2019 IEEE International Symposium on Antennas and Propagation and USNC-URSI Radio Science Meeting AP-S/URSI 2019

7–12 July 2019 • Atlanta, Georgia, USA • www.2019apsursi.org

11 March 2019

Dear Vishal Sorathiya, Shobhitkumar Patel,

Regarding your AP-S/URSI 2019 submission #1134, entitled 'Graphene metasurface based tunable double split ring resonator for far infrared frequency region'

I am pleased to inform you that your paper, submitted to the 2019 IEEE AP-S Student Paper Competition, has been selected as an *HONORABLE MENTION*. This year we had 195 papers submitted to the competition. Three independent blind reviewers from around the world were assigned to each paper and the total scores were then used to rank the papers. The reviews, the recording of the scores, and the selection of the finalists and honorable mentions were organized and monitored by the Student Paper Competition Committee as charged by the AP-S Society Education Committee.

As an *HONORABLE MENTION*, you will receive a \$1500 stipend to be used to offset some of your expenses to attend the Symposium. In order to receive this travel award, you must attend the Symposium and present the paper yourself in the assigned regular or special session to which your paper was originally accepted. The date and time of your presentation will be listed in the Advance Program. Please check the conference website (<https://2019apsursi.org/>) for details and updated information. Note that although you will not be presenting your work in the Student Paper Competition Interactive Forum (this is reserved for finalists), your name and paper will be listed in the Technical Program Booklet as an Honorable Mention in the Competition.

In addition, you must also complete a United States Internal Revenue Service Form W-8 (for non-US citizens) or W-9 (for US citizens). Both forms are attached to this message. Please fill out the applicable form (please type directly into the form and save), print and sign (digital and printed signatures are NOT acceptable), scan and return to spc@2019apsursi.org by *June 1, 2019*. Upon receiving your form, your check will be processed and will be available to you at the conference. Wire transfers can also be processed, but please note that this can take an additional 6 weeks after the conference to process. Please note that failure to submit your tax form by the specified date could result in a voiding of your award.

On behalf of the IEEE Antennas and Propagation Society, we congratulate you on this achievement and thank you for the time and effort spent in preparing the paper. We look forward to meeting you in Boston!

Sincerely,

The 2019 AP-S Student Paper Competition Committee (M. Abouzahra, L. Basilio, J. Bernhard, M. Cohen, J. Kralovec, M. Newkirk)

ASSUNTO **EMPLOYMENT CONTRACT**

To whom it may concern, we declare that Mr. Dinesh Kumar applied to an international selection procedure for the recruitment of one researcher, with a certain term employment contract, for a period of three years, for the pursuit of research and development activities in the project OnTrack, and was placed on first, so he is expected in this Polytechnic to start his work as a researcher in the project mentioned.

For this purpose, we send you all the information available about the research project, as well as the contract that we offer to Mr. Dinesh Kumar:

- a) Name of the scientific research project: On Time to Rethink ACTivity Knowledge: a personalized mHealth coaching platform to tackle physical inactivity in COPD (OnTRACK) ;
- b) Name of the principal investigator of the research project: Joana Patrícia dos Santos Cruz;
- c) Name of the supervisors: José Carlos Bregieiro Ribeiro; Fernando José Mateus da Silva; Joana Patrícia dos Santos Cruz;
- d) Contract signature and project start date: May 1, 2019;
- e) End of contract and of the project: April 30, 2022;
- f) Brief description of the project: Physical inactivity is the 4th leading risk factor for death worldwide. In patients with chronic obstructive pulmonary disease (COPD), it is particularly serious as inactivity increases patients' risk for hospitalizations, mortality and reduced quality of life. Improving patients' PA is thus a global priority for governments, policy makers and clinicians.

Mobile health (mHealth) applications are ubiquitous and may help patients to be more physically active. However, previous studies yielded mixed results due to the lack of consideration of contextual factors. As a complex behavior, PA is influenced by an interplay of individual, social and environmental factors and PA preferences that may act as barriers/facilitators. OnTRACK will develop, evaluate and disseminate a personalized mHealth coaching platform which considers individual's preferences and contextual factors.

Best regards,

The President

Rui Filipe Pinto Pedrosa
