV	Functions of Financial Markets in India Financial Market in India: Capital Market, Money Market: meaning, function, types.	08
V	Meaning and Importance of Financial services in India Meaning, importance and types of Financial Services; 1. Factoring: Meaning, Types, costs and benefits of factoring 2. Leasing: Meaning, Definition, advantages to lessor and lessee, types of leases (operating, finance, leveraged, sales and lease-back, leveraged and cross-border.) 3. Underwriting: Meaning and benefits 4. Credit Rating Agencies: Meaning and role of such agencies. A brief idea about: CRISIL, CARE ICRA. 5. Others: A brief idea about: NSDL, STCI.	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Entrepreneurship
COURSE CODE	04BB0405
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend Fundamental Concepts for starting the business
- Apprehend the concepts of industrial environment and preparing a business plan.
- Understand available sources for raising funds for start-ups.
- Comprehend various challenges and possible solutions for starting a business units.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	ENTREPRENEURSHIP - AN INTRODUCTION Meaning & Definition of Entrepreneurship, Common History & Entrepreneurial Characteristics, Required skills of an Entrepreneurs, Entrepreneurial Process, Role of Entrepreneurship in Economic Development of the Nation, Advantages & Drawbacks of Entrepreneurship, Introduction to Intrapreneurship	10
II	UNDERSTANDING INDUSTRIAL ENVIRONMENT: Industry - Large Scale - Small Scale - Tiny - Ancillary - Cottage, Challenges for Small Scale Industries, Registration process of SME, Definition & Symptoms of industrial sickness and suggested remedies for sick units, Domestic & International Entrepreneurship Options	12
III	PREPARING BUSINESS PLAN: Generation of Project Ideas, Sources of Business Ideas, Methods to generate business ideas , Feasibility Analysis: Economic, Managerial competency. Marketing, Financial & Technical, Environmental Scanning and SWOT analysis. Structure of a business plan, Importance of Business Plan, process of Preparation of Business Plan.	10
IV	SOURCES OF FINANCE FOR BUDDING ENTREPRENEURS: Debt V/S Equity, Internal V/s External Funds, Options for Borrowing Funds, Various Financial Institutions Supporting entrepreneurial activities, Introduction to Venture Capital Funding, Managing Growth	08
V	SUCCESS & FAILURE STORIES OF ENTREPRENEURSHIP: Discussions of various business stories & Cases of Successful Businesses, Lessons to be learnt from various organizational	08

	failures Launching the New Venture: Choosing the legal form of new venture, protection of intellectual property, and marketing the new venture	
--	--	--

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Management Of Services
COURSE CODE	04BB0406

COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand service marketing and utilize them effectively in managing products and people to achieve organizational objectives.
- Apply knowledge of models and theories to promote the effectiveness in workplace

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO SERVICES: Introduction to Services, Nature & Characteristics of Services, Classification of services, Consumer Versus Industrial Services	06
II	SERVICES MARKETING MIX : Introduction to the 7P's of Service Marketing, Product-Service Continuum, Standalone service Products, Service Products bundled with tangible Products	08
III	CUSTOMER SATISFACTION & SERVICE QUALITY Monitoring and measuring customer satisfaction, Order taking and Fulfillment, Service Guarantee – Handling complaints effectively, Defects, failures & Recovery, Service Quality Models – GAPS Model & SERQUAL	10
IV	TECHNOLOGY & SERVICE STRATEGY : Applying Technology to service sittings, e- services, Global and Indian Scenario in service sector, Importance of Service marketing, Every business is a service business, Service as a key differentiator	08
V	TYPES OF SERVICES : Introduction to Various Service Sectors : Hospitality; Transportation; Tourism; Information Technology; Banking & Insurance; Telecom ; Entertainment	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Basics of French Language
COURSE CODE	04BB0407
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the basics of French Language.
- Start basic conversations using French Language

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION Introduction – Greetings – Alphabet- Definite Articles - Indefinite Articles - Gender - Colour - Demonstrative Pronouns - Numbers (0 to	08

	60) - Numbers (61 to 100) - Time Telling – 1 - Time Telling – 2 - Days and Months - Family Members & Possessive Adjectives	
II	GRAMMER - I To have & To be - To go & To call - 1st Group Verbs with 'er' - 2nd Group Verbs with 'ir' - Irregular Verbs- Negative Sentences – 1 - Negative Sentences – 2	08
III	GRAMMER - II Numbers (Singular-Plural) – Prepositions - Future Proche - Future Simple - Passé imparfait - Le conditionnel - Yes/No Questions - WH Questions - Pase Compose – 1 - Pase Compose – 2 - Past Simple - Les nationalités et Professions – Les présentations oral - Les présentationsécrit	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Operations Research
COURSE CODE	04BB0501
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

Understand and Formulate decision problem as mathematical model and solve using appropriate operations research technique.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Basics of Operations Research (OR) Introduction, Concepts, Definition, Characteristics, Potential Applications, Steps in OR Problems, Basic Operations Research Techniques, Role of Computers in OR</p> <p>Linear Programming Problem (LPP) 1 – Formulation: Introduction to Linear Programming, Applications of LPP, Requirements and Assumptions Underlying LPP, Generalized Linear Programming Problems, LPP Model Formulation – Maximization and Minimization Problems (Max 3-Variables and 4-Constraints)</p> <p>Linear Programming Problem (LPP) 2 – Graphical Method: Concept of Feasible Region, Solution of LP Problems using Graphical Method, Maximization and Minimization Problems (Max 4-Constraints), Special Cases in LPP – Multiple or Alternate Optimum Solutions, Unbounded Solution and Infeasible Solution</p> <p><i>Note: Constraints of all types (Less than type, Greater than type and combination of both the types) should be covered</i></p>	12
II	<p>Linear Programming Problem (LPP) 3 – Simplex Method: Simplex Method – Only Maximization LPP, Two or three Variables and Two Constraints (Max Three Iterations), All Constraints to be Less Than or Equal To type Concept of Slack Variable, Unique or Alternate Optimal Solution, Shadow Prices of Resources, Utilized and Unutilized Capacity of Resources</p> <p>Concept of Duality: Introduction to Duality, Relation between Primal Problem and Dual</p>	10

	LPP, Conversion of Primal Problem to Dual LPP, <i>Note: Mixed-constraints and Unrestricted Variables, Max 3-Variables and 3-constraints</i>	
III	Transportation Problem (TP) Introduction, Structure of TP, Solution of TP – Initial Feasible Solution (IFS) using North West Corner Method (NWCM), Least Cost Method (LCM) and Vogel's Approximation Method (VAM), Finding Optimal Solution using MODI Method, Types of Transportation Problem – Balanced and Unbalanced, Minimization and Maximization, Case of Degeneracy and Prohibited or Restricted Route, Unique Optimum Solution and Multiple Optimum Solutions <i>Note: Max 4X4 Transportation Matrix, MODI Method - Maximum One Iterations after IFS, Degeneracy to be covered at Conceptual Level, Not to be Included in Numerical</i>	10
IV	Assignment Problem (AP) Introduction, Structure of AP, Solution of AP using Hungarian Method, Types of Assignment Problems - Balanced and Unbalanced, Minimization and Maximization, Restricted Assignment, Unique Optimum Solution and Multiple Optimum Solutions, Travelling Salesman Problem <i>Note: Max 5X5 Assignment Matrix, Maximum Two Iterations after Row and Column Minimization</i>	08
V	Probabilistic Operations Research Models Waiting Line Models: Queuing Models – Concepts, General structure of a queuing system. Single-channel queuing model: Poisson-distributed arrivals and exponentially distributed service times with infinite source population. M/M/1 queuing models. Digital Simulation: Introduction, Areas of Applications, Steps involved in Monte Carlo Simulation, Application of Simulation Method, Advantages and Disadvantages of Simulation, Application in Queuing, Inventory, Profitability and Investment problems	08

Note: Guidelines for the Faculty

Instructor is required to demonstrate solution of OR problems using QM for Windows Software. Not to be included for assessment / examination

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Strategic Management
COURSE CODE	04BB0502
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Differentiate between strategies made at different levels of organization.
- Create & implement strategy formulation at various levels of management

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction:	8

	Strategy – Introduction to Strategy, Levels of Strategy, Difference between Policy, Strategy and Tactics. Vision, Mission & goals (Concept & difference) Strategic Management – Definition, Process of Strategic Management.	
II	Environment Analysis: Concept of Environment – Internal & External. SWOT Analysis, Environmental Sector, Environmental Scanning. Internal Environment – Factors & Methods of analysis – Internal, Comparative & Comprehensive Analysis.	10
III	Strategy Formulation – Business Level Strategy & Functional Level Generic Business Level Strategy – Cost Leadership, Differentiation & Focus – Business Strategy for different industry conditions. Functional Plans & Policies – Financial – Marketing – Operations – Personnel.	10
IV	Strategy Formulation – Corporate Level Strategy Concentration – Integration – Diversification – Internalization Strategies – M&A, Joint Venture, Strategic alliance. Digitalization Strategies - Retrenchment & Restructuring (Only concepts).	10
V	Strategic Implementation evaluation & Control: Strategy Implementation - Nature & Barrier to strategy implementation – Strategic Leadership – Strategic Control – Operational Control – Techniques of Strategic Evaluation & Control	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Project Management
COURSE CODE	04BB0503
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Analyze the project idea for better selection.
- Identify the completion of project in a better control way.
- Understand the topics like planning, selection and implementation.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Project: Introduction, Characteristics of a project, element of a project, target and needs of a project, types of projects, functions of project manager, project management body of knowledge, benefits of project management.	9
II	Idea Generation and Initiation: Generation and Screening of Project Ideas, Market and Demand Analysis, Technical Analysis, Financial Estimates and Projections,	10

	Project Life Cycle.	
III	Project Planning and Selection: Project Scope, Scope of a Project and Scope Verification, SWOT Analysis, Organization Structure, Work Breakdown Structure, Project Selection Methods.	10
IV	Project Implementation: Estimation, Scheduling, Network Techniques for Project Management- CPM & PERT (only network diagram and Critical path identification), Project Risk, Project Communication.	10
V	Project Closeout: Project Evaluation, Project Auditing, Project Closeout Reports, Project Review and Administrative Aspects.	9

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Brand India : From Local to Global
COURSE CODE	04BB0504
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- To understand key elements in building and maintaining brands and brand equity.
- To understand the role they have to play in the development of India

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Branding Concept of Brand, Types of Brand, what can be branded, Characteristics, brand evolution, brand level, Understanding branding challenges and opportunities, Local Brands & Global Brands	06
II	Brand India The Concept of Brand India: India as a Product, Transformation of the product into Brand India. The Evolution of Brand India: the History of Brand India, the Development of Brand India. The Justifications for Brand India: True Development cannot be Sector-specific or Need-based, Holistic Approach, All-Round Development. The Benefits of Brand India: Highest Standard of Education, Increased Employability, Social Equality, Law and Order, Corruption Control, Sense of Patriotism, Economic Development, India as the World's Only Hyper Brand.	10
III	Brand India at a Global Level	

	The Implementation of Brand India: Quality Education, Robust Education System, Civic Sense, Ethics, Governance, Removal of Red Tapism, Strong Judiciary, Social Justice, Make in India, Digital India, Start-Up India , Stand-Up India, Skill India, the Role of India Brand Equity Foundation.	08

INTERNSHIP (04BB0506)(BBA/BBA (H)) Content

Components

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I), containing: (1 Page)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (1 Page) (Annexure II)
- ☛ College Certificate (1 Page) (Provided by Guide/Supervisor)
- ☛ Company Certificate (1 Page)
- ☛ Preface (1 Page)
- ☛ Acknowledgement (1 Page)
- ☛ Executive Summary (1 Page)
- ☛ Table of Content (1 Page)
- ☛ Introduction and History of Company (15 to 20 Pages)
- ☛ Vision & Mission of Company (2 Pages)
- ☛ Organization Structure (1 to 2 Pages)
- ☛ Departmental Study (15 to 20 Pages)
 - Marketing Department
 - Finance Department
 - Human Resource Department
 - Production Department
 - Accounting Department
 - R & D Department etc...
- ☛ SWOT Analysis (2 to 4 Pages)
- ☛ Overview of Industry & Major Players (4 to 5 Pages)
- ☛ Porter's Five Force Model Analysis of Industry (2 to 4 Pages)
- ☛ Learning form Internship (1 to 2 Pages)
- ☛ Conclusion (1 Page)
- ☛ Bibliography (1 Page)
- ☛ Annexure (if Any) (1 Page)

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12

10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify
12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01 Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

Evaluation Scheme

Internship consists of 4 Credit, 100 marks and shall be evaluated on two components i) Internal Assessment & ii) Viva.

Particular	Weightage (%)	Conducted By
Internal Assessment (IA)	50%	Supervisor/ Guide
Viva Voce	50%	Viva Panel

I. **Internal Assessment** shall consist of 50 marks, which will be carried out by supervisor/guide.

II. **Viva Voce** shall carry 50 marks and will be conducted by a Panel of two examiners.

Duration & Time Period

☛ Duration of Internship: Minimum 15 Days and Maximum 30 Days.

☛ Internship must be in between 10th May 2018 to 20th June 2018.

Reporting Schedule

Sr. No.	Review	Particular	Marks
1	First Review (After 10 Days of Commencement of Internship)	<ul style="list-style-type: none"> ☛ Introduction and History of Company (15 to 20 Pages) ☛ Vision & Mission of Company (2 Pages) ☛ Organization Structure (1 to 2 Pages) ☛ Departmental Study (15 to 20 Pages) <ul style="list-style-type: none"> • Marketing Department • Finance Department • Human Resource Department • Production Department • Accounting Department • R & D Department etc... 	15
2	Second Review (within two days after completion of Internship)	<ul style="list-style-type: none"> ☛ SWOT Analysis (2 to 4 Pages) ☛ Overview of Industry & Major Players (4 to 5 Pages) ☛ Porter's Five Force Model Analysis of Industry (2 to 4 Pages) ☛ Learning form Internship (1 to 2 Pages) ☛ Conclusion (1 Page) 	15
3	Third Review (Within 10 Days after Completion of Internship)	Final submission of Internship Report to Supervisor (Soft Copy)	20

Specialization: Finance

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Management of Financial Markets
COURSE CODE	04BB0507
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the fundamentals of financial markets
- Understand ways in which financial markets will be managed
- Understand the role of regulators in management of financial markets
- Understand about instruments to be traded in the financial markets

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Financial Markets: Meaning, Definition, Functions, Classification, Key players in financial market (Stock Exchange, Brokers, Dealers, Traders, Depositories, Clearing corporation), Security Exchange Board of India	8
II	Capital Market: Overview, Function of capital market, Primary market reforms, Issues in capital market, secondary market reforms, Capital market scams Primary Market: Mechanism in India, Initial Public Offer (IPO), Methods of IPO (type of IPO), eligibility norms, Book Building Process, Limitations Reverse book building, Green shoe option Secondary Market: Meaning, Function of Secondary, Post reforms stock market scenario, organizational structure of stock exchanges, listing of securities, trading and settlement, Internet trading, Stock Market Indices(Nifty & Sensex)	15

Subject Code: 04CR0501

Subject Name: Career Readiness Program

BBA-BBA(Hon) Year – III (Semester V)

Objective: This course shall enrich students' preparedness for the upcoming competitive exams, MBA entrance test, and/or placements. It will enhance the verbal and numerical skills of the students through the group interactions, practice sessions, and videos.

Credits Earned: 2 Credits

Course Outcomes: After successful completion of this course, student will be able to

- Understand importance of verbal and numerical skills in the competitive exams

- Inculcate smart approach in verbal and numerical problem solving
- Apply the concepts in both competitive exams and placement drives

Pre-requisite of course: NA.

Teaching and Examination Scheme

Suggested Theory distribution:

The suggested theory distribution as per Bloom's taxonomy is as per follows. This distribution serves as guidelines for teachers and students to achieve effective teaching-learning process

Distribution of Theory for course delivery and evaluation					
Remember	Understand	Apply	Analyse	Evaluate	Create
20%	20%	30%	15%	10%	5%

Instructional Method:

a. The course delivery method will depend upon the requirement of content and need of students. The trainer shall train students through interactions, demonstration, brainstorming, group tasks etc.

Students will use supplementary resources

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Business Ethics & Corporate Governance
COURSE CODE	04BB0601
COURSE CREDITS	04

I	Overview of Globalization: Drivers, Changing Demographics of the Global Economy, Managing the Global Marketplace, Country Differences Political, Legal, Economic, Social, Technological & Demographics, Micro and Marco business Environment Difference in Cultural Aspects, Values & Norms, Social Structure Language, Education ways to enter Foreign Market, Ethics in	12

	international business Dilemmas, Roots of Unethical Behavior, Ethical decision making.	
II	Global Trade and Investment Environments Trade Theories: -Mercantilism, Absolute & Comparative advantage, Heckscher-Ohlin theory, Porter's Diamond model, Foreign Direct Investments, Benefits of FDI Regional Economic Integrations like European Union, NAFTA, MERCOSUR, CARICOM, Association of Southeast Asian Nation.	10
III	Global Monetary Systems. Foreign Market nature & functions , Exchange Rate Determination, Forecasting & Currency Convertibles, Bretton wood systems, GATT, IMF & WTO, Ways to Enter Market Strategy and Structure, Global Expansion, Profitability & Profit Growth, Organizational Structure & Cultures, Control systems, Incentives & Changes. Basic entry Decisions, & Modes.	12
IV	Business Operations Managing Global Supply Chains, International Logistics Practices, global marketing and R & D, Global Human Resources Management International Labor Relations, Accounting and Financial Issues.	10
V	Global Risk Analysis: - Context base discussion of each issue:- Natural and Man-made disasters, Energy price shocks, Large scale involuntary migrations, Weapons of mass destruction, Terrorists attacks, Failure of national governance, Cyber-attacks.	04

Note: - Unit V should be taught by concern faculty, taking into consideration current happening at global level.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Project (04BB0604)

Credits: 8

Guidelines for the Preparation of Project Report (BBA/BBA(Hons) Semester – VI)

MARWADI UNIVERSITY

Rajkot-Morbi Road, At & Po. Gauridad,

Rajkot-360003, Gujarat, India.

Phone : 0281-2924155 / 56, www.marwadiuniversity.in

Course: BBA/BBA(H)

SEMESTER	VI
TITLE OF THE SUBJECT	Project
COURSE CODE	04BB0604
COURSE CREDIT	8

Project

Project is a composition of practical research work, involving the analysis of a specific problem in the area of the specialization and evaluation of the results of the analysis that serves as a basis for developing specific proposals and implementing the appropriate solution to the problem.

Objective of the Project

The objectives of the Project for BBA/BBA (H) students are:

- a. To demonstrate the student's knowledge of the literature relating to the problem of study.
- b. To reveal the student's ability to collect, analyze, interpret and synthesize information/data for analyzing various business situations.
- c. To present the results obtained, in a sequential and logical manner.
- d. To display the student's ability to discuss coherently the meaning of the results.

Content of Report

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (Annexure II)
- ☛ College Certificate (Provided by Guide/Supervisor)
- ☛ Company Certificate
- ☛ Preface

- ☛ Acknowledgement
- ☛ Executive Summary
- ☛ Table of Content
- ☛ Introduction to Topic
- ☛ Review of Literature (8 to 10 literature review)
- ☛ Research methodology
 - Introduction
 - Statement of problem
 - Research Objectives
 - Scope of the study
 - Research hypothesis (If any)
 - Research design (Research Type)
 - Data Collection sources (Primary and secondary sources)
 - Data Collection Instrument (for e.g. Questionnaire)
 - Sampling Design
 - ☞ Population of the study
 - ☞ Sample Size
 - ☞ Sampling Method
 - Data Analysis Design (a brief outline of tools and techniques to be used for analysis, statistical tools and tests to be used)
 - Limitations of the Project
- ☛ Data Analysis and Interpretation
 - Tabular representation of data
 - Charts
 - Statistical tests
 - Analysis and Interpretation
- ☛ Findings & Suggestions
- ☛ Conclusion
- ☛ Annexure
- ☛ Annexure - Questionnaire
- ☛ Annexure – Any other document
- ☛ Bibliography

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12

10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify
12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

ANNEXURE - II

STUDENT DECLARATION

I hereby declare that this Project Report titled _____
_____ submitted by me to the Faculty of Liberal
Studies, Marwadi University is a bonafide work undertaken by me and it is not submitted to any
other University or Institution for the award of any degree diploma / certificate or published any
time before.

Date: DD/MM/YYYY

Place: Rajkot

Signature of the Student

[Name of Student]

[Enrollment No.]

Evaluation Scheme

Internship consists of 4 Credit, 100 marks and shall be evaluated on two components i) Internal Assessment & ii) Viva.

Particular	Weightage (%)	Conducted By
Internal Assessment (IA)	50%	Supervisor/ Guide
Viva Voce	50%	Viva Panel

I. **Internal Assessment** shall consist of 100 marks, which will be carried out by supervisor/guide.

II. **Viva Voce** shall carry 100 marks and will be conducted by a Panel of two examiners.

Specialization: Finance

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Advance Financial Management
COURSE CODE	04BB0605
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Students will be able to understand basic framework of designing capital structure of a firm.
- Students will be able to evaluate the risk aspect for analyzing investment decisions.
- Students will have knowledge about dividend policy and its relevance in value of a firm.
- Ability to determine cash position of a firm.
- Acquire knowledge on receivables management of the firm.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
---------	-----------------	----------

I	Capital Structure Decision Introduction, PBIT-EPS Analysis, ROI-ROE Analysis, Leverage Analysis, Ratio Analysis, Factors determining capital structure. (Theory & ratio problems)	10
II	Risk Analysis in Capital Budgeting Sources and Perspectives on Risk, Sensitivity Analysis, Scenario Analysis, Break-even Analysis, Hillier Model, Simulation Analysis, Decision tree Analysis, Corporate risk Analysis, Managing Risk. (Theory & Problems)	10
III	Dividend Policies Introduction, Factors affecting Dividend Decision, Bonus Share & Stock Splits, Different forms of dividend, Bonus share and its impact on stock price, Legal and Tax aspects relating to dividend (Theory & Problems)	10
IV	Cash & Liquidity Management Introduction, Cash budgeting, Long term cash forecasting, Reports for control, Cash collection and Disbursement, Optimal Cash balance, Investment of Surplus Funds, Cash Management Models. (Theory) & Problems	10
V	Credit Management Introduction, Terms of payment, Credit policy Variables, Credit Evaluation, Credit Granting Decision, Control of Accounts Receivables, Credit Management in India (Theory & Problems)	8

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Text Books:

Sr.No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	Prasanna Chandra	Financial Management	The McGraw-Hill Publishing Company Ltd.	8 th Edition 2011
T-02	Financial Management	M.Y. Khan & P. K. Jain	The McGraw-Hill Publishing Company Ltd.	5 th Edition 2007

Reference Books:

Sr.No	Author/s	Name of the Book	Publisher	Edition and Year of Publication
R-01	I M Pandey	Financial Management	Vikas Publishing House Pvt. Ltd.	9 th Edition, 2009
R-02	Vishwanath S. R.	Corporate Finance	Sage Publication	2 nd Edition, 2007
R-03	J.B.Gupta	Strategic Financial Management	Taxmann Publication Pvt. Ltd.	4 th Edition.
T-04	Ravi M. Kishore	Strategic Financial Management	Taxmann Publications Pvt. Ltd.	2 nd Edition

Specialization: Marketing

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Advertising Management
COURSE CODE	04BB0606
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Gain an understanding of effectiveness of advertising as an integral marketing tool.

- Learn the majors of advertising programs of organizations with emphasis on the application of marketing concepts for effective decision making.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to advertising Introduction to Advertising –Meaning, Definition of advertising, objectives, its role and functions. Types of Advertising: Commercial, Non-commercial, Primary demand and Selective Demand, Classified and Display advertising, Comparative advertising, Co-operative advertising.	10
II	Advertising Planning Advertising planning framework – factors involved in advertising planning and decision making, the communication & persuasion process segmentation strategy.	10
III	Creative Strategy Creative Strategy: meaning of creativity, Creative strategy and tactics, various advertising Appeals, the mode of message and theme.	10
IV	Advertising budget Advertising Budget – Objectives, preparation and methods of advertising budget; Top down and Build up approach, methods of advertising – Affordable method, Arbitrary allocation method, percentage of sales method, competitive parity method, Objective and Task method; and DAGMAR Approaches	10
V	Advertising Media Decision Concept, Role of Media, Advertising media- Types of Media Print Media (Newspaper & Magazines, Pamphlets, Posters & Brochures), Electronic Media (Radio, Television, Audio Visual Cassettes), Other Media (Direct Mail, Outdoor Media), New Media –Internet and Mobile phones (Characteristics, merits & Demerits of above media, media scenario in Indian Context.)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

Specialization: Human Resource Management

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Change Management
COURSE CODE	04BB0607
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the objective of managing change in the organization
- Recognize reactions to change and address the resistance
- Learn the competencies required for effective change management

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Organizational Culture and Change Business as a domain for change, Environmental Factors leading to Change, Organizational Culture and Change: Sources and types of Culture, Significance of Culture during change, Strengths and weaknesses of Indian Culture.	10
II	Resistance to Change Meaning and Nature of Organizational Change, Types of Change, Organizational Barriers to Change, Individual and Group Resistance, Overcoming Resistance to Change, Techniques to manage resistance	10
III	Organizational Change and Change Agents Meaning and Types of Change Agents, Key Roles in Organizational Change, Characteristics of good Change Agent, Strategic Management of Change, Factors in selecting Change Strategy, Formulation and Implementation of Change Strategy.	10
IV	Organizational Diagnosis & Development Meaning of Diagnosis, Introduction to Organizational Diagnosis, Collection of Data, Introduction to OD, OD Intervention and Classification, OD Interventions Techniques, Prerequisites for effective use of OD.	10
V	Learning Organization and Models of Change Meaning and nature of Learning Organization, TQM and Learning Organization, Basic Models of OD: Individualistic Model, Group Oriented Model, Organization-oriented model, Lewin's three-step Model, Case study on Change Management in any Industry.	8

Elective

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Mathematics For Business
COURSE CODE	04BB0106
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Calculate simple and compound interest on investments
- Understand repayments of loan using EMIs
- Structure and solve problems using matrices
- Understand and establish relationship between variables using functions to determine equilibrium
- Determine minimum and maximum (optimum) value of cost and profit

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	MATHEMATICS OF FINANCE Introduction, Simple Interest and Compound Interest – Concept and problem solution Future Value (FV) - Annuity: Amount of ordinary annuity, Amount of annuity due Present Value (PV) -ordinary annuity and annuity due Loan Amortization and Equated Monthly Installments (EMIs) - Reducing balance and flat rate of interest Use of MS Excel	10
II	FUNCTIONS Introduction, Constants, Variables, Types of functions– Linear function and Polynomial functions Functions in Business: Cost function, Revenue function and Profit function, construction of cost functions, Profit function and Break Even Point (BEP)	10
III	DIFFERENTIATION AND APPLICATIONS OF DERIVATIVES Limit of a function, important results, differentiation of algebraic functions – formulae (no derivation) Derivative of function of one variable, derivative of sum, difference, product and quotient of two functions (no derivation), chain rule, differentiation of implicit function, price elasticity of demand, second order derivative	12

	Application of derivatives – Marginal cost, Marginal revenue, Marginal Profit, Maxima and Minima	
IV	DETERMINANTS Determinant of second order and of third order, Minor of an element Expansion of determinant, Properties of determinant, Use of determinants in solving simultaneous linear equations – Cramer's Rule for two and three linear equations Use of MS Excel to calculate determinant	06
V	MATRICES AND APPLICATIONS Introduction, Definition, Types of matrices, Algebra of matrices (Addition and Subtraction), Additive Inverse of a matrix, Structure problems in matrix form, Multiplication of matrices (Max 3X3) Minor, cofactor, adjoint and Inverse of Matrix, Solution of system of linear equations using inverse of coefficient matrix (Max 3) Use of MS Excel to calculate inverse of matrix	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Career Readiness Program
COURSE CODE	04CR0101

COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Objectives:

- The “*Linguistics for Interpersonal Interaction*” course is designed to make the Learners feel comfortable understanding, thinking and speaking in English.
- Having undergone the training, the Learners will feel confident about his or her own English-speaking skills.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Phonology: Varieties of Language and Standard English, Phonetics and Phonology - Speech Mechanism and Articulatory Phonetics, English Phonemes. Characterization and Classification of Vowels - Diphthongs and Monophthongs.	6
Unit-II	Syntax and Morphology: Nouns, Pronouns and Determiners - Misconceptions related to usages of noun forms, Using Possessives, Types of Pronouns, General Determiners and Specific Determiners. Verbs and related forms - Types of verbs and their forms, Stative and Dynamic, Lexical and Delexical Adjectives and Adverbs - Word formation, Order of Adjectives, Types of Adverbs Preposition and Phrasal verbs - Preposition of time, Preposition of Movements, Preposition of Place, Phrasal Verbs Conjunctions - Coordinating and Subordinating, Using Conjunctions in formal settings. Present Continuous – Form, Usages, Misconception Present Simple & Simple Past – Form, Usages, Misconception	8
Unit - III	Reading Comprehension: Processing Strategy - Comprehension Strategy, Meta-cognitive Strategy, Prediction and Pre-prediction.	4
Unit - IV	Spoken Discourse: Coherence and Cohesion - Situational Sociolinguual interaction, Conversation Practice. Feature of Spoken Discourse - Semantic and Pragmatic Meanings, Conversation Practice (Role Play)	6

Learning Outcomes:

After studying this course, student should be able to:

- Articulate phonetics and phonology, Noun, Pronoun, Verb
- Reading and processing comprehension.

Evaluation:

The students will be evaluated on following evaluation scheme:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment (Term Work)	30% (I.A.)
C	End-Semester Examination (Viva)	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Principles Of Management
COURSE CODE	04LS1102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Demonstrate their knowledge of business and management principles.
- Get acquainted with management process and functions.
- Comprehend the modern management techniques and its relevance in business

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Meaning, Nature and Characteristics of Management – Scope of Management - Functional areas - Management as a Science and an Art - Management & Administration – Levels of management & Managerial Skills - Evolution of Management Thoughts - Principles of management - Ethics in Management.	10

II	Planning in Management Need and importance of planning - basic purpose of planning - Planning process, Types of plans - Objectives - Management By Objectives Decision-making Decision making – Nature and importance- types of decisions – process	10
III	Organizing Need for organization - purpose of organization, fundamental principles of organization - Types of organization - Departmentalization, Committees - Centralization Vs decentralization of authority and responsibility Staffing Staffing – Introduction - Need for Staffing - Importance of staffing -Process of staffing	10
IV	Directing Directing – Meaning, nature and importance – Theories of Motivation – Maslow's, Herzberg's & McGregor's Leadership – Introduction - Formal and Informal Leadership – Characteristics – Styles of Leadership - Importance of Communication as a leader Coordinating Coordination – Introduction - Importance of coordination - Principles of coordination	10
V	Controlling Meaning and steps in controlling – Pre-requisites of a strong control system -Methods of establishing control Modern Management Techniques Introduction to various latest management techniques: Business process re-engineering, business outsourcing, benchmarking, kaizen, six sigma, knowledge management, just in time management, total quality management.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	L. M. Prasad	Principles of Management	Sultan Chand and Sons	Ninth Edition - 2015

Reference Books:

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Microeconomics
COURSE CODE	04LS1103
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Apply economic reasoning to the analysis of selected contemporary economic problems.
- Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of goods and services produced and consumed.
- Use economic problem solving skills to discuss the opportunities and challenges of the increasing globalization of the world economy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO MICROECONOMICS	10

	Meaning and definition of Microeconomics, Nature and scope of Microeconomics, Difference between microeconomics and macroeconomics. Central economic problems of society.	
II	CONSUMER BEHAVIOUR Utility analysis: Meaning of Cardinal and Ordinal utility. Cardinal Utility: Law of diminishing Marginal utility, Law of Equi-marginal Utility, Ordinal Utility: Indifference curve analysis, properties of indifference curve analysis, Marginal rate of substitution, Budget line and consumer's Equilibrium.	10
III	DEMAND AND SUPPLY ANALYSIS Determinants of demand , law of demand, exceptions to law of demand. Elasticity of demand and its applications: Price elasticity, Income elasticity and cross elasticity. Concept and Law of Supply , Factors Affecting Supply	10
IV	PRODUCTION AND COST ANALYSIS Production Function: Short run and long run production functions, laws of returns, and law of returns to scale. Cost Function : classification of costs, short run and long run cost curves and their interrelationship, Planning curve and envelope curve, internal and external economics of scale, revenue curves, optimum size of the firm, factors affecting the optimum size	10
V	EQUILIBRIUM OF FIRM AND INDUSTRY Perfect competition, monopoly, monopolistic competition, discriminating monopoly, aspects of non-price competition; group equilibrium, excess capacity, selling costs, oligopolistic behavior.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Business Organizations & Structures
COURSE CODE	04LS1104
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Describe the business structure and their organization.
- Discuss the changes that have taken place in there structure and organization pattern over the time

Course Contents:

Unit	Unit / Sub Unit	Sessions
------	-----------------	----------

No		
I	INTRODUCTION Defining Business, Industry and Commerce. Classification of Activities of Business – Different types of Industry – Commerce – Trade – Trade supporting activities – Advantages and Disadvantages of Business. Their interrelationship in today's environment. Business and Society.	8
II	FORMS OF BUSINESS ORGANIZATION-I Sole Proprietorship, Partnership, Co-operative Society, Hindu Undivided Business, Franchise, Outsourcing.	12
III	FORMS OF BUSINESS ORGANIZATION- II Company – Types including Transnational company, Multinational Company, Joint Ventures & Business Alliances etc. and their structures. Limited Liability Partnership and MSMEs.	8
IV	BUSINESS COMBINATION: Concept, Causes and Forms- Associations, Federations, Consolidations, conglomerate etc.	10
V	GOVERNMENT, PUBLIC SECTOR & NOT FOR PROFIT ORGANIZATIONS : Non Government Organization, Trusts, Societies, Public Sector Enterprises , Stock And Commodities Exchange.	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Fundamentals Of Accounting
COURSE CODE	04LS1105
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Analyze business transactions and will be able to prepare the Financial Statements.
- Understand the need of uniformity in Accounting.
- Analyze the effects of different Financial Accounting methods on the Financial Statements.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Basics of Book – keeping and Accounting Introduction to Book Keeping and Accounting – Branches of Accounting – Systems of Accounting – Basis of Accounting – Characteristics of Accounting Information – Users of Accounting Information – Basic Accounting Terms – Classification of Accounts and its Rules – Accounting Equation Accounting Concepts and Conventions Accounting Principles: Accounting Concepts and Conventions – Fundamental Accounting Assumptions – Introduction to Ind AS – Applicability of Ind AS.	08
II	Process of Accounting Books of Original Entry – Journalizing (including GST) – Difference between Cash Discount and Trade Discount, Ledger – Preparation, Posting and Overview of Electronic Ledgers under GST: Electronic Cash, Credit and Liability Ledger – Practical problems on Journal and Ledger – Preparation of Trial Balance – Redrafting of Trial Balance – Errors and their Rectification	16
III	Final Accounts Types of Expenditure and Income – Meaning of Deferred Revenue Expenditure – Classification of Assets and Liabilities under different head – Contingent Asset and Contingent Liability – Distinguish between Provisions and Reserves – Types of Reserves – Preparation of Financial Statements of sole proprietorship – Impact of GST on Financial Statements – Format of Companies Financial Statements as per Companies Act, 2013.	14
IV	Depreciation Meaning and difference between Depreciation, Depletion and Amortization – Need of Depreciation – Depreciation methods (Straight Line Method and Written Down Value Method) – Method of recording Depreciation (Charging to Asset Account and Creating provision for Depreciation/ Accumulated Depreciation) – Treatment of Disposal of Fixed assets.	06
V	Valuation of Inventory Meaning of Inventory - Inventory Record Systems: Periodic and Perpetual - Methods of Stock Valuation: FIFO, Weighted Average and LIFO	04

Note: Any revision in Indian Accounting Standard will become applicable immediately.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Elective

PROGRAM	Bachelors Of Business Administration
SEMESTER	I
COURSE TITLE	Computer Essentials
COURSE CODE	04LS1107
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Draft Document / Worksheet and Presentation
- Understand the Computer Hardware and Software Fundamentals
- Detail some of the problems that are encountered when developing documents and worksheets
- Describe briefly some of the technologies that are used to support online applications

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	COMPUTER BASICS Data- Instruction and Information-Characteristics of Computers- Various fields of application of Computers- Input-output Devices (Hardware-Software- Human ware and Firmware)-Advantages and Limitations of Computer- Block Diagram of Computer- Function of Different Units of Computer- Classification of Computers. Data Representation-Different Number System (Decimal- Binary- Octal and hexadecimal) and their Inter Conversion.	10
II	COMPUTER SOFTWARE Types of Software- Application software and system software- Compiler and Interpreter-Generations of languages-Low and High Level Languages-Computer Memory: Primary Memory & Secondary memory. Cache memory-optical memory- Storage Media. Introduction to Operating System-All Directory Manipulation-Creating Directory- Sub Directory-Renaming-Coping and Deleting the Directory File Manipulation-Creating a File-Deleting- Coping- renaming a File Using accessories such as calculator- paint brush- CD player etc.	10
III	INTRODUCTION TO MS- OFFICE (WORD) Introduction to Word Processing- Features - Formatting Documents- Paragraph Formatting- Indents- Page Formatting- Header and Footer- Bullets and Numbering- Tabs- Tables- Formatting the Tables- Finding and	10

	Replacing Text- Mail Merging etc..	
t IV	INTRODUCTION TO MS- OFFICE (EXCEL) Introduction to Electronic Spreadsheets- Feature of MS-Excel- Entering Data- Entering Series- Editing Data- Cell Referencing- ranges- Formulae- Functions- Auto Sum- Copying Formula- Formatting Data- Creating Charts- Creating Database- Sorting Data- Filtering etc.	10
V	INTRODUCTION TO MS- OFFICE (POWERPOINT) PowerPoint- Features of MS PowerPoint Clipping- Slide Animation- Slide Transitions- Slide Shows- formatting etc.- Creating formal presentations- inserting different objects- arts- charts- pictures etc. to slide.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Course: B.B.A.

SEMESTER	I
TITLE OF THE SUBJECT	READING AND WRITING FOR BUSINESS
COURSE CODE	04SL0102
DURATION	24 Hours

Objectives:

The course will enable the students:

- To read and interpret formal business writings such as reports, articles and reviews;
- To know structures of formal business letters and reports;
- To write formal business letters and reports;
- To inculcate a taste for reading and writing habits pertaining to the world of business.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Introduction to Business world 1. Reading a business case-study – “Tripping Along” by Deep Kalra from <i>Stay Hungry Stay Foolish</i> 2. Reading 3 business articles (general in nature) from the newspapers/magazines i. “Paytm: the wonder wallet” from Forbes India. ii. “Millennials: How They Live and Work” from Gallup. iii. “The Right Culture: Not About Employees Happiness” from Gallup.	12
Unit-II	Reading and writing for business 1. Reading business letters (of sales, inquiry, order, complaint, and adjustment) 2. Writing business letters (Any two types) 3. Reading a few short business reports 4. Writing a short business report	12

Learning Outcomes:

After studying this course, student should be able to:

- Inculcate formal reading and writing skills required to communicate with colleagues in the workplace.
- Writing effective business letters, reports.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	25% (External Assessment)
D	Viva	25%

Course: B.B.A.

SEMESTER	I
TITLE OF THE SUBJECT	SPEAKING AND PRESENTATION SKILLS
COURSE CODE	04SL0103
DURATION	24 Hours

Objectives:

The course will enable students

1. To share information on familiar matters/issues in English.
2. To make effective presentations in English.
3. To gain confidence in speaking in English.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Speaking/Interacting in an Academic Context Greetings, Introducing self and peers, Asking and sharing information, Expressing points of view, Discussions, Facing viva voce, Group discussions, Facing an interview (interview skills).	12
Unit-II	Effective Presentation Skills Introduction to effective presentation skills, Preparing the presentation (Collection of Data/Information, exploring the topic etc.), Using ICT for the presentation, Getting ready for the presentation, Effective body language, Effective pronunciation, Interacting with the audience (Q & A), Practice (with video recording), Feedback and Suggestions.	12

Learning Outcomes:

After studying this course, student should be able to:

- Inculcate speaking skills required to communicate with colleagues in the workplace.
- Effective presentation skills in business, Pronunciation, Interacting with audience.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment	30% (I.A.)

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0152 - Subject Credits: 02

Subject Name: English for Workplace

PROGRAM	Bachelors Of Business Administration
SEMESTER	II
COURSE TITLE	Statistics in Business
COURSE CODE	04LS0205
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Learn the important statistical concepts
- Understand Application and implementation of statistical methods in field.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Basic Concepts Basics of Statistics: Introduction, Definition, Application of Statistics in Business, Economics and Industry. Presentation of Data: Data collection methods (Primary Vs. Secondary, Population Vs. Sample), Classification and Tabulation of quantitative data, Frequency distribution and Cumulative frequency distribution, Graphical Presentation of data (Histogram, Polygon and Ogive), Use of MS-Excel to create Frequency Distribution and Graphs Univariate Analysis: Descriptive Measures (Central Tendencies and Variation): Meaning of Central Tendency, Averages – Arithmetic mean, Mode, Median and Percentiles, Variation – Range and Variance and Standard Deviation of ungrouped and grouped data. Coefficient of Variation, Choice of good measures. (Use of MS Excel Statistical function to find descriptive measures)</p>	14
II	<p>Probability Theory Counting ($m \times n$) rule, Permutation and Combination (Use of MS Excel to compute permutation and combination)</p> <p>Theory of Probability: Definition, Basic terminology of Probability, three approaches of assigning probability (Classical, Relative Frequency and Subjective</p>	08

Subject Name: English for Workplace

	approach), Rules of probability, Addition rule, Multiplication rule for independent and dependent events.	
III	Probability Distribution: Random variable, probability distribution and mathematical expectation Discrete Probability Distribution: Binomial, Poisson Continuous probability Distribution: Normal Distribution – Properties and Applications (Use of MS Excel Statistical function to compute Binomial, Poisson and Normal probability)	08
IV	Bivariate Analysis Correlation and Regression Analysis: Meaning of correlation, types of correlation, method of correlation – Karl Pearson’s coefficient of correlation, Meaning of Regression, regression coefficients and two lines of regression, use of regression in prediction. (Use of MS Excel Statistical Function to compute correlation and regression)	10
V	Time based Analysis Time Series and Index Numbers: Basic Concepts, Components of Time series (Trend, Seasonal Variation, Cyclic and Random / Irregular variation), methods to determine trend and Seasonal Indices – simple averages, Use of Time Series in Business and Economics. Overview of Index Numbers as an important statistical tool in economics.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

Course Description

The course offers select English movies as a medium for teaching English language skills. Given that 'context' is a vital aspect for language learning, film as an audio-visual

'text' re-creates reality whilst presenting its viewers with demonstrations of varied

linguistic contexts. This course thus aims to create a sense of ease in learning English in a contextual manner. Moreover, the objectives of learning language are fluency and accuracy. These aims can be achieved

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

best by various language contexts (situations) demonstrated in movies. Also, movies present language in a more accessible fashion for the students to easily acquire language skills.

Course Objectives

The course will enable the learners to

1. further enhance their basic language skills;
2. identify and use different language functions in an audio-visual context;
3. learn to use film and its elements as tools for language learning.

Unit 1: Language Functions, Contexts & Movies

In this unit, students will learn, understand, and explore English through clips from various selected movies. They will primarily study a number of language situations, as shown in the clips, in order to understand how English can be used in varying contexts. This unit aims to improve the students' basic language skills LSRW by dealing with

varying language activities by focusing on strengthening their vocabulary,

interpretation skills, reading non-verbal cues, pronunciations, and also their writing skills. Students would explore the following language activities in this unit:

1. Introducing the course
 - a. Instructors will introduce each film included in the syllabus along with a very brief background of the recommended movies, and

Marwadi University

Semester II (w.e.f. Jan, 2018) Subject

Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

- b. Students will be asked to list the kinds of movies they prefer and also provide a reason for their preferences
2. Focusing on dialogues and understanding parts of speech
3. Creative Writing: Making a pamphlet (for Continuous Semester Evaluation)
4. Reading nonverbal cues in context
5. Vocabulary building exercises – word meanings, making sentences & finding images and synonyms and antonyms
6. Interpreting dialogues & pronunciation
7. Daily Conversations

3. <https://speechyard.com/us/video/>
4. <https://www.learnenglish.de/improveenglish/films.html>

Unit 2: Detailed Analyses of the Movies

Students would be asked to watch the selected movies and individual scenes in order to transcribe dialogues, respond to and discuss various issues dealt within the movies, answer questionnaires, and write movie reviews. They will also be asked to interpret the trailers of these movies and discuss them in groups. The following activities will be covered in this unit:

- a. Dialogue and monologue transcription
- b. Interpreting the trailers [Group discussion]
- c. Interpreting the scene(s) [Group discussion in context]
- d. Movie comprehension (a short film and a long scene will be played in class)
- e. Reading and Writing Movie reviews
- f. Describing/Discussing the posters of the movies,
- g. Describing characters & themes (Questionnaire)
- h. Giving feedback/expressing opinions.

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Production & Operations Management
COURSE CODE	04BB0401
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the relevance of production and operations management in industry.
- Apply the techniques of inventory management and quality management.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction: Meaning, Nature and Scope of Production and Operation Management, Types of production processes	08
II	Plant location and Lay out: Factors considered in location, Types of Layout , PPC (Only concept)	10
III	Materials Management: Importance of Materials Management, Concept of purchasing, principles of purchasing and process of purchasing. Types of purchasing: Inventory management, its prime importance, Inventory Control Techniques - ABC, FSN, GOLF, VED, SOS (only concepts).	12
IV	Methods Study & Maintenance Management: Methods Study, Work Study and Time Study: (only Concept), Maintenance Management: Need of maintenance management, Types of maintenance management	10
V	Quality Management: lean manufacturing, JIT, Kaizen, ISO series, TQM	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Management Information System
COURSE CODE	04BB0402
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend types of MIS applications in organizations
- Deliberate the expansion of management information systems in organizations.
- Critically evaluate security challenges associated with the use of Information system.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Information Systems: Meaning of information system, difference between information and data, Role	10

	and Importance MIS in modern business. Types of decisions and the use of information system.	
II	Types of Information system Transaction processing system, Office Automation system, Management Information system, Decision support system, Executive support system, Group decision support system, Geographic Information system	10
III	Enterprise Resource Planning and Enterprise Applications Meaning of ERP- Its role in modern organization, merits and demerits. Enterprise Applications- Customer relationship management systems, supply chain management systems, Knowledge Management system and its role in modern business.	10
IV	Networks and its types Types of Network, LAN, WAN, MAN, CAN, PAN. Its advantages and disadvantages, Topologies, communication medium, wired and wireless networks, Meaning of internet and intranet and the difference between the two.	10
V	Security challenges in India Types of computer crimes, sources of information technology vulnerabilities. Remedies for preventing unauthorised use of information technology Challenges faced by working population- working conditions, individual's health and social issues.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Income Tax Law And Practice
COURSE CODE	04BB0403
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the residential status and tax incidence based on it
- Calculate income under all the five heads of Income
- Gain knowledge regarding the exempt income
- Gain knowledge regarding the deductions from total income
- Calculate tax payable on taxable income
- Understand the concept of tax deduction and tax collected at source

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION, RESIDENTIAL STATUS AND EXEMPT INCOME Levy of income tax - Rates of tax & slab - Important Definitions - Relevance and significance of residential status - Types of residential status and its Determination - Incidence of tax based on residential status - Income which do not form part of total income - Conditions to be satisfied for availing exemptions	05
II	INCOME UNDER THE HEAD SALARY & INCOME FROM HOUSE PROPERTY Definition of Salary – Chargeability - Treatment of various	15

	<p>Allowances - Perquisites and their valuation - Deductions from gross Salary - Retirement benefits - Provisions regarding Provident Fund - Computation of taxable salary (Practical Problems)</p> <p>Chargeability of income from house property - Composite rent - Annual value and its determination - Deductions from annual value - Deemed ownership - Computation of taxable income under this head (Practical Problems)</p>	
III	<p>INCOME UNDER PROFITS AND GAINS OF BUSINESS AND PROFESSION & INCOME FROM CAPITAL GAIN Meaning of Business and Profession – Chargeability of income from profits and gains of business and profession - Allowable expenses – Expressly disallowed expenses - Deemed profits and incomes - Computation of taxable income under this head (Practical Problems)</p> <p>Chargeability of income from capital gain - Capital asset – Transfer - Short term and Long term capital assets - Short term and Long term capital gain - Exemptions from long term capital gain - Computation of capital gains (Practical Problems)</p>	16
IV	<p>INCOME FROM OTHER SOURCES AND DEDUCTIONS FROM GROSS TOTAL INCOME Income taxable under other sources - Deductions allowed - Inadmissible deductions - Computation of taxable income from other sources (Practical Problems)</p> <p>Chapter VI-A deductions from the gross total income [Section 80C to 80U] -</p>	08
V	<p>TAX PAYABLE, TAX DEDUCTION AT SOURCE & ADVANCE TAX Calculation of taxable income and tax payable</p> <p>Deduction of tax at source under various sections [only those applicable to individual] – Concept of tax collected at source – Liability for payment of advance tax and due dates</p>	04

Note: Any change in the provisions of Income Tax Act, 1961 as per budget or otherwise, shall be respectively made applicable to the syllabus. The syllabus of an academic year shall be the provisions of the relevant Assessment Year.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Bachelors Of Business Administration
SEMESTER	IV
COURSE TITLE	Entrepreneurship
COURSE CODE	04BB0405
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend Fundamental Concepts for starting the business
- Apprehend the concepts of industrial environment and preparing a business plan.
- Understand available sources for raising funds for start-ups.
- Comprehend various challenges and possible solutions for starting a business units.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	ENTREPRENEURSHIP - AN INTRODUCTION Meaning & Definition of Entrepreneurship, Common History & Entrepreneurial Characteristics, Required skills of an Entrepreneurs, Entrepreneurial Process, Role of Entrepreneurship in Economic Development of the Nation, Advantages & Drawbacks of Entrepreneurship, Introduction to Intrapreneurship	10
II	UNDERSTANDING INDUSTRIAL ENVIRONMENT: Industry - Large Scale - Small Scale - Tiny - Ancillary - Cottage, Challenges for Small Scale Industries, Registration process of SME, Definition & Symptoms of industrial sickness and suggested remedies for sick units, Domestic & International Entrepreneurship Options	12
III	PREPARING BUSINESS PLAN: Generation of Project Ideas, Sources of Business Ideas, Methods to generate business ideas , Feasibility Analysis: Economic, Managerial competency. Marketing, Financial & Technical, Environmental Scanning and SWOT analysis. Structure of a business plan, Importance of Business Plan, process of Preparation of Business Plan.	10
IV	SOURCES OF FINANCE FOR BUDDING ENTREPRENEURS: Debt V/S Equity, Internal V/s External Funds, Options for Borrowing Funds, Various Financial Institutions Supporting entrepreneurial activities, Introduction to Venture Capital Funding, Managing Growth	08
V	SUCCESS & FAILURE STORIES OF ENTREPRENEURSHIP: Discussions of various business stories & Cases of Successful Businesses, Lessons to be learnt from various organizational	08

	failures Launching the New Venture: Choosing the legal form of new venture, protection of intellectual property, and marketing the new venture	
--	--	--

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

PROGRAM	Bachelors Of Business Administration
SEMESTER	V
COURSE TITLE	Operations Research
COURSE CODE	04BB0501
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

Understand and Formulate decision problem as mathematical model and solve using appropriate operations research technique.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Basics of Operations Research (OR) Introduction, Concepts, Definition, Characteristics, Potential Applications, Steps in OR Problems, Basic Operations Research Techniques, Role of Computers in OR</p> <p>Linear Programming Problem (LPP) 1 – Formulation: Introduction to Linear Programming, Applications of LPP, Requirements and Assumptions Underlying LPP, Generalized Linear Programming Problems, LPP Model Formulation – Maximization and Minimization Problems (Max 3-Variables and 4-Constraints)</p> <p>Linear Programming Problem (LPP) 2 – Graphical Method: Concept of Feasible Region, Solution of LP Problems using Graphical Method, Maximization and Minimization Problems (Max 4-Constraints), Special Cases in LPP – Multiple or Alternate Optimum Solutions, Unbounded Solution and Infeasible Solution</p> <p><i>Note: Constraints of all types (Less than type, Greater than type and combination of both the types) should be covered</i></p>	12
II	<p>Linear Programming Problem (LPP) 3 – Simplex Method: Simplex Method – Only Maximization LPP, Two or three Variables and Two Constraints (Max Three Iterations), All Constraints to be Less Than or Equal To type Concept of Slack Variable, Unique or Alternate Optimal Solution, Shadow Prices of Resources, Utilized and Unutilized Capacity of Resources</p> <p>Concept of Duality: Introduction to Duality, Relation between Primal Problem and Dual</p>	10

	LPP, Conversion of Primal Problem to Dual LPP, <i>Note: Mixed-constraints and Unrestricted Variables, Max 3-Variables and 3-constraints</i>	
III	Transportation Problem (TP) Introduction, Structure of TP, Solution of TP – Initial Feasible Solution (IFS) using North West Corner Method (NWCM), Least Cost Method (LCM) and Vogel's Approximation Method (VAM), Finding Optimal Solution using MODI Method, Types of Transportation Problem – Balanced and Unbalanced, Minimization and Maximization, Case of Degeneracy and Prohibited or Restricted Route, Unique Optimum Solution and Multiple Optimum Solutions <i>Note: Max 4X4 Transportation Matrix, MODI Method - Maximum One Iterations after IFS, Degeneracy to be covered at Conceptual Level, Not to be Included in Numerical</i>	10
IV	Assignment Problem (AP) Introduction, Structure of AP, Solution of AP using Hungarian Method, Types of Assignment Problems - Balanced and Unbalanced, Minimization and Maximization, Restricted Assignment, Unique Optimum Solution and Multiple Optimum Solutions, Travelling Salesman Problem <i>Note: Max 5X5 Assignment Matrix, Maximum Two Iterations after Row and Column Minimization</i>	08
V	Probabilistic Operations Research Models Waiting Line Models: Queuing Models – Concepts, General structure of a queuing system. Single-channel queuing model: Poisson-distributed arrivals and exponentially distributed service times with infinite source population. M/M/1 queuing models. Digital Simulation: Introduction, Areas of Applications, Steps involved in Monte Carlo Simulation, Application of Simulation Method, Advantages and Disadvantages of Simulation, Application in Queuing, Inventory, Profitability and Investment problems	08

Note: Guidelines for the Faculty

Instructor is required to demonstrate solution of OR problems using QM for Windows Software. Not to be included for assessment / examination

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age

INTERNSHIP (04BB0506)(BBA/BBA (H)) Content

Components

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I), containing: (1 Page)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (1 Page) (Annexure II)
- ☛ College Certificate (1 Page) (Provided by Guide/Supervisor)
- ☛ Company Certificate (1 Page)
- ☛ Preface (1 Page)
- ☛ Acknowledgement (1 Page)
- ☛ Executive Summary (1 Page)
- ☛ Table of Content (1 Page)
- ☛ Introduction and History of Company (15 to 20 Pages)
- ☛ Vision & Mission of Company (2 Pages)
- ☛ Organization Structure (1 to 2 Pages)
- ☛ Departmental Study (15 to 20 Pages)
 - Marketing Department
 - Finance Department
 - Human Resource Department
 - Production Department
 - Accounting Department
 - R & D Department etc...
- ☛ SWOT Analysis (2 to 4 Pages)
- ☛ Overview of Industry & Major Players (4 to 5 Pages)
- ☛ Porter's Five Force Model Analysis of Industry (2 to 4 Pages)
- ☛ Learning form Internship (1 to 2 Pages)
- ☛ Conclusion (1 Page)
- ☛ Bibliography (1 Page)
- ☛ Annexure (if Any) (1 Page)

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12

10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify
12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01 Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

Subject Code: 04CR0501

Subject Name: Career Readiness Program

BBA-BBA(Hon) Year – III (Semester V)

Objective: This course shall enrich students' preparedness for the upcoming competitive exams, MBA entrance test, and/or placements. It will enhance the verbal and numerical skills of the students through the group interactions, practice sessions, and videos.

Credits Earned: 2 Credits

Course Outcomes: After successful completion of this course, student will be able to

- Understand importance of verbal and numerical skills in the competitive exams

- Inculcate smart approach in verbal and numerical problem solving
- Apply the concepts in both competitive exams and placement drives

Pre-requisite of course: NA.

Teaching and Examination Scheme

Suggested Theory distribution:

The suggested theory distribution as per Bloom's taxonomy is as per follows. This distribution serves as guidelines for teachers and students to achieve effective teaching-learning process

Distribution of Theory for course delivery and evaluation					
Remember	Understand	Apply	Analyse	Evaluate	Create
20%	20%	30%	15%	10%	5%

Instructional Method:

a. The course delivery method will depend upon the requirement of content and need of students. The trainer shall train students through interactions, demonstration, brainstorming, group tasks etc.

Students will use supplementary resources

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Business Ethics & Corporate Governance
COURSE CODE	04BB0601
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the dynamics of business ethics.
- Identify ethical dilemmas in business & suggest solutions to overcome the problems.
- Learn the concept of corporate governance and its relevance to ethical business activity.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Ethics Meaning and classification of Ethics, Importance of Business Ethics, Nature of ethics as moral value; types of value; Teaching from Scriptures like Gita, Quran, Bible w.r.t. Indian Value Systems in Business.	10
II	Ethical Dilemma and Essence of Decision Making Meaning and structure of Ethical Dilemma in business, Sources of Ethical Problems, Managing Ethical Dilemmas; Understanding Decision making, Model of Cognitive Moral Development, The Process of Making Good Ethical Decision; Dynamics of Ethical Leadership.	10
III	Ethical Issues in Financial Management Introduction to Ethics in Finance, Ethical issues in Financial Markets, Financial service industry and by Financial people in organizations. Case study on Strategic failure of Satyam Computer Service.	10
IV	Ethical Issues in Marketing & HRM Role of Marketing, Areas in Marketing Ethics, Truth and Advertising; Functional Areas of HRM, Need for Workplace ethics, HR related ethical issues, Rights and duties of Employees.	10
V	Introduction to Corporate Governance Definition and attributes of good corporate governance, Corporate governance theories – Agency, Stewardship, Shareholder, stake holder theory, Role of Board of Governors, Factors influencing quality of	08

	Corporate Governance.	
--	-----------------------	--

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Rajkot-360003, Gujarat, India.

Phone : 0281-2924155 / 56, www.marwadiuniversity.in

Course: BBA/BBA(H)

SEMESTER	VI
TITLE OF THE SUBJECT	Project
COURSE CODE	04BB0604
COURSE CREDIT	8

Project

Project is a composition of practical research work, involving the analysis of a specific problem in the area of the specialization and evaluation of the results of the analysis that serves as a basis for developing specific proposals and implementing the appropriate solution to the problem.

Objective of the Project

The objectives of the Project for BBA/BBA (H) students are:

- a. To demonstrate the student’s knowledge of the literature relating to the problem of study.
- b. To reveal the student’s ability to collect, analyze, interpret and synthesize information/data for analyzing various business situations.
- c. To present the results obtained, in a sequential and logical manner.
- d. To display the student’s ability to discuss coherently the meaning of the results.

Content of Report

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (Annexure II)
- ☛ College Certificate (Provided by Guide/Supervisor)
- ☛ Company Certificate
- ☛ Preface

- ☛ Acknowledgement
- ☛ Executive Summary
- ☛ Table of Content
- ☛ Introduction to Topic
- ☛ Review of Literature (8 to 10 literature review)
- ☛ Research methodology
 - Introduction
 - Statement of problem
 - Research Objectives
 - Scope of the study
 - Research hypothesis (If any)
 - Research design (Research Type)
 - Data Collection sources (Primary and secondary sources)
 - Data Collection Instrument (for e.g. Questionnaire)
 - Sampling Design
 - ☞ Population of the study
 - ☞ Sample Size
 - ☞ Sampling Method
 - Data Analysis Design (a brief outline of tools and techniques to be used for analysis, statistical tools and tests to be used)
 - Limitations of the Project
- ☛ Data Analysis and Interpretation
 - Tabular representation of data
 - Charts
 - Statistical tests
 - Analysis and Interpretation
- ☛ Findings & Suggestions
- ☛ Conclusion
- ☛ Annexure
- ☛ Annexure - Questionnaire
- ☛ Annexure – Any other document
- ☛ Bibliography

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12

10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify
12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

Evaluation Scheme

Internship consists of 4 Credit, 100 marks and shall be evaluated on two components i) Internal Assessment & ii) Viva.

Particular	Weightage (%)	Conducted By
Internal Assessment (IA)	50%	Supervisor/ Guide
Viva Voce	50%	Viva Panel

- I. **Internal Assessment** shall consist of 100 marks, which will be carried out by supervisor/guide.
- II. **Viva Voce** shall carry 100 marks and will be conducted by a Panel of two examiners.

Specialization: Finance

PROGRAM	Bachelors Of Business Administration
SEMESTER	VI
COURSE TITLE	Advance Financial Management
COURSE CODE	04BB0605
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Students will be able to understand basic framework of designing capital structure of a firm.
- Students will be able to evaluate the risk aspect for analyzing investment decisions.
- Students will have knowledge about dividend policy and its relevance in value of a firm.
- Ability to determine cash position of a firm.
- Acquire knowledge on receivables management of the firm.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
---------	-----------------	----------

I	Capital Structure Decision Introduction, PBIT-EPS Analysis, ROI-ROE Analysis, Leverage Analysis, Ratio Analysis, Factors determining capital structure. (Theory & ratio problems)	10
II	Risk Analysis in Capital Budgeting Sources and Perspectives on Risk, Sensitivity Analysis, Scenario Analysis, Break-even Analysis, Hillier Model, Simulation Analysis, Decision tree Analysis, Corporate risk Analysis, Managing Risk. (Theory & Problems)	10
III	Dividend Policies Introduction, Factors affecting Dividend Decision, Bonus Share & Stock Splits, Different forms of dividend, Bonus share and its impact on stock price, Legal and Tax aspects relating to dividend (Theory & Problems)	10
IV	Cash& Liquidity Management Introduction, Cash budgeting, Long term cash forecasting, Reports for control, Cash collection and Disbursement, Optimal Cash balance, Investment of Surplus Funds, Cash Management Models. (Theory) & Problems	10
V	Credit Management Introduction, Terms of payment, Credit policy Variables, Credit Evaluation, Credit Granting Decision, Control of Accounts Receivables, Credit Management in India(Theory & Problems)	8

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

**Elective I: BBA, BBA (Hon.) BBA
(FM), B. Com. & B.Com(Hons)
Reading and Writing for Business**

Subject Code:04SL0102

Credit: 2

Semester: 1

Course Description

The course will inculcate skills of formal reading and writing for business among the students. Good reading skills play a vital role in decision making in response to a proposal or a report. Formal writing, on the other hand, enables one to express one's ideas, plans, aims and objectives on paper. The course will offer a number of classroom activities, assignments and tasks to ensure the inculcation of the aforesaid skills among the students.

Course Objectives

The course will enable the students:

1. to read and interpret formal business writings such as reports, articles and reviews;
2. to know structures of formal business letters and reports;
3. to write formal business letters and reports;
4. to inculcate a taste for reading and writing habits pertaining to the world of business.

Unit 1: Introduction to business world

1. Reading a business case-study – “Tripping Along” by Deep Kalra from *Stay Hungry Stay Foolish*
2. Reading 3 business articles (general in nature) from the newspapers/magazines

- I. "Paytm: the wonder wallet" from Forbes India.
- II. "Millennials: How They Live and Work" from Gallup.
- III. "The Right Culture: Not About Employees Happiness" from Gallup.

Recommended Reading

Kalra, Deep. "Tripping Along." *Stay Hungry Stay Foolish*, edited by Rashmi Bansal, IIM Ahmedabad, 2008, pp. 130-143.

Unit 2: Reading and writing for business

1. Reading business letters (of sales, inquiry, order, complaint, and adjustment)
2. Writing business letters (Any two types)
3. Reading a few short business reports
4. Writing a short business report

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks	
	Practical	ESE	IA	CSE	Viva		Term Work
2 Hours		00	30	20	25	25	100

1. IA will consist of the following components (30 marks):

- a. **Assignments (20 Marks):** Students will prepare three assignments as following.

- 1) Letter: Write three letters on the given subjects (10 Marks)
- 2) Article: Write a business article on the given theme (05 Marks)

3) Report: Write a report on the given subject(05 Marks)

b. In-Class Participation (10 Marks)

2. CSE (20 marks):

a. **(Term Paper):** Students will write a paper on the given topic.

3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.

4. Term Work (25 Marks):

a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

**Elective II: BBA, BBA (Hon.) BBA
(FM), B. Com. & B.Com(Hons)
Speaking and Presentation Skills**

Subject Code: 04SL0103

Credits: 02

Semester: 1

Course Description

The course intends to make students confident in speaking in English with the help of various language functions. It also focuses on developing students' presentation skills.

Course Objectives

The course will enable students

1. to share information on familiar matters/issues in English;
2. to make effective presentations in English;
3. to gain confidence in speaking in English.

Unit 1: Speaking/Interacting in an Academic Context

1. Greetings
2. Introducing self and peers
3. Asking and sharing information
4. Expressing points of view
5. Discussions
6. Facing viva voce
7. Group discussions
8. Facing an interview (interview skills)

Unit 2: Effective Presentation Skills

1. Introduction to effective presentation skills
2. Preparing the presentation (Collection of Data/Information, exploring the topic etc.)

3. Using ICT for the presentation
4. Getting ready for the presentation
5. Effective body language
6. Effective pronunciation
7. Interacting with the audience (Q & A)
8. Practice (with video recording)
9. Feedback and Suggestions

Recommended Readings/ Viewings

- Select TED Talks
- Select INK Talks
- Select Toastmasters Videos
- Select Courtroom Dramas
- Select Videos of speakers like Steve Jobs, Sundar Pichai etc.

Teaching Scheme

SEMESTER	II
COURSE TITLE	Statistics for Business
COURSE CODE	04BB0203
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Acquire a fair degree of proficiency in comprehending statistical data, processing and analyzing it.
- Apply various measures of central tendency and measures of dispersion in data analysis.
- Analyze the relationship between two variables using concepts of correlation and regression and its use in prediction.
- Analyze the patterns revealed by the time series data and use it to make predictions for the future.
- Analyze and apply the concept of probability and distributions in managerial decision making.

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018)

Subject Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

Course Description

The course offers select English movies as a medium for teaching English language skills. Given that 'context' is a vital aspect for language learning, film as an audio-visual 'text' re-creates reality whilst presenting its viewers with demonstrations of varied linguistic contexts. This course thus aims to create a sense of ease in learning English in a contextual manner. Moreover, the objectives of learning language are fluency and accuracy. These aims can be achieved best by various language contexts (situations) demonstrated in movies. Also, movies present language in a more accessible fashion for the students to easily acquire language skills.

Course Objectives

The course will enable the learners to

1. further enhance their basic language skills;
2. identify and use different language functions in an audio-visual context;
3. learn to use film and its elements as tools for language learning.

Unit 1: Language Functions, Contexts & Movies

In this unit, students will learn, understand, and explore English through clips from various selected movies. They will primarily study a number of language situations, as shown in the clips, in order to understand how English can be used in varying contexts. This unit aims to improve the students' basic language skills LSRW by dealing with varying language activities by focusing on strengthening their vocabulary, interpretation skills, reading non-verbal cues, pronunciations, and also their writing skills. Students would explore the following language activities in this unit:

1. Introducing the course
 - a. Instructors will introduce each film included in the syllabus along with a very brief background of the recommended movies, and

Marwadi University

Bachelor of Commerce/Business Administration/(Hon.)

Semester II (w.e.f. Jan, 2018)

Subject Code: 04SL0153 - Subject Credits: 02

Subject Name: English through Movies

- b. Students will be asked to list the kinds of movies they prefer and also provide a reason for their preferences
2. Focusing on dialogues and understanding parts of speech
3. Creative Writing: Making a pamphlet (for Continuous Semester Evaluation)
4. Reading nonverbal cues in context
5. Vocabulary building exercises – word meanings, making sentences & finding images and synonyms and antonyms
6. Interpreting dialogues & pronunciation
7. Daily Conversations

3. <https://speechyard.com/us/video/>
4. <https://www.learnenglish.de/improveenglish/films.html>

Unit 2: Detailed Analyses of the Movies

Students would be asked to watch the selected movies and individual scenes in order to transcribe dialogues, respond to and discuss various issues dealt within the movies, answer questionnaires, and write movie reviews. They will also be asked to interpret the trailers of these movies and discuss them in groups. The following activities will be covered in this unit:

- a. Dialogue and monologue transcription
- b. Interpreting the trailers [Group discussion]
- c. Interpreting the scene(s) [Group discussion in context]
- d. Movie comprehension (a short film and a long scene will be played in class)
- e. Reading and Writing Movie reviews
- f. Describing/Discussing the posters of the movies,
- g. Describing characters & themes (Questionnaire)
- h. Giving feedback/expressing opinions.

SEMESTER	III
COURSE TITLE	Cost Accounting
COURSE CODE	04BB0309
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand fundamentals of cost accounting;
- Analyse the cost concepts associated with material and labour;
- Evaluate and apply overheads apportionment and distribution;
- Learn to apply job and process costing methods;
- Understand operating costing and its application.

Teaching and Examination Scheme

Teaching Scheme (Hours)			Credits	Internal Marks (50%)		End-Semester Examination (50%)			Total Marks
Theory	Tutorial	Practical		IA	CSE	Theory	Practical/Viva	Term Work (TW)	
4	0	0	4	30	20	50	0	0	100

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Fundamentals of Cost accounting Objectives and functions of cost accounting, Meaning of Cost, Methods	8

	of costing, Techniques of costing, Cost ascertainment and cost estimation, Classifications of cost, Special costs for management decision making, Elements of cost, Steps of installation of a costing system, Advantages of cost accounting, Limitations or objections against cost accounting, Essentials of a good cost accounting system	
II	Direct Expense Material Cost: Material Control, Techniques of inventory control; ABC, Stock Levels and Economic order Quantity. Proper storage of Materials. Labour Cost: Meaning, Labour Remuneration: Methods of Remuneration: Time rate system, Piece rate system, Incentive plans, Group bonus plans.	9
III	Overheads: (Apportionment) Meaning of overhead cost, Classification of overhead cost, Segregation of semi-variable cost, overheads distribution, Allocation and apportionment of overheads (primary distribution), Re-apportionment of service department cost (secondary distribution). Methods of costing Unit Costing: output costing, Costing procedure, Treatment of Stocks, Items Excluded from Cost, Treatment of Scrap	11
IV	Methods of costing Job and Batch Costing: Job Costing Procedure, Batch costing, Economic Batch Quantity. Process Costing: Introduction, Essential Characteristics of Process Costing, Process Costing and Job Costing— A Comparison, Costing Procedure, Normal Loss and abnormal loss, Normal Gain and abnormal Gain.	11
V	Methods of Costing Operating Costing: Operating costing, Cost unit, Transport costing, Transport costing procedure, Boiler house and power house costing, Canteen costing.	9

PROGRAM	BBA/BBA(Hons)
SEMESTER	IV
COURSE TITLE	Basics of French Language
COURSE CODE	
COURSE CREDITS	0
COURSE DURATION	28 hours

COURSE OUTCOMES:

- ⌘ To develop a beginner level proficiency in the language
- ⌘ To be in a position to initiate conversation in French
- ⌘ To express their views using simple sentence structure
- ⌘ To be familiar with common French nuances, vocabulary and expressions
- ⌘ To participate in culture exchange programs
- ⌘ To explore options in French speaking countries for higher studies or for immigration
- ⌘ To understand French tradition and culture
- ⌘ To develop self-learning practices

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	<ul style="list-style-type: none"> ■ Greetings and Salutations ■ Colors ■ Numbers ■ Introduction ■ 1st Group verbs : Manger, aimer, parler, écouter, adorer etc. 	9
II	<ul style="list-style-type: none"> ■ Sentences formation (grammar) ■ Ce/Cet/Ces/Cette (grammar) ■ De/de la/du/des (grammar) ■ Quelques objets ■ Negation 	9
III	<ul style="list-style-type: none"> ■ Passe compose (Etre and Avoir) ■ Passe recent (Venir) ■ Futur proche (Aller) ■ Questions using (Est-ce-que and que-est-que) 	10

EVALUATION:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weightage
A	Written Test	50%
B	Quizzes	30%
C	Participation	20%

INTERNSHIP (04BB0506)(BBA/BBA (H)) Content

Components

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I), containing: (1 Page)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (1 Page) (Annexure II)
- ☛ College Certificate (1 Page) (Provided by Guide/Supervisor)
- ☛ Company Certificate (1 Page)
- ☛ Preface (1 Page)
- ☛ Acknowledgement (1 Page)
- ☛ Executive Summary (1 Page)
- ☛ Table of Content (1 Page)
- ☛ Introduction and History of Company (15 to 20 Pages)
- ☛ Vision & Mission of Company (2 Pages)
- ☛ Organization Structure (1 to 2 Pages)
- ☛ Departmental Study (15 to 20 Pages)
 - Marketing Department
 - Finance Department
 - Human Resource Department
 - Production Department
 - Accounting Department
 - R & D Department etc...
- ☛ SWOT Analysis (2 to 4 Pages)
- ☛ Overview of Industry & Major Players (4 to 5 Pages)
- ☛ Porter's Five Force Model Analysis of Industry (2 to 4 Pages)
- ☛ Learning form Internship (1 to 2 Pages)
- ☛ Conclusion (1 Page)
- ☛ Bibliography (1 Page)
- ☛ Annexure (if Any) (1 Page)

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12
10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify

12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

ANNEXURE - II

STUDENT DECLARATION

I hereby declare that this project Report titled _____
_____ submitted by me to the Faculty of
Liberal Studies, Marwadi University is a bonafide work undertaken by me and it is not
submitted to any other University or Institution for the award of any degree diploma /
certificate or published any time before.

Date: DD/MM/YYYY

Place: Rajkot

Signature of the Student

[Name of Student]

[Enrollment No.]

Evaluation Scheme

Internship consists of 4 Credit, 100 marks and shall be evaluated on two components i) Internal Assessment & ii) Viva.

Particular	Weightage (%)	Conducted By
Internal Assessment (CSE)	50%	Supervisor/ Guide
Viva Voce	50%	Viva Panel

I. **Internal Assessment** shall consist of 50 marks, which will be carried out by supervisor/guide.

II. **Viva Voce** shall carry 50 marks and will be conducted by a Panel of two examiners.

Duration & Time Period

☛ Duration of Internship: Minimum 15 Days and Maximum 30 Days.

☛ Internship must be in between 10th May 2018 to 20th June 2018.

Reporting Schedule

Sr. No.	Review	Particular	Marks
1	First Review (After 10 Days of Commencement of Internship)	<ul style="list-style-type: none"> ☛ Introduction and History of Company (15 to 20 Pages) ☛ Vision & Mission of Company (2 Pages) ☛ Organization Structure (1 to 2 Pages) ☛ Departmental Study (15 to 20 Pages) <ul style="list-style-type: none"> • Marketing Department • Finance Department • Human Resource Department • Production Department • Accounting Department • R & D Department etc... 	15
2	Second Review (within two days after completion of Internship)	<ul style="list-style-type: none"> ☛ SWOT Analysis (2 to 4 Pages) ☛ Overview of Industry & Major Players (4 to 5 Pages) ☛ Porter's Five Force Model Analysis of Industry (2 to 4 Pages) ☛ Learning form Internship (1 to 2 Pages) ☛ Conclusion (1 Page) 	15
3	Third Review (Within 10 Days after Completion of Internship)	Final submission of Internship Report to Supervisor (Soft Copy)	20

PROGRAM	BBA/BBA(H)/BBA(FM)
SEMESTER	V
COURSE TITLE	Operations Research
COURSE CODE	04BB1501
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Develop the skill and ability to translate a given real-life situation into linear programming problem.
- Apply graphical method in solving linear programming problem and understand the concept of duality.
- Apply transportation method in solving business problems.
- Apply assignment method in appropriate situation to resource allocation problems.
- Analyze the problems such as queue management using the tools of queuing theory and Simulation.

Teaching and Examination Scheme

Teaching Scheme (Hours)			Credits	Internal Marks (50%)		End-Semester Examination (50%)			Total Marks
Theory	Tutorial	Practical		IA	CSE	Theory	Practical/Viva	Term Work (TW)	
4	0	0	4	30	20	50	0	0	100

COURSE CONTENTS:

Unit No	Unit / Sub Unit	Sessions
I	Basics of Operations Research (OR) <ul style="list-style-type: none"> ■ Introduction, Concepts, Definition, Characteristics, Potential Applications ■ Steps in OR Problems, Basic Operations Research Techniques, Role of Computers in OR Linear Programming Problem (LPP) 1 – Formulation: <ul style="list-style-type: none"> ■ Introduction to Linear Programming, Applications of LPP ■ Requirements and Assumptions Underlying LPP ■ Generalized Linear Programming Problems, LPP Model Formulation – Maximization and Minimization Problems (Max 3-Variables and 4-Constraints) 	08
II	Linear Programming Problem (LPP) 2 – Graphical Method: <ul style="list-style-type: none"> ■ Concept of Feasible Region, Solution of LP Problems using Graphical Method ■ Maximization and Minimization Problems (Max 4-Constraints) ■ Special Cases in LPP – Multiple or Alternate Optimum Solutions, Unbounded Solution and Infeasible Solution 	12

	<p>Concept of Duality:</p> <ul style="list-style-type: none"> ■ Introduction to Duality, Relation between Primal Problem and Dual LPP ■ Conversion of Primal Problem to Dual LPP, <p><i>Note: Max 3-Variables and 3-constraints, Mixed-constraints and Unrestricted Variables.</i></p>	
III	<p>Transportation Problem (TP)</p> <ul style="list-style-type: none"> ■ Introduction, Structure of TP ■ Solution of TP – Initial Feasible Solution (IFS) using North West Corner Method (NWCM), Least Cost Method (LCM) and Vogel's Approximation Method (VAM) ■ Finding Optimal Solution using MODI Method ■ Types of Transportation Problem – Balanced and Unbalanced, Minimization and Maximization ■ Case of Degeneracy and Prohibited or Restricted Route, Unique Optimum Solution and Multiple Optimum Solutions <p><i>Note: Max 4X4 Transportation Matrix, MODI Method - Maximum One Iterations after IFS, Degeneracy to be covered at Conceptual Level, Not to be Included in Numerical</i></p>	10
IV	<p>Assignment Problem (AP)</p> <ul style="list-style-type: none"> ■ Introduction, Structure of AP, Solution of AP using Hungarian Method ■ Types of Assignment Problems - Balanced and Unbalanced, Minimization and Maximization ■ Restricted Assignment, Unique Optimum Solution and Multiple Optimum Solutions ■ Travelling Salesman Problem <p><i>Note: Max 5X5 Assignment Matrix, Maximum Two Iterations after Row and Column Minimization</i></p>	08
V	<p>Probabilistic Operations Research Models</p> <p>Waiting Line Models:</p> <ul style="list-style-type: none"> ■ Queuing Models – Concepts, General structure of a queuing system ■ Single-channel queuing model: Poisson-distributed arrivals and exponentially distributed service times with infinite source population. M/M/1 queuing models <p>Digital Simulation:</p> <ul style="list-style-type: none"> ■ Introduction, Areas of Applications ■ Steps involved in Monte Carlo Simulation, Application of Simulation Method, Advantages and Disadvantages of Simulation, Application in Queuing, Inventory, Profitability and Investment problems 	10

Course: BBA/BBA(H)/BBA(FM)

SEMESTER	VI
TITLE OF THE SUBJECT	Research Project
COURSE CODE	04BB1604
COURSE CREDIT	4

Project

Project is a composition of practical research work, involving the analysis of a specific problem in the area of the specialization and evaluation of the results of the analysis that serves as a basis for developing specific proposals and implementing the appropriate solution to the problem.

Objective of the Project

The objectives of the Project for BBA/BBA (H) students are:

- a. To demonstrate the student's knowledge of the literature relating to the problem of study.
- b. To reveal the student's ability to collect, analyze, interpret and synthesize information/data for analyzing various business situations.
- c. To present the results obtained, in a sequential and logical manner.
- d. To display the student's ability to discuss coherently the meaning of the results.

Content of Report

A project report should contain the following parts in the order shown:

- ☛ Fly page (1 Blank Pages)
- ☛ Title page (please see sample, Annexure I)
 - The project title;
 - The full name of the Candidate/s, enrollment no/s. and Guide name/s;
 - The degree for which the project is submitted;
 - The name of the University, i.e. Marwadi University
 - The month and year of submission
- ☛ Student Declaration (Annexure II)
- ☛ College Certificate (Provided by Guide/Supervisor)
- ☛ Company Certificate
- ☛ Preface
- ☛ Acknowledgement

- ☛ Executive Summary
- ☛ Table of Content
- ☛ Introduction to Topic
- ☛ Review of Literature (8 to 10 literature review)
- ☛ Research methodology
 - Introduction
 - Statement of problem
 - Research Objectives
 - Scope of the study
 - Research hypothesis (If any)
 - Research design (Research Type)
 - Data Collection sources (Primary and secondary sources)
 - Data Collection Instrument (for e.g. Questionnaire)
 - Sampling Design
 - ☞ Population of the study
 - ☞ Sample Size
 - ☞ Sampling Method
 - Data Analysis Design (a brief outline of tools and techniques to be used for analysis, statistical tools and tests to be used)
 - Limitations of the Project
- ☛ Data Analysis and Interpretation
 - Tabular representation of data
 - Charts
 - Statistical tests
 - Analysis and Interpretation
- ☛ Findings & Suggestions
- ☛ Conclusion
- ☛ Annexure
- ☛ Annexure - Questionnaire
- ☛ Annexure – Any other document
- ☛ Bibliography

Language, Style and Format

- ☛ Language
 - Project should be written in English.
- ☛ Final Version
 - The final version of the project must be free from spelling, grammatical and other errors when submitted.

Specification for Project Report

1	Paper Size	International A4, not less than 75 gsm white paper
---	------------	--

2	Margins	Left - 1.5" Right - 0.75" Top and Bottom - 1.0"
3	Line Spacing	10 to 12 characters per inch must be used with 1.5 line spacing.
4	Paragraph Spacing	Double Lines/Vertical space of around 12 points should be left between the section title line and the first paragraph of each section and subsections, start without any indentation, In single column format with full justification.
5	Pagination	At bottom–Center Beginning with the first page of chapter 1 (Introduction) to all pages shall be numbered consecutively using Arabic numerals (i.e. 1,2,3) From the title page to the page before the chapter 1 starting page, shall be lower case Roman numerals (e.g. i, ii, iii etc.) No Page Number on Title Page
6	Chapter(s):	New Chapter on New Page font size of 20 should begin with an additional top margin of 30 mm (total 55 mm) Capitalize the first letter all the words. Use boldface letters and numbers only
7	Sections and Subsections (left aligned)	A vertical space of around 36 point should be left between the chapter heading and the title of the first section of every chapter. For all subsequent sections/subsections, leave a vertical space of around 24 points before the section/subsection headings. For example, say the first and second sections in chapter 5 shall be numbered as 5.1 and 5.2, respectively. Likewise, the third subsections of sections 1 and 2 in a chapter 4 shall be numbered as 4.1.3 and 4.2.3, respectively. Same style as in chapter heading but with font size of 14 and 12 for section and subsections,
8	Font Type	Times New Roman
9	Font Size(FS)	For normal–12
10	Bold/Italic/Underline	Should be used for specific purposes only
11	Alignment	Page Justify

12	Tables/Graphs/Diagrams/figures Equations	All tables, figures, and equations must be numbered sequentially and chapter-wise using Arabic numerals. It must reflect the chapter number also, e.g. 2.1, 6.25 etc. e.g., Figure 2.1, Table 3.2. While a caption (figure number) should be placed below the figure, a caption (table number) should be placed above the table Images, Photographs, etc. must be scanned in resolution at least 600 dpi.
13	Figures and Illustrations	Figures, tables, etc., should be positioned according to the scientific publication conventions of the discipline.
14	Borders	NO
15	Header/Footers	Single Line (as per this page) Footer (as per this page): Left side Marwadi University, Rajkot, Right Side Pg. No “NO header/footer on Title page”
16	Word Breaking	No word Breaking
17	Printing	Single side only
18	Report Binding	Hard Bound Cover–BlackColor Writing–Golden color only
19	Copies of the Report	Hard Bound: Total 2 Copy (one for Student, one for Dept. Records) Soft: 01 Copy PDF.

References & Bibliography

All references must be cited in the text by the reference number using superscripts. No links between superscripts in the text and actual references in the Reference Sections may be used. Notes may be used to cite manuscripts in preparation,

Unpublished observations and personal communications. References cited should follow the style given below example:

IV	FINAL ACCOUNTS OF SOLE-PROPERITORSHIP: Types of Expenditure – Types of Income – Types of Profit – Meaning of Deferred Revenue Expenditure – Difference between Trial Balance and Balance sheet – Contingent Asset and Contingent Liability – Classification of Assets and Liabilities under different heading -	10

	Difference between Provisions and Reserves –Types of Reserves - Preparation of Final accounts for sole proprietorship for non manufacturing	
V	DEPRECIATION: Meaning - Methods of calculating depreciation (straight line method and written down value) - Method of recording Depreciation (Charging to Asset Account, Creating provision for Depreciation/ Accumulated Depreciation, Treatment of Disposal of Fixed assets.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Elective

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	BUSINESS MATHEMATICS
COURSE CODE	04BC0102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Solve business problems involving percentage, profit / loss and calculate discount
- Calculate simple and compound interest on investments
- Understand repayments of loan using EMIs
- Structure and solve problems using matrices
- Understand and establish relationship between variables using functions to determine equilibrium

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	RATIO, PROPORTION AND PERCENTAGE Ratio – Definition, Continued ratio, Inverse Ratio Meaning and computation of Percentage and Proportion: Direct proportion, Inverse Proportion and Continued Proportion	08
II	PROFIT AND LOSS, DISCOUNT Profit and Loss – Terms and formulae, percentage profit and percentage loss, Selling price at a profit and loss Discount – Trade discount and Cash discount, Problems involving cost price, selling price and market price	10
III	MATHEMATICS OF FINANCE Introduction, Simple Interest and Compound Interest – Concept and problem solution Future Value (FV) - Annuity: Amount of ordinary annuity, Amount of annuity due Present Value (PV) - ordinary annuity and annuity due Loan Amortization and Equated Monthly Installments (EMIs) - Reducing balance and flat rate of interest	08

	Use of MS Excel	
IV	DETERMINANT AND MATRICES Introduction, Definition, Types of matrices, Algebra of matrices (Addition and Subtraction), Additive Inverse of a matrix, Structure problems in matrix form, Multiplication of matrices (Max 3X3) Determinant of square matrices (2X2 and 3X3), minor of an element, cofactor, adjoint and Inverse of Matrix Solution of system of linear equations using inverse of coefficient matrix Use of MS Excel to calculate determinant and inverse of matrix	14
V	PROGRESSION Progression: Sequence and Series Arithmetic Progression – definition, nth term, sum of n terms, illustrations Geometric Progression - definition, nth term, sum of n terms, illustrations Arithmetic mean and Geometric mean Sum of n-terms and sum of infinite terms in geometric progression	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Course: B.Com

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	CAREER READINESS PROGRAM
COURSE CODE	04CR0101
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Objectives:

- The “*Linguistics for Interpersonal Interaction*” course is designed to make the Learners feel comfortable understanding, thinking and speaking in English.
- Having undergone the training, the Learners will feel confident about his or her own English-speaking skills.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Phonology: Varieties of Language and Standard English, Phonetics and Phonology - Speech Mechanism and Articulatory Phonetics, English Phonemes. Characterization and Classification of Vowels - Diphthongs and Monophthongs.	6
Unit-II	Syntax and Morphology: Nouns, Pronouns and Determiners - Misconceptions related to usages of noun forms, Using Possessives, Types of Pronouns, General Determiners and Specific Determiners. Verbs and related forms - Types of verbs and their forms, Stative and Dynamic, Lexical and Delexical Adjectives and Adverbs - Word formation, Order of Adjectives, Types of Adverbs Preposition and Phrasal verbs - Preposition of time, Preposition of Movements, Preposition of Place, Phrasal Verbs Conjunctions - Coordinating and Subordinating, Using Conjunctions in formal settings. Present Continuous – Form, Usages, Misconception Present Simple & Simple Past – Form, Usages, Misconception	8
Unit - III	Reading Comprehension: Processing Strategy - Comprehension Strategy, Meta-cognitive Strategy, Prediction and Pre-prediction.	4
Unit - IV	Spoken Discourse: Coherence and Cohesion - Situational	6

	Sociolinguistic interaction, Conversation Practice. Feature of Spoken Discourse - Semantic and Pragmatic Meanings, Conversation Practice (Role Play)	
--	---	--

Learning Outcomes:

After studying this course, student should be able to:

- Articulate phonetics and phonology, Noun, Pronoun, Verb
- Reading and processing comprehension.

Evaluation:

The students will be evaluated on following evaluation scheme:

		Weight age
A	End-Semester Examination	100% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	PRINCIPLES OF MANAGEMENT
COURSE CODE	04LS1102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Demonstrate their knowledge of business and management principles.
- Get acquainted with management process and functions.
- Comprehend the modern management techniques and its relevance in business.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Meaning, Nature and Characteristics of Management – Scope of Management - Functional areas - Management as a Science and an Art - Management & Administration – Levels of management & Managerial Skills - Evolution of Management Thoughts - Principles of management - Ethics in Management.	10
II	Planning in Management Need and importance of planning - basic purpose of planning - Planning process, Types of plans - Objectives - Management By Objectives Decision-making Decision making – Nature and importance- types of decisions – process	10
III	Organizing Need for organization - purpose of organization, fundamental principles of organization - Types of organization - Departmentalization, Committees - Centralization Vs decentralization of authority and responsibility Staffing Staffing – Introduction - Need for Staffing - Importance of staffing -Process of staffing	10
IV	Directing Directing – Meaning, nature and importance – Theories of Motivation – Maslow’s, Herzberg’s & McGregor’s Leadership – Introduction - Formal and Informal Leadership – Characteristics – Styles of Leadership - Importance of Communication as a leader	10

	Coordinating Coordination – Introduction - Importance of coordination - Principles of coordination	
V	Controlling Meaning and steps in controlling – Pre-requisites of a strong control system - Methods of establishing control Modern Management Techniques Introduction to various latest management techniques: Business process re-engineering, business outsourcing, benchmarking, kaizen, six sigma, knowledge management, just in time management, total quality management.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	L. M. Prasad	Principles of Management	Sultan Chand and Sons	Ninth Edition - 2015

Reference Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition and Year of Publication
R-01	V.S.P. Rao	Management: Text and Cases	Excel Books India	Second edition
R-02	Koontz & O'Donnell	Principles of Management	McGraw Hill	Forth edition

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	Microeconomics
COURSE CODE	04LS1103
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Apply economic reasoning to the analysis of selected contemporary economic problems.
- Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of goods and services produced and consumed.
- Use economic problem solving skills to discuss the opportunities and challenges of the increasing globalization of the world economy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO MICROECONOMICS Meaning and definition of Microeconomics, Nature and scope of Microeconomics, Difference between microeconomics and macroeconomics. Central economic problems of society.	10
II	CONSUMER BEHAVIOUR Utility analysis: Meaning of Cardinal and Ordinal utility. Cardinal Utility: Law of diminishing Marginal utility, Law of Equi-marginal Utility, Ordinal Utility: Indifference curve analysis, properties of indifference curve analysis, Marginal rate of substitution, Budget line and consumer's Equilibrium.	10
III	DEMAND AND SUPPLY ANALYSIS Determinants of demand, law of demand, exceptions to law of demand. Elasticity of demand and its applications: Price elasticity, Income elasticity and cross elasticity. Concept and Law of Supply, Factors Affecting Supply	10
IV	PRODUCTION AND COST ANALYSIS Production Function: Short run and long run production functions, laws of returns, and law of returns to scale. Cost Function: classification of costs, short run and long run cost curves and their interrelationship, Planning curve and envelope curve, internal and external economics of scale,	10

	revenue curves, optimum size of the firm, factors affecting the optimum size	
V	EQUILIBRIUM OF FIRM AND INDUSTRY Perfect competition, monopoly, monopolistic competition, discriminating monopoly, aspects of non-price competition; group equilibrium, excess capacity, selling costs, oligopolistic behavior.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

R-01	N.GregoryMankiw,	Principles of Micro Economics	Cengage	6 th ed.
R-02	Pindyck, R.S., D. L. Rubinfeld and P. L. Mehta	Microeconomics	Pearson	7 th ed.
R-03	D. Salvatore	Microeconomic Theory	Tata McGraw Hill	5 th ed
R-04	D N Dwivedi	Managerial Economics,	Vikas Publishing House	4 th ed.

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	Computer Essentials
COURSE CODE	04LS1107
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Draft Document / Worksheet and Presentation
- Understand the Computer Hardware and Software Fundamentals
- detail some of the problems that are encountered when developing documents and worksheets
- describe briefly some of the technologies that are used to support online applications

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	COMPUTER BASICS Data- Instruction and Information-Characteristics of Computers- Various fields of application of Computers- Input-output Devices (Hardware- Software- Human ware and Firmware)-Advantages and Limitations of Computer- Block Diagram of Computer- Function of Different Units of Computer- Classification of Computers. Data Representation-Different Number System (Decimal- Binary- Octal and hexadecimal) and their Inter Conversion.	10
II	COMPUTER SOFTWARE Types of Software- Application software and system software- Compiler and Interpreter-Generations of languages-Low and High Level Languages-Computer Memory: Primary Memory &Secondary memory. Cache memory-optical memory-Storage Media. Introduction to Operating System-All Directory Manipulation- Creating Directory- Sub Directory- Renaming-Coping and Deleting the Directory File Manipulation-Creating a File-Deleting- Coping- renaming a File Using accessories such as calculator- paint brush- CD player etc.	10
III	INTRODUCTION TO MS- OFFICE (WORD) Introduction to Word Processing- Features - Formatting Documents- Paragraph Formatting- Indents- Page Formatting- Header and Footer- Bullets and Numbering- Tabs- Tables- Formatting the Tables- Finding and Replacing Text-Mail Merging etc..	10

IV	INTRODUCTION TO MS- OFFICE (EXCEL) Introduction to Electronic Spreadsheets - Feature of MS-Excel- Entering Data- Entering Series- Editing Data- Cell Referencing- ranges- Formulae- Functions- Auto Sum- Copying Formula- Formatting Data- Creating Charts- Creating Database- Sorting Data- Filtering etc.	10
V	INTRODUCTION TO MS- OFFICE (POWERPOINT) PowerPoint - Features of MS PowerPoint Clipping- Slide Animation- Slide Transitions- Slide Shows- formatting etc.- Creating formal presentations- inserting different objects- arts- charts- pictures etc. to slide.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

R-02	Sanjay Saxena	A First Course in computers	Vikas Publication	

List of Journals/Periodicals/ Magazines/ Newspapers etc.

The Students will have to refer to past issues of the following journals in order to get relevant topic/ information pertaining to the subject.

1. Computer and Education – Elsevier
2. Journal of Computers

Elective I: BBA, BBA (Hon.) & B. Com.

Reading and Writing for Business

Subject Code:04SL0102

Credit: 2

Semester: 1

Course Description

The course will inculcate skills of formal reading and writing for business among the students. Good reading skills play a vital role in decision making in response to a proposal or a report. Formal writing, on the other hand, enables one to express one's ideas, plans, aims and objectives on paper. The course will offer a number of classroom activities, assignments and tasks to ensure the inculcation of the aforesaid skills among the students.

Course Objectives

The course will enable the students:

1. to read and interpret formal business writings such as reports, articles and reviews;
2. to know structures of formal business letters and reports;
3. to write formal business letters and reports;
4. to inculcate a taste for reading and writing habits pertaining to the world of business.

Unit 1: Introduction to business world

1. Reading a business case-study – “Tripping Along” by Deep Kalra from *Stay Hungry Stay Foolish*
2. Reading 3 business articles (general in nature) from the newspapers/magazines

- I. "Paytm: the wonder wallet" from Forbes India.
- II. "Millennials: How They Live and Work" from Gallup.
- III. "The Right Culture: Not About Employees Happiness" from Gallup.

Recommended Reading

Kalra, Deep. "Tripping Along." *Stay Hungry Stay Foolish*, edited by Rashmi Bansal, IIM Ahmedabad, 2008, pp. 130-143.

Unit 2: Reading and writing for business

1. Reading business letters (of sales, inquiry, order, complaint, and adjustment)
2. Writing business letters (Any two types)
3. Reading a few short business reports
4. Writing a short business report

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks	
	Practical	ESE	IA	CSE	Viva		Term Work
2 Hours		00	30	20	25	25	100

1. IA will consist of the following components (30 marks):

- a. **Assignments (20 Marks):** Students will prepare three assignments as following.

- 1) Letter: Write three letters on the given subjects (10 Marks)
- 2) Article: Write a business article on the given theme (05 Marks)
- 3) Report: Write a report on the given subject(05 Marks)

- b. **In-Class Participation (10 Marks)**
- 2. **CSE (20 marks):**
 - a. **(Term Paper):** Students will write a paper on the given topic.
- 3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.
- 4. **Term Work (25 Marks):**
 - a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

2. Kumar S. and Lata P., *Communication Skills*. 6th ed., Oxford University Press, 2013.
3. Murphy H., Hildebrandt H. and Thomas J., *Effective Business Communication*. Tata MacGraw-Hill, 2008.
4. Sharma R. and Mohan K., *Business Correspondence and Report Writing*. 4th ed., Tata MacGraw-Hill, 1998.
5. Lesikar R., Flatley M., Rentz K., Pande N., *Business Communication*. 11th ed., Tata MacGraw-Hill, 2009.

Elective II: BBA, BBA (Hon.) & B. Com.

Speaking and Presentation Skills

Subject Code: 04SL0103

Credits: 02

Semester: 1

Course Description

The course intends to make students confident in speaking in English with the help of various language functions. It also focuses on developing students' presentation skills.

Course Objectives

The course will enable students

1. to share information on familiar matters/issues in English;
2. to make effective presentations in English;
3. to gain confidence in speaking in English.

Unit 1: Speaking/Interacting in an Academic Context

1. Greetings
2. Introducing self and peers
3. Asking and sharing information
4. Expressing points of view
5. Discussions
6. Facing viva voce
7. Group discussions
8. Facing an interview (interview skills)

Unit 2: Effective Presentation Skills

1. Introduction to effective presentation skills
2. Preparing the presentation (Collection of Data/Information, exploring the topic etc.)

3. Using ICT for the presentation
4. Getting ready for the presentation
5. Effective body language
6. Effective pronunciation
7. Interacting with the audience (Q & A)
8. Practice (with video recording)
9. Feedback and Suggestions

Recommended Readings/ Viewings

- Select TED Talks
- Select INK Talks
- Select Toastmasters Videos
- Select Courtroom Dramas
- Select Videos of speakers like Steve Jobs, Sundar Pichai etc.

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks	
	Practical	ESE	IA	CSE	Viva		Term Work
2 Hours		00	30	20	25	25	100

1. **IA will consist of the following components (30 marks):**
 - a. **Assignments (20 Marks):** Students will prepare three oral assignments.
 - b. **In-Class Participation (10 Marks)**
2. **CSE (20 marks):**
 - a. **(Term End Simulation):** Students will carry out simulated tasks at the end of the semester. It would comprise individual and group tasks.
3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.
4. **Term Work (25 Marks):**
 - a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	FINANCIAL ACCOUNTING-II
COURSE CODE	04BC0201
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Address advanced accounting issues of partnership firm
- Learn the application of Garner vs. Murray rule
- Understand the difference between hire purchase and installment purchase transactions
- Classify the branches and do the accounting accordingly
- Demonstrate knowledge of the concept of Ex-interest and Cum-interest

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	RECONSTITUTION OF PARTNERSHIP FIRM Accounting issues related to Admission, Retirement and Death of a Partner – Preparation of Revaluation account – Calculation of Goodwill : Average profit method, Super profit method, Annuity method, Capitalisation method	10
II	DISSOLUTION OF PARTNERSHIP FIRM Preparation of Realisation account – Settlement of accounts – Piecemeal distribution: Maximum loss method and Proportionate capital method – Insolvency of partner during piecemeal distribution (Garner vs. Murray rule)	12
III	ACCOUNTING FOR HIRE PURCHASE Meaning – Difference between Hire purchase and Installment purchase – Calculation of missing details when cash price or rate of interest is not given – Accounting for hire purchase transactions –Default and repossession	08
IV	ACCOUNTING FOR BRANCHES Meaning – Classification of Branches –Accounting for dependant branches – Accounting for independent branches	10
V	INVESTMENT ACCOUNTS Meaning – Classification of investments – Calculation of purchase price – Disposal of investments – Preparation of Investments account – Calculation of ex-interest and cum-interest	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Business Statistics
COURSE CODE	04BC0205
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Address advanced accounting issues of partnership firm
- Learn the application of Garner vs. Murray rule
- Understand the difference between hire purchase and installment purchase transactions
- Classify the branches and do the accounting accordingly
- Demonstrate knowledge of the concept of Ex-interest and Cum-interest

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Basic Concepts Basics of Statistics Introduction. Definition of Statistics, Application of Statistics in Business, Economics and Industry. Presentation of Data Data collection methods (Primary Vs Secondary, Population Vs Sample), Classification and Tabulation of Quantitative Data , Frequency distribution and Cumulative frequency distribution, Graphical Presentation of data - Histogram, Polygon and Ogive , (Use of MS-Excel to create Frequency Distribution and Graphs)	08
II	Univariate Analysis Descriptive Measures (Central Tendencies and Variation) Meaning of Central Tendency. Central tendencies – Arithmetic mean, Mode, Median and Percentiles, Variation – Range, Variance and Standard Deviation of ungrouped and grouped data. Coefficient of Variation (CV), Choice of good measures. (Use of MS Excel Statistical function to find descriptive	12
III	Theory of Probability Counting rule($m*n$ rule), Permutation and Combination (Use of MS Excel to compute permutation and combination)	08

	Definition, Basic terminology of Probability, Three approaches of assigning probability (Classical, Relative Frequency and Subjective approach), Rules of probability- Addition rule and Multiplication rule for independent and dependent events.	
IV	Probability Distribution Random variable, probability distribution and mathematical expectation Discrete Probability Distribution: Binomial distribution, Poisson distribution Continuous probability Distribution: Normal Distribution – Properties and Applications (Use of MS Excel Statistical function to compute Binomial, Poisson and Normal probability)	10
V	Bivariate Analysis Correlation and Regression Analysis Meaning of correlation, types of correlation, method of correlation – Karl Pearson’s coefficient of correlation, Meaning of Regression, regression coefficients and two lines of regression, use of regression in prediction. (Use of MS Excel Statistical Function to compute correlation and regression)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Applications Of Spreadsheet
COURSE CODE	04LS0212
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- Able to perform routine organizational tasks using Spreadsheets.
- Can be able to understand about pivot tables and how to use it for routine purpose.
- Able to manage spreadsheet and be able to compare data in to different spreadsheet.
- Create a dynamic spreadsheet.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Manage Worksheet Data, Reorder and Summarize Data Understanding software for spreadsheet, learning basic menu items, Basic operations like create, open and save a file, worksheets and workbooks, Renaming Inserting Data in proper tabular format, Basic formatting like changing fonts, size, merging and splitting cells, Coloring cells, conditional formatting	06
II	Functions & Formulas Basic Arithmetic Functions , Conditional Functions, Lookup Functions, Sorting and Filtering Data, Paste Special, Data Validation, Converting Text to Table, Working with multiple sheets	09
III	Data Analysis and Printing Analyze data dynamically by using PivotTables , Filter, show, and hide PivotTable data, Edit PivotTables, Format PivotTables, Create PivotTables from external data, create dynamic charts by using Pivot Charts, Page Setup and Printing	09

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Macroeconomics
COURSE CODE	04LS1203
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend why household, business, government and global behavior determine the aggregate demand for goods and services.
- Understand the basics of national income accounting.
- Apply economic reasoning to understand the operation of an economy.

Course Contents:

Unit No	Unit/Sub-unit	Sessions
I	Introduction to Macroeconomics & National Income Nature and Scope of Macroeconomics, Circular Flow of Income and National Income Accounting, Concepts of GDP and NDP - Sectoral Composition of National Income - GDP measured at Factor Price and Constant Prices- Concept of GNP and NNP, Factor Cost and National Income-Per Capita income, Disposable Income and Personal Disposable Income- Measurement of National Income – Difficulties in measuring National Income	10
II	Keynesian Economic Theory Say's Law of Market and its criticism by Keynes. Simple Keynes Model of Income Determination. Concepts of Consumption Function, Saving Function and Investment Function. Average Propensity to consume, Marginal Propensity to Consume, Investment Multiplier–Marginal Efficiency of Capital and factors affecting MEC.	10
III	Money Supply and Central Bank Meaning and Evolution of Money- Definition of Money- Functions of Money – Demand for Money - Quantity Theory of Money- Fisher's Equation of	10

	Exchange-Cambridge Theory. Supply of Money – Determinants of Money Supply- Components of Money Supply- RBI’s Approach-M1, M2, M3, M4.	
IV	Business Cycle & Inflation Concepts of Business cycle – Four phases of Business Cycle – Interest rate – Loanable fund Theory and Liquidity preference theory- Motives for liquidity preference--Transaction Motive, Precaution Motive, Speculative Motive. Factors affecting interest Rate, Inflation-Meaning, Types, Causes, Effects- Inflation and Investment.	10
V	Open Economy Macroeconomics Balance of Payments –Meaning and assessment, Balance of payment and disequilibrium causes and remedies. Introduction to Foreign Exchange Rates- Fixed V/s Flexible foreign exchange rates. Exchange rate determination.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

Unit No	Unit / Sub Unit	Sessions
I	RATIO, PROPORTION AND PERCENTAGE Ratio – Definition, Continued ratio, Inverse Ratio Meaning and computation of Percentage and Proportion: Direct proportion, Inverse Proportion and Continued Proportion	08
II	PROFIT AND LOSS, DISCOUNT Profit and Loss – Terms and formulae, percentage profit and percentage loss, Selling price at a profit and loss Discount – Trade discount and Cash discount, Problems involving cost price, selling price and market price	10
III	MATHEMATICS OF FINANCE Introduction, Simple Interest and Compound Interest – Concept and problem solution Future Value (FV) - Annuity: Amount of ordinary annuity, Amount of annuity due Present Value (PV) - ordinary annuity and annuity due Loan Amortization and Equated Monthly Installments (EMIs) - Reducing balance and flat rate of interest	08

	Use of MS Excel	
IV	DETERMINANT AND MATRICES Introduction, Definition, Types of matrices, Algebra of matrices (Addition and Subtraction), Additive Inverse of a matrix, Structure problems in matrix form, Multiplication of matrices (Max 3X3) Determinant of square matrices (2X2 and 3X3), minor of an element, cofactor, adjoint and Inverse of Matrix Solution of system of linear equations using inverse of coefficient matrix Use of MS Excel to calculate determinant and inverse of matrix	14
V	PROGRESSION Progression: Sequence and Series Arithmetic Progression – definition, nth term, sum of n terms, illustrations Geometric Progression - definition, nth term, sum of n terms, illustrations Arithmetic mean and Geometric mean Sum of n-terms and sum of infinite terms in geometric progression	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

Course: B.Com

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	CAREER READINESS PROGRAM
COURSE CODE	04CR0101
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Objectives:

- The “*Linguistics for Interpersonal Interaction*” course is designed to make the Learners feel comfortable understanding, thinking and speaking in English.
- Having undergone the training, the Learners will feel confident about his or her own English-speaking skills.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Phonology: Varieties of Language and Standard English, Phonetics and Phonology - Speech Mechanism and Articulatory Phonetics, English Phonemes. Characterization and Classification of Vowels - Diphthongs and Monophthongs.	6
Unit-II	Syntax and Morphology: Nouns, Pronouns and Determiners - Misconceptions related to usages of noun forms, Using Possessives, Types of Pronouns, General Determiners and Specific Determiners. Verbs and related forms - Types of verbs and their forms, Stative and Dynamic, Lexical and Delexical Adjectives and Adverbs - Word formation, Order of Adjectives, Types of Adverbs Preposition and Phrasal verbs - Preposition of time, Preposition of Movements, Preposition of Place, Phrasal Verbs Conjunctions - Coordinating and Subordinating, Using Conjunctions in formal settings. Present Continuous – Form, Usages, Misconception Present Simple & Simple Past – Form, Usages, Misconception	8
Unit - III	Reading Comprehension: Processing Strategy - Comprehension Strategy, Meta-cognitive Strategy, Prediction and Pre-prediction.	4
Unit - IV	Spoken Discourse: Coherence and Cohesion - Situational	6

	Sociolinguistic interaction, Conversation Practice. Feature of Spoken Discourse - Semantic and Pragmatic Meanings, Conversation Practice (Role Play)	
--	---	--

Learning Outcomes:

After studying this course, student should be able to:

- Articulate phonetics and phonology, Noun, Pronoun, Verb
- Reading and processing comprehension.

Evaluation:

The students will be evaluated on following evaluation scheme:

		Weight age
A	End-Semester Examination	100% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	PRINCIPLES OF MANAGEMENT
COURSE CODE	04LS1102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Demonstrate their knowledge of business and management principles.
- Get acquainted with management process and functions.
- Comprehend the modern management techniques and its relevance in business.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Meaning, Nature and Characteristics of Management – Scope of Management - Functional areas - Management as a Science and an Art - Management & Administration – Levels of management & Managerial Skills - Evolution of Management Thoughts - Principles of management - Ethics in Management.	10
II	Planning in Management Need and importance of planning - basic purpose of planning - Planning process, Types of plans - Objectives - Management By Objectives Decision-making Decision making – Nature and importance- types of decisions – process	10
III	Organizing Need for organization - purpose of organization, fundamental principles of organization - Types of organization - Departmentalization, Committees - Centralization Vs decentralization of authority and responsibility Staffing Staffing – Introduction - Need for Staffing - Importance of staffing -Process of staffing	10
IV	Directing Directing – Meaning, nature and importance – Theories of Motivation – Maslow’s, Herzberg’s & McGregor’s Leadership – Introduction - Formal and Informal Leadership – Characteristics – Styles of Leadership - Importance of Communication as a leader	10

	Coordinating Coordination – Introduction - Importance of coordination - Principles of coordination	
V	Controlling Meaning and steps in controlling – Pre-requisites of a strong control system - Methods of establishing control Modern Management Techniques Introduction to various latest management techniques: Business process re-engineering, business outsourcing, benchmarking, kaizen, six sigma, knowledge management, just in time management, total quality management.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

Sr. No	Author/s	Name of the Book	Publisher	Edition & Year of Publication
T-01	L. M. Prasad	Principles of Management	Sultan Chand and Sons	Ninth Edition - 2015

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	Microeconomics
COURSE CODE	04LS1103
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Apply economic reasoning to the analysis of selected contemporary economic problems.
- Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of goods and services produced and consumed.
- Use economic problem solving skills to discuss the opportunities and challenges of the increasing globalization of the world economy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO MICROECONOMICS Meaning and definition of Microeconomics, Nature and scope of Microeconomics, Difference between microeconomics and macroeconomics. Central economic problems of society.	10
II	CONSUMER BEHAVIOUR Utility analysis: Meaning of Cardinal and Ordinal utility. Cardinal Utility: Law of diminishing Marginal utility, Law of Equi-marginal Utility, Ordinal Utility: Indifference curve analysis, properties of indifference curve analysis, Marginal rate of substitution, Budget line and consumer's Equilibrium.	10
III	DEMAND AND SUPPLY ANALYSIS Determinants of demand, law of demand, exceptions to law of demand. Elasticity of demand and its applications: Price elasticity, Income elasticity and cross elasticity. Concept and Law of Supply, Factors Affecting Supply	10
IV	PRODUCTION AND COST ANALYSIS Production Function: Short run and long run production functions, laws of returns, and law of returns to scale. Cost Function: classification of costs, short run and long run cost curves and their interrelationship, Planning curve and envelope curve, internal and external economics of scale,	10

	revenue curves, optimum size of the firm, factors affecting the optimum size	
V	EQUILIBRIUM OF FIRM AND INDUSTRY Perfect competition, monopoly, monopolistic competition, discriminating monopoly, aspects of non-price competition; group equilibrium, excess capacity, selling costs, oligopolistic behavior.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	Computer Essentials
COURSE CODE	04LS1107
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Draft Document / Worksheet and Presentation
- Understand the Computer Hardware and Software Fundamentals
- detail some of the problems that are encountered when developing documents and worksheets
- describe briefly some of the technologies that are used to support online applications

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	COMPUTER BASICS Data- Instruction and Information-Characteristics of Computers- Various fields of application of Computers- Input-output Devices (Hardware- Software- Human ware and Firmware)-Advantages and Limitations of Computer- Block Diagram of Computer- Function of Different Units of Computer- Classification of Computers. Data Representation-Different Number System (Decimal- Binary- Octal and hexadecimal) and their Inter Conversion.	10
II	COMPUTER SOFTWARE Types of Software- Application software and system software- Compiler and Interpreter-Generations of languages-Low and High Level Languages-Computer Memory: Primary Memory &Secondary memory. Cache memory-optical memory-Storage Media. Introduction to Operating System-All Directory Manipulation- Creating Directory- Sub Directory- Renaming-Coping and Deleting the Directory File Manipulation-Creating a File-Deleting- Coping- renaming a File Using accessories such as calculator- paint brush- CD player etc.	10
III	INTRODUCTION TO MS- OFFICE (WORD) Introduction to Word Processing- Features - Formatting Documents- Paragraph Formatting- Indents- Page Formatting- Header and Footer- Bullets and Numbering- Tabs- Tables- Formatting the Tables- Finding and Replacing Text-Mail Merging etc..	10

IV	INTRODUCTION TO MS- OFFICE (EXCEL) Introduction to Electronic Spreadsheets - Feature of MS-Excel- Entering Data- Entering Series- Editing Data- Cell Referencing- ranges- Formulae- Functions- Auto Sum- Copying Formula- Formatting Data- Creating Charts- Creating Database- Sorting Data- Filtering etc.	10
V	INTRODUCTION TO MS- OFFICE (POWERPOINT) PowerPoint - Features of MS PowerPoint Clipping- Slide Animation- Slide Transitions- Slide Shows- formatting etc.- Creating formal presentations- inserting different objects- arts- charts- pictures etc. to slide.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

List of Journals/Periodicals/ Magazines/ Newspapers etc.

The Students will have to refer to past issues of the following journals in order to get relevant topic/ information pertaining to the subject.

1. Computer and Education – Elsevier
2. Journal of Computers

Elective I: BBA, BBA (Hon.) & B. Com. Reading and Writing for Business

Subject Code:04SL0102

Credit: 2

Semester: 1

Course Description

The course will inculcate skills of formal reading and writing for business among the students. Good reading skills play a vital role in decision making in response to a proposal or a report. Formal writing, on the other hand, enables one to express one's ideas, plans, aims and objectives on paper. The course will offer a number of classroom activities, assignments and tasks to ensure the inculcation of the aforesaid skills among the students.

Course Objectives

The course will enable the students:

1. to read and interpret formal business writings such as reports, articles and reviews;
2. to know structures of formal business letters and reports;
3. to write formal business letters and reports;
4. to inculcate a taste for reading and writing habits pertaining to the world of business.

Unit 1: Introduction to business world

1. Reading a business case-study – “Tripping Along” by Deep Kalra from *Stay Hungry Stay Foolish*
2. Reading 3 business articles (general in nature) from the newspapers/magazines

- I. "Paytm: the wonder wallet" from Forbes India.
- II. "Millennials: How They Live and Work" from Gallup.
- III. "The Right Culture: Not About Employees Happiness" from Gallup.

Kalra, Deep. "Tripping Along." *Stay Hungry Stay Foolish*, edited by Rashmi Bansal, IIM Ahmedabad, 2008, pp. 130-143.

Unit 2: Reading and writing for business

1. Reading business letters (of sales, inquiry, order, complaint, and adjustment)
2. Writing business letters (Any two types)
3. Reading a few short business reports
4. Writing a short business report

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks
	ESE	IA	CSE	Viva	Term Work	
Practical 2 Hours	00	30	20	25	25	100

1. IA will consist of the following components (30 marks):

- a. **Assignments (20 Marks):** Students will prepare three assignments as following.

- 1) Letter: Write three letters on the given subjects (10 Marks)
- 2) Article: Write a business article on the given theme (05 Marks)
- 3) Report: Write a report on the given subject (05 Marks)

- b. **In-Class Participation (10 Marks)**
- 2. **CSE (20 marks):**
 - a. **(Term Paper):** Students will write a paper on the given topic.
- 3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.
- 4. **Term Work (25 Marks):**
 - a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

5. Lesikar R., Flatley M., Rentz K., Pande N., *Business Communication*. 11th ed., Tata MacGraw-Hill, 2009.

Elective II: BBA, BBA (Hon.) & B. Com.

Speaking and Presentation Skills

Subject Code: 04SL0103

Credits: 02

Semester: 1

Course Description

The course intends to make students confident in speaking in English with the help of various language functions. It also focuses on developing students' presentation skills.

Course Objectives

The course will enable students

1. to share information on familiar matters/issues in English;
2. to make effective presentations in English;
3. to gain confidence in speaking in English.

Unit 1: Speaking/Interacting in an Academic Context

1. Greetings
2. Introducing self and peers
3. Asking and sharing information
4. Expressing points of view
5. Discussions
6. Facing viva voce
7. Group discussions
8. Facing an interview (interview skills)

Unit 2: Effective Presentation Skills

1. Introduction to effective presentation skills
2. Preparing the presentation (Collection of Data/Information, exploring the topic etc.)

3. Using ICT for the presentation
4. Getting ready for the presentation
5. Effective body language
6. Effective pronunciation
7. Interacting with the audience (Q & A)
8. Practice (with video recording)
9. Feedback and Suggestions

Recommended Readings/ Viewings

- Select TED Talks
- Select INK Talks
- Select Toastmasters Videos
- Select Courtroom Dramas
- Select Videos of speakers like Steve Jobs, Sundar Pichai etc.

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks	
	Practical	ESE	IA	CSE	Viva		Term Work
2 Hours		00	30	20	25	25	100

1. **IA will consist of the following components (30 marks):**
 - a. **Assignments (20 Marks):** Students will prepare three oral assignments.
 - b. **In-Class Participation (10 Marks)**
2. **CSE (20 marks):**
 - a. **(Term End Simulation):** Students will carry out simulated tasks at the end of the semester. It would comprise individual and group tasks.
3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.
4. **Term Work (25 Marks):**
 - a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	FINANCIAL ACCOUNTING-II
COURSE CODE	04BC0201
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Address advanced accounting issues of partnership firm
- Learn the application of Garner vs. Murray rule
- Understand the difference between hire purchase and installment purchase transactions
- Classify the branches and do the accounting accordingly
- Demonstrate knowledge of the concept of Ex-interest and Cum-interest

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	RECONSTITUTION OF PARTNERSHIP FIRM Accounting issues related to Admission, Retirement and Death of a Partner – Preparation of Revaluation account – Calculation of Goodwill : Average profit method, Super profit method, Annuity method, Capitalisation method	10
II	DISSOLUTION OF PARTNERSHIP FIRM Preparation of Realisation account – Settlement of accounts – Piecemeal distribution: Maximum loss method and Proportionate capital method – Insolvency of partner during piecemeal distribution (Garner vs. Murray rule)	12
III	ACCOUNTING FOR HIRE PURCHASE Meaning – Difference between Hire purchase and Installment purchase – Calculation of missing details when cash price or rate of interest is not given – Accounting for hire purchase transactions –Default and repossession	08
IV	ACCOUNTING FOR BRANCHES Meaning – Classification of Branches –Accounting for dependant branches – Accounting for independent branches	10
V	INVESTMENT ACCOUNTS Meaning – Classification of investments – Calculation of purchase price – Disposal of investments – Preparation of Investments account – Calculation of ex-interest and cum-interest	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Business Statistics
COURSE CODE	04BC0205
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Address advanced accounting issues of partnership firm
- Learn the application of Garner vs. Murray rule
- Understand the difference between hire purchase and installment purchase transactions
- Classify the branches and do the accounting accordingly
- Demonstrate knowledge of the concept of Ex-interest and Cum-interest

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Basic Concepts Basics of Statistics Introduction. Definition of Statistics, Application of Statistics in Business, Economics and Industry. Presentation of Data Data collection methods (Primary Vs Secondary, Population Vs Sample), Classification and Tabulation of Quantitative Data , Frequency distribution and Cumulative frequency distribution, Graphical Presentation of data - Histogram, Polygon and Ogive , (Use of MS-Excel to create Frequency Distribution and Graphs)	08
II	Univariate Analysis Descriptive Measures (Central Tendencies and Variation) Meaning of Central Tendency. Central tendencies – Arithmetic mean, Mode, Median and Percentiles, Variation – Range, Variance and Standard Deviation of ungrouped and grouped data. Coefficient of Variation (CV), Choice of good measures. (Use of MS Excel Statistical function to find descriptive	12
III	Theory of Probability Counting rule($m*n$ rule), Permutation and Combination (Use of MS Excel to compute permutation and combination)	08

	Definition, Basic terminology of Probability, Three approaches of assigning probability (Classical, Relative Frequency and Subjective approach), Rules of probability- Addition rule and Multiplication rule for independent and dependent events.	
IV	Probability Distribution Random variable, probability distribution and mathematical expectation Discrete Probability Distribution: Binomial distribution, Poisson distribution Continuous probability Distribution: Normal Distribution – Properties and Applications (Use of MS Excel Statistical function to compute Binomial, Poisson and Normal probability)	10
V	Bivariate Analysis Correlation and Regression Analysis Meaning of correlation, types of correlation, method of correlation – Karl Pearson’s coefficient of correlation, Meaning of Regression, regression coefficients and two lines of regression, use of regression in prediction. (Use of MS Excel Statistical Function to compute correlation and regression)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Macroeconomics
COURSE CODE	04LS1203
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend why household, business, government and global behavior determine the aggregate demand for goods and services.
- Understand the basics of national income accounting.
- Apply economic reasoning to understand the operation of an economy.

Course Contents:

Unit No	Unit/Sub-unit	Sessions
I	Introduction to Macroeconomics & National Income Nature and Scope of Macroeconomics, Circular Flow of Income and National Income Accounting, Concepts of GDP and NDP - Sectoral Composition of National Income - GDP measured at Factor Price and Constant Prices- Concept of GNP and NNP, Factor Cost and National Income-Per Capita income, Disposable Income and Personal Disposable Income- Measurement of National Income – Difficulties in measuring National Income	10
II	Keynesian Economic Theory Say's Law of Market and its criticism by Keynes. Simple Keynes Model of Income Determination. Concepts of Consumption Function, Saving Function and Investment Function. Average Propensity to consume, Marginal Propensity to Consume, Investment Multiplier–Marginal Efficiency of Capital and factors affecting MEC.	10
III	Money Supply and Central Bank Meaning and Evolution of Money- Definition of Money- Functions of Money – Demand for Money - Quantity Theory of Money- Fisher's Equation of	10

	Exchange-Cambridge Theory. Supply of Money – Determinants of Money Supply- Components of Money Supply- RBI’s Approach-M1, M2, M3, M4.	
IV	Business Cycle & Inflation Concepts of Business cycle – Four phases of Business Cycle – Interest rate – Loanable fund Theory and Liquidity preference theory- Motives for liquidity preference--Transaction Motive, Precaution Motive, Speculative Motive. Factors affecting interest Rate, Inflation-Meaning, Types, Causes, Effects- Inflation and Investment.	10
V	Open Economy Macroeconomics Balance of Payments –Meaning and assessment, Balance of payment and disequilibrium causes and remedies. Introduction to Foreign Exchange Rates- Fixed V/s Flexible foreign exchange rates. Exchange rate determination.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Fundamentals of Human Resource Management
COURSE CODE	04LS1209
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the various functions of the HR management and a range of practices employed by organizations.
- Develop appropriate methods for attracting, retaining, developing and engaging talent for the organization.
- Identify employment related challenges faced by the organization

Course Contents:

Unit No.	Unit / Sub Unit	Sessions
I	INTRODUCTION TO HUMAN RESOURCE MANAGEMENT Introduction – Meaning - Objectives of Human Resource Management- Importance of HRM – Functions and Process of HRM- HR Manager - Duties and Responsibilities – Recent trends in HRM	10
II	PROCUREMENT OF HUMAN RESOURCE Human Resource Planning – Significance and Process, Job Analysis - Process- Job Description & Job Specification, Recruitment –Sources– Methods of Recruitment, Selection – Steps in Selection Process – Placement and Induction	12
III	TRAINING AND HUMAN RESOURCE DEVELOPMENT Training- Significance of training - identification of training needs - methods of training – Difference between Training & Development- Design of Training Programme- Evaluation of Training Effectiveness	07
IV	COMPENSATION AND MAINTAINENCE Job Evaluation – Concept, Process and Significance- Components of Employee Remuneration – Base and Supplementary- types of employee benefits and services; Performance Appraisal – Concept and Objectives- Traditional and Modern Methods	09
V	INTRODCUTION TO INDUSTRIAL RELATIONS Industrial Relation – Objectives – Approaches of Industrial Relations – Collective Bargaining – Grievance Process	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Commerce
SEMESTER	III
COURSE TITLE	Cost Accounting - I
COURSE CODE	04BC0301
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Students will understand how to bifurcate the cost based on different classification
- Students will acquaint with various methods involved in cost ascertainment.
- Interpret the impact of the selected costs method
- Identify the specifics of different costing methods

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO COST ACCOUNTING Understanding of Cost, Costing, Cost Accounting and Cost Accountancy – Difference between Cost, Expense and Loss – Objectives of Cost Accounting– Elements of Cost – Fundamental understanding of Cost Unit, Cost Center, Cost Object, Cost Ascertainment & Cost Estimation – Methods and Techniques of Cost accounting – Advantage and Limitations of Cost Accounting – Classification of cost – Comparison between Financial Accounting and Cost Accounting	10
II	ELEMENTS OF COST (DIRECT EXPENSE) MATERIAL Meaning of Material (Direct & Indirect) – Material Control (Inventory Control) – Techniques of Inventory Control – EOQ – ABC Analysis – Setting Stock Levels – Treatment of Material losses – Normal loss and Abnormal loss – Accounting treatment for waste, scrap, spoilage & defectives	10
III	LABOUR Meaning & Types of Labour (Direct & Indirect) – Timekeeping – Time booking - Idle Time – Overtime – Labour Turn Over. Methods of Remuneration - Time Rate System – Piece Rate System – Incentive – Halsey plan – Rowan Plan- Taylor's differential Piece Rate System and Merrick's Differential Piece Rate System –	10

	Gantt's task and bonus plan – Emerson's Efficiency plan	
IV	ELEMENTS OF COST (INDIRECT EXPENSE) Meaning Definition and Classification of Overheads — Allocation of Overheads – Apportionment of Overheads – Primary & Secondary Overhead Distribution Summary – Repeated Distribution Method – Simultaneous Equations Method – Absorption of Overheads – Under & Over Absorption – Methods of Absorption – Treatment of Absorption – Machine Hour Rate	10
V	Unit Costing Meaning of Unit Costing – Preparation of Cost Sheet - Estimated Cost Sheet – Treatment of Raw- Material, Work in Progress and Closing Stock in Cost Sheet – Treatment of scrap	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	III
COURSE TITLE	E COMMERCE
COURSE CODE	04BC0302
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

- detail what is meant by the term 'e-commerce'
- examine some typical electronic commerce applications
- detail some of the problems that are encountered when developing e commerce applications
- describe briefly some of the technologies that are used to support online applications
- show how some of the technologies detailed in the course are used in concert to realise a typical commercial system

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO E COMMERCE Introduction to E-Commerce – History of E-commerce, types of E-Commerce - Comparison of traditional commerce and e-commerce. Business models under E-Commerce – Business to Business (B2B) - Business to Customer model (B2C), Consumer-to-Consumer (C2C) - Consumer-to-Business (C2B) model - Peer to-Peer (P2P) model – emerging trends - Advantages and Disadvantages of e-commerce - web auctions, virtual communities - portals - e-business revenue generation models.	10
II	HOW TO SET UP E COMMERCE BUSINESS Why do I want to set up an E-Commerce enterprise? competition, global research, customer service, value edition, operations oriented process, 'pettish' products; What do I want to do on the net? Web development and maintenance, static web pages, integration with operational database, dynamic web site, customer transaction, transaction processing/ payment, merchant account, transaction processing, online credit card frauds, full E-Commerce.	10
III	PAYMENTS IN E – BUSINESS	10

	E-payment systems – An introduction - B to C payments - B to B payments - Types of E- payment system – Credit card - debit cards - accumulating balance - online stored value payment systems - Secure Electronic Transaction (SET) protocol - payment gateways - digital cash - digital wallets - agile wallet - smart cards and digital cheques.	
IV	SECURITY OPERATIONS FOR E-BUSINESS Possible Security threats – implementation of E-commerce security – encryption – Decryption - protecting client computers - E-Commerce Communication channels and web servers Encryption - SSL protocol – Firewalls - Cryptography methods – VPNs - protecting networks - policies and procedures	10
V	MARKETING OF E-BUSINESS E-Commerce and marketing - B to B and B to C marketing and branding strategies - Web transaction logs – cookies - shopping cart database – DBMS – SQL - data mining - CRM (customer relationship Management) system – permission marketing - affiliate marketing - viral marketing.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelours Of Commerce
SEMESTER	III
COURSE TITLE	Understanding Financial Statements
COURSE CODE	04BC0307
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

OBJECTIVES

- To provide basic understanding of financial statements.
- To explain use of financial information to Value and Analyse firms.
- To enhance understanding and analytical skills for representation of findings and conclusions of Financial Statements.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Introduction of Financial statements & Income Statement: Financial Statements, Importance, Various users of Financial Statements, Presentation of Financial Statements. Interrelation between Income Statement and Balance Sheet Income Statement: manufacturing vs. Trade organizations. Vertical Vs Horizontal form, Components – Sales (Top line), Income from other sources, cost of goods sold, gross margin, EBITDA, EBITA, EBIT, EBT, EAT, Provisions, Earnings available to owners (Bottom Line).	8
Unit II	Statement of Financial Position: Meaning, Definition and purpose, horizontal vs. vertical form. Assets - Fixed, tangible, Intangible assets. Current Assets – Cash, Debtors, Bills receivables, deferred payments, Bank balance, Stock/ Inventory, Tangible & Intangible Assets, Gross block, Net Block, Investments. Current assets: accounts receivables, Inventory, Loans and advances and others. Shareholders 'funds, Long term Loans. Current liabilities. Understand organisations internal perspective and external perspective, comparative study between two organizations, (Report), Owners v/s lenders perspective,	8

	Comparison between two years of same organizations. Common size, Comparative and Trend Analysis of Financial statement with a simple case study	
Unit III	<p>Cash flow statement: Meaning Definition, Analysis and Applications.</p> <ol style="list-style-type: none"> 1. Cash flow from Operations – Production, Sales, and Delivery of products, collecting payments from customers. 2. Cash flow from investment activities - Purchase/ sales of assets, Loan made to suppliers and received from customers, Payments related to merger & acquisition. 3. Cash Flow from financing activities – Inflow of cash from Investors, banks and Shareholders. 	8

Learning Outcomes

After studying this course, student should be able to:

- Understand purpose of different financial statements
- Gain in-depth Knowledge about different components in the financial statement and their significance to assess the healthiness of the firm
- Examine different financial activities of the firm between two periods and understand how those activities influence on financial healthiness of the firm
- Compare financial statement of different firms through Cash flow Analysis.

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	FINANCIAL ACCOUNTING-I
COURSE CODE	04BC0101
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Implement the accounting process from journal entries to trial balance
- Understand the need for uniformity in accounting
- Prepare financial statements of sole-proprietary business

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	BASICS OF BOOK-KEEPING AND ACCOUNTING Introduction to Book Keeping, Accounting and Accountancy – Process of Accounting – Branches of Accounting- Methods of Accounting – Basis of Accounting – Characteristics of Accounting – Functions of Accounting – Users of Accounting Information – Basic Accounting Terms – Classification of Accounts and its Rules – Accounting Equation – Accounting Principles – Accounting Concepts – Accounting Conventions – Fundamental Accounting Assumptions	08
II	OVERVIEW OF INDIAN ACCOUNTING STANDARDS Background of GAAP and IFRS – Introduction to Indian AS: Background, need, applicability, overview of standards (only theory)	06
III	PROCESS OF ACCOUNTING Meaning of Journal – Format of Journal – Single and compound Journal Entries – Difference between Cash Discount and Trade Discount – Meaning of Ledger – Format of Ledger – Balancing of Ledger – Practical problems on Journal and Ledger – Meaning of Trial Balance – Preparation of Trial Balance – Redrafting of Trial Balance – Types of Errors and their Rectification	16
IV	FINAL ACCOUNTS OF SOLE-PROPERITORSHIP: Types of Expenditure – Types of Income – Types of Profit – Meaning of Deferred Revenue Expenditure – Difference between Trial Balance and Balance sheet – Contingent Asset and Contingent Liability – Classification of Assets and Liabilities under different heading -	10

	Difference between Provisions and Reserves –Types of Reserves - Preparation of Final accounts for sole proprietorship for non manufacturing	
V	DEPRECIATION: Meaning - Methods of calculating depreciation (straight line method and written down value) - Method of recording Depreciation (Charging to Asset Account, Creating provision for Depreciation/ Accumulated Depreciation, Treatment of Disposal of Fixed assets.	08

Evaluation:

Elective

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	BUSINESS MATHEMATICS
COURSE CODE	04BC0102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Solve business problems involving percentage, profit / loss and calculate discount
- Calculate simple and compound interest on investments
- Understand repayments of loan using EMIs
- Structure and solve problems using matrices
- Understand and establish relationship between variables using functions to determine equilibrium

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	RATIO, PROPORTION AND PERCENTAGE Ratio – Definition, Continued ratio, Inverse Ratio Meaning and computation of Percentage and Proportion: Direct proportion, Inverse Proportion and Continued Proportion	08
II	PROFIT AND LOSS, DISCOUNT Profit and Loss – Terms and formulae, percentage profit and percentage loss, Selling price at a profit and loss Discount – Trade discount and Cash discount, Problems involving cost price, selling price and market price	10
III	MATHEMATICS OF FINANCE Introduction, Simple Interest and Compound Interest – Concept and problem solution Future Value (FV) - Annuity: Amount of ordinary annuity, Amount of annuity due Present Value (PV) - ordinary annuity and annuity due Loan Amortization and Equated Monthly Installments (EMIs) - Reducing balance and flat rate of interest	08

	Use of MS Excel	
IV	DETERMINANT AND MATRICES Introduction, Definition, Types of matrices, Algebra of matrices (Addition and Subtraction), Additive Inverse of a matrix, Structure problems in matrix form, Multiplication of matrices (Max 3X3) Determinant of square matrices (2X2 and 3X3), minor of an element, cofactor, adjoint and Inverse of Matrix Solution of system of linear equations using inverse of coefficient matrix Use of MS Excel to calculate determinant and inverse of matrix	14
V	PROGRESSION Progression: Sequence and Series Arithmetic Progression – definition, nth term, sum of n terms, illustrations Geometric Progression - definition, nth term, sum of n terms, illustrations Arithmetic mean and Geometric mean Sum of n-terms and sum of infinite terms in geometric progression	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

Course: B.Com

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	CAREER READINESS PROGRAM
COURSE CODE	04CR0101
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Objectives:

- The “*Linguistics for Interpersonal Interaction*” course is designed to make the Learners feel comfortable understanding, thinking and speaking in English.
- Having undergone the training, the Learners will feel confident about his or her own English-speaking skills.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Phonology: Varieties of Language and Standard English, Phonetics and Phonology - Speech Mechanism and Articulatory Phonetics, English Phonemes. Characterization and Classification of Vowels - Diphthongs and Monophthongs.	6
Unit-II	Syntax and Morphology: Nouns, Pronouns and Determiners - Misconceptions related to usages of noun forms, Using Possessives, Types of Pronouns, General Determiners and Specific Determiners. Verbs and related forms - Types of verbs and their forms, Stative and Dynamic, Lexical and Delexical Adjectives and Adverbs - Word formation, Order of Adjectives, Types of Adverbs Preposition and Phrasal verbs - Preposition of time, Preposition of Movements, Preposition of Place, Phrasal Verbs Conjunctions - Coordinating and Subordinating, Using Conjunctions in formal settings. Present Continuous – Form, Usages, Misconception Present Simple & Simple Past – Form, Usages, Misconception	8
Unit - III	Reading Comprehension: Processing Strategy - Comprehension Strategy, Meta-cognitive Strategy, Prediction and Pre-prediction.	4
Unit - IV	Spoken Discourse: Coherence and Cohesion - Situational	6

	Sociolinguistic interaction, Conversation Practice. Feature of Spoken Discourse - Semantic and Pragmatic Meanings, Conversation Practice (Role Play)	
--	---	--

Learning Outcomes:

After studying this course, student should be able to:

- Articulate phonetics and phonology, Noun, Pronoun, Verb
- Reading and processing comprehension.

Evaluation:

The students will be evaluated on following evaluation scheme:

		Weight age
A	End-Semester Examination	100% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	PRINCIPLES OF MANAGEMENT
COURSE CODE	04LS1102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Demonstrate their knowledge of business and management principles.
- Get acquainted with management process and functions.
- Comprehend the modern management techniques and its relevance in business.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Meaning, Nature and Characteristics of Management – Scope of Management - Functional areas - Management as a Science and an Art - Management & Administration – Levels of management & Managerial Skills - Evolution of Management Thoughts - Principles of management - Ethics in Management.	10
II	Planning in Management Need and importance of planning - basic purpose of planning - Planning process, Types of plans - Objectives - Management By Objectives Decision-making Decision making – Nature and importance- types of decisions – process	10
III	Organizing Need for organization - purpose of organization, fundamental principles of organization - Types of organization - Departmentalization, Committees - Centralization Vs decentralization of authority and responsibility Staffing Staffing – Introduction - Need for Staffing - Importance of staffing -Process of staffing	10
IV	Directing Directing – Meaning, nature and importance – Theories of Motivation – Maslow’s, Herzberg’s & McGregor’s Leadership – Introduction - Formal and Informal Leadership – Characteristics – Styles of Leadership - Importance of Communication as a leader	10

	Coordinating Coordination – Introduction - Importance of coordination - Principles of coordination	
V	Controlling Meaning and steps in controlling – Pre-requisites of a strong control system - Methods of establishing control Modern Management Techniques Introduction to various latest management techniques: Business process re-engineering, business outsourcing, benchmarking, kaizen, six sigma, knowledge management, just in time management, total quality management.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

R-02	Koontz & O'Donnell	Principles of Management	McGraw Hill	Forth edition

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	Microeconomics
COURSE CODE	04LS1103
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Apply economic reasoning to the analysis of selected contemporary economic problems.
- Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of goods and services produced and consumed.
- Use economic problem solving skills to discuss the opportunities and challenges of the increasing globalization of the world economy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO MICROECONOMICS Meaning and definition of Microeconomics, Nature and scope of Microeconomics, Difference between microeconomics and macroeconomics. Central economic problems of society.	10
II	CONSUMER BEHAVIOUR Utility analysis: Meaning of Cardinal and Ordinal utility. Cardinal Utility: Law of diminishing Marginal utility, Law of Equi-marginal Utility, Ordinal Utility: Indifference curve analysis, properties of indifference curve analysis, Marginal rate of substitution, Budget line and consumer's Equilibrium.	10
III	DEMAND AND SUPPLY ANALYSIS Determinants of demand, law of demand, exceptions to law of demand. Elasticity of demand and its applications: Price elasticity, Income elasticity and cross elasticity. Concept and Law of Supply, Factors Affecting Supply	10
IV	PRODUCTION AND COST ANALYSIS Production Function: Short run and long run production functions, laws of returns, and law of returns to scale. Cost Function: classification of costs, short run and long run cost curves and their interrelationship, Planning curve and envelope curve, internal and external economics of scale,	10

	revenue curves, optimum size of the firm, factors affecting the optimum size	
V	EQUILIBRIUM OF FIRM AND INDUSTRY Perfect competition, monopoly, monopolistic competition, discriminating monopoly, aspects of non-price competition; group equilibrium, excess capacity, selling costs, oligopolistic behavior.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	Computer Essentials
COURSE CODE	04LS1107
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Draft Document / Worksheet and Presentation
- Understand the Computer Hardware and Software Fundamentals
- detail some of the problems that are encountered when developing documents and worksheets
- describe briefly some of the technologies that are used to support online applications

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	COMPUTER BASICS Data- Instruction and Information-Characteristics of Computers- Various fields of application of Computers- Input-output Devices (Hardware- Software- Human ware and Firmware)-Advantages and Limitations of Computer- Block Diagram of Computer- Function of Different Units of Computer- Classification of Computers. Data Representation-Different Number System (Decimal- Binary- Octal and hexadecimal) and their Inter Conversion.	10
II	COMPUTER SOFTWARE Types of Software- Application software and system software- Compiler and Interpreter-Generations of languages-Low and High Level Languages-Computer Memory: Primary Memory &Secondary memory. Cache memory-optical memory-Storage Media. Introduction to Operating System-All Directory Manipulation- Creating Directory- Sub Directory- Renaming-Coping and Deleting the Directory File Manipulation-Creating a File-Deleting- Coping- renaming a File Using accessories such as calculator- paint brush- CD player etc.	10
III	INTRODUCTION TO MS- OFFICE (WORD) Introduction to Word Processing- Features - Formatting Documents- Paragraph Formatting- Indents- Page Formatting- Header and Footer- Bullets and Numbering- Tabs- Tables- Formatting the Tables- Finding and Replacing Text-Mail Merging etc..	10

IV	INTRODUCTION TO MS- OFFICE (EXCEL) Introduction to Electronic Spreadsheets - Feature of MS-Excel- Entering Data- Entering Series- Editing Data- Cell Referencing- ranges- Formulae- Functions- Auto Sum- Copying Formula- Formatting Data- Creating Charts- Creating Database- Sorting Data- Filtering etc.	10
V	INTRODUCTION TO MS- OFFICE (POWERPOINT) PowerPoint - Features of MS PowerPoint Clipping- Slide Animation- Slide Transitions- Slide Shows- formatting etc.- Creating formal presentations- inserting different objects- arts- charts- pictures etc. to slide.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

SUGGESTED READINGS:
Text Books:

R-02	Sanjay Saxena	A First Course in computers	Vikas Publication	

List of Journals/Periodicals/ Magazines/ Newspapers etc.

The Students will have to refer to past issues of the following journals in order to get relevant topic/ information pertaining to the subject.

1. Computer and Education – Elsevier
2. Journal of Computers

Elective I: BBA, BBA (Hon.) & B. Com.

Reading and Writing for Business

Subject Code:04SL0102

Credit: 2

Semester: 1

Course Description

The course will inculcate skills of formal reading and writing for business among the students. Good reading skills play a vital role in decision making in response to a proposal or a report. Formal writing, on the other hand, enables one to express one's ideas, plans, aims and objectives on paper. The course will offer a number of classroom activities, assignments and tasks to ensure the inculcation of the aforesaid skills among the students.

Course Objectives

The course will enable the students:

1. to read and interpret formal business writings such as reports, articles and reviews;
2. to know structures of formal business letters and reports;
3. to write formal business letters and reports;
4. to inculcate a taste for reading and writing habits pertaining to the world of business.

Unit 1: Introduction to business world

1. Reading a business case-study – “Tripping Along” by Deep Kalra from *Stay Hungry Stay Foolish*
2. Reading 3 business articles (general in nature) from the newspapers/magazines

- I. "Paytm: the wonder wallet" from Forbes India.
- II. "Millennials: How They Live and Work" from Gallup.
- III. "The Right Culture: Not About Employees Happiness" from Gallup.

Recommended Reading

Kalra, Deep. "Tripping Along." *Stay Hungry Stay Foolish*, edited by Rashmi Bansal, IIM Ahmedabad, 2008, pp. 130-143.

Unit 2: Reading and writing for business

1. Reading business letters (of sales, inquiry, order, complaint, and adjustment)
2. Writing business letters (Any two types)
3. Reading a few short business reports
4. Writing a short business report

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks	
	Practical	ESE	IA	CSE	Viva		Term Work
2 Hours		00	30	20	25	25	100

1. IA will consist of the following components (30 marks):

- a. **Assignments (20 Marks):** Students will prepare three assignments as following.

- 1) Letter: Write three letters on the given subjects (10 Marks)
- 2) Article: Write a business article on the given theme (05 Marks)
- 3) Report: Write a report on the given subject (05 Marks)

- b. **In-Class Participation (10 Marks)**
- 2. **CSE (20 marks):**
 - a. **(Term Paper):** Students will write a paper on the given topic.
- 3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.
- 4. **Term Work (25 Marks):**
 - a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

Elective II: BBA, BBA (Hon.) & B. Com.

Speaking and Presentation Skills

Subject Code: 04SL0103

Credits: 02

Semester: 1

Course Description

The course intends to make students confident in speaking in English with the help of various language functions. It also focuses on developing students' presentation skills.

Course Objectives

The course will enable students

1. to share information on familiar matters/issues in English;
2. to make effective presentations in English;
3. to gain confidence in speaking in English.

Unit 1: Speaking/Interacting in an Academic Context

1. Greetings
2. Introducing self and peers
3. Asking and sharing information
4. Expressing points of view
5. Discussions
6. Facing viva voce
7. Group discussions
8. Facing an interview (interview skills)

Unit 2: Effective Presentation Skills

1. Introduction to effective presentation skills
2. Preparing the presentation (Collection of Data/Information, exploring the topic etc.)

3. Using ICT for the presentation
4. Getting ready for the presentation
5. Effective body language
6. Effective pronunciation
7. Interacting with the audience (Q & A)
8. Practice (with video recording)
9. Feedback and Suggestions

Recommended Readings/ Viewings

- Select TED Talks
- Select INK Talks
- Select Toastmasters Videos
- Select Courtroom Dramas
- Select Videos of speakers like Steve Jobs, Sundar Pichai etc.

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks	
	Practical	ESE	IA	CSE	Viva		Term Work
2 Hours		00	30	20	25	25	100

1. **IA will consist of the following components (30 marks):**
 - a. **Assignments (20 Marks):** Students will prepare three oral assignments.
 - b. **In-Class Participation (10 Marks)**
2. **CSE (20 marks):**
 - a. **(Term End Simulation):** Students will carry out simulated tasks at the end of the semester. It would comprise individual and group tasks.
3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.
4. **Term Work (25 Marks):**
 - a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	FINANCIAL ACCOUNTING-II
COURSE CODE	04BC0201
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Address advanced accounting issues of partnership firm
- Learn the application of Garner vs. Murray rule
- Understand the difference between hire purchase and installment purchase transactions
- Classify the branches and do the accounting accordingly
- Demonstrate knowledge of the concept of Ex-interest and Cum-interest

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	RECONSTITUTION OF PARTNERSHIP FIRM Accounting issues related to Admission, Retirement and Death of a Partner – Preparation of Revaluation account – Calculation of Goodwill : Average profit method, Super profit method, Annuity method, Capitalisation method	10
II	DISSOLUTION OF PARTNERSHIP FIRM Preparation of Realisation account – Settlement of accounts – Piecemeal distribution: Maximum loss method and Proportionate capital method – Insolvency of partner during piecemeal distribution (Garner vs. Murray rule)	12
III	ACCOUNTING FOR HIRE PURCHASE Meaning – Difference between Hire purchase and Installment purchase – Calculation of missing details when cash price or rate of interest is not given – Accounting for hire purchase transactions –Default and repossession	08
IV	ACCOUNTING FOR BRANCHES Meaning – Classification of Branches –Accounting for dependant branches – Accounting for independent branches	10
V	INVESTMENT ACCOUNTS Meaning – Classification of investments – Calculation of purchase price – Disposal of investments – Preparation of Investments account – Calculation of ex-interest and cum-interest	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Business Statistics
COURSE CODE	04BC0205
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Address advanced accounting issues of partnership firm
- Learn the application of Garner vs. Murray rule
- Understand the difference between hire purchase and installment purchase transactions
- Classify the branches and do the accounting accordingly
- Demonstrate knowledge of the concept of Ex-interest and Cum-interest

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Basic Concepts Basics of Statistics Introduction. Definition of Statistics, Application of Statistics in Business, Economics and Industry. Presentation of Data Data collection methods (Primary Vs Secondary, Population Vs Sample), Classification and Tabulation of Quantitative Data , Frequency distribution and Cumulative frequency distribution, Graphical Presentation of data - Histogram, Polygon and Ogive , (Use of MS-Excel to create Frequency Distribution and Graphs)	08
II	Univariate Analysis Descriptive Measures (Central Tendencies and Variation) Meaning of Central Tendency. Central tendencies – Arithmetic mean, Mode, Median and Percentiles, Variation – Range, Variance and Standard Deviation of ungrouped and grouped data. Coefficient of Variation (CV), Choice of good measures. (Use of MS Excel Statistical function to find descriptive	12
III	Theory of Probability Counting rule($m*n$ rule), Permutation and Combination (Use of MS Excel to compute permutation and combination)	08

	Definition, Basic terminology of Probability, Three approaches of assigning probability (Classical, Relative Frequency and Subjective approach), Rules of probability- Addition rule and Multiplication rule for independent and dependent events.	
IV	Probability Distribution Random variable, probability distribution and mathematical expectation Discrete Probability Distribution: Binomial distribution, Poisson distribution Continuous probability Distribution: Normal Distribution – Properties and Applications (Use of MS Excel Statistical function to compute Binomial, Poisson and Normal probability)	10
V	Bivariate Analysis Correlation and Regression Analysis Meaning of correlation, types of correlation, method of correlation – Karl Pearson’s coefficient of correlation, Meaning of Regression, regression coefficients and two lines of regression, use of regression in prediction. (Use of MS Excel Statistical Function to compute correlation and regression)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Applications Of Spreadsheet
COURSE CODE	04LS0212
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- Able to perform routine organizational tasks using Spreadsheets.
- Can be able to understand about pivot tables and how to use it for routine purpose.
- Able to manage spreadsheet and be able to compare data in to different spreadsheet.
- Create a dynamic spreadsheet.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Manage Worksheet Data, Reorder and Summarize Data Understanding software for spreadsheet, learning basic menu items, Basic operations like create, open and save a file, worksheets and workbooks, Renaming Inserting Data in proper tabular format, Basic formatting like changing fonts, size, merging and splitting cells, Coloring cells, conditional formatting	06
II	Functions & Formulas Basic Arithmetic Functions , Conditional Functions, Lookup Functions, Sorting and Filtering Data, Paste Special, Data Validation, Converting Text to Table, Working with multiple sheets	09
III	Data Analysis and Printing Analyze data dynamically by using PivotTables , Filter, show, and hide PivotTable data, Edit PivotTables, Format PivotTables, Create PivotTables from external data, create dynamic charts by using Pivot Charts, Page Setup and Printing	09

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Macroeconomics
COURSE CODE	04LS1203
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend why household, business, government and global behavior determine the aggregate demand for goods and services.
- Understand the basics of national income accounting.
- Apply economic reasoning to understand the operation of an economy.

Course Contents:

Unit No	Unit/Sub-unit	Sessions
I	Introduction to Macroeconomics & National Income Nature and Scope of Macroeconomics, Circular Flow of Income and National Income Accounting, Concepts of GDP and NDP - Sectoral Composition of National Income - GDP measured at Factor Price and Constant Prices- Concept of GNP and NNP, Factor Cost and National Income-Per Capita income, Disposable Income and Personal Disposable Income- Measurement of National Income – Difficulties in measuring National Income	10
II	Keynesian Economic Theory Say's Law of Market and its criticism by Keynes. Simple Keynes Model of Income Determination. Concepts of Consumption Function, Saving Function and Investment Function. Average Propensity to consume, Marginal Propensity to Consume, Investment Multiplier–Marginal Efficiency of Capital and factors affecting MEC.	10
III	Money Supply and Central Bank Meaning and Evolution of Money- Definition of Money- Functions of Money – Demand for Money - Quantity Theory of Money- Fisher's Equation of	10

	Exchange-Cambridge Theory. Supply of Money – Determinants of Money Supply- Components of Money Supply- RBI’s Approach-M1, M2, M3, M4.	
IV	Business Cycle & Inflation Concepts of Business cycle – Four phases of Business Cycle – Interest rate – Loanable fund Theory and Liquidity preference theory- Motives for liquidity preference--Transaction Motive, Precaution Motive, Speculative Motive. Factors affecting interest Rate, Inflation-Meaning, Types, Causes, Effects- Inflation and Investment.	10
V	Open Economy Macroeconomics Balance of Payments –Meaning and assessment, Balance of payment and disequilibrium causes and remedies. Introduction to Foreign Exchange Rates- Fixed V/s Flexible foreign exchange rates. Exchange rate determination.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	III
COURSE TITLE	Cost Accounting - I
COURSE CODE	04BC0301
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Students will understand how to bifurcate the cost based on different classification
- Students will acquaint with various methods involved in cost ascertainment.
- Interpret the impact of the selected costs method
- Identify the specifics of different costing methods

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO COST ACCOUNTING Understanding of Cost, Costing, Cost Accounting and Cost Accountancy – Difference between Cost, Expense and Loss – Objectives of Cost Accounting– Elements of Cost – Fundamental understanding of Cost Unit, Cost Center, Cost Object, Cost Ascertainment & Cost Estimation – Methods and Techniques of Cost accounting – Advantage and Limitations of Cost Accounting – Classification of cost – Comparison between Financial Accounting and Cost Accounting	10
II	ELEMENTS OF COST (DIRECT EXPENSE) MATERIAL Meaning of Material (Direct & Indirect) – Material Control (Inventory Control) – Techniques of Inventory Control – EOQ – ABC Analysis – Setting Stock Levels – Treatment of Material losses – Normal loss and Abnormal loss – Accounting treatment for waste, scrap, spoilage & defectives	10
III	LABOUR Meaning & Types of Labour (Direct & Indirect) – Timekeeping – Time booking - Idle Time – Overtime – Labour Turn Over. Methods of Remuneration - Time Rate System – Piece Rate System – Incentive – Halsey plan – Rowan Plan- Taylor’s differential Piece Rate System and Merrick’s Differential Piece Rate System –	10

	Gantt's task and bonus plan – Emerson's Efficiency plan	
IV	ELEMENTS OF COST (INDIRECT EXPENSE) Meaning Definition and Classification of Overheads — Allocation of Overheads – Apportionment of Overheads – Primary & Secondary Overhead Distribution Summary – Repeated Distribution Method – Simultaneous Equations Method – Absorption of Overheads – Under & Over Absorption – Methods of Absorption – Treatment of Absorption – Machine Hour Rate	10
V	Unit Costing Meaning of Unit Costing – Preparation of Cost Sheet - Estimated Cost Sheet – Treatment of Raw- Material, Work in Progress and Closing Stock in Cost Sheet – Treatment of scrap	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

PROGRAM	Bachelors Of Commerce
SEMESTER	V
COURSE TITLE	Tally ERP 9.0
COURSE CODE	04BC1507
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Course Outcomes:

- Gain complete knowledge of Tally software, theoretically as well as practically.
- Generate various reports and statements using Tally.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	<p>Computerized Accounting Systems using Tally ERP 9</p> <p>Fundamentals of Tally ERP 9 Need of Computerized Accounting – Components of Gateway of Tally – Keyboard Conventions – Closing Tally ERP 9 – Creation of a company – Selection of a Company – Shut a Company – Alteration of Company Details in Tally ERP 9 – Highlights of Features and Configurations in Tally ERP 9.</p> <p>Inventory Management in Tally ERP 9 Meaning of Inventory and Inventory Management – Inventory Master Creation in Tally ERP 9: Creation of Stock Group, Stock Item, Godown and Unit of Measurement – Defining stock opening balance in Tally ERP 9</p> <p>Maintaining Chart of Accounts in Tally ERP 9 Creation of Accounting Ledgers and Groups – Altering, Displaying and Deleting Ledgers and Groups – Defining Ledger opening balance in Tally ERP 9</p> <p>Recording of Day to Day Transactions in Tally ERP 9 Meaning of Source Document or Voucher – Accounting Vouchers: Contra Voucher, Payment Voucher, Receipt Voucher, Purchase Voucher, Sales Voucher, Credit Note Voucher, Debit Note Voucher, and Journal Voucher</p>	14
II	<p>Getting started with GST in Tally ERP 9 Introduction – Enabling GST and Defining Tax Details – Accounting of Supply of Goods: Intrastate Inward and Outward Supply of Goods, Interstate Inward and Outward Supply of Goods, Purchase and Sales Return of Goods – Accounting of Supply of Services: Intrastate Inward and Outward Supply of Services and Interstate Inward and Outward Supply of Services.</p>	08

III	Generating Reports in Tally ERP 9 MIS Reports - <ul style="list-style-type: none"> • Accounting Reports - Statements - Trial Balance, Profit and Loss Account, Balance Sheet , Cash Flow Statement and Fund Flow Statement -Books and Registers - Day Book, Receipts and Payments , Bills Receivable, Bills Payable , Purchase Register and Sales Register • Inventory Reports Stock Summary ,Stock Transfer , Movement Analysis: Stock group and Stock Item Analysis 	02
-----	---	----

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

		Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.E.C.)
B	Internal Assessment(Practical)	30% (I.A.)
C	End-Semester Examination(Practical and VIVA with 50% Weightage for each)	50% (External Assessment)

SUGGESTED READINGS:

PROGRAM	Bachelors Of Commerce
SEMESTER	VI
COURSE TITLE	Financial Markets and Services
COURSE CODE	04BC0604
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand procedures of raising capital from primary market and awareness about various legal aspects in Public Issue Management.
- Have knowledge of functionality of secondary market operations and the role of different players in the market
- Capture essence of various fund based and fee based financial services
- Understand legal and regulatory aspects of financial services in India

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction Financial Markets: Introduction, Functions Classification, Role of Financial Market in Economic Development, Capital Market, Money Market, Introduction, Concept, Role, Importance, Evolution process in India, Financial Services: Meaning, importance, Types of financial services, Financial services and economic environment.	10
II	Primary Market Meaning, Functions, Different Participants, Public Issue, IPO, FPO, Right Issue, Private Placement, Offer for sale, IPO Mechanism, Pricing of IPO, Fixed pricing, Book Building and Auctions.	9
III	Secondary Market Stock Exchange, Functions, Listing Norms, Trading&settlement systems, key participants – brokers, Dealers, Clearing houses, Depositories, Role of SEBI for Investors protection.	9
IV	Fee based Financial Services Merchant Banking, underwriting, Loan Syndication, Stock Broking Services – Meaning, Functions and Mechanism of Services. Credit Rating: Credit rating Agencies, Rating process and Methodology, Rating Symbols and grades. Regulatory frame work.	10
V	Fund Based Financial Services:	10

	Leasing: Concept, Classification, and Mechanism. Hire Purchase: Conceptual Framework, Mechanism, difference between Hire Purchase and Leasing. Factoring and forfeiting: Introduction, theoretical Frame work, factoring in India, Mutual fund: introduction, Products/Schemes. Venture Capital: Introduction, theoretical frame work, Indian Venture Capital Scenario, Private Equity.

PROGRAM	Bachelors Of Commerce
SEMESTER	VI
COURSE TITLE	Production And Operations Management
COURSE CODE	04BC0605
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Understand the relevance of Production and Operations Management
- Apply the techniques of material management and quality management in an organization.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction Meaning, Nature and Scope of Production and Operation Management, Importance of Production Function, Types of production processes, Difference between Manufacturing and Service Operations	08
II	Plant location and Lay out Factors considered in location, Methods to decide location, Layout: Meaning, factors affecting facility layout, principles of layout, Types of Layout.	10
III	Materials Management Importance of Materials Management, Concept of Purchasing, Principles and Process of Purchasing. Types of purchasing, Inventory management, Objectives and Importance of Inventory management, Inventory costs, EOQ- models	10
IV	Methods Study Work Study – Method study and work measurement, objectives of work study, method analysis, motion study, productivity and productivity measurement	10
V	Quality Management Lean Manufacturing, JIT, Kaizen, ISO series, TQM (Only concepts)	10

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	FINANCIAL ACCOUNTING-I
COURSE CODE	04BC0101
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Implement the accounting process from journal entries to trial balance
- Understand the need for uniformity in accounting
- Prepare financial statements of sole-proprietary business

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	BASICS OF BOOK-KEEPING AND ACCOUNTING Introduction to Book Keeping, Accounting and Accountancy – Process of Accounting – Branches of Accounting- Methods of Accounting – Basis of Accounting – Characteristics of Accounting – Functions of Accounting – Users of Accounting Information – Basic Accounting Terms – Classification of Accounts and its Rules – Accounting Equation – Accounting Principles – Accounting Concepts – Accounting Conventions – Fundamental Accounting Assumptions	08
II	OVERVIEW OF INDIAN ACCOUNTING STANDARDS Background of GAAP and IFRS – Introduction to Indian AS: Background, need, applicability, overview of standards (only theory)	06
III	PROCESS OF ACCOUNTING Meaning of Journal – Format of Journal – Single and compound Journal Entries – Difference between Cash Discount and Trade Discount – Meaning of Ledger – Format of Ledger – Balancing of Ledger – Practical problems on Journal and Ledger – Meaning of Trial Balance – Preparation of Trial Balance – Redrafting of Trial Balance – Types of Errors and their Rectification	16
IV	FINAL ACCOUNTS OF SOLE-PROPERITORSHIP: Types of Expenditure – Types of Income – Types of Profit – Meaning of Deferred Revenue Expenditure – Difference between Trial Balance and Balance sheet – Contingent Asset and Contingent Liability – Classification of Assets and Liabilities under different heading -	10

	Difference between Provisions and Reserves –Types of Reserves - Preparation of Final accounts for sole proprietorship for non manufacturing	
V	DEPRECIATION: Meaning - Methods of calculating depreciation (straight line method and written down value) - Method of recording Depreciation (Charging to Asset Account, Creating provision for Depreciation/ Accumulated Depreciation, Treatment of Disposal of Fixed assets.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

Elective

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	BUSINESS MATHEMATICS
COURSE CODE	04BC0102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Solve business problems involving percentage, profit / loss and calculate discount
- Calculate simple and compound interest on investments
- Understand repayments of loan using EMIs
- Structure and solve problems using matrices
- Understand and establish relationship between variables using functions to determine equilibrium

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	RATIO, PROPORTION AND PERCENTAGE Ratio – Definition, Continued ratio, Inverse Ratio Meaning and computation of Percentage and Proportion: Direct proportion, Inverse Proportion and Continued Proportion	08
II	PROFIT AND LOSS, DISCOUNT Profit and Loss – Terms and formulae, percentage profit and percentage loss, Selling price at a profit and loss Discount – Trade discount and Cash discount, Problems involving cost price, selling price and market price	10
III	MATHEMATICS OF FINANCE Introduction, Simple Interest and Compound Interest – Concept and problem solution Future Value (FV) - Annuity: Amount of ordinary annuity, Amount of annuity due Present Value (PV) - ordinary annuity and annuity due Loan Amortization and Equated Monthly Installments (EMIs) - Reducing balance and flat rate of interest	08

	Use of MS Excel	
IV	DETERMINANT AND MATRICES Introduction, Definition, Types of matrices, Algebra of matrices (Addition and Subtraction), Additive Inverse of a matrix, Structure problems in matrix form, Multiplication of matrices (Max 3X3) Determinant of square matrices (2X2 and 3X3), minor of an element, cofactor, adjoint and Inverse of Matrix Solution of system of linear equations using inverse of coefficient matrix Use of MS Excel to calculate determinant and inverse of matrix	14
V	PROGRESSION Progression: Sequence and Series Arithmetic Progression – definition, nth term, sum of n terms, illustrations Geometric Progression - definition, nth term, sum of n terms, illustrations Arithmetic mean and Geometric mean Sum of n-terms and sum of infinite terms in geometric progression	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)

Course: B.Com

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	CAREER READINESS PROGRAM
COURSE CODE	04CR0101
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

Objectives:

- The “*Linguistics for Interpersonal Interaction*” course is designed to make the Learners feel comfortable understanding, thinking and speaking in English.
- Having undergone the training, the Learners will feel confident about his or her own English-speaking skills.

Pre Requisites: None

Course Duration:

- The course duration is of 24 sessions of 60 minutes each.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
Unit I	Phonology: Varieties of Language and Standard English, Phonetics and Phonology - Speech Mechanism and Articulatory Phonetics, English Phonemes. Characterization and Classification of Vowels - Diphthongs and Monophthongs.	6
Unit-II	Syntax and Morphology: Nouns, Pronouns and Determiners - Misconceptions related to usages of noun forms, Using Possessives, Types of Pronouns, General Determiners and Specific Determiners. Verbs and related forms - Types of verbs and their forms, Stative and Dynamic, Lexical and Delexical Adjectives and Adverbs - Word formation, Order of Adjectives, Types of Adverbs Preposition and Phrasal verbs - Preposition of time, Preposition of Movements, Preposition of Place, Phrasal Verbs Conjunctions - Coordinating and Subordinating, Using Conjunctions in formal settings. Present Continuous – Form, Usages, Misconception Present Simple & Simple Past – Form, Usages, Misconception	8
Unit - III	Reading Comprehension: Processing Strategy - Comprehension Strategy, Meta-cognitive Strategy, Prediction and Pre-prediction.	4
Unit - IV	Spoken Discourse: Coherence and Cohesion - Situational	6

	Sociolinguistic interaction, Conversation Practice. Feature of Spoken Discourse - Semantic and Pragmatic Meanings, Conversation Practice (Role Play)	
--	---	--

Learning Outcomes:

After studying this course, student should be able to:

- Articulate phonetics and phonology, Noun, Pronoun, Verb
- Reading and processing comprehension.

Evaluation:

The students will be evaluated on following evaluation scheme:

		Weight age
A	End-Semester Examination	100% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	PRINCIPLES OF MANAGEMENT
COURSE CODE	04LS1102
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Demonstrate their knowledge of business and management principles.
- Get acquainted with management process and functions.
- Comprehend the modern management techniques and its relevance in business.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Introduction to Management Meaning, Nature and Characteristics of Management – Scope of Management - Functional areas - Management as a Science and an Art - Management & Administration – Levels of management & Managerial Skills - Evolution of Management Thoughts - Principles of management - Ethics in Management.	10
II	Planning in Management Need and importance of planning - basic purpose of planning - Planning process, Types of plans - Objectives - Management By Objectives Decision-making Decision making – Nature and importance- types of decisions – process	10
III	Organizing Need for organization - purpose of organization, fundamental principles of organization - Types of organization - Departmentalization, Committees - Centralization Vs decentralization of authority and responsibility Staffing Staffing – Introduction - Need for Staffing - Importance of staffing -Process of staffing	10
IV	Directing Directing – Meaning, nature and importance – Theories of Motivation – Maslow’s, Herzberg’s & McGregor’s Leadership – Introduction - Formal and Informal Leadership – Characteristics – Styles of Leadership - Importance of Communication as a leader	10

	Coordinating Coordination – Introduction - Importance of coordination - Principles of coordination	
V	Controlling Meaning and steps in controlling – Pre-requisites of a strong control system - Methods of establishing control Modern Management Techniques Introduction to various latest management techniques: Business process re-engineering, business outsourcing, benchmarking, kaizen, six sigma, knowledge management, just in time management, total quality management.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	Microeconomics
COURSE CODE	04LS1103
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Apply economic reasoning to the analysis of selected contemporary economic problems.
- Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of goods and services produced and consumed.
- Use economic problem solving skills to discuss the opportunities and challenges of the increasing globalization of the world economy.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	INTRODUCTION TO MICROECONOMICS Meaning and definition of Microeconomics, Nature and scope of Microeconomics, Difference between microeconomics and macroeconomics. Central economic problems of society.	10
II	CONSUMER BEHAVIOUR Utility analysis: Meaning of Cardinal and Ordinal utility. Cardinal Utility: Law of diminishing Marginal utility, Law of Equi-marginal Utility, Ordinal Utility: Indifference curve analysis, properties of indifference curve analysis, Marginal rate of substitution, Budget line and consumer's Equilibrium.	10
III	DEMAND AND SUPPLY ANALYSIS Determinants of demand, law of demand, exceptions to law of demand. Elasticity of demand and its applications: Price elasticity, Income elasticity and cross elasticity. Concept and Law of Supply, Factors Affecting Supply	10
IV	PRODUCTION AND COST ANALYSIS Production Function: Short run and long run production functions, laws of returns, and law of returns to scale. Cost Function: classification of costs, short run and long run cost curves and their interrelationship, Planning curve and envelope curve, internal and external economics of scale,	10

	revenue curves, optimum size of the firm, factors affecting the optimum size	
V	EQUILIBRIUM OF FIRM AND INDUSTRY Perfect competition, monopoly, monopolistic competition, discriminating monopoly, aspects of non-price competition; group equilibrium, excess capacity, selling costs, oligopolistic behavior.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	I
COURSE TITLE	Computer Essentials
COURSE CODE	04LS1107
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Draft Document / Worksheet and Presentation
- Understand the Computer Hardware and Software Fundamentals
- detail some of the problems that are encountered when developing documents and worksheets
- describe briefly some of the technologies that are used to support online applications

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	COMPUTER BASICS Data- Instruction and Information-Characteristics of Computers- Various fields of application of Computers- Input-output Devices (Hardware- Software- Human ware and Firmware)-Advantages and Limitations of Computer- Block Diagram of Computer- Function of Different Units of Computer- Classification of Computers. Data Representation-Different Number System (Decimal- Binary- Octal and hexadecimal) and their Inter Conversion.	10
II	COMPUTER SOFTWARE Types of Software- Application software and system software- Compiler and Interpreter-Generations of languages-Low and High Level Languages-Computer Memory: Primary Memory &Secondary memory. Cache memory-optical memory-Storage Media. Introduction to Operating System-All Directory Manipulation- Creating Directory- Sub Directory- Renaming-Coping and Deleting the Directory File Manipulation-Creating a File-Deleting- Coping- renaming a File Using accessories such as calculator- paint brush- CD player etc.	10
III	INTRODUCTION TO MS- OFFICE (WORD) Introduction to Word Processing- Features - Formatting Documents- Paragraph Formatting- Indents- Page Formatting- Header and Footer- Bullets and Numbering- Tabs- Tables- Formatting the Tables- Finding and Replacing Text-Mail Merging etc..	10

IV	INTRODUCTION TO MS- OFFICE (EXCEL) Introduction to Electronic Spreadsheets - Feature of MS-Excel- Entering Data- Entering Series- Editing Data- Cell Referencing- ranges- Formulae- Functions- Auto Sum- Copying Formula- Formatting Data- Creating Charts- Creating Database- Sorting Data- Filtering etc.	10
V	INTRODUCTION TO MS- OFFICE (POWERPOINT) PowerPoint - Features of MS PowerPoint Clipping- Slide Animation- Slide Transitions- Slide Shows- formatting etc.- Creating formal presentations- inserting different objects- arts- charts- pictures etc. to slide.	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

List of Journals/Periodicals/ Magazines/ Newspapers etc.

The Students will have to refer to past issues of the following journals in order to get relevant topic/ information pertaining to the subject.

1. Computer and Education – Elsevier
2. Journal of Computers

Elective I: BBA, BBA (Hon.) & B. Com. Reading and Writing for Business

Subject Code:04SL0102

Credit: 2

Semester: 1

Course Description

The course will inculcate skills of formal reading and writing for business among the students. Good reading skills play a vital role in decision making in response to a proposal or a report. Formal writing, on the other hand, enables one to express one's ideas, plans, aims and objectives on paper. The course will offer a number of classroom activities, assignments and tasks to ensure the inculcation of the aforesaid skills among the students.

Course Objectives

The course will enable the students:

1. to read and interpret formal business writings such as reports, articles and reviews;
2. to know structures of formal business letters and reports;
3. to write formal business letters and reports;
4. to inculcate a taste for reading and writing habits pertaining to the world of business.

Unit 1: Introduction to business world

1. Reading a business case-study – “Tripping Along” by Deep Kalra from *Stay Hungry Stay Foolish*
2. Reading 3 business articles (general in nature) from the newspapers/magazines

- I. "Paytm: the wonder wallet" from Forbes India.
- II. "Millennials: How They Live and Work" from Gallup.
- III. "The Right Culture: Not About Employees Happiness" from Gallup.

Recommended Reading

Kalra, Deep. "Tripping Along." *Stay Hungry Stay Foolish*, edited by Rashmi Bansal, IIM Ahmedabad, 2008, pp. 130-143.

Unit 2: Reading and writing for business

1. Reading business letters (of sales, inquiry, order, complaint, and adjustment)
2. Writing business letters (Any two types)
3. Reading a few short business reports
4. Writing a short business report

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks	
	Practical	ESE	IA	CSE	Viva		Term Work
2 Hours		00	30	20	25	25	100

1. IA will consist of the following components (30 marks):

- a. **Assignments (20 Marks):** Students will prepare three assignments as following.

- 1) Letter: Write three letters on the given subjects (10 Marks)
- 2) Article: Write a business article on the given theme (05 Marks)
- 3) Report: Write a report on the given subject (05 Marks)

- b. **In-Class Participation (10 Marks)**
- 2. **CSE (20 marks):**
 - a. **(Term Paper):** Students will write a paper on the given topic.
- 3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.
- 4. **Term Work (25 Marks):**
 - a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

5. Lesikar R., Flatley M., Rentz K., Pande N., *Business Communication*. 11th ed., Tata MacGraw-Hill, 2009.

Elective II: BBA, BBA (Hon.) & B. Com.

Speaking and Presentation Skills

Subject Code: 04SL0103

Credits: 02

Semester: 1

Course Description

The course intends to make students confident in speaking in English with the help of various language functions. It also focuses on developing students' presentation skills.

Course Objectives

The course will enable students

1. to share information on familiar matters/issues in English;
2. to make effective presentations in English;
3. to gain confidence in speaking in English.

Unit 1: Speaking/Interacting in an Academic Context

1. Greetings
2. Introducing self and peers
3. Asking and sharing information
4. Expressing points of view
5. Discussions
6. Facing viva voce
7. Group discussions
8. Facing an interview (interview skills)

Unit 2: Effective Presentation Skills

1. Introduction to effective presentation skills
2. Preparing the presentation (Collection of Data/Information, exploring the topic etc.)

3. Using ICT for the presentation
4. Getting ready for the presentation
5. Effective body language
6. Effective pronunciation
7. Interacting with the audience (Q & A)
8. Practice (with video recording)
9. Feedback and Suggestions

Recommended Readings/ Viewings

- Select TED Talks
- Select INK Talks
- Select Toastmasters Videos
- Select Courtroom Dramas
- Select Videos of speakers like Steve Jobs, Sundar Pichai etc.

Teaching Scheme

Teaching Scheme (Hours per week)	Evaluation Scheme					Total Marks	
	Practical	ESE	IA	CSE	Viva		Term Work
2 Hours		00	30	20	25	25	100

1. **IA will consist of the following components (30 marks):**
 - a. **Assignments (20 Marks):** Students will prepare three oral assignments.
 - b. **In-Class Participation (10 Marks)**
2. **CSE (20 marks):**
 - a. **(Term End Simulation):** Students will carry out simulated tasks at the end of the semester. It would comprise individual and group tasks.
3. **Viva (25 Marks):** Viva will be conducted at the end of the semester. It will be based on the CSE, Term Work, Assignments and topics covered in the syllabus.
4. **Term Work (25 Marks):**
 - a. **(Term-End Presentation):** Students will make a presentation based on topics provided by the faculty, at the end of the semester.

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	FINANCIAL ACCOUNTING-II
COURSE CODE	04BC0201
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Address advanced accounting issues of partnership firm
- Learn the application of Garner vs. Murray rule
- Understand the difference between hire purchase and installment purchase transactions
- Classify the branches and do the accounting accordingly
- Demonstrate knowledge of the concept of Ex-interest and Cum-interest

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	RECONSTITUTION OF PARTNERSHIP FIRM Accounting issues related to Admission, Retirement and Death of a Partner – Preparation of Revaluation account – Calculation of Goodwill : Average profit method, Super profit method, Annuity method, Capitalisation method	10
II	DISSOLUTION OF PARTNERSHIP FIRM Preparation of Realisation account – Settlement of accounts – Piecemeal distribution: Maximum loss method and Proportionate capital method – Insolvency of partner during piecemeal distribution (Garner vs. Murray rule)	12
III	ACCOUNTING FOR HIRE PURCHASE Meaning – Difference between Hire purchase and Installment purchase – Calculation of missing details when cash price or rate of interest is not given – Accounting for hire purchase transactions –Default and repossession	08
IV	ACCOUNTING FOR BRANCHES Meaning – Classification of Branches –Accounting for dependant branches – Accounting for independent branches	10
V	INVESTMENT ACCOUNTS Meaning – Classification of investments – Calculation of purchase price – Disposal of investments – Preparation of Investments account – Calculation of ex-interest and cum-interest	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)
B	Internal Assessment	30% (I.A.)
C	End-Semester Examination	50% (External Assessment)

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Business Statistics
COURSE CODE	04BC0205
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Address advanced accounting issues of partnership firm
- Learn the application of Garner vs. Murray rule
- Understand the difference between hire purchase and installment purchase transactions
- Classify the branches and do the accounting accordingly
- Demonstrate knowledge of the concept of Ex-interest and Cum-interest

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Basic Concepts Basics of Statistics Introduction. Definition of Statistics, Application of Statistics in Business, Economics and Industry. Presentation of Data Data collection methods (Primary Vs Secondary, Population Vs Sample), Classification and Tabulation of Quantitative Data , Frequency distribution and Cumulative frequency distribution, Graphical Presentation of data - Histogram, Polygon and Ogive , (Use of MS-Excel to create Frequency Distribution and Graphs)	08
II	Univariate Analysis Descriptive Measures (Central Tendencies and Variation) Meaning of Central Tendency. Central tendencies – Arithmetic mean, Mode, Median and Percentiles, Variation – Range, Variance and Standard Deviation of ungrouped and grouped data. Coefficient of Variation (CV), Choice of good measures. (Use of MS Excel Statistical function to find descriptive	12
III	Theory of Probability Counting rule($m*n$ rule), Permutation and Combination (Use of MS Excel to compute permutation and combination)	08

	Definition, Basic terminology of Probability, Three approaches of assigning probability (Classical, Relative Frequency and Subjective approach), Rules of probability- Addition rule and Multiplication rule for independent and dependent events.	
IV	Probability Distribution Random variable, probability distribution and mathematical expectation Discrete Probability Distribution: Binomial distribution, Poisson distribution Continuous probability Distribution: Normal Distribution – Properties and Applications (Use of MS Excel Statistical function to compute Binomial, Poisson and Normal probability)	10
V	Bivariate Analysis Correlation and Regression Analysis Meaning of correlation, types of correlation, method of correlation – Karl Pearson’s coefficient of correlation, Meaning of Regression, regression coefficients and two lines of regression, use of regression in prediction. (Use of MS Excel Statistical Function to compute correlation and regression)	08

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Applications Of Spreadsheet
COURSE CODE	04LS0212
COURSE CREDITS	02
COURSE DURATION	24 Hrs (24 sessions of 60 minutes each)

COURSE OUTCOMES:

- Able to perform routine organizational tasks using Spreadsheets.
- Can be able to understand about pivot tables and how to use it for routine purpose.
- Able to manage spreadsheet and be able to compare data in to different spreadsheet.
- Create a dynamic spreadsheet.

Course Contents:

Unit No	Unit / Sub Unit	Sessions
I	Manage Worksheet Data, Reorder and Summarize Data Understanding software for spreadsheet, learning basic menu items, Basic operations like create, open and save a file, worksheets and workbooks, Renaming Inserting Data in proper tabular format, Basic formatting like changing fonts, size, merging and splitting cells, Coloring cells, conditional formatting	06
II	Functions & Formulas Basic Arithmetic Functions , Conditional Functions, Lookup Functions, Sorting and Filtering Data, Paste Special, Data Validation, Converting Text to Table, Working with multiple sheets	09
III	Data Analysis and Printing Analyze data dynamically by using PivotTables , Filter, show, and hide PivotTable data, Edit PivotTables, Format PivotTables, Create PivotTables from external data, create dynamic charts by using Pivot Charts, Page Setup and Printing	09

Evaluation:

The students will be evaluated on a continuous basis and broadly follow the scheme given below:

	Component	Weight age
A	Continuous Evaluation Component (Assignments / Presentations/ Quizzes / Class Participation/ etc.)	20% (C.S.E.)

PROGRAM	Bachelors Of Commerce
SEMESTER	II
COURSE TITLE	Macroeconomics
COURSE CODE	04LS1203
COURSE CREDITS	04
COURSE DURATION	48 Hrs (48 sessions of 60 minutes each)

COURSE OUTCOMES:

- Comprehend why household, business, government and global behavior determine the aggregate demand for goods and services.
- Understand the basics of national income accounting.
- Apply economic reasoning to understand the operation of an economy.

Course Contents:

Unit No	Unit/Sub-unit	Sessions
I	Introduction to Macroeconomics & National Income Nature and Scope of Macroeconomics, Circular Flow of Income and National Income Accounting, Concepts of GDP and NDP - Sectoral Composition of National Income - GDP measured at Factor Price and Constant Prices- Concept of GNP and NNP, Factor Cost and National Income-Per Capita income, Disposable Income and Personal Disposable Income- Measurement of National Income – Difficulties in measuring National Income	10
II	Keynesian Economic Theory Say's Law of Market and its criticism by Keynes. Simple Keynes Model of Income Determination. Concepts of Consumption Function, Saving Function and Investment Function. Average Propensity to consume, Marginal Propensity to Consume, Investment Multiplier–Marginal Efficiency of Capital and factors affecting MEC.	10
III	Money Supply and Central Bank Meaning and Evolution of Money- Definition of Money- Functions of Money – Demand for Money - Quantity Theory of Money- Fisher's Equation of	10

	Exchange-Cambridge Theory. Supply of Money – Determinants of Money Supply- Components of Money Supply- RBI’s Approach-M1, M2, M3, M4.	
IV	Business Cycle & Inflation Concepts of Business cycle – Four phases of Business Cycle – Interest rate – Loanable fund Theory and Liquidity preference theory- Motives for liquidity preference--Transaction Motive, Precaution Motive, Speculative Motive. Factors affecting interest Rate, Inflation-Meaning, Types, Causes, Effects- Inflation and Investment.	10
V	Open Economy Macroeconomics Balance of Payments –Meaning and assessment, Balance of payment and disequilibrium causes and remedies. Introduction to Foreign Exchange Rates- Fixed V/s Flexible foreign exchange rates. Exchange rate determination.	08
