Namaste all,

The year 2020 has taught us many things in life and we all have started living our lives in a different way. We always knew it but year 2020 has shown us right in the face the significance of staying fit and healthy. Healthy lifestyle and exercise are imperative during such harsh times.

To encourage everyone, we had arranged **Cycle to Work activity once** (which will be repeated). With the immense response and conversations then, it occurred to us that many of the teammates are interested in cycling to work regularly but are hesitant, scared, in dilemma)

Few of us have started cycling regularly and we are there to assist you, accompany you till you get habituated. We invite and encourage all the interested colleagues to join us

- It just takes a few more minutes to reach the university as compared to car/bike.(Given under bridge/over bridge construction plan at Madhapar, cycling will be a blessing )
- It is safe (if we follow the safety guidelines) and a memorable experience, to do cycling in a group.
- It will take just one week to get habituated.
- It is meditative in nature and you feel fresh on reaching back home rather than tired

If you need support or guidance feel free to contact: Prof Prashant Ujeniya, Prog Dhaiwat Trivedi, Prof Vivek Patel in Mechanical Engineering Department

For team
