Event	MU Fest 2022
Organised By	Faculty of Computer Applications, Marwadi University
Date	1 st – 2 nd April, 2022
Welcome speech by	Prof. (Dr.) Sandeep Sancheti
Brief	<p>MU Fest - the extravagant tradition of Marwadi University took place on 1st and 2nd April, 2022. The fest exhibiting the technical and non-technical skills of the students through 43 different competitions, was on a halt for the last two years due to the pandemic. However, this year, subsequent to better social conditions and reduced government restrictions, MU Fest 2022 was organized by the Faculty of Computer Applications exclusively for the students of Marwadi University. The MU Fest is majorly coordinated by more than 500 student volunteers. Students were involved right from the marketing of the event till the organization of the events.</p> <p>Approximately 4000 students registered in the competitions and more than 6000 students witnessed the competitions. These 43 competitions included technical contests like RoboComp, GoDrone, Technical/ IT Quiz, Streaking, Incredible Explorers and Tech Jumanji along with non-technical contests like Banging Beats, Singing, Agar Art, Mono Act, Squid Games, LAN Gaming and IPL Auction.</p> <p>The competitions along with some fun activities continued for both the days. The students did not hold back to showcase their talents. A total of 361 winners were announced. All the achievers were awarded a trophy, a certificate and cash prizes (total of the cash prizes amounting to approximately ₹ 3,00,000).</p> <p>Provost of the university, Prof. (Dr.) Sandeep Sancheti, appreciated the efforts taken by the Faculty of Computer Applications for the MU Fest 2022. He also provided the glimpses of various technical and non technical events and advised to take them to the next level by converting some of the take-aways for generating research grants or by collaborating with suitable industries.</p> <p>The fest ended on a joyous note on the evening of April 2, 2022 with innumerable smiles and cheers.</p>

Heartfulness Relaxation & Meditation 3 days Workshop for Housekeeping Staff at Marwadi University on 27, 28 and 29th of May 2022

The Heartfulness Institute as per the permission granted by the Management, conducted three days event in our institute, giving live demos of meditation and its effect on our system as well as other aspects and ways of meditation. The event was organized on 27, 28 and 29th of May 2022 in the college premises for the House Keeping Staff, though a few foreign students also joined the event. The programme was attended by over 120 participants from Housekeeping side and 06 nos. of foreign students. The programme was in Gujarati but the students were explained in English, who were very enthusiastic for the meditation.

First day i.e. on 27th May 2022, the team of the Heartfulness consisting Br. Nilesh Pandya, Meditation Trainer, Br Tushar Chanpura as speaker and other volunteers conducted the practical relaxation and meditation for Housekeeping Team of our institute. The session was for 45 minutes consisting of video, explanation and practical relaxation and meditation.

Session1 of Heartfulness Relaxation and Meditation

Session 2 of Heartfulness Relaxation and Meditation

Second day the 28th May 2022, the subject was explained with the help of videos, explanation and practical relaxation and meditation. The emphasis was given on how to keep the mind free of deviating thoughts and how to keep the heart pure by removing all negativity and keeping oneself in good and calm mood.

Session2 of Heartfulness Relaxation and Meditation

On the Third day i.e. 29th May 2022, the session was for 45 minutes consisting of video, practical relaxation and meditation along with the explanation of importance of Prayer and how to offer the prayer, purpose of human life, duty towards self and Self.

Thus on all the three days practical meditation and relaxations were conducted and the participants were made to understand how the self-regulation helps in our day-to-day activities. All participants expressed happiness and gratitude also for our concern towards them.

Session 3 of Heartfulness Relaxation and Meditation

After the three days sessions, on the request of participants, weekly meditation is being conducted on every Sunday in which the meditation sessions are being conducted, as the Heartfulness philosophy believes that all that we want outside has to be created within - be it peace or love or concern, caring whatever for which a living being yearns. The only method it adopts to achieve this, is Meditation which is of three types -

Meditation to experience divinity in our Heart,

Meditation to cleanse our heart of all that is not required for our upliftment and

Prayer Meditation on the Heart to get rid of our uncontrolled urge to fulfill our desires.

The Heartfulness does not propagate any kind of worship to any form of God, but guides humanity to seek the God in one's heart. Though the Heartfulness institute is a spiritual organization, but also makes various efforts in the field of education, bringing harmony in the society, trying to help the humanity in breaking all kind of differences of caste, creed, colour, religion, gender, nationality etc.

In the field of Yoga and environment, it has started a grand programme in Telangana by making a meditation hall big enough for over one lakh people to meditate together. Thousands of trees have been planted and transplanted which were uprooted for different reasons in nearby districts in the Kanha Shanti Vanam – the World Headquarters.

Thousands of aspirants are being trained for these purposes. The Institute has its branches in more than 160 countries and counting. The institute is in collaboration with various organizations of United Nations. The Institute works silently just like its teaching of bring peace in once heart by sitting silently and invoking the Divine within. The Heartfulness organization does not charge any fee for spiritual activities and imparting spiritual trainings.

The volunteers of the Heartfulness organization have expressed their willingness to conduct more practical sessions for the benefits of our students and staff and for their families.

Introductory Workshop on Heartfulness Relaxation & Meditation on 4 May, 2022

The Heartfulness Rajkot conducted an introductory session of Meditation named Relaxation on 4/5/2022. The team of the Heartfulness consisting Dr. Vivek Sharma, Dean – Academics and Professor, HOD-Physiology, AIIMS, Rajkot, sister Bharti, Br. Sanjay and Dr. Archana Sharma. The session was conducted by Dr, Vivek with the help of device he had bought with him to show the practical effect of relaxation on our nervous system.

2. Dr. Vivek called a student from the group of attendees. Mr. Richardson obliged by presenting himself. The device was put on his wrists and was attached to the laptop to record his nervous system. The whole process took about 10 minutes. Thereafter, Dr. Vivek called Ms Maya from girls section. She also underwent the whole process as a volunteer.

3. After both the students finished their process, a recorded relaxation was played from the youtube.com as heartfulness relaxation for about 10 minutes, during which all students took part by closing eyes and following the instruction conveyed in the relaxation.

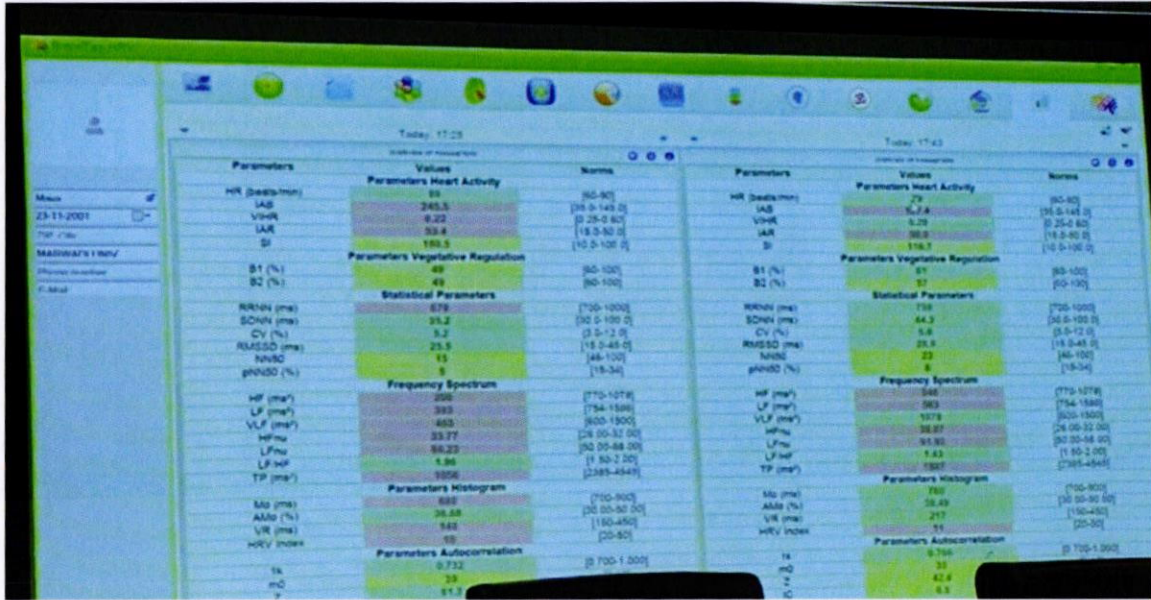

4. Dr. Vivek explained what is the importance of relaxation in terms of brain's capacity and for the heartbeat etc. How the relaxation provides a small gap in the thought process which otherwise goes on uninterrupted in our mind right through all the waking hours and disturbs our sleep. He explained how breaking this unbroken chain of thought process gives us time to understand the thoughts and allows us to take right decision. He gave examples of various scientists who have made revolutionary discoveries in the field of brain and its activities. He showed various slides to explain his point. And also shown various brain mapping slides how a relax brain looks in the app.

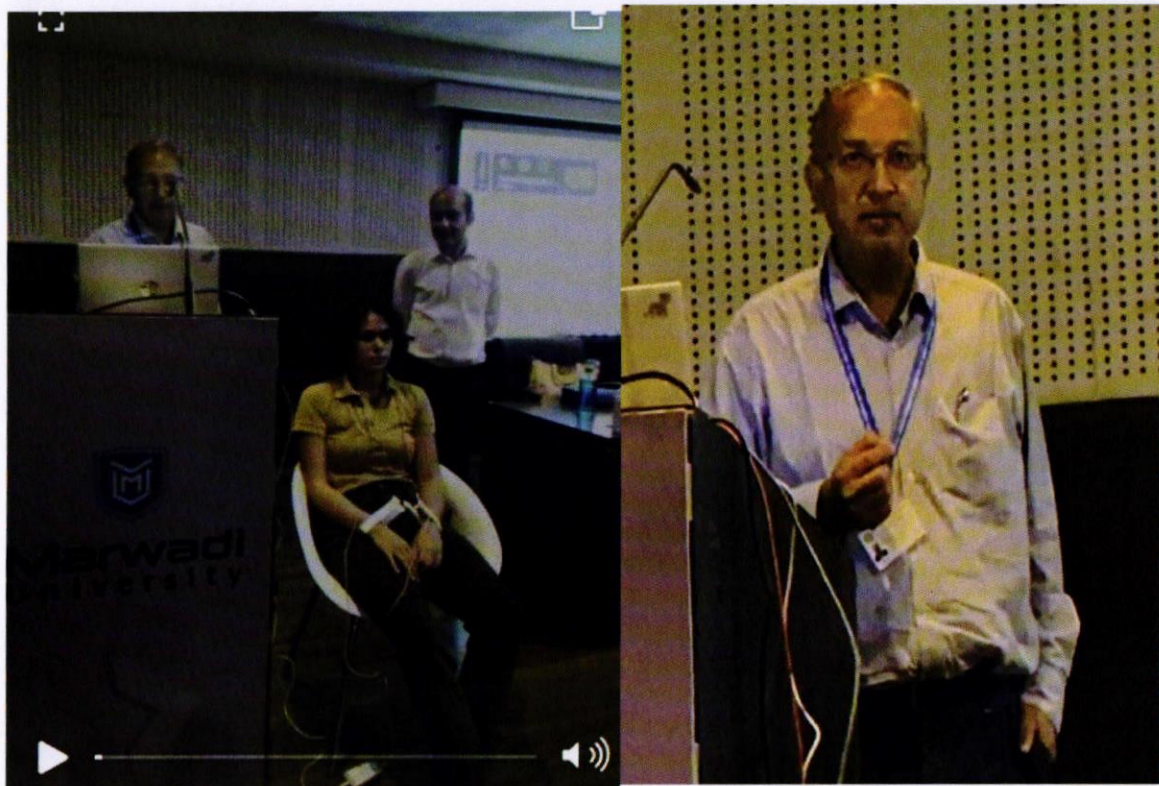

5. In the end, he, with the permission of Ms Maya, showed her graphs on the screen, that was captured earlier in the system. He showed the condition before the relaxation and explained how her heart rate was going on and what various factors were working in her brain. He then showed her brains condition after the relaxation session and the results were astonishing as every one was surprised and even Ms Maya could only agree that after the relaxation she was in a far better condition than the before one. Dr. Vivek explained to her. And he also told that all this changes came in only 10 minutes of relaxation even though the

paracetamol which is widely used to bring down all these takes at least 30-40 minutes.

6. While, Mr. Richardson's graph was quite surprising to Dr. Vivek who told that even though his brain and heartbeat were noted before the relaxation, but his conditions were very constant and calm. Mr. Richardson later revealed that he is practicing some kind of meditation in the morning hours everyday. Thus he also proved that meditation even done in small duration gives whole days benefits.

7. Dr. Vivek then explained the meditation technique under the Heartfulness system and offered to one and all claiming that this will not only calm us but also energized us to meet the challenges we face in today's world. He emphasized on the youth's role in the coming times who should be more aspiring to be perfect and mentally capable to be successful in life.

8. In the end, Mr. Richardson, few other students shared their views on the session. In short everyone was surprised how the thought process takes a toll on our brain and body, and how easily with this 10 minutes relaxation we can rejuvenate ourselves and make the body and brain more comfortable to make better of ourselves.

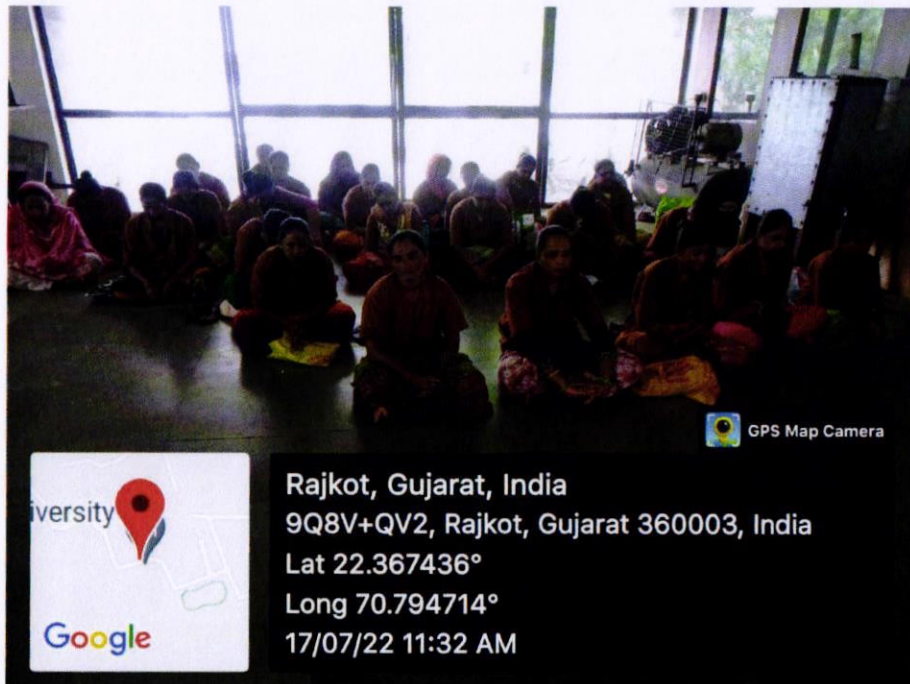

9. From faculty side Ms Chaitali and I took part while Shri Prof. Mukesh Ambwani from Learning and Department.

The discussion went on till 7:15 pm.

NSS PROGRAM OFFICER'S MESSAGE

TOGETHER WE MAKE IT HAPPEN

We, the members of the NSS unit proudly present our first newsletter which not only showcases the efforts and activities put in by this unit to create a sustainable and pragmatic environment but also the multifaceted aptitude of the students of NSS.

The national service scheme (NSS) is an Indian government-sponsored public service program conducted by the ministry of youth affairs and sports of the government of India. While keeping in mind the NSS motto "**Not me but you**", NSS MEFGI has done some splendid work in the form of social service. The main aim of NSS is to develop students' personality through community service. It helps in infusing the feeling of social welfare in students and to look out for marginalized sections with an unbiased approach. Volunteers work to ensure that anyone who is needy gets help in various forms. Sometimes, volunteers learn from people of villages about how to lead a good life despite the scarcity of resources.

NSS MEFGI has been conducting various activities and events for 5 years and many more to go. We perform events on a regular basis which includes helping the underprivileged by distributing food and clothes. We often visit old age homes and orphanage homes, spreading a little sunshine in their life. Blood donation programs, tree plantation drives, education awareness drives, health checkup, rural development programs, village visits, and charity and donation programs are the key activities of NSS MEFGI.

We can proudly say that the present allocation of volunteers at the NSS MEFGI unit is around 200. We believe that '**work is worship**'. This philosophy always keeps us motivated and is reflected in our accomplishments; we donated more than 4000 bottles of blood, we collected and distributed 5000 garments, we planted more than 600 trees, and initiated an education awareness program in more than 10 schools and visited around 5 villages to exchange knowledge.

As a program officer of the NSS unit, I would like to acknowledge the dedication and hard work of each NSS cadet – all these achievements would not have been possible without their selfless service. I am truly honored to lead this NSS team.

Thanking you!

THE GENESIS OF NSS MEFGI UNIT

The **National Service Scheme (NSS)**, an Indian government-sponsored public service program, was launched in **Mahatma Gandhi's** Centenary year, 1969. **NSS MEFGI unit** was incepted in 2014 doing excellent work in the form of social service and giving back to society. The

aim of these activities is to develop **student's personality** through **community service**. You will definitely feel the enthusiasm, commitment

and empathy towards society unfold among students' fraternity in this NSS newsletter. A humble beginning in 2014 has grown to be a **Service Attitude** towards society in the young minds and heart as a way of life today.

DEVELOPMENT THROUGH EDUCATION

Team NSS has achieved two objectives with **Development through Education initiative**. On the one hand, we have been successful in igniting young minds to learn new things, practice and expand their horizons and on the other hand the passion to serve society selflessly has been introduced to next generation. NSS volunteers have reached out to the students in a large number of students in rural areas through many programs. They shared **KNOWLEDGE, SKILLS AND A POSITIVE ATTITUDE** through **teaching, practical labs, activities, games and outdoor sports**.

FEEDING THE HUNGER

With the aim to provide food for the underprivileged children, we initiated a campaign to provide a decent meal to them. As we researched for the root-cause, the most obvious and common reason for poverty and food deprivation was lack of education leading to unemployment and the low-paying job of parents.

The issue that we decided to research and try to solve was childhood hunger. We discovered that the root cause of child hunger was linked to parents who were in poverty because of factors like unemployment and low paying jobs. We got in touch with a few establishments who agreed to provide us with healthy leftovers or excess food. we collected this food and distributed it to the needy kids in slums and poor localities for **50 such drives that catered to 3200 kids.**

This whole exercise was a great learning for all of us. We understood how hunger can lead to several chronic health conditions, behavioural problems and sometimes even depression.

With this little step towards learning empathy and eradicating hunger. We aspire to conquer this malady and seek to provide equal opportunity for all children in society.

GREEN AND CLEAN INDIA CAMPAIGN

When I was a kid,
I watched those lovely chirping birds,
I watched little plants thriving in the
green nurture around me

I saw the river bank washing my feet,
I loved the way air smelled before the
rain,

But today I feel those birds are crying
out in pain,
I see the tress being cut and feel sorry
and drained,

I don't know how things suddenly
changed
I don't know how people have gone
insane

I kneel down in prayer at the dry river
banks
Calling upon humanity to stop this
rampage

Today, here I call upon you, one and
all, Let us save mother earth Before it
is too late to rise from the fall!

Ayush Raikundaliya,
Student MEFGI

And as an NSS unit, we join hands and take a pledge to save the environment, Save
NO to Plastic and Plant more trees.

Our Mission:
Save the environment. Save Planet.

SWACHH BHARAT ABHIYAN

Swachh Bharat Abhiyan is a nation-wide campaign in India by our prime-minister Shri Narendra Modi who has motivated all Indians to clean the streets, roads, and infrastructure of cities, towns, urban and rural areas. As a part of this campaign, team NSS initiated a drive to clean up the university campus, and villages around Rajkot. Our volunteers took up different areas of a village, armed with brooms and dusters, cleaning every nook and corner of the village. This **created a buzz in the village** and suddenly NSS team started getting more volunteers from the village, making the whole place spic and span.

HEALTH AND HAPPINESS

“Healthy citizens are the greatest asset any country can have.” Winston Churchill

With the noble thought of **spreading awareness about building a healthy lifestyle**, NSS Marwadi University organized a yoga day and blood donation camp on campus. Both activities brought out the inherent values of MEFGI NSS; selfless service with a smile.

RURAL DEVELOPMENT

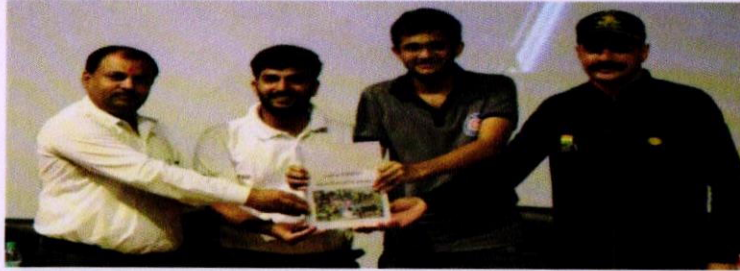

“The Future of India lies in its Villages” ~ Mahatma Gandhi

Team NSS follows this philosophy of Mahatma Gandhi and all its activities are guided by this core belief. Putting this belief into practice, we had organized two camps in nearby villages; one in ratanpar and the other is Kagdadi. We took up cleanliness drives, tree plantation, and yoga sessions during this visit. **Interaction with the villagers was a heart-warming and a feel-good experience that will be cherished for a lifetime.**

NSS VOLUNTEERS – EVERYDAY HEROES

The NSS volunteers are **everyday heroes** who serve society selflessly. Just like any other student, NSS volunteers also need to stay updated in academic courses, assignments, and projects and yet they manage to **serve the society** in many ways.

We have stories of volunteers who **have been transformed** during their journey. They have **learned life skills**, have **built lasting friendships** and tasted brotherhood.

Our NSS volunteers have been **recognized at the state and national level** platform for their contributions. our students have also **penned books about their experiences** with NSS activities.

MESSAGE FROM PROVOST DESK

Dear team,

The true India is pulsating in its villages. The culture, civilization, human values and sheer joy of living that one can experience in a village is unparalleled. Rural India shall be the guiding beacon in various facets of life for us in today's fast pace life. We are glad to see zealous young minds of our NSS unit to constantly endeavour to contribute to growth of villages in our vicinity. I appreciate not only the programs that they have initiated but also the seeds that they have sown for upcoming student generation at campus. I have observed their efforts, filled with discipline, hard work and sincerity. I have also felt their positivity and magnanimous worldview. I appreciate and encourage team NSS to keep up their march on the path of positivity, hard work, and contribution to society.

Yours sincerely,

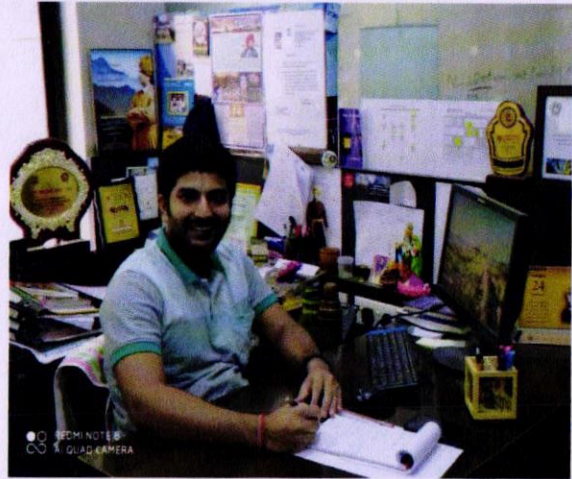

Dr. Y.P. Kosta

NSS PROGRAM OFFICER'S MESSAGE

We, team NSS proudly present second NSS newsletter. The theme of the newsletter is Rural India. As you unfold pages of the newsletter, you will notice hard work, sincerity, integrity, skill sets and immense motivation of Team NSS. Team NSS has contributed through not only various programs but also with positive attitude and zeal to contribute to society.

While keeping in mind the NSS motto "**Not me but you**", NSS Team has done some splendid work in the form of social service. The main aim of NSS is to develop students' personality through community service. It helps in infusing the feeling of social welfare in students and to look out for marginalized sections with an unbiased approach. Volunteers work to ensure that anyone who is needy gets help in various forms. Sometimes, volunteers learn from people of villages about how to lead a good life despite the scarcity of resources.

We can proudly say that the present allocation of volunteers at the NSS MEFGI unit is around 200. We believe that '**work is worship**'. This philosophy always keeps us motivated and is reflected in our accomplishments; we donated more than 4000 bottles of blood, we collected and distributed 5000 garments, we planted more than 600 trees, and initiated an education awareness program in more than 10 schools and visited around 5 villages to exchange knowledge.

As a program officer of the NSS unit, I would like to acknowledge the dedication and hard work of each NSS cadet – all these achievements would not have been possible without their selfless service. I am truly honored to lead this NSS team.

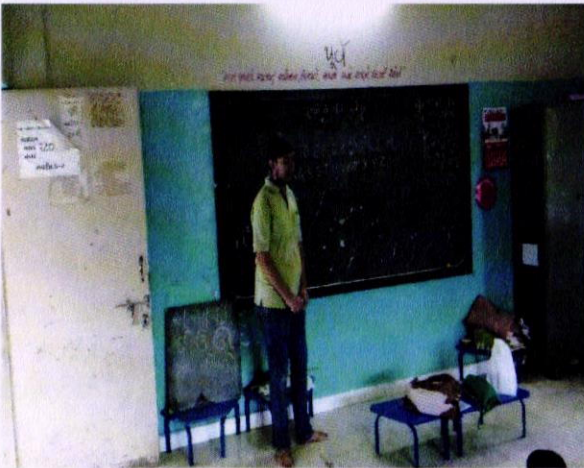

Thanking you!

DEVELOPMENT THROUGH QUALITY EDUCATION

It is rightly said that if you educate a single child in a family it changes the life of upcoming generations of that family. Team NSS visits the schools in villages around our college. We not only teach the academics to young minds but also try to imbibe value of the education. Team NSS is working on two mottos; one is to educate rural area school students, and other is getting people aware about the importance of education.

WALL OF HUMANITY

(Before)

(After)

(Existing)

We opened pure heart and searched for items that are not useful or extra for us and felt for those hardworking human beings around us who work day and night to make ends meet. The wall of humanity will be open for 365 days to accept extra things that you and your family don't need and will be open 365 days for those who can use them.

CLEANER AND GREENER RURAL INDIA

We humans have exploited the natural resources so much that few decades from now we would be on the verge of extinction. We here at NSS not just initiate the nature care services but also make sure that they last long.

An initiative to not just plant the trees but also to take care of it on regular basis and to make sure that it is beneficial to the people around it. Cleanliness drives in our country was initiated on a large scale and we as a part of the society, not just clean the campus but also visits the villages around to solve their cleanliness related issue.

We figured it out that a single step to cleanliness is all it takes to make people understand its importance and we were able to successfully prove that we not only be a part of the solution but also promote the cleanliness drive by making people join us and keep the society intact with having a sustainable development with protecting the integrity of each and every aspect of the society.

NATIONAL CONFLUENCE 2020! SASAN GIR

A heart warming experience of the life in jungle was gifted by MEFGI NSS Unit at Bhojade Village of Sasan Gir, Gujarat. The two day camp has been a bundle of life changing experiences. This camp allowed students to witness the serenity, purity and tranquillity. The chirping of the birds began an exciting journey. Yoga sessions in the lap of nature by Prof. Charmin Jarsania, program officer gave all the students an energetic boost. The Visit to the 'Sinh Sadan' and the most awaited 'Jungle safari' has been thrilling experience. The volunteers felt amazed to learn about the Ayurveda and its benefits, wildlife and how life is influenced by the wildlife, lifestyle of the people, their livelihood and their connection with Mother Nature.

HEALTH CARE TO HAPPINESS

Knowing about one's physical conditions helps to stay healthy. If one doesn't know about oneself, it can lead to many complications. We felt that it is our mission to make people aware especially in rural areas where we noticed that many people didn't know who don't know even their Blood Group!

Team NSS with the generous support of Physiotherapy and Pharmacy department have conducted Health Check-up at Kagdadi village.

WOMEN EMPOWERMENT

Take a country or a home, without women it's NOTHING. And development of them plays major roles in many ways. Behind every successful women, there's another strong woman who has their back with them.

Girl volunteers so Team NSS did the same. They had something for the women of slum area. Sanitary napkins are one of the daily needs in a woman's life and shockingly, many of them were not aware of it.

Volunteers provided them sanitary napkins, gave them basic knowledge of it, and also taught them how to use and discard them properly. They also got to know why using these napkins are safer for their health.

Thus, strongest and hard working women out there started using them and showed positive responses well. They also learnt importance of cleanliness and good health in routine life.

WISDOM ON WHEEL (WOW PROJECT)

The kids of Rajkot are likely to exclaim 'wow', when they see a specially designed luxury bus 'Wisdom on Wheel' (WOW).

The coach is a luxury bus, equipped with toys, slates, colours, whiteboard, a projector, and a screen, five laptops, a desktop computer, materials for art and crafts, a wash-basin, first-aid kit, and a sanitary napkin vending machine among others.

"The main objective of the WOW project is to develop underprivileged children, here team NSS joint his project with RMC for the development of children and also slum area. The WOW bus visits those areas that were marked to have underprivileged children after a survey was conducted.

Apart from the children, the project also aims to sensitize the children's parents to various issues such as education, health, development of a child, cleanliness and social awareness.

NSS CORNER

Team NSS has commenced a new initiative termed as 'NSS CORNER'. This initiative is all about expressing ideas, thoughts, problems and solutions about current issues and challenges an individual society (Civic) and the Nation as a whole are facing, by using a tool of oral discussion.

MY FIRST VILLAGE EXPERIENCE

As the students of Marwadi College most of us are born and brought up in city and many of us have not even seen the village in our life. Well, **I was one of them! Who has never visited the village and never stayed in the hostel.** I remember that occasion. Once we were collecting the army welfare fund and suddenly one idea sparked in the mind of our NSS program officer and said "Let's arrange one village camp" and without waiting for a second we all said yes and then process began.

For the village camp of one week, we went to Ratanpar which is nearly 5 Km away from our college and at there we got stay in lord Shiva's temple. We have worked on many aspects. We took classes, we did cleaning of village, we made them aware about their blood group, we organized a blood donation camp, our female volunteers had exclusively organised small seminar of women empowerment and many more..

Actually, when we have worked on the ground zero we came to know about how their actual life is. If we didn't go there then we would have seen the villages in videos only!

Except that we have learnt so many things over there which will definitely going to help us in our future. As a team we were blessed by the people of villages and the same thing has inspired us to work more for the nation.

NSS VOLUNTEER'S EXPERIENCE

There are some of the things that I have learned among many others during my time with NSS:

1. **Discipline:** during the camp, they are given a fixed schedule and it requires you to wake up at 5, followed by exercise and so on. Having a routine induces discipline in my day to day life.
2. Understanding **ground realities:** living in the comforts of our homes we fail to realize grassroots level problems. Once you get exposed or when you are assigned task which involves physical work you realize it is not as easy as it sounds.
3. I learn to **work as a team:** several teams are formed and assigned different tasks to us or games based on this.
4. **Time management:** every task is given a fixed time within which I have to complete it. Tasks and games include sketch, mime, debates etc.
5. I get rid of **stage fear:** here, I get a lot of opportunities to perform in stage whether it dances, music or literary.
6. **Sharing is caring:** became a NSS volunteer this attitude is develop on me.
7. I have a lot of **fun:** field trips, games, camp fire and other activities make the camp memorable.
8. I make a lot of **friends:** last but not the least, working as a team will let i have awesome friends.
9. I also get several other benefits like leadership qualities, adjust with limited facilities, game tactics etc.
10. I also have done several personality development talks and games.

I've just name a few things. Overall I can assure you that joining NSS is a worthwhile experience.

At last I request all of you to join a NSS and do something for society because study is not at all about future. Be a responsible for a society and country. Do help of each other in society. So NSS is one Platform which done all this things by very systematically. I defiantly say whatever you done for society and NSS nature will give you back with interest. So please join NSS and make yourself and your family feel proud.

NSS Motto reflects selfless service and appreciation of the other person's point of view

ACCOMPLISHMENT

The NSS Unit of Marwadi University has always been sincere, hardworking and enthusiastic. The quality of programs has been exceptional and has been applauded from many platforms. Be it social service, rural development, important national or regional drives, or students initiatives. Be it any situation, season or emergency, NSS volunteers have always stood out from the crowd, from putting their efforts and offering a helping hand to the impoverished, From feeding the poor children, educating them, to taking care of helpless animals, NSS has always stood for the society with all its strength.

Thanks to the great efforts and never ending passion of NSS that we have been showered with the award of **“BEST NSS UNIT & BEST NSS PROGRAM OFFICER”** by GTU Gujarat.

The credit goes to Mr. Charmin Jarsania whose dedication, devotion, positive attitude has motivated and directed all the diligent volunteers who have contributed to the NSS programs with unyielding zeal and enthusiastic strides. The volunteers of NSS has risen every time they were called for!

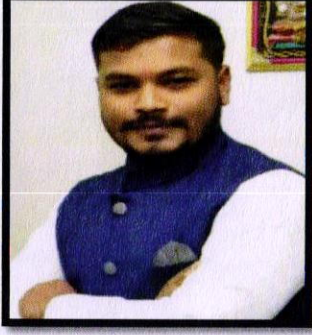

“There is no magic to achievement it’s really about hard work, choices and persistence”

Sub :- Proposal for providing medical diagnostic services

Respected Sir / Madam,

As per conversation with Mr. Ashish Revar, member of Social Welfare Committee of Marwadi University, we would like to take this opportunity to introduce our diagnostic center, Neo Diagnostics, a private medical diagnostic services provider in Rajkot. We provide complete diagnostic solutions in field of radiology and pathology.

In radiology we have 1.5 Tesla MRI, 32 Slice CT scan, high end ultrasonography, direct digital OPG, mammography and X-Ray. In pathology we have all latest and automatic equipments to provide accurate result of all laboratory tests. We also offer preventive health check-up packages comprising of pathological and radiological tests.

Below mentioned table provides brief description of our diagnostic facilities

Modality	Description
MRI	MRI stands for Magnetic Resonance Imaging. Commonly asked by doctors for detailed evaluation and identification of diseases into brain, spine, joints (knee, shoulder, ankle etc.), abdomen, pelvis and other parts of body.
CT scan	CT stands for Computed Tomography. With CT scan we can scan every part of body as needed by doctor. Scanning is very fast. Commonly asked by doctors in various conditions like trauma, chest diseases, abdominal diseases, cancer, complex fractures and many others.

Ambition +, 1st Floor, Rajnagar Chowk, Nana Mava Main Road, Rajkot. E-mail : neoradiology@gmail.com

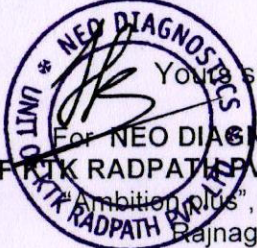

Ultrasonography	Widely requested by doctors because it is radiation free and cheaper compared to MRI and CT scan. Beside abdomen scanning for which it is most commonly used we can also do ultrasonography of neck, breast, joints, eye, blood vesels (Doppler) and chest to identify various diseases.
Mammography	For early identification of breast cancer and evaluation of other diseases of breast
OPG	OPG stands for orthopantomogram. It gives x-ray of all teeths in one film and used for various dental diseases.
X-ray	Widely used for disease of chest and bones.
Pathology Laboratory	Our pathology laboratory has all major machines for performing wide array of pathological tests. Besides common blood tests like complete blood count (CBC), diabetes profile, thyroid tests, lipid profile, we also perform advance tests like hormone levels, tumor markers, fluid examination etc. We can also test urine, stool, body fluids in addition to blood. Our team of expert pathologists also perform histopathological examination of biopsy specimens, bone marrow aspiration and biopsy.

We have an experienced and specialized team of professionals who work in accordance.

It is in this respect that we would like to extend our interest in forming a partnership with your company. We take this opportunity to submit a proposal from our end to cater the diagnostic needs of members of your company in the most effective manner. We would be happy to provide **flat 15 % discount** on price of all our tests to students and staff members of Marwadi University as well as staff members of Marwadi Shares and Finance Services and their first degree relatives (parents, spouse and children).

Thank you very much, and we hope to receive your favourable response soon.
